"The central economic problem plaguing this country since 1913 has been the presence of the Federal Reserve System."

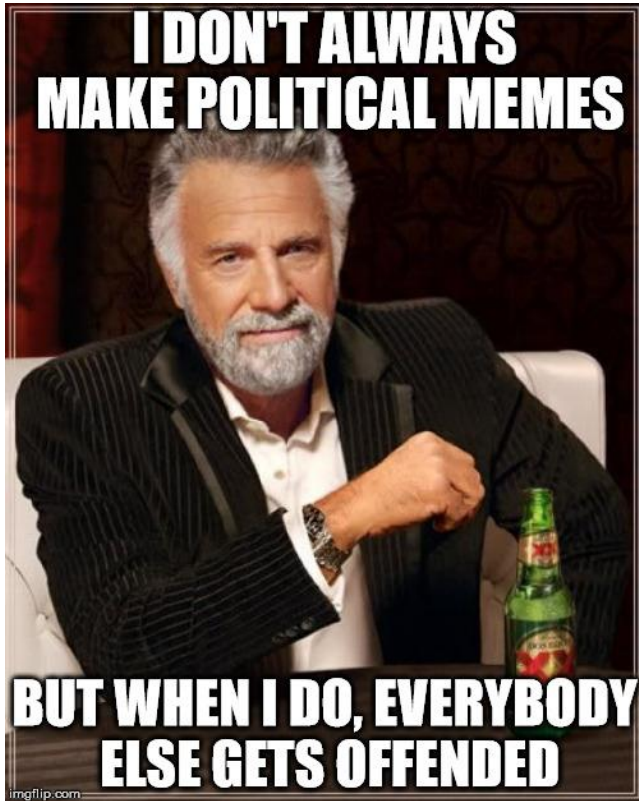

~ *Edwin Vieira Jr*

Media Report President Joe Biden issued a half-staff order to all America's public buildings in memory of passed President Jimmy Carter. At least one public building did not comply. Media reported Biden half-staff order was not followed by an Empire State County, despite Biden half-staff order repeated by New York governor and called for by a county democrat. Always cause for conflict.

"Instead, more and more debt is being shoveled into the national account--eventually to be billed to common people through taxation and inflation--precisely in order to 'bail out' the very institutions and individuals responsible for the present financial mess."

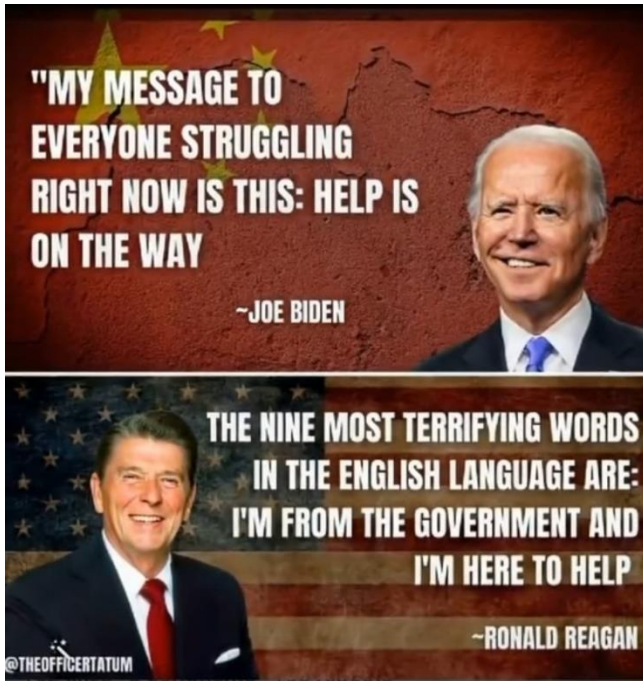

~ *Edwin Vieira Jr*

America's National American Flag is flown half-mast in tribute on various occasions. There is no requirement for America's President to issue half-staff flag orders. "Our, the American People's" politicians-legislators, though, are so alert for reasons to discredit America's politicians-legislators, they'd use an ignored flag half-staff occasion to jump on ignoring official – unless official be partisan.

"Now, as many as 200,000,000 to 300,000,000 firearms and an immense store of ammunition are estimated to be held in private hands throughout this country."

~ *Edwin Vieira Jr*

"We, the American People" can bet our bottom dollars, had Empire State County administrator not been a rival party member, there would have been barrel-loads of plausible explanations. It would not be imprudent if we were to consider accusing official as unnecessarily picky and questionable as to service worthiness. Accusing official could have volunteered to lower flags at hand, rather than point.

"Can anyone believe that these people's natural and justified antagonisms against public officials, politicians, and special-interest groups will not turn to rancor--rancor to hatred--hatred to an urge for revenge--and an urge for revenge into actual violent retaliation in more than a few isolated instances and in only a short period of time?"

~ *Edwin Vieira Jr*

Wouldn't Be Corny Or Contemptuous to observe America's national flag is revered for its representation of greatness and goodness, not for how it is displayed. It is not becoming of "Us, the

American People's" principled politicians-legislators and pundits to be petty. Our unprincipled politicians-legislators and pundits might be upholding flag etiquette. Even odds flag-burning chance.

"People who find themselves in dire economic straits throughout America tomorrow may also be expected to turn to the red--curtained drama of mass violence in order to 'send a message' across the footlights."

~ *Edwin Vieira Jr*

They protect their children's privacy and teach them to be thinking individuals.

"Unwinnable wars in Iraq and Afghanistan, enormous expansion of federal health regulations, indefinite detention, targeted killing of American citizens, bungled government responses to environmental disasters, warrantless surveillance and bailouts galore. "May God protect us all from this group of people whose allegiance is to secrecy, immoral war, and lying politicians, instead of defending the people of the United States."

~ *James Madison*

An Ounce Of Prevention . . . could be applied to "Our, the American People's" irritating and seemingly irreconcilable illegal immigrant/migrant/refugee (IIMR) misfortune causing hostility among groups toiling to make IIMR matters tolerable. There is no reason why our IIMR situation had to escalate as it has. Our federal government could have stopped IIMR influx cold, had IIMR officials been willing.

"I guess when you get right down to it, this crisis had its seeds in the madness and popular delusion of crowds. But it's going to end up on the rocks of the reality that money doesn't come from nothing, and that there's no such thing as a free lunch. Sooner or later the tab comes due."

~ **David Galland**

"With all the illegal spying the government does on Americans, you'd think they'd do a better job keeping an eye on would-be terrorists."

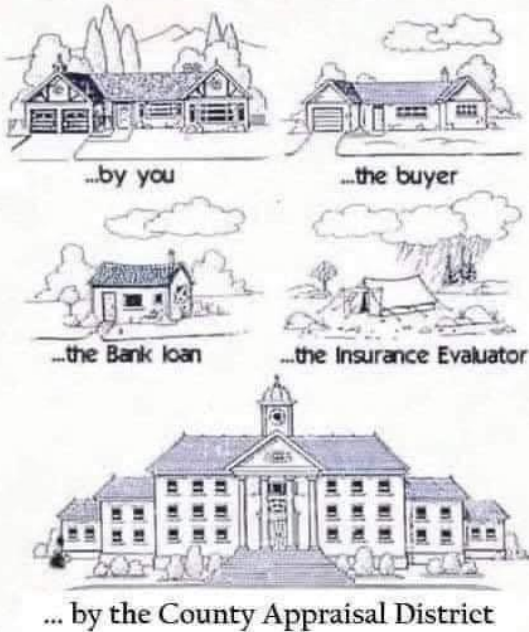

—David Harsanyi

IT'S OKAY BARACK, YOU AND MICHELLE WILL STILL BE TOGETHER

GITMO IS AN ALL MALE PRISON!

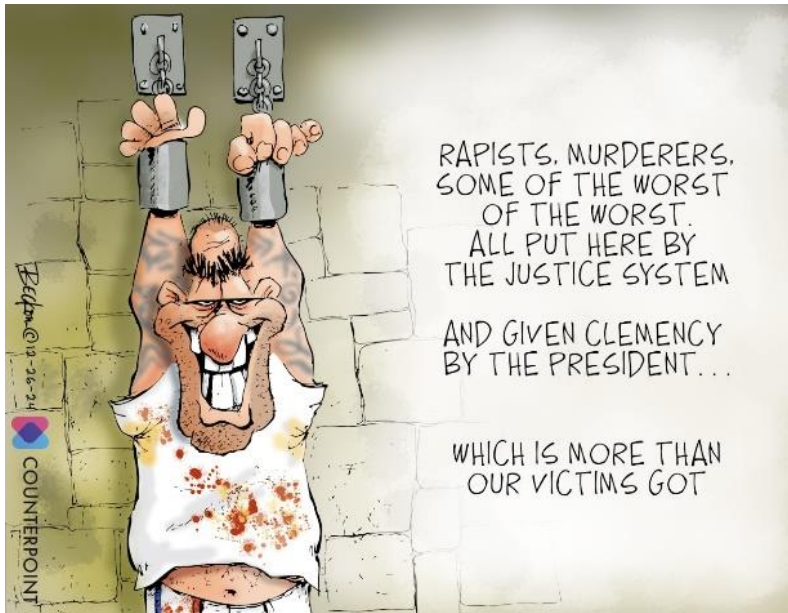

How your House is looked at:

There Is Never-Ending Political banter among politicians-legislators and any number of pundits who'd like "Us, the American People" to get behind their efforts to handle IIMR (meaning, not to handle IIMR) who blather on about how it is incumbent on us to be a nation of laws No point in having laws not enforced. No laws allow people to park on American soil or cross borders illegally.

"The silver vigilantes just want you to re-learn what the phrases, "cold, hard cash," and "payment in full" are supposed to mean."

~ **Mark McHugh**

Since “We, the American People” have not come down hard on IIMR with an ounce of prevention as a sovereign citizenry, we’re now faced with coming up with a nasty, expensive pound of cure. Part of a pound of cure is to stop President-to-be Donald J. Trump’s deportation initiative. According to a media-reported legal expert’s view. Stop Trump IIMR deportation plan because it is child abuse.

"Society would prosper in the absence of taxation and war, not collapse. If the libertarian is right in this view, then it easily follows that the standard moral objections to theft and killing don't magically disappear just because a group of professional liars reclassifies them as 'taxation' and 'national defense.'"

~ **Robert P. Murphy**

A picture is worth a thousand words. SOMEONE WAS AT THE RIGHT PLACE AT THE RIGHT TIME WITH A CAMERA. IT WAS REPORTED THAT PRESIDENT OBAMA WAS FURIOUS THAT HE WAS CAUGHT ON CAMERA AND IT WAS PUBLISHED AND TRIED TO BLOCK IT. The name of the book Obama is holding is called: The Post-American World, and it was written by a fellow Muslim.(Fareed Zakaria) "Post" America means: The World "After" America !" If each person sends this to a minimum of twenty people on their address list, In three days, all people in The United States of America would have the message. I believe this is one photo that really should be passed around.

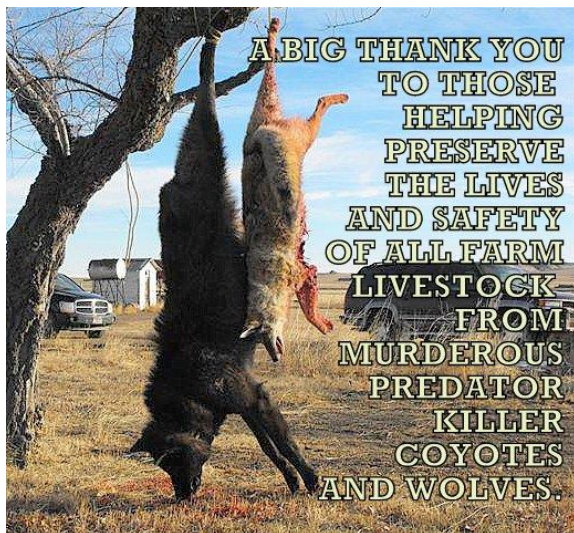

Grounds for Calling Trump IIMR deportation plan child abuse comes from family separation occurring in earlier attempts to get a handle on IIMR. No reason why IIMR families have to be

separated. Always a work-around. Never more than a question of how to devise a work-around. Our politicians-legislators are never at a loss on how when they decide on other matters. They can do IIMR.

"The state and the playground bully operate from the same modus operandi: the capacity to enforce obedience to its inconstant temperaments through violence."

~ *Butler Shaffer*

People Expecting To Live In Liberty do not allow legislators - or other public officials within These United States of America, to cause any citizen to be drawn into an obligation to assume responsibility for public debt for reasons other than to defend these United States. They require elected leaders to defend America's liberty unequivocally.

"Is there, or is there not, any principle in the Constitution of the United States, by which the States may resist usurpations of the Federal Government; or are such usurpations to be resisted only by revolution?"

Ameirca's Congressional House Speaker is necessary purely as a matter of convenience in case both America's President and Vive-President are gone (died) or are incapacitated. "Our, the American People's" government would survive, possibly in momentary dissaray, if hoth President and Vice-President were unable to function and House Speaker were not a designated Constitutional stand-in.

As Things Stand, However, and politically power so coveted, America's Congressional House legislators make a curcus act of deciding who among their lawful power-lusting lot shall stand with gavel in hand. America's Congressional House Speaker did not always exist after America was Constitutionally established. Not until one Henry Clay became America's first House Speaker, references accurate. House Speakers took on a parliamentary role. Nowadays, greater expectations are vested in House Speakers. Leadership. Daunting task. Essentially, someone to be a scapegoat for House discord.

There Was, Media Report, A Plan to keep House functions functioning even if Speaker Mike Johnson did not become America's next Congressional House Speaker until after Inauguration Day, 2025. It

would not be untoward were those of “Us, the American People” dissatisfied with Congressional House operations, to form a House-related regulatory and review force to avoid House rules grandstanding.

Terror In America

The many faces of danger in America

BETH ANN

Fearmongering and gaslighting are the ways of a tyrannical government.

Upgrade to paid

2025 was ushered in by attacks on America. Attacks on America seem to be too many and too accepted these days; do they not? Whether it's burning a woman

alive in the New York subway, the gang rape and torture of a twelve-year-old girl or the brutal murder of a young woman jogging or car bomb or the terrorist in New Orleans, there is too much senseless violence happening in America. We currently have an uncaring government that no longer punishes the criminals but looks to squashing those who would speak out for Liberty and freedom. The Constitution of the United States of America is a deterrent of their own power; therefore, they look for ways to distort its meaning and ignore its original intent. Absolute power is their objective; the Bill of Rights and the Constitution limit their power, therefore they have plans to thwart them in whatever way they can.

As we are, comparatively speaking, a young nation, it was not so long ago truly (December 23, 1776) when Thomas Paine wrote these words:

*“THESE are the times that try men's souls. The summer soldier and the sunshine patriot will, in this crisis, shrink from the service of their country; but **he that stands by it now, deserves the love and thanks of man and woman.** Tyranny, like hell, is not easily conquered; yet we have this consolation with us, that the harder the conflict, the more glorious the triumph. What we obtain too cheap, we esteem too lightly: it is dearness only that gives every thing its value. Heaven knows how to put a proper price upon its goods; and it would be strange indeed if so celestial an article as FREEDOM should not be highly rated.”*

Tyranny and terrorism are connected in many ways. An enemy's strategy is to instill fear upon their victims and cause them to tremble and weaken, leaving them vulnerable and willingly submissive.

The definition of tyranny: A nation under cruel and oppressive government. The government officials will suppress its people in order to hold power over them. This is done by instilling fear, whether by oppression, threats, or even violence and also by making life a struggle, through exorbitant taxation, by giving jobs away to foreigners or shipping jobs overseas; by causing inflation, and by regulating every aspect of life and business.

The definition of terrorism: The unlawful use of violence and intimidation, especially against civilians, in the pursuit of **political aims**.

Both tyrannical policies and practices, as well as terrorism tactics have the same purposes; control, political gains, instill fear and procure power.

I pray that I am wrong, but I believe, as Tom Homan said, “*This is just the beginning*,” when he spoke about the two terrorist attacks on January 1, 2025.

Will Americans cower to the fear and terror, or will we rise up and conquer our enemies who are now living among us?

“The strength and power of despotism consists wholly in the fear of resistance.” Thomas Paine

Liberty is always in the hands of the people.

Upgrade to paid

We have had life pretty easy in America, I pray we have not become too soft and sissy to fight back and protect that which is ours! I pray we have not grown too dependent on government that we are not willing now to fight for American independence!

As I began writing this yesterday, of course my mind was on the two terrorist attacks.

After 24 hours of thinking, searching and listening to the news, I came to the revelation, once again, that the dangers in America have many faces. We must succumb to the understanding that these dangers and terrorists are here because the Biden-Obama-Harris-Pelosi-Jeffries administration brought them here. It was not acts of incompetence but an intentional plan to “overtake” our Constitutional Republic.

They intentionally allowed an invasion of America to cripple this nation and to wreak terror upon American citizens: all of us! Those names are just a few of the

faces of danger in America, however I have no doubt they are intentionally allowing terror to be orchestrated against civilians. Perhaps, if you're afraid to leave your home or attend an event that has a large crowd, you will also not notice their policies of oppression being legislated or put in place by Executive Order or unconstitutionally implemented by the alphabet bureaucrats.

Through executive orders they intentionally perpetrated the crippling of America's economy, financial system, military, our energy and our supply chain. They intentionally have corrupted the morals of this nation and with great chaos have confused and promoted mental illnesses. Government no longer believes in protecting religion but instead makes ways to censor your faith.

While in bed with BIG PHARMA, the FDA and our "government" gained control over our medical industry, and our food. They have profited by the continuance and heightening of diseases; increased cancer, obesity, diabetes and other health issues... not just in the aged but also in America's youth. The old saying holds true; **"There's no money in cures, only in treatments."**

We the People have numerous enemies to face; there are the outsider-terrorists (of whom there are millions) and the enemies within, who have allowed the outside enemy to invade this nation and wreak violence, destruction, death and fear upon this nation. If we live in fear, perhaps we will be more willing to submit to government "protection."

Upgrade to paid

Thomas Paine wrote:

*"Britain, (change to the US bureaucratic government) with an army to enforce her tyranny, has declared that she has a right (not only to TAX) but **"to BIND us in ALL CASES WHATSOEVER"** and if being bound in that manner, is not slavery, then is there not such a thing as slavery upon earth.*

...It is surprising to see how rapidly a panic will sometimes run through a country. All nations and ages have been subject to them... Panics, in some

cases, have their uses; they produce as much good as hurt. Their duration is always short; the mind soon grows through them and acquires a firmer habit than before. ...But their peculiar advantage is that they are the touchstones of sincerity and hypocrisy, and bring things and men to light which might otherwise have lain forever undiscovered. In fact, they have the same effect on secret traitors which an imaginary apparition would upon a private murderer. They sift out the hidden thoughts of man, and hold them up in public to the world. Many a disguised Tory [Loyalist] has lately shown his head, that shall penitentially solemnize with curses the day on which Howe arrived upon the Delaware.”

Of course Paine’s writings were referring to America’s fight for Independence, as he encouraged Americans to stay vigilant. I say to you, however, THAT fight is ongoing! The gargantuan we now must battle is our own established government, (the administrative state) which has become a bureaucratic Behemoth.

THE AMERICAN CRISIS CONTINUES...

We most definitely have outside terrorists who are now on our soil plotting and planning terror against America, and the death of Americans. For the past four years they were purposely ushered in by the Biden administration. Why? To punish **We the People** and to destroy America so it will no longer be the *land of the free and the home of the brave*. The “government” wants to end the Constitutional Republic; no more talk of “consent of the governed.”

Yes, the dangers in America have many faces! Many are elected; others are institutions, who leach off our established government and then try to own it (run it). We have appointed bureaucrats, unconstitutionally managing bureaucracy, making rules and regulations as if they were laws. NGOs pushing agendas which are more about profit and less about saving anything or anyone.

Terror in America is here and there are many faces to the dangers **We the People** now face.

“These are the times that try men’s souls...”

We must be ready for the battles (political and otherwise) that lie ahead of us. Be prepared and alert!

“Liberty is always in the hands of the people, but first it must be a longing and a lust within their hearts.”
