"If the state is able to gain unquestioned control over the unit of all accounts [money], the state will then be in a position to dominate the entire economic system, and the whole society. It will also be able to add quietly and effectively to its own wealth and to the wealth of its favorite groups, and without incurring the wrath that taxes often invoke. "

Not All Of “Us, the American People” who cast Election 2024 ballots for President-to-be Donald J. Trump are convinced Donald J. will deliver on his promises as those of us who voted for him expect. Media report worries Donald J., for example, will not use presidential office influence to heighten Christian Faith followers to have more opportunities to ingrain their Faith in America’s heart and mind.

"The fiat-dollar and its fractional reserve (fraudulent) banking system has done its job well, when you understand the greater agenda."

~ **Anthony Wile**

Why It Is “We, the American People” are of a mind government ought have power to inculcate personal attitudes, values, and beliefs (PAVB) is mystifying. Must be it ties to President Taft’s observation of there being no stronger urge than to have other people do as we say. And, because when we believe we are right and others who do not subscribe to our PAVB are wrong, we suppress dissent.

"You have to first understand the two fundamental laws that make civilization possible. The first being 'You should do all you have agreed to do,' which is the basis of contract law. The other is 'Do not encroach on other persons or their property,' which is the basis of tort law and some criminal law."

~ **Richard Maybury**

JEFFERSON

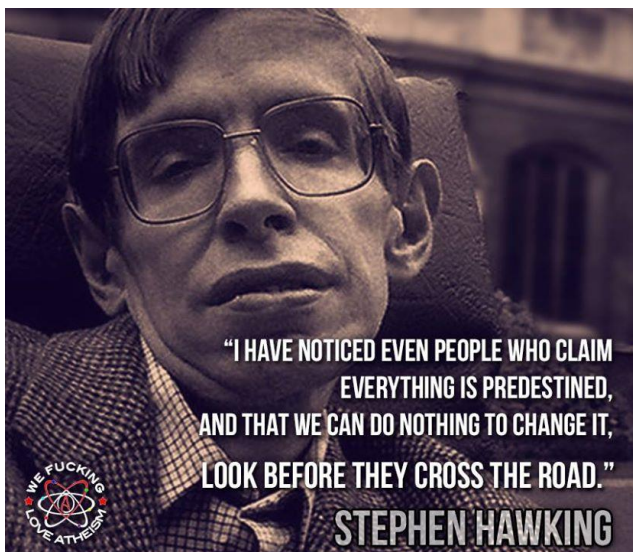

Nullification. “The Rightful Remedy”

For Government To Accommodate “Us, the American People” if we demand dissenters be, somehow, denied voice and choice, then government can not help, ends up appeasing some, alienating others. No good can come of such an arrangement. No good other than increasing power for those government chooses to appease, motivating those not appeased to find ways to gain government favor for them.

"We need to recognize one salient fact: national currencies are being destroyed and their purchasing power eroded by misdirected government policy. Consequently, gold and silver are safe havens and the best way to protect your wealth."

~ *James Turk*

Given America – Given Most Nations, most peoples – tend to be of differing PAVB, governments would cause less animosity by remaining aloof. However, those who find their Faith calling them to evangelize, proselytize, or purge disbelievers, societal unrest is sure to result. Several millennia attest to people's inability to get along with those who are not of like commitment. Government is no fix.

"And like a precision Swiss watch, the mainstream Western media and bought-and-paid-for government officials trumpet their coordinated propaganda right on cue."

~ **Anthony Wile**

People Intending To Live In Liberty do not allow legislators – or other public officials within These United States of America, to set limits on interest earned or charged in any financial transaction between private citizens or between private citizens and any financial institution or company not backed by public money. They uphold citizen sovereignty and self-government.

"Governments are bankrupt and are going to debase their currencies via money printing, quantitative easing, off-balance-sheet transactions, and whatever other tricks they can pull off."

~ **Charles Oliver**

"The trouble is that it is hard to counteract a perception of unfairness because central banking IS unfair. It is based on a fundamentally illiterate financial presumption and providing more 'openness' about the process is only going to remind people that the process is an illegitimate and fraudulent one based on 'legalized' counterfeiting."

PATRIOTPOST.US: THE BEST HUMOR, MEMES, & CARTOONS

If Any Of "Us, the American People" were wondering if Supreme Court of the United States (SCOUS) Chief Justice John Roberts should have said when Chief Justice Roberts was warning us – and cautioning those who ignore or defy court rulings – not to abandon judicial independence and rule of law, a media writer has it. Chief Justice Roberts did not point to rule of law defiance source.

"Exposed by the Internet, the mystique of central banking no longer holds sway. People are not upset about central banking's secrecy."

~ *Daily Bell*

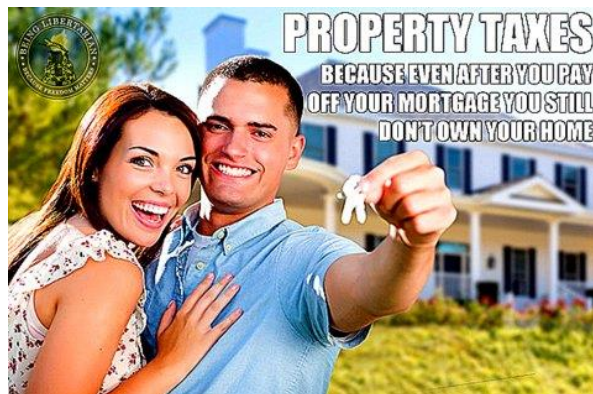

Stalin called the Farmers "the enemies of the people". By expropriating them, the state took control of food production. Then, 7 million Russians were starved to death. Now, 100 years later, the World Economic Forum is opening "the war on farmers".

Media Writer On Chief Justice Omission claims Chief Justice Roberts ought to have noted it is Donald J. Trump who is responsible for "Our, the American People" taking on a sense of blatant defiance for lawful authority. If so, then there is a simple solution. Manacle Donald J. Trump and send him off to a dark dungeon where he'll not see light of day for his remaining days. Or, recognize ridiculousness.

"U.S. soldiers aren't heroes by virtue of wearing a uniform. They're basically just government employees, a heavily armed version of the post office."

“We, the American People,” wonder of wonders, do not have rifle muzzles pointed at us by Donald J. Trump operatives telling us to ignore court rulings and defy law and order. Nor, is there evidence Donald J. Trump has telepathic powers-of-suggestion causing us to behave stupidly. We are, however, more than capable of acting stupidly with no help from Donald J., Chief Justice Roberts, or anyone.

"What was once seen as the freest, bravest nation in the world is fast succumbing to a toxic cocktail of prison-state policies at home and military strongmen attitudes abroad. In the end, such aggressive domestic and foreign policies are as expensive as they are futile and, ultimately, fatal."

~ **Joel Bowman**

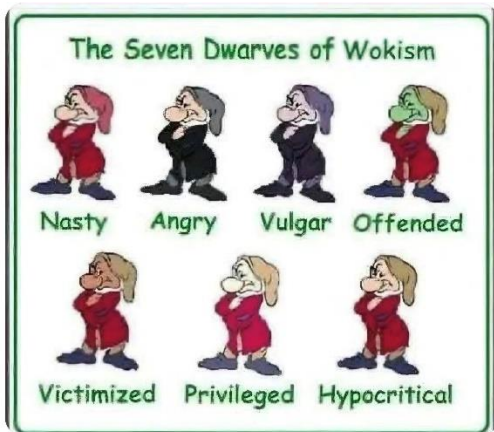

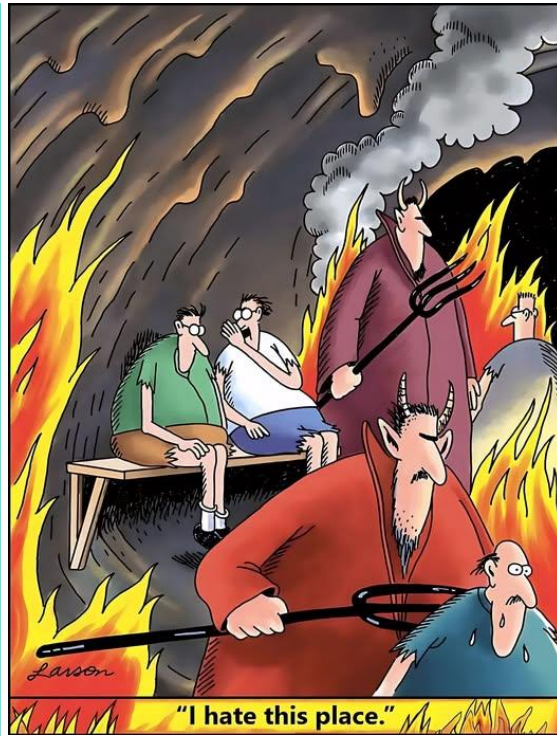

As frustrated as some may be for not having power or television think about the ones out fixing it. I appreciate ALL the line workers in this weather!

God bless American hard workers, no matter what.

We, However, Do Not Act Stupidly When we call out America's legislative -judicial system for being laced with laws and court rulings rooted in legislator and magistrate personal attitudes, values, and beliefs. SCOTUS Chief Justice calls for upholding America's judicial independence. Judicial independence may be nothing more than someone's notion. Appointed judges reflect appointer PAVB.

"Every major challenge humanity is now facing traces its roots back to overreaching government. " ~
David Galland

People Proposing To Live In Liberty do not allow legislators – or other public officials within These United States of America, to interfere or impose in any way with how responsible citizens choose to use their private property. They protect their property against government intrusion – with force if necessary.

"98 years of history demonstrates conclusively that a blind monkey could have preserved the dollar's purchasing power better than a Federal Reserve Chairman. Unfortunately, it's tough to find a blind monkey who will take the job."

"Someone really is after us... (the NEA and its affiliates) have been singled out because of our political power and effectiveness at all levels -- because we have the ability to help implement the type of liberal social and economic agenda that (they) find unacceptable."

~ *Robert H. Chanin*

Why “We, the American People” don’t get up in arms and clamp down on Congressional House Speaker bickering nonsense is mind boggling. If Congressional House Speakers wield so much influence in getting House work done, we ought clean House and install legislators who can keep balls rolling. Chances are there’d be less nickering if we stripped House non-essential legislative power.

"Until our parents and taxpayers are empowered to hold schools accountable, until we rid our schools of the Profile of Learning, and until we give teachers the authority to discipline children again, all the money in the world will do little to help our children learn more."

~ **Brian Sullivan**

When you are testing out
your nationwide alert system but
it immediately becomes a meme

It Is Arguable “Our, the American People’s” legislators – at all levels – spend as much time as they do jockeying for legislative say-so because our legislators have too much to say on how America’s socio-economic matter are conducted. Government influence in socio-economic matters means government ideology distorts normal socio-economic activity and resolutions. Time and money waste.

"One of the penalties for refusing to participate in politics is that you end up being governed by your inferiors."

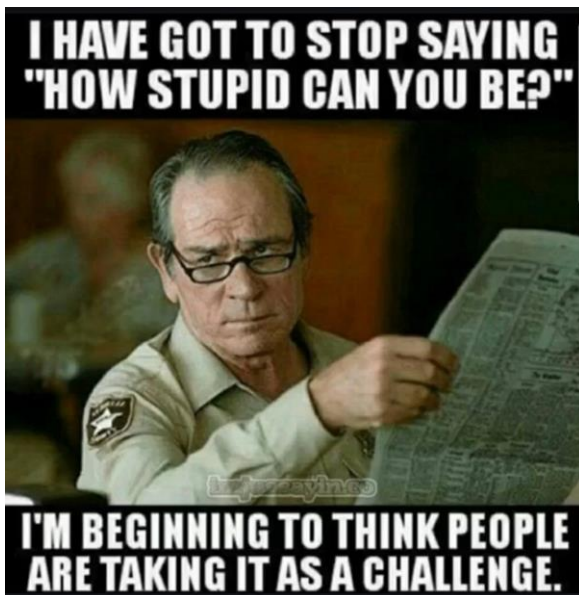

~ *Plato*

Medi Report President-To-Be Donald J. Trump will take matters in hand if Congressional House legislators don't square away Speaker selection debacle. Presidential influence in who is to be House Speaker ought be something placed off limits to America's presidents by "Us, the American People." Congressional House legislators are elected by us, answer to us, not to our presidents. To us. Period.

"I don't believe in the Profile of Learning. It is a fundamental philosophical shift away from knowledge-based education to performance-based education. It has been too prescriptive on teachers."

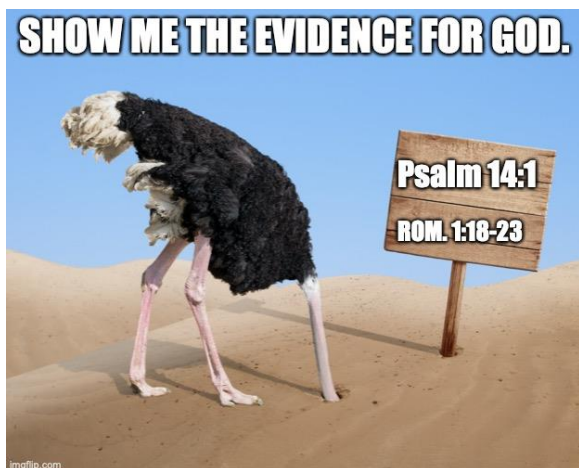

~ *Tony Kielkucki*

Election 2024 Outcomes Are Playing out much like every American legislative office election plays out. They who win office strive for final say on everything. All because legislators want their personal attitudes, values, and beliefs (PAVB) to be lawfully compulsory. Our job, as a sovereign citizenry, is to keep legislators from setting our PAVB aside in deference to theirs. Our PAVB, Not theirs. Ours.

"We think the great opportunity you have is to remake the entire American system for human resources development..."

~ *Marc Tucker*

People Committed To Living In Liberty do not allow legislators – or other public officials within These United States of America, to enact legislation or regulations requiring any private business to accept collective bargaining organizations. They stand by free markets and limited government.

~ **Paul Haubner**

New York State Governor Hochul is under fire from an Empire State media outlet because Governor Hochul refused to allow New York State's natural gas deposits to be tapped. New Yorkers, consequently, are kept from having more energy options. New York State citizens could, if they are willing, set Governor Hochul's refusal aside and tap into state's natural gas. Hochul winning thus far.

"...until everyone owns a humanoid robot, as well as a car and a color television, some person will have to do the `dirty jobs.' Until then, however, loath as we are to admit it, we must continue to produce an uneducated social class..."

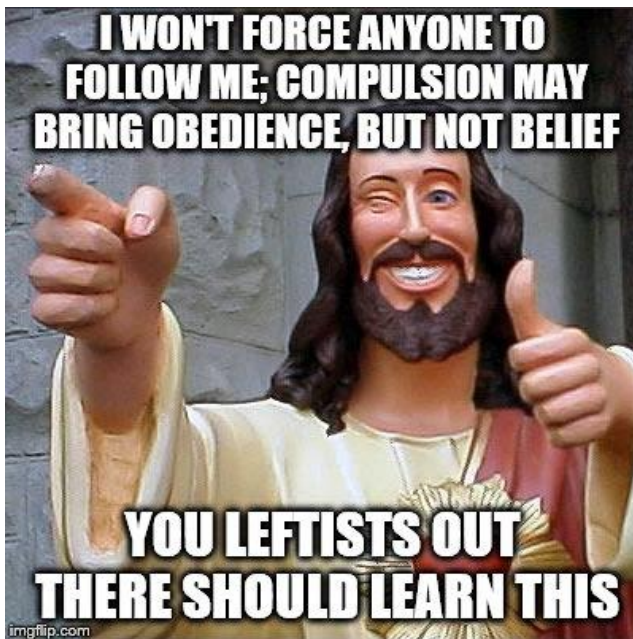

~ **Gerald Bracey**

"We, the American People's" American governmental system, structured as it is, has limited options to influence government policies and practices. We're supposed to be self-governing. Yet, elected officials don't need to be receptive or responsive to appeals from individual citizens. One person carries little clout when government's lawful coercion power comes to bear. Many people carry more.

"I'm of the opinion that certain interest groups in this state have gotten too powerful. And there are two of them: Maple River Education Coalition and The Taxpayers League."

~ *Sara Janacek*

It Would Be No Simple Task for New Yorkers to come together and let Governor Hochul know their desire for natural gas energy is not Governor Hochul's option to deny. Odds are Governor Hochul would stand on refusing to tap New York's natural gas until enough New Yorkers come together and threaten Governor Hochul with recall action. New Yorkers siding with their governor is unknown.

(The webmaster's favorite) "The Maple River group, they think UFOs are landing next month. Well they do! They think it's some big government federal conspiracy!"

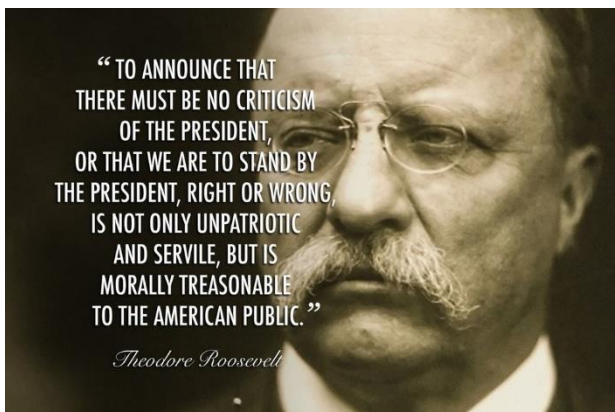

~ *Jesse Ventura*

America's Legislators And Would-Be legislators can use history as a gauge for their likelihood of doing as they wish once they attain office. It's up to "Us, the American People" to decide how much lawful power legislators are able to wield. Self-government is not a simple matter of declaration. Self-governing people must have resolve to take away government lawful authority when necessary.

"I believe if you were to get all employers of this country saying that we would not hire anybody unless we see a high school graduate certificate that has on it the results of this potential employees record...Then I think this nation will come to the realization that there is no job for them, there is no for life them...There is the motivation."

~ *Roy Romer*

People determined To Live In Liberty do not allow legislators – or other public officials within These United States of America, to define or limit their 10th Amendment powers beyond Constitutional constraint. They exercise self-government to preserve their liberty.

"If there are still people in Germany today who say, 'we will not join your community, we will remain as we are,' then I reply: you will pass on but after you will come a generation that knows nothing else."
