"In the U.S., there is an industry of political commentators and pundits, which is devoted to inflaming political passions."

~ *Dmitry Orlov*

"Our, the American People's" media report President Joe Biden has declared proposed Constitutional Equal Rights Amendment is now part of America's federal (U.S./National) Constitution. President Joe's declaration was based on, according to President Joe, positions held by legal Constitutional scholars and American Bar Association lawyers. U.S. Archivist and Deputy Archivist said to disagree.

"In Soviet-era Russia, intelligent people did their best to ignore the Communists: paying attention to them, whether through criticism or praise, would only serve to give them comfort and encouragement, making them feel as if they mattered. Why should Americans want to act any differently with regard to the Republicans and the Democrats? For love of donkeys and elephants?"

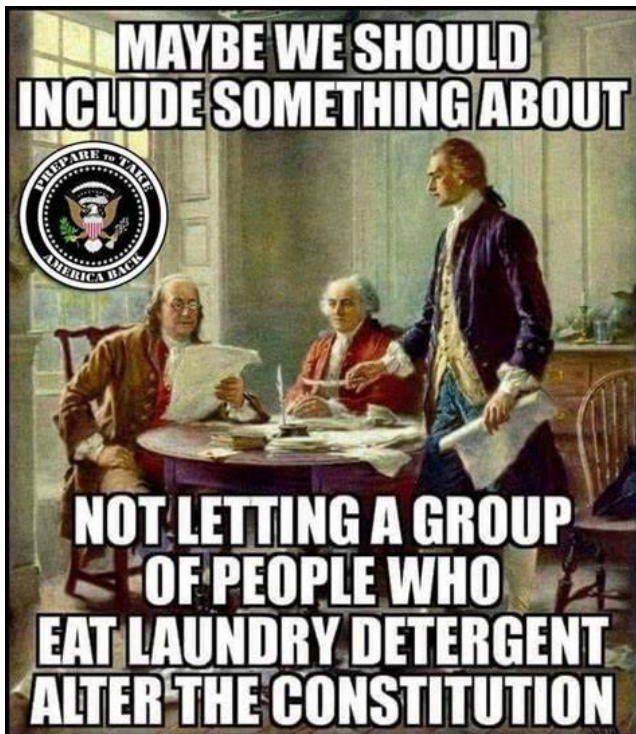

~ *Dmitry Orlov*

President Joe Biden's Equal Rights Amendment proclamation is inconsistent with America's federal (U.S./National) Constitution amendment process. America's presidents have no role in said process. "We, the American People" ought not be surprised. Constitutional amendments are made either by Congress or America's commonwealth/state legislatures. Presidents can express their opinion.

"An equally useful quality in a crisis is apathy."

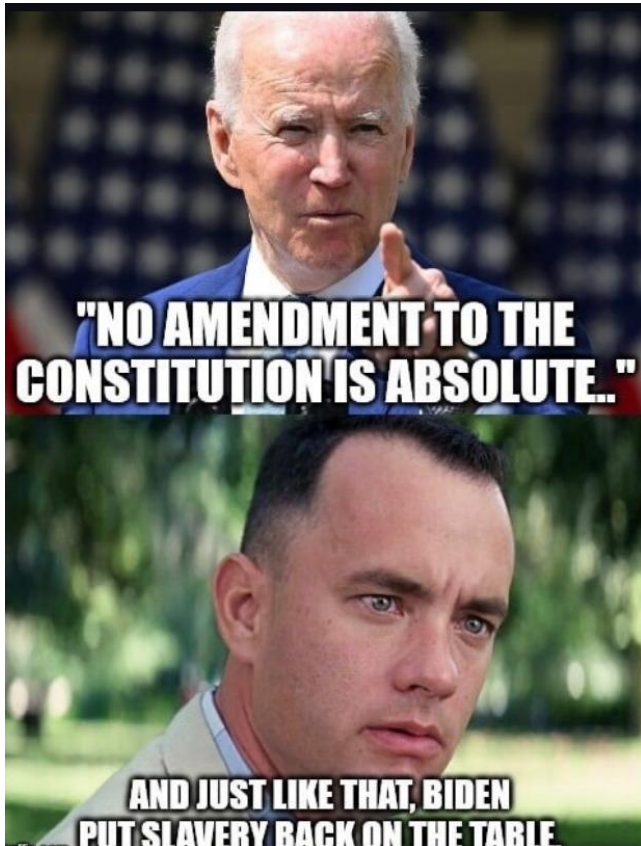

~ *Dmitry Orlov*

It is Incumbent On “Us, the American People” to keep our legislators and judges from acting with presumed lawful authority they do not have. Our legislators seek office for one purpose over all others – to make their personal attitudes, values, and beliefs (PAVB) lawfully compulsory. Legislators, along with judges, conduct business based on their PAVB, since no contrary unequivocal standards exist.

"I suggest that if an individual really wants to be free then they should begin to act free themselves; that is, choose to be free."

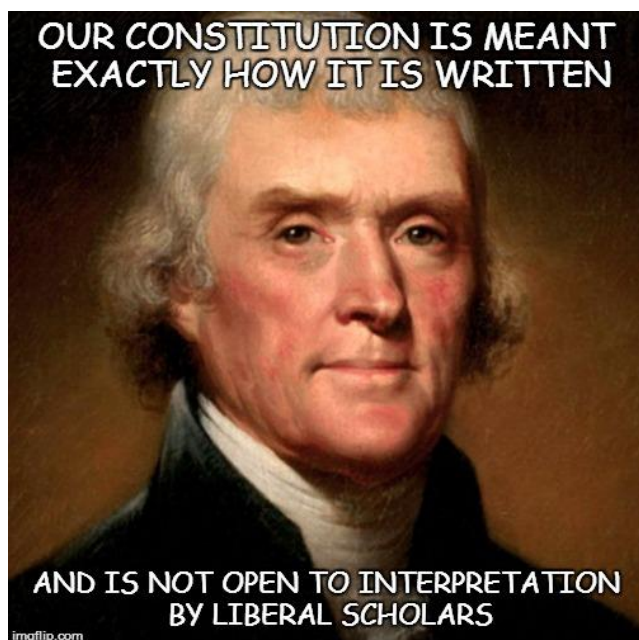

~ **Mark Davis**

Practically Speaking, We, As a sovereign citizenry, decide if Constitutional provisions, including amendments, are to be upheld or ignored based on our adherence or behavioral rejection. No Constitutional provision, no law, can be enforced without sizeable public deference. Theorists might argue otherwise. Hubert Humphry nailed it, noting, there are not enough, police, courts, or jails.

"Treating society as a thing that chooses and acts obscures the real forces at work. If, in a small community, ten people band together to rob and expropriate three others then this is clearly and evidently a case of a group of individuals acting in concert against another group. But let their size increase, and this kind of obfuscation becomes rife and succeeds in duping the public."

~ **Murray N. Rothbard**

“Our, the American Peoples” Supreme Court of the United States (SCOTUS) decided uphold law banning Til Tok, a video/variety app used by millions-odd Americans to force Tik Tok sale or divestiture. America’s legislatures and courts, if they do nothing else, are supposed to protect Americans’ freedom to choose. Banning a media outlet, at best, an attack on freedom of speech.

"Political systems have always served as strange attractors to the control freaks and other misfits who have never become socially housebroken."

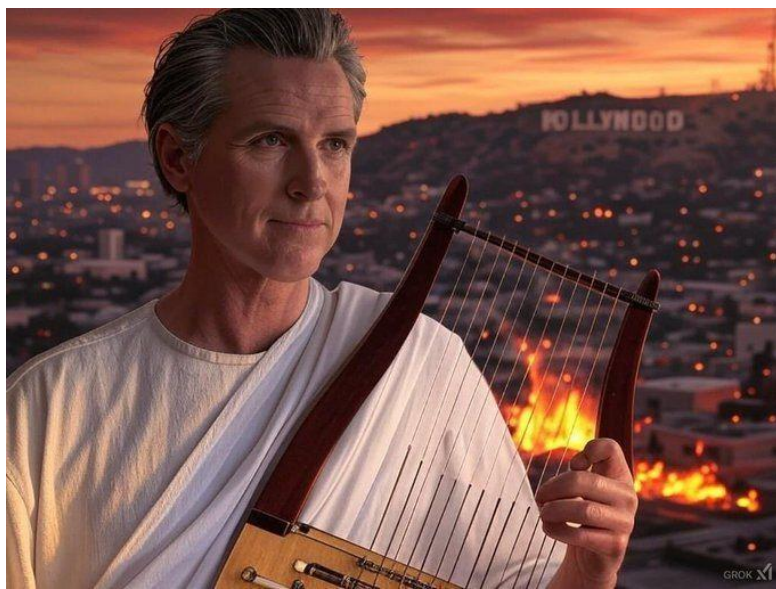

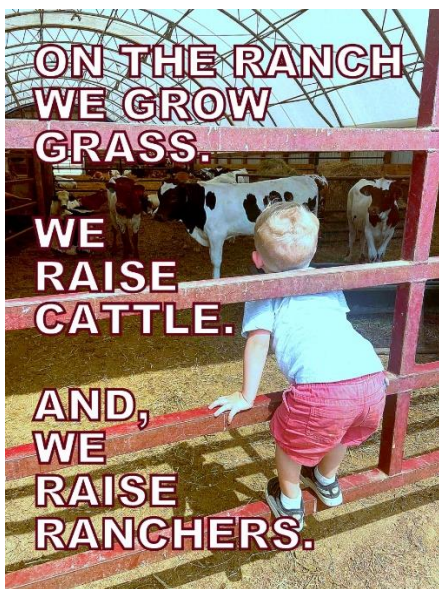

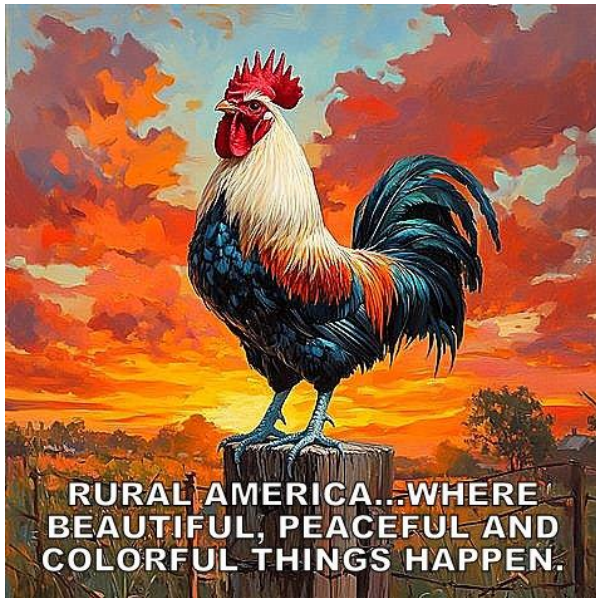

~ *Butler Shaffer*

"We, the American People" would be smart to come down hard on America's legislators and magistrates who act to restrict our access to information sources on grounds of threats to America's national security. No question government has a foremost priority of keeping America safe. Freedom of speech is consistent with bolstering freedom. We, as a sovereign citizenry, can decide content.

"While the pretenders at various Washington, D.C. think-tanks continue to fancy themselves in purple and ermine robes, the realities upon which the world functions will continue their incessant march toward the decentralized, horizontally-networked systems that are rapidly displacing the command-and-control vertical structures that have long dominated mankind."

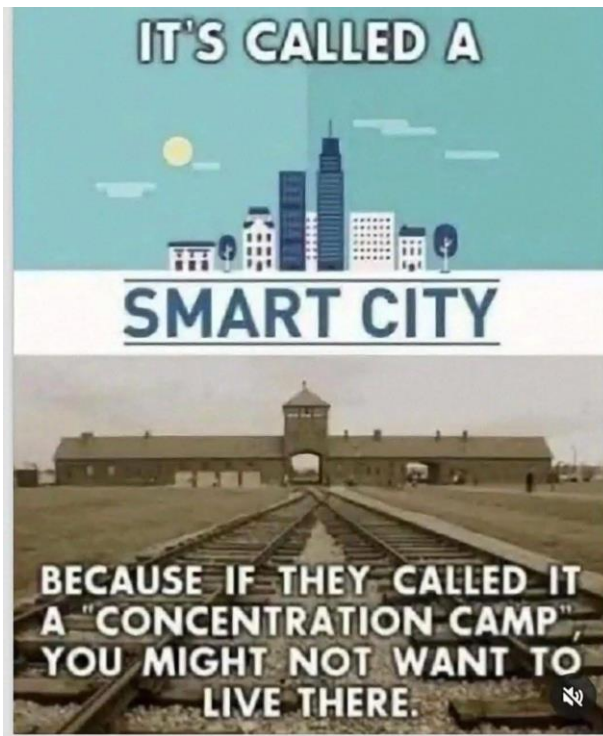

~ **Butler Shaffer**

It Would Not Be Out Of Line for “Us, the American People” to march on Congress and make it clear to Congressional legislators – as well as SCOTUS – we will not be censored. If a foreign nation is using social media to weaken America., we will back our government in punishing such nation mercilessly. We will, however, not be told, arbitrarily, we may not access information sources.

"The Fed plays down the fact that they manipulate bank reserves to alter the federal funds rate. Why? Perhaps because talking about something as tedious as the federal funds rate is safer than saying they're adjusting the supply of money available. "

We have final say – if we choose to express it.

Spit Out The Bitter Political-Pills Of Tyranny

BETH ANN

JAN 16

[READ IN APP](#) ↗

1-16-2025

Scripture tells us that truth will set us free. (*“And ye shall know the truth and the truth shall make you free.” John 9:32*) Obviously that was the truth of our Savior, but truth is freedom, however when we swallow lies and live in a world of deceit, we are not free. Lies enslave us and separate us as a people.

LIBERTY comes from God: *“Stand fast therefore in the liberty wherewith Christ hath made us free, and be not entangled again with the yoke of bondage.”*
(**Galatians 5:1**) *“Now the Lord is that Spirit: and where the Spirit of the Lord is, there is liberty.”* (**2 Corinthians 3:17**)

In all sectors of our lives, relationships, work, jobs, play, and especially in government, if we are ruled by liars and are forced to live by their lies, we are not a free people. **We the People** should not be content with, satisfied by or accepting of lies! While we often joke about lying politicians, lying politicians are no joke when it comes to Life, Liberty and the pursuit of Happiness. The loss of freedom is never funny! Their deceitful nature is the very thing that enslaves us, destroys Life and restricts our Liberty and Freedom.

I have tried, for a long time, to explain the lies that **We the People** have been forced to swallow. There are a few of us who manage to “**spit out**” the **bitter political-pills of tyranny. – Ptui!**

Climate Change is a huge hoax! Its purpose is to take private property, redistribute wealth, control healthcare, food supply, our economy, air, environment, animals and especially people. This is a global agenda! They also intend to practice population control. **We the People** must reject this globalist goal to take our land, our freedom and destroy our nation. Climate change is a political poison pill – **Ptui!**

Have you ever walked into a greenhouse? Did your lungs collapse from the greenhouse gas, which is CO₂? CO₂ is essential for life. To go to zero CO₂ is death.

To the lie of toxic CO₂ we say – Ptui!

For further information: In a greenhouse, the percentage of CO₂ is usually much higher than in the ambient air, typically ranging from around 0.1% (1000 parts per million) or even higher, depending on the CO₂ supplementation, while the oxygen percentage remains close to the atmospheric level of around 21% - meaning the majority of the air in a greenhouse is still composed of oxygen, with a significantly increased CO₂ concentration compared to the outside air.

Concluding this matter: if the earth is in a greenhouse effect, we are all safe and sound!

While the virus was quite real, the Covid Pandemic was politically escalated and used to cripple America; confining people, stifling education, restricting travel, closing down small businesses and churches, while allowing mega corporations and liquor stores to remain open, forcing untested vaccines, denying science and denying prevention and cures, letting inmates out of prison while quarantining healthy-honest-working citizens, mandating masks and six-foot distancing was all done for control. The dictator democrats were in heaven as they enslaved citizens and destroyed communities.

Thomas Paine once wrote: ***“It is surprising to see how rapidly a panic will sometimes run through a country.”*** Rahm Emanuel once said, ***“You never let a serious crisis go to waste. And what I mean by that it's an opportunity to do things you think you could not do before.”*** It is my opinion that the statement by Rahm was put into action as the democrat administration began to force Americans to comply to one mandate after another.

To the COVID lies (and to the demented Dr. Fauci) **We the People say – Ptui!**

Natural immunity is better than Tyranny!

There was zero corruption during the 2020 election – **Ptui**

The Russian Dossier was proof that Russia interfered in our 2020 election – **Ptui**

Joe Biden is of sound mind – **Ptui, Ptui, Ptui!**

January 6 was an insurrection and a more dangerous day in our nation than 9/11
– **Ptui!**

There are too many lies to list, but one of the biggest gaslighting-political-poisonous-lies of all, that **We the People** must reject, is...

America is a Democracy. – **PTUI!** (that's an all-caps spewing!)

Upgrade to paid

This nation was established as a **Constitutional Republic**; there's a resounding and historic reason for that!

o **Democracy** is the political system in which the people periodically, by a majority vote at the polls, elect their rulers. The rulers then have absolute power to make whatever laws they please by a majority vote among themselves.

In a constitutional Republic the people, also by a majority vote, select rulers who make laws by a majority vote among themselves.

But these rulers cannot make any laws they please because the constitution severely restricts their lawmaking power.

The ideal of a democracy is universal equality, the ideal of a **Constitutional Republic is Individual Liberty.**

In this century great strides have been made toward the goal of subverting our Republic and transforming it into a democracy. The foremost tactic of these subverters is subversion of language. By calling America a democracy until people thoughtlessly accept and use the term, totalitarians have obscured the real meaning of our American principles of government.

The writers of the constitution were anxious to safeguard Liberty against dictatorship; monarchy they called it. But their chief anxiety was to protect the country against democracy.

Edmond Randolph, delegate to the constitutional convention from Virginia said, *“The general object of the convention was to provide a cure for the follies and fury of democracy.”*

Elbridge Gary and Roger Sherman, delegates from Massachusetts and Connecticut, urged the constitutional convention to create a system to eliminate the evils that flow from the excess of democracy.

Alexander Hamilton, delegate from New York said, *“We are now forming a republican government. Real liberty is not found in democracy. If we incline too much to democracy we shall soon shoot into a monarchy.”*

John Adams, one of the giants of the American revolutionary period said, *“Democracy will end the all, contend with all, endeavor to pull down all, and when by chance it happens to get the upper hand for a short time, democracy will be revengeful bloody and cruel.”*

America was founded not as a democracy, but as a Constitutional Republic. We pledge allegiance to the Republic for which our flag stands, not to a democracy.

The constitution requires a republican form of government for all states, but does not mention democracy, and neither does the Declaration of Independence or the Bill of Rights.

Mrs. Powell asked Dr. Franklin what kind of government the convention had given America. Franklin replied. ***“A Republic if you can keep it.”***

Very old and very wise, Franklin saw through the mist of time to the day when Americans might trade their freedom in a Constitutional Republic for the promise of government guaranteed equality and security in a democracy; and beyond that to the day when democracy inevitably degenerates into dictatorship, guaranteeing nothing but poverty and serfdom for the people it robs and rules. o

While I have shared the truth of democracy and our Constitutional Republic with my radio audience and my readers many times throughout the years, I thought the previous explanation from <https://www.instantbi.com> put it extremely well.

We all need to understand, **We the People are the Republic** and unless we are paying attention, staying involved, engaged and connected... **“We will lose it.”** I fear we have lost it, but **We the People** can restore it!

We the people now spit out all the bitter political-pills of lies and **Tyranny – Ptui!**

Let us all reject the lies, restore our Constitutional Republic and Bring America Home.©

"It is vain to fight totalitarianism by adopting totalitarian methods. Freedom can only be won by men unconditionally committed to the principles of freedom. The first requisite for a better social order is the return to unrestricted freedom of thought and speech."

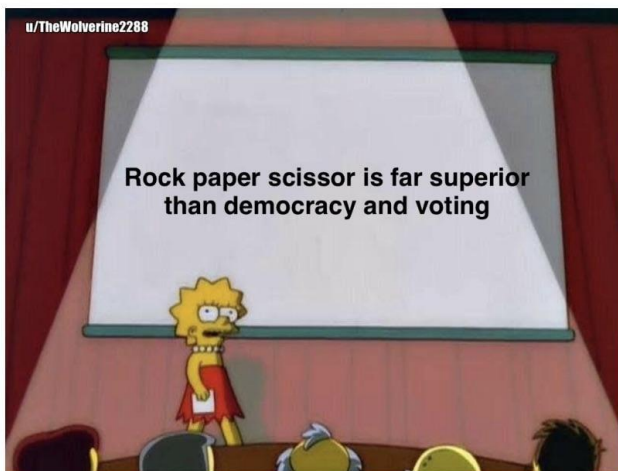

~ *Ludwig von Mises*

If "Our, the American People's" congressional legislators don't act quickly, there will be another trillion added to America's federal budget. All because of how federal government does accounting by fiscal year. And, because 2017 Tax Cuts and Jobs Act costs a bundle and benefits America's wealthiest. This, according to a writer in a said-to-be left-leaning media outlet. By a media website.

"To Americans of the late 19th century, "allegiance" was a feudal concept denoting subservience to a master. Americans considered themselves sovereigns, not subjects. "

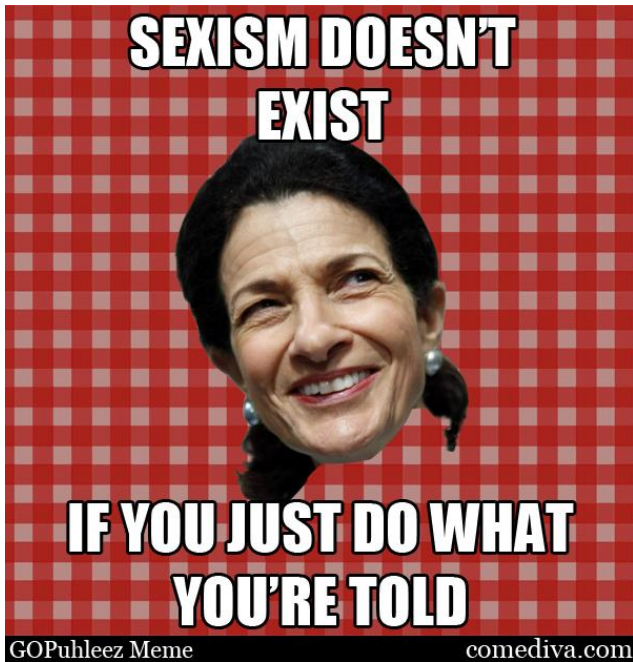

~ *Benedict D. LaRosa*

"We, the American People" would be smart to take a jaundiced view when tax cuts are characterized as costs. When talking about costs, it's not a bad idea to be clear on who pays. Political persuasion has little to do with financial reality. We have money or we don't. We can say, with conviction, taxes are a cost to whoever pays them. How tax cuts are a cost is a matter of who decides to call them costs.

"Those who are asking for more government interference are asking ultimately for more compulsion and less freedom."

~ *Ludwig von Mises*

Those Of "Us, the American People" who argue wealthy people should pay more might find wealthy people do pay more when it comes to taxes. Proverbial rub for 'wealthy-should-pay-more' proponents amounts to arguing wealthy people should pay their fair share. Wealthy people pay taxes required by law, and are able to avoid taxes as allowed by law. If it's not fair, then tax code legislation is not fair.

"The idea of individual rights and of a just community in which they are fully respected and protected is so radical in human history that it is understandable why....[some people]...will not have managed to grasp them clearly enough."

~ *Tibor Machan*

It Is America's Legislators who decide tax code fairness. It is voters who put legislators in office. If voters elect unfair legislators, then, it follows, voters who put unfair legislators in office are unfair. How to remedy this enigma to satisfy they who want everyone else to pay more is, always has been, illusive. No remedy is likely. Not while people covet other people's property (wealth). Not while.

"The primary distinction between a political system, and a non-political, free-market system, is whether some people will be allowed to use violence against others to achieve their desired ends. By definition, the marketplace eschews coercive means; by its nature, the state is organized force."

~ *Butler Shaffer*

People Determined To Live In Liberty do not allow legislators – or other public officials within These United States of America, to remain in office if they break their word to their constituents. They dismiss remiss elected officials without hesitation.

"Taxation is extortion. It is the dubious institution that's based on the monarchical tradition when governments (the monarchs) owned the realm and taxes were the tribute they collected for permitting ordinary folks to live and work in this realm."
