~ **Bill Bonner**

When "Our, the American People's" government protectors decide a convenience in our daily lives is not to be allowed, for whatever reasons, such a convenience is headed for extinction. No matter if there is not as convenient alternative. Government regulators swing a mighty club. Our better judgement says to stay out of range. One day, with luck, government will be regulated by our clout.

"Many Americans have become embarrassed by the war in Iraq, but not out of any awakening as to its immoral nature."

~ *Butler Shaffer*

Media Reports Inform "Us, the American People" out-going Biden-Harris Administration has taken steps to banish gas-operated water heaters by 2029. It may be, political vicissitude being as it is, incoming President-to-be Donald J. Trump's Administration might not only reverse Biden-Harris water heater ban, but may well offer incentives to spur job growth in natural gas-related appliance industry.

"But what if a central bank, or the government that just sold debt to its central bank, then chooses to purchase equity of privately owned companies--not just debt, but actual ownership? What if this process has begun?"

~ *Gary North*

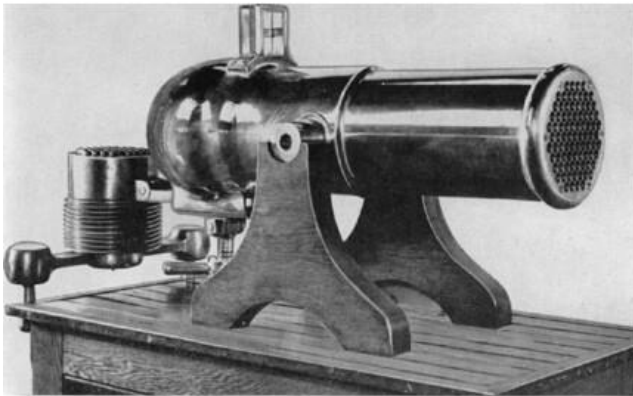

Water Heater Ban Media Coverage makes note Biden-Harris Administration concern for climate change was a major factor. Coverage also noted growing energy demand, including demand for gas-operated water heaters, can not be satisfied by wind-solar energy systems growth. Practicality, though, seldom comes to bear when people with lawful power declare a deed be done, regardless bother.

"We as a country can no longer allow money to be created by a fascist cartel of bankers and bureaucrats in Washington via printing presses and computer entries."

Not All Gas-Operated Water Heaters are to be banished to America's junk heaps. Mostly, only heaters without integral storage tanks will be banned. So, "We, the American People" who are bound and determined to have gas water heaters will be able to have such heaters, provided we are willing to use up space for hot water tanks. So far, no reports public utilities plan piping hot water into homes.

"If physical and human nature are too complicated to be predictable, the rationale for state control is swept away. To the controllists, the expression of this fact is a heresy that must be exorcised from our thinking."

~ **Butler Shaffer**

People Intending To Live In Liberty do not allow legislators – or other public officials within These United States of America, to overrule Commonwealth/State (10th Amendment) Sovereignty. They uphold their heritage of self-government and reject illegitimate federal intrusion.

"The nanny state rests on the presupposition that the state must not allow people to learn from their mistakes. They must instead be prohibited from making mistakes. Result: They make far more mistakes and far worse ones."

“Our, the American People’s” media and sundry other new outlets are running articles on how it is Canada is collapsing. Not falling over in a physical sense. Falling behind other nations in terms of cost of living and cost of government. Cost of living is something everyone has to deal with as a matter of unlimited wants and needs competing for limited resources. Cost of government is self-incurred.

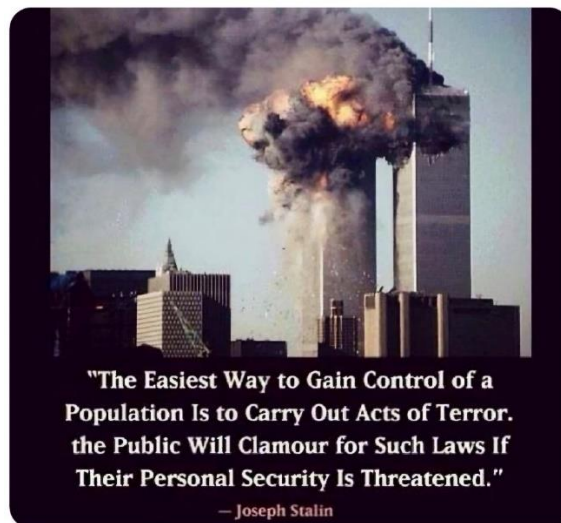

"The government gave the central bankers--a private cartel--monopoly status in issuing or controlling the nation's currency. In exchange, the central bank guaranteed--not in writing--that it would be a lender to the government."

Caption this.....

Government is Not Intrinsicly Bad. Government is, whether pro-government advocates like it or not, parasitic. It is “Us, the American People” who fund America’s government; it is ordinary people who, no matter how dice are loaded or thrown, fund government anywhere and everywhere. Ordinary people come by money to fund government because of consumers. Consumers pay for everything.

"The thread that connects all their thought is the idea that society is more capable than government elites in shaping a prosperous order."

~ *Lew Rockwell*

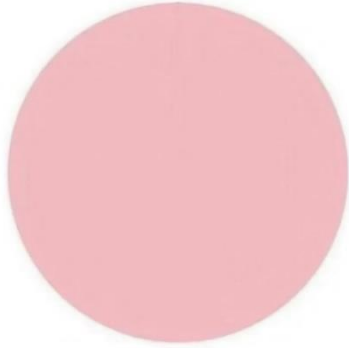

"We, the American People" would not have one public service, were it not for people going to MacDonald's, Walmart, Tractor Supply, or Ford Motor Vehicle dealers to buy goods and services. Government, whether government officials admit it or not, exists because legislators see fit to levy taxes to confiscate property (wealth) for tax revenue so government projects and programs operate.

"America – in its traditional forms – is in its death throes, and no amount of institutional wizardry, halftime pep talks, or magic elixirs, will reverse the present course."

We the People Will Never Forget

We have been blind, but we are not stupid! Our eyes are open now, and "an elephant" never forgets!

BETH ANN

JAN 11

[READ IN APP](#) ↗

1-10-2025

January 6, 2025, the Democrats, along with their propped-up media, chanted "We will never forget!" regarding J6 and the "unarmed" insurrection.

Personally, I think **We the People** should make sure that they never do forget the crimes that they have either committed or assisted with, because **We the People Will Never Forget!**

You can take it to the bank all you democrats, LEFT leaning media, and Never-Trump RINOs – These conservative Constitutional Republic loving elephants - **We the People - will never forget:**

We will never forget that the things you have done against this nation were not done because of stupidity or incompetence, but through intentional acts of sedition and treason.

We will never forget the blatant lies about Biden's mental state. You hid him during the presidential campaign so Americans would not know he was completely incapable of governing. You had a sinister plan to display an empty-suit president, while others unconstitutionally ran this country... into the ground!

We will never forget you continued throughout the presidential primary to prop up the empty suit and run this nation unconstitutionally, without a president. After the debate-debacle you realized you could no longer hide Biden's dementia. So you implemented plan 2 and unconstitutionally replaced Joe with Kamala; a presidential candidate who did not earn even one primary vote from the American citizens. Pleased with your power, you (the self-appointed leaders of the Democrat Party) eliminated any other party member from having an opportunity to run for president. **We will never forget!** You placed a president in the White House knowing he was mentally incapable and then had "unelected others" making the decisions as if they were president; you orchestrated what was (or is yet) a soft but dangerous insurrection of our Constitutional Republic.

We the People will never forget the "Summer of Love." The violence of the 2020 looting riots left immense property damage, assessed at up to \$2 billion, and at least 25 people dead.

We the People are awake to the WOKE!

Upgrade to paid

We the People will never forget all the WOKE ideals of "social justice," which was *injustice* for Americans. The WOKE ideals of transgenderism ruined many lives and caused great violence, as it protected the mentally ill, while allowing the rapes and murders of innocent young girls. The WOKE agenda removed the rights of women and invaded their privacy. The WOKE cheapened and erased years of pride in women's sports. The WOKE agenda removes the identity of women... "female" could no longer be defined, and motherhood was demeaned. The WOKE agenda is also non-Christian and sought out Christian businesses to target and to ruin their livelihoods. In the WOKE world your language was controlled, and you could lose your job for simply using the "wrong" pronoun. The majority of Americans reject the nonsensical WOKE ideals that do nothing but ruin and demean all people.

We the People will not forget how this Democrat administration pushed pornography into our children's schools. While rejecting the Bible, they fought

for the right to have sex books and porn in schools, which targeted America's young children. Pornography was not only placed in public libraries, but was encouraged by allowing drag queens (perverts) to sit and read books to small children. This literature was so bad they could not allow it to be read out loud on Joy Reid's talk show, but they demanded it be made available and read to small children in our public schools and libraries.

We the People will not forget the murdering of the unborn! Sixty-three million babies have been murdered since the lie of abortion, said to be "reproductive health" rights. In fact, 2023 had the highest number of abortion deaths in over a decade; 1,026,700 abortions. The lies claiming that President Trump and the Supreme Court stopped "reproductive rights" when they overturned the unconstitutional Roe vs Wade decision, have now been exposed. It was also the first time that over a million abortions were provided in the U.S. formal healthcare system since 2012: during the Obama's death-to-babies (aka Obamacare) regime.

We the People will never forget the open borders, and intentional invasion of America. 20-30 million illegal aliens - enemies - have entered our nation. America's enemies are now here on American soil. We have already had attacks, and the risk of more is at its highest. We will never forget the lies of Kamala Harris, Mayorkas and others telling us all, "The border is secure." Just like we watched the burning riots while being told they were *mostly peaceful*...

We the People will never forget.

We the People will never forget the giving away of the Panama Canal. Did you realize that more Americans died building that canal than died during the entire Vietnam war? However, in 1977, Jimmy Carter gave away the Panama Canal for the price of \$1; apparently that's the price a "decent man" puts on American lives.

Upgrade to paid

We the People will never forget the humiliation and devastation as our own people were taken hostage by Iran. Then President Carter was useless in

negotiating their return home. It was only after our enemies realized they'd have to face a strong President in Ronald Reagan, that they released the American hostages.

We the People will never forget the never-ending wars the democrats, RINOs and globalists like to keep going, regardless of the deaths and maiming of American soldiers. Military Industrial Complex contractors like Dick Cheney get rich, while our young men die!

Forever etched in our memory is the awkward (and dumb) response of a Supreme Court Justice, when asked to define a woman; she could not. Her excuse? She is not a biologist. She cannot define a woman, yet we are to believe she can uphold women's rights as a Justice in the highest court in the United States of America.

We the People will never forget the lies and mandates of COVID and the millions of people who died unnecessarily from these lies. We will never forget the demented Dr. Fauci and lying Dr. Deborah Birx. We will not forget how good medicine and cures were denied while untested vaccines were applied. We will not forget those who lost jobs, and those who died because of all the deceit and lies. Never again will Americans trust the CDC, the FDA, and Big Pharma. We will never forget how the WHO consulted with China to hide the COVID origin.

Thomas Paine once wrote: ***"It is surprising to see how rapidly a panic will sometimes run through a country."*** Rahm Emanuel once said, **"You never let a serious crisis go to waste. And what I mean by that it's an opportunity to do things you think you could not do before."** It is my opinion that the statement by Rahm was put into action, as the democrat administration began to force Americans to comply with one mandate after another. **We the People** will never forget!

We the People will never forget the horror, as Biden's administration surrendered to Afghanistan. Their actions claimed the lives of at least thirteen American Marines and left hundreds, maybe thousands, of others missing. The

women of Afghanistan were once again forced into oppression; no education, no jobs, no driving cars, no freedom; torture and death applied when they do not comply. Nor will we forget how this administration never mentions those Americans lost, yet Biden and Kamala both have stated, “We have no regrets.” **We the People** will never forget how this democrat administration left billions of dollars of U.S. military equipment (and secrets) behind, which are now in the hands of our enemies.

We the People will never forget Benghazi. We will forever remember the arrogance of Hillary Clinton; “What difference does it make?” Well, Hillary, you will never be president of the United States. In 2012, Secretary of State Hillary Clinton did not answer the call and allowed Benghazi to fall. Four Americans died because of her dereliction of duty. We also will not forget how many democrat representatives walked out of the hearing when the relatives of the fallen were speaking. **We will never forget** Ambassador Christopher Stevens, Sean Smith, Tyrone Woods, and Glen Doherty. May these men rest in peace, but may Hillary Clinton forever be haunted by the memory of her failings, which cost the lives of Americans.

As a rural radio talk show host, I have covered many property rights fights for Liberty. **We the People** will never forget those who were “made examples of” by our federal government: Lavoy Finicum, murdered by the FBI, The Hammonds who were imprisoned for setting a “backfire” to stop federal lands from burning, Ammon Bundy, who was also imprisoned, and Cliven Bundy. These property rights fights were caused by the unconstitutional mandates and permits coming from the BLM (Bureau of Land Management) during the Obama administration.

We the People will never forget how this democrat administration sent over \$183 billion of American aid to Ukraine and gave little attention or assistance to our own who suffered. Since February of 2023, East Palestine, OH has been a black spot for the Biden administration. They are still sick and suffering from the poisonous pollution left behind after a train derailment. Americans are still suffering after the Maui Fire of August 2023. Thousands of North Carolina Americans are still homeless and without assistance ever since Hurricane Helene in 2024. Currently suffering and experiencing tragedy are those in California with the raging fires; evidence of the failure of WOKE government. It

was today that Biden promised more money to Ukraine, but when speaking to those hurting in California he simply announced, “Hey, I’m a great-grandfather today.”

We the People will never forget October 7 when Hamas murdered, raped, dismembered and kidnapped thousands of Israelis and Americans. We will never forget how this administration fed the enemies of Israel and encouraged violent protests on American university campuses.

We the People will also never forget January 6, 2021. We will not forget the lies that were told that day, and the ones that continue today. We will never forget the fake J6 hearings that only covered one side of the event. We will never forget Ashli Babbitt, whom the democrats will never mention. We will never forget Roseanne Boyland, and others who died because of the FBI instigated rioting that day. We will never forget how Liz Cheney conveniently deleted and hid evidence that would have cleared President Trump of insurrection, which with he and no one have been charged, even though the democrats continue to spit out that lie.

We the People will never forget how 51 so-called former “intelligence experts” knowingly signed a letter claiming the lie of Russian collusion regarding Hunter Biden’s “laptop from hell.” **We the people** will never forget how this “letter of deceit” was used to interfere in an election.

We the People will never forget the preemptive (unconstitutional) pardons for those who assisted the Biden-Harris administration in lawfare against President Trump and other American Citizens: such as those praying in public, others speaking out against porn and rape in public schools, or for simply being in D.C. on January 6, 2021.

We will never forget General Flynn, Roger Stone, Steve Bannon, Paul Manafort, Peter Navarro, Allen Weisselberg and Rudy Giuliani.

We will not forget the J6 Committee and all the destroyed (hidden) evidence that would have taken the opposite direction of their narrative.

We the People will never forget, nor will we stop shouting out against the national debt, which is completely unsustainable and has weakened our nation. A nation in such debt is vulnerable; it is a national security issue.

We have been blind, but we are not stupid! Our eyes are open now and “an elephant” never forgets!

Dear President Trump, **We the People** will never tire of winning our country back and living out Liberty. Please make sure the political criminals will soon feel the sting of truth and justice. I beg you to not go soft on them; they are not good people! Every attack on you was an attack on all Americans and against the United States of America.

Winning is always wonderful, but truth in justice will **Bring America Home.**©

“Our, the American People’s” President-to-be Donald J. Trump should be making Canadian friends instead of fomenting frustration with cavalier remarks about Canada becoming part of Donald J.’s presidential jurisdiction. America and Canada would be better off staying politically separate but more-or-less unified into something on order of an Anglosphere. According to a media writer’s take on it all.

"We have been euchred out of our very lives because of our eagerness to believe that benefits can be enjoyed without incurring costs; that the freedom to control one’s life can be separated from the responsibilities for one’s actions; and that two plus two does not have to add up to four if a sizeable public opinion can be amassed against the proposition."

~ ***Butler Shaffer***

Canadian Assets Could Be A Good thing for America and Canada if there were, say, an attempt by some hostile foreign outfit to take over one or both countries. Worrisome tariff (trade tax) annoyance could be put to rest as part of Canadian-U.S. consortium. Once firm socio-economic ties are established and complementary, there is less chance of disagreements disrupting a stable state of cooperation.

"By identifying ourselves with any abstraction (such as the state) we give up the integrated life, the sense of wholeness that can be found only within each of us."

~ ***Butler Shaffer***

There Would Be A Risk Canadian and U.S. Heads of State would get into standoffs on who is of higher political standing. Egocentric Heads of State could be put in their respective places by business between Canadian and U.S. consumers conducted by business owners, not politicians-legislators-diplomats (PLD). Business people are driven by profit opportunities. PLD cater to their ideology.

"...That to secure these Rights, Governments are instituted among Men, deriving their just Powers from the Consent of the Governed, that whenever any Form of Government becomes destructive of these Ends, it the Right of the People to alter or to abolish it,...."

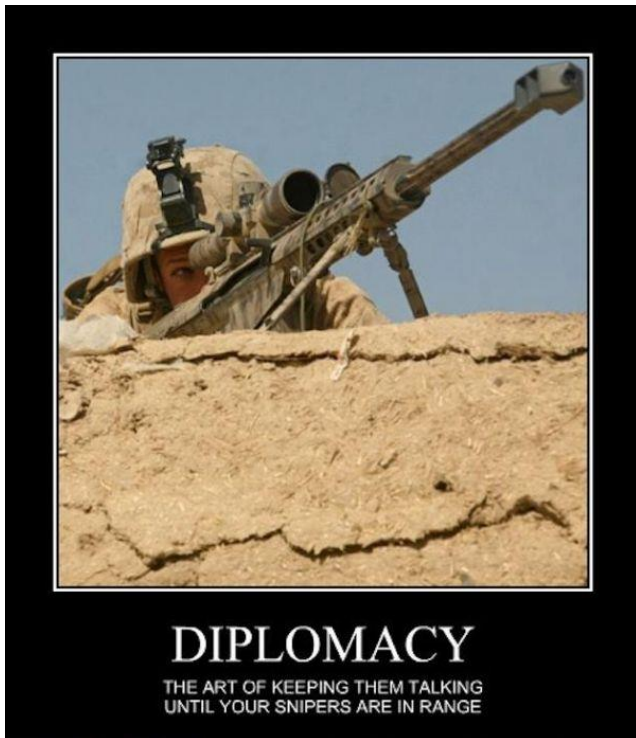

~ ***U.S. Declaration of Independence***

From A Military Aspect, A Joint Canadian-U.S. operational sphere would create a challenge for would-be foreign military aggression. Combined U.S.-Canadian territory land mass represents on order of half a western hemisphere continent. No more an undertaking than America's Monroe Doctrine. Major world powers would, of necessity, require dedication of more assets to keep watch.

"As long as the State remains in place as it is, war, whether military or social, will continue to be its prime means of expansion, and taxes will continue to be its reason for being and the means to wage these wars."

~ ***Francois Tremblay***
