"Any scheme of fractional-reserve banking based on fiat currency the value of which is secured by nothing more than economically unsound debt and the government's power to tax is inherently and inexorably self-destructive."

~ *Edwin Vieira*

Those Of "Us, the American People" who fancy change got a bellyful with President Donald J. Trump's halt on 'new rules' during his first second-term presidential day. Sweeping changes in America's governmental executive branches, when administrations change, is indicative of how unpredictable is government driven an irresistible urge to make political ideology lawfully compulsory.

"When the American people were deprived of their ability to exchange currency for actual, physical gold...a major check against the government's propensity to steal had been lost."

~ *Timothy Terrell*

One Of "Our, the American People's" higher education teacher claims it's a good thing for in-coming presidents to halt all work on regulatory matters till an administration's new people are in place. There would be no need for executive branch work disruption if executive branch matters were handled free of political impetus. It happens because government has too much politically-driven power over people.

"As the creator of fiat money, of instant money by means of legalized counterfeiting of wealth, the state is always the wealthiest and most powerful force in society."

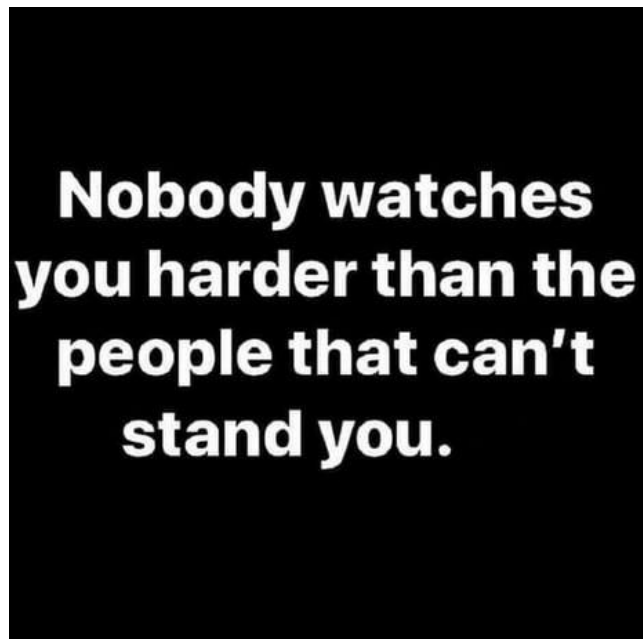

~ *Rousas Rushdoony*

Sweeping Executive Branch Change shows how much heralded 'rule-of-law' is little more than display of law being law because people in positional authority - namely legislators and judges, decide law shall be law. "We, the American People" are in a constant lawful-power struggle because we let America's legislative-judicial system be framed by personal attitudes, values, and beliefs (PAVB).

"Even if the supposed threat from Islamic terrorists were to disappear today, the Department of Homeland Security would continue to grow tomorrow."

~ **Edwin Vieira**

Dissatisfaction With Government Driven by PAVB – and resultant public discord – are virtually impossible when government is allowed to have undue influence over how a society's socio-economic system functions. Government's PAVB-framed selective, arbitrary, and discriminatory legislation taxation, and regulation (SADLT&R) is inherently biased (unfair). SADLT&R eviscerates choice.

"Nearly all governments are now committed to reckless spending, and finance their deficits by issuing additional quantities of unredeemable paper money and by boundless credit expansion."

~ **Ludwig von Mises**

People Intending To Live In Liberty do not allow legislators – or other public officials within These United States of America, to enter into defined-benefit contracts with collective bargaining units. They prohibit government from financially indenturing them.

"The Constitution of the United States was born of the ashes left behind a runaway inflation, that of the Continental Dollar, although it is not considered polite behavior to mention this bit of history in the presence of practitioners of the dismal monetary science."

"The grim reality is, no matter whom we elect, no matter which party controls Congress or the White House, the direction of the country doesn't change. Fundamental liberties continue to be lost, the federal government continues to burgeon, and America continues to evolve into a socialist-Fascist society."

~ *Chuck Baldwin*

It May Come As A Shock to some of “Us, the American People.” President Donald J. Trump is America’s 47th. They who would destroy America and anyone hoping to live in freedom under Liberty have not lain down their weapons, nor have they beaten their swords into plowshares. They who seek lawful power over others are no less intent on having it then they were yesterday, or will be tomorrow.

"Aside from September 11, an event of several years ago, the only terrorism the US has experienced is the terrorism Bush created by invading Iraq. Why are we worried about Osama bin Laden when the moronic Bush administration is so adept at creating terrorism?"

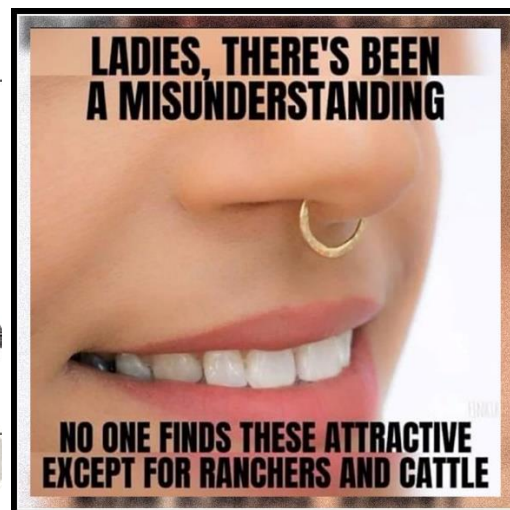

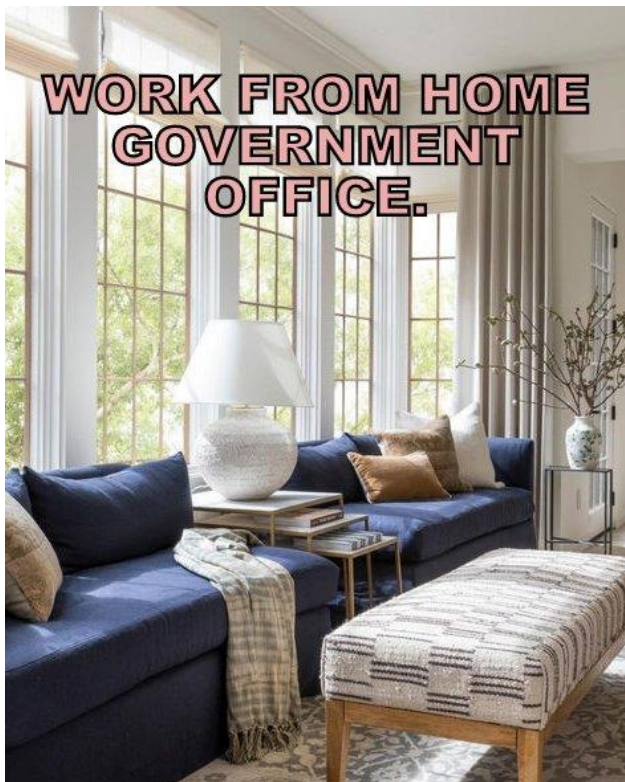

~ *Paul Craig Roberts*

“Our, the American People’s” legislators who were, yesterday, intent on confiscating people’s property (wealth) and restricting people’s choice (Liberty) are just as intent today, and will be just as intent tomorrow. Our future is not secure because Donald J. Trump has moved into 1600 Pennsylvania Avenue. They who wanted to keep him out are no less intent on throwing him out. Not now. Not ever.

"Every political system is defined by its approach to property."

~ *Butler Shaffer*

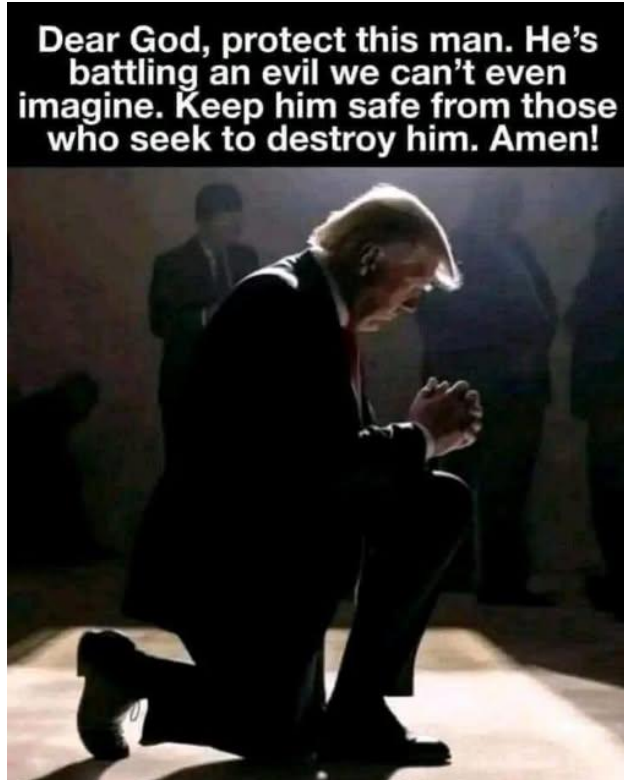

"We, the American People," because we cast our votes for Donald J., Trump et al in Election 2024 have yet to learn it is not by strength of our leaders we are able to live as free people. It is because we will accept nothing less, and because we will not allow our leaders to confiscate our property (wealth) and restrict our choice (Liberty) without our consent. And, to our detriment, we have consented.

"Imagine what would happen if you ran up and down the streets in your neighborhood telling people what they must eat, how they must raise their children and how they must keep their yards. You'd be in a continuing state of conflict and turmoil. Well, the same is true of nations."

~ Charley Reese

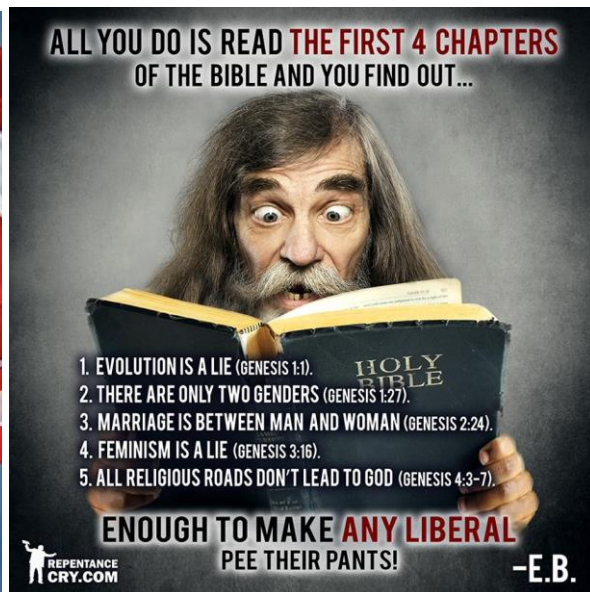

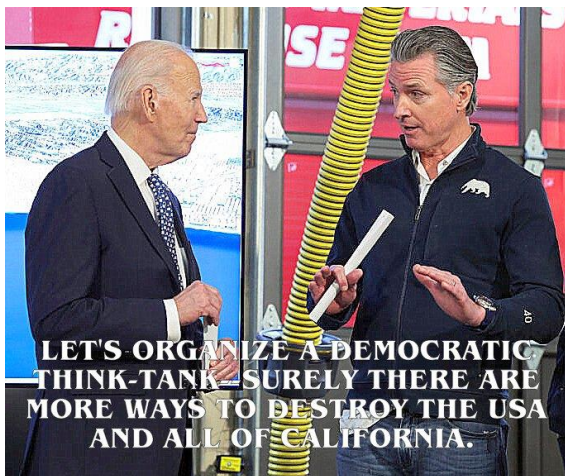

TIME MAGAZINE Inauguration cover just released

We Give Our Consent to our leaders to confiscate our property (wealth) and restrict our choice (Liberty) by refusing to exert our power as a sovereign citizenry to curb legislative lawful power and cinch government purse strings. We surrender our citizenry sovereignty to legislative office election winners who – with stated intent to uphold Liberty, go about making laws to define and limit Liberty.

"There will be no promise-keepers. The government, with cheering from overburdened corporations, will get the Federal Reserve System to inflate the money supply, making more fiat money available to pay off the obligations."

~ Gary North

People Serious About Living In Liberty do not allow legislators – or other public officials within These United States of America, to subsidize private enterprise with public money. They refuse to allow legalized political ideology to order their way of life.

1-20-2025

January 20, 2025, President Trump returns to power, as elected by the majority (popular vote), and it is our goal to restore The Constitutional Republic.

“Unless the people, through unified action, arise and take charge of their government, they will find that their government has taken charge of them. Independence and liberty will be gone, and the general public will find itself in a condition of servitude to an aggregation of organized and selfish interest.” Calvin Coolidge

On November 5, 2024, the people of the United States unified against lawfare and against elitists ruling our nation. We unified for free speech and freedom of religion, for the sanctity of life. We unified against the nonsense of DEI, and we unified in protection of our children by rejecting the WOKE-LEFT's attempt to normalize transgenderism and pedophilia; and we unified against the dehumanizing of girls and women. The American people unified with love for our nation and voted to put our nation, our people, and our children first.

If you want to be a strong nation, the strength, security and welfare of your own countrymen and women must be put first and foremost. Only then can you be a true leader of the free world. **We the People** recognized that the selfish

interests of an organization of politicians and bureaucrats, was failing our nation and set this nation on a downward trajectory.

As President Biden prepared for his exit from power, he started issuing “preemptive pardons” as if he were throwing candy from a float in a parade. While they screamed to protect democracy, they worked viciously to destroy our Constitution and the Republic and to gain more power. In my opinion, these pardons confirmed the guilt of those who launched lawfare and battle against President Trump, which was also against **We the People**. These pardons were presumably necessary to protect his political partners in crime, as well as his own family, who, using Biden’s name and office, practiced influencing for profit. We don’t know what they sold, but we know they sold out America!

Party-partisan lines have divided our nation, as they have lied and practiced great mounts of corruption and extortion against **We the People**. Another ugly truth is that medias, who were once trusted by Americans for news, are now failing institutions, as they have been caught aiding and abetting the criminal and deceitful actions of the democrat-Biden regime.

Americans have had a dark veil of evil hanging over our nation, but November 5, 2024, the American people rose up against this evil and once again chose **our unalienable Rights; Life, Liberty and the pursuit of Happiness**. *That to secure these rights, Governments are instituted among Men, deriving their just powers from the **consent of the governed**, --That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness.*

Upgrade to paid

On that fifth day in November, **We the People** overwhelmingly elected President Trump and rejected the corrupt government of Joe Biden and his Democrat Party. Since that day there has been a new feeling in the political atmosphere. Where once there was despair and desperation, there is now hope

and determination. People were no longer afraid to display their flags or wear their MAGA hats. The nation and the world changed as all began to see a glimpse of the sun shining through that dark veil of despotism; truth and commonsense were beginning to peak through those clouds.

The American dream has now been reborn, as President Trump and J.D. Vance took their oaths of office. It was one of the coldest inauguration days in the history of our nation, however the sun was shining bright, giving us all a warm hope for our future and for the future generations of Americans to come.

On Day One: President Trump has vowed to begin the about face of our nation. Putting America and Americans first, he will Make America Safe Again, Make America Wealthy Again, Make America Prosperous Again, Make America Healthy Again and Make America Great Again.

...And Now the Work Begins...

President Trump is the man in charge, but he cannot achieve “our goals” without **We the People** staying alert and engaged. As he moves forward, we must have his back. Legislators (on both sides of the aisle) are apt to balk and fight him; we must keep them accountable and remind them; that it was the voice of **We the People** who rose up in unified action and voice to... **Bring America Home©**

"As long as the 'dark side' of humanity is being exploited for political ends, the same deadly games will continue; the political show will go on. Plastic-encased ID cards will replace swastika armbands as indicia of authority, while 'ATF' jacket insignias will take the place of 'SS' lapel pins."

~ **Butler Shaffer**

Next Time You Sit At a closing table for your house you just bought, look around, count how many people are there. Every one is paid from funds turned over by you. You as house buyer. Closing financial statements will, without a doubt, have stipulations on who gets how much from whom. Bear in mind a salient fact. Noe buyer, no sale. All sale financial transactions come from one place. Nuyer.

"The American economic reality on the macro level is not record wealth creation, but national impoverishment, foreboding a declining living standard. Take the borrowed import surplus away, and U.S. living standards collapse."

~ *Kurt Richebacher*

Media Report Much Anticipated Trump Tariff changes are to be delayed while “Our, the American People’s” President Donald J. Trump deals with more immediate matters. One country’s currency is reported getting a bounce up because Trump tariffs are held in abeyance. In strict accounting terms, lower tariffs mean higher currency. Fundamentally, tariffs are no different than house buying.

"Their objective is to deprive the independent observer of any reliable benchmark against which to measure the eroding value, not only of the US dollar, but of all fiat currencies. Equally, their actions seek to deny the investor the opportunity to hedge against the fragility of the financial system by switching into a freely traded market for non-financial assets."

~ *Peter Warburton*

A Little Research Lets "U, the American People" know tariff's are paid, in trade jargon, by importers. Importers could be called dealers. But, it would be too easy for people to know exchanging goods and services for goods and services requires glossaries for people in one business to be classified differently than people in other businesses. Fundamentally, nothing changes: people sell, other people buy.

"Roughing people up through violence and threats of violence. That's what every line of every regulation comes down to."

~ **Lew Rockwell**

How Trump Tariffs Impact "Our, the American People's" financial lives will come down to one decision, and one only. Prospective buyers will decide to buy a product at its retail price, or., they won't, whether price comes from tariff cost, or shipping carton cost, or additional point-of-sale tax. Not any more complicated. Until governments get into mix and mic matters ton near unrecognizability.

"If ye love wealth better than liberty, the tranquility of servitude better than the animating contest of freedom, go home from us in peace."

~ **Samual Adams**

People Determined To Live In Liberty do not allow legislators - or other public officials within These United States of America, to require parents to enroll their children in public (government) schools. They protect their children's intellectual freedom and raise them to be thinking adults.
