"Democracy will envy all, contend with all, endeavor to pull down all, and when by chance it happens to get the upper hand for a short time, it will be revengeful, bloody, and cruel."

"The best way is to leave all laborers and employers, as well as all other sellers and buyers, free to ask and to offer what they think fit."

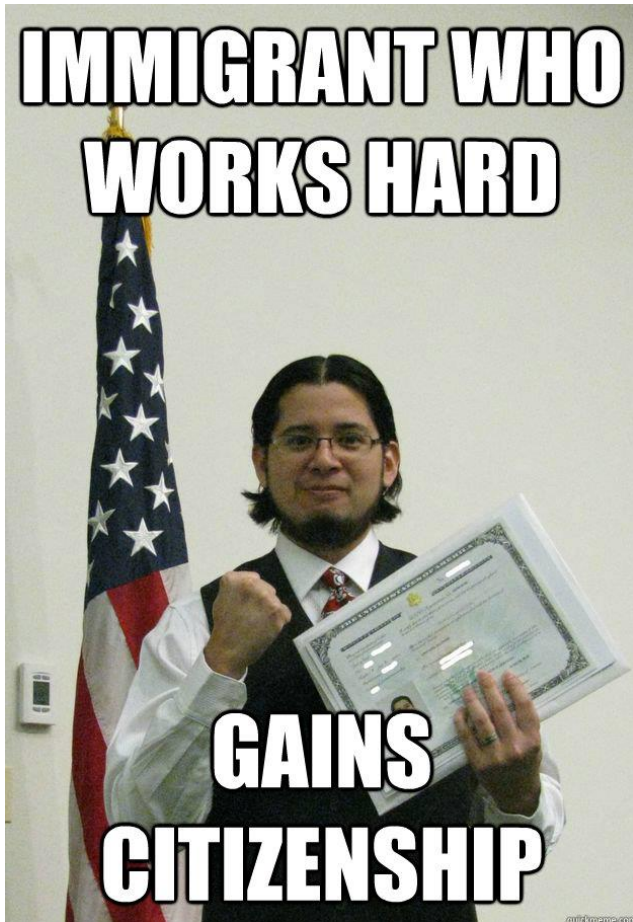

~ *Richard Whately*

One Of America's Major Media Networks has let "Us, the American People" know one of President Doanld J. Trump's attempts to expand presidential power has hit a snag. Citizenship birthright. A judge has, reportedly, called President Donald J.'s attempt to curtail citizenship for babies born of illegal non-U.S. parents on U.S. soil blatantly unConstitutional. Not in presidential Executive Order (EO) scope.

"There is no justification for public interference with purely private concerns."

~ *Calvin Coolidge*

"We, the American People," were we to chose to, could alter America's citizenship qualification criteria. Would take some organizational work, possibly even running rough shod over legislative-judicial resistance. merica's presidents have no positional authority to alter Constitutionally-set citizenship qualification criteria. Try, as America's presidents might. An EO will not fill such a bill.

"The property of the people belongs to the people. To take it from them by taxation cannot be justified except by urgent public necessity."

` *Calvin Coolidge*

“Our, the American People’s” legislators, judges, and other government officials, along with any number of scholarly pundits, activists, academics, et al, would, if they could, make their personal attitudes, values, and beliefs (PAVB) lawfully compulsory. Free societies like America’s (ostensibly free) are not generally amenable with individuals or a few people calling shots for everyone else.

"Unfortunately the Federal Government has strayed far afield from its legitimate business. It has trespassed upon fields where there should be no trespass."

~ *Calvin Coolidge*

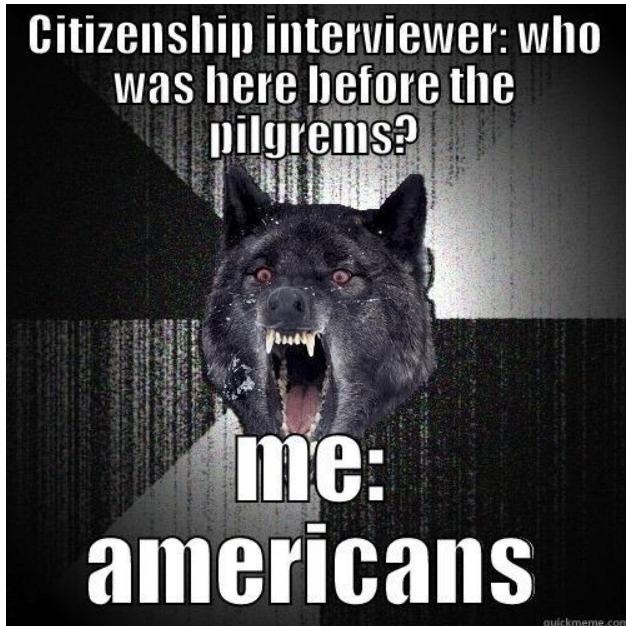

America’s Birthright Citizenship is not likely to change any time soon. President Donald J. will have to content himself with hunting down illegal immigrant/migrant/refugee (IIMR) folk to lay claim to

one of his campaign promises. Should President Donald J.'s IIMR deportation initiative do well, there may be no need to go through wickets of a Constitutional amendment process. Time can be better spent.

"You can display no greater wisdom than by resisting proposals for needless legislation. It is much more important to kill bad bills than to pass good ones."

~ *Calvin Coolidge*

People Intending To Live In Liberty do not allow legislators – or other public officials within These United States of America, to public (government) schools to delve into their children's attitudes, values, or beliefs. They raise their children to be independent thinkers.

"People who never dream of robbing their neighbors at gunpoint find it acceptable to have a government bureaucracy do the dirty work."

"Our enemies are innovative and resourceful, and so are we. They never stop thinking about new ways to harm our country and our people, and neither do we."

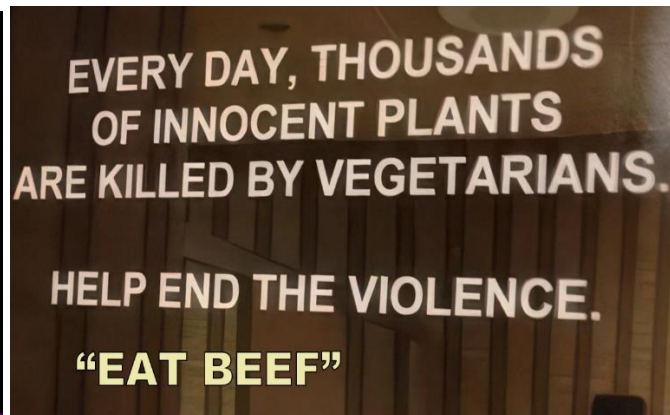

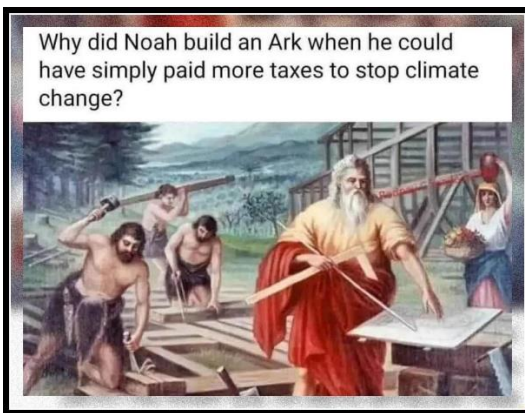

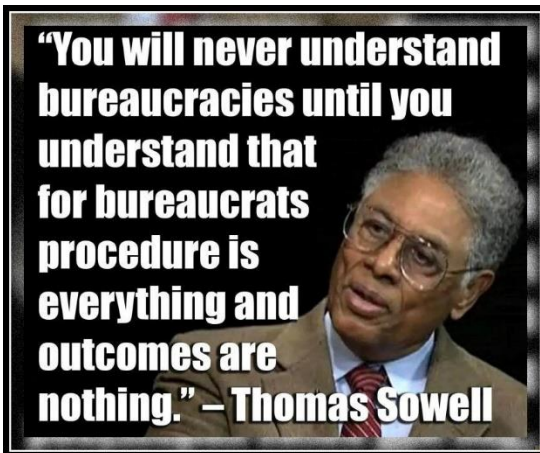

~ *George Bush*

“Our, the American People’s” President Donald J. Trump will not have an easy time carrying out his mass deportation plan. Not if a media article reporting a magistrate ruling against Donald J.’s plan is accurate. Legal, illegal. Constitutional, unConstitutional. Fodder for self-styled scholars and would-be influence peddlers. Only one thing matters. Donald J. Trump’s ability to force his policies through.

"Don't you wish you had a job that accrued more authority, paid higher wages, and demanded less responsibility the more you screwed up! Monopoly government thrives on failure."

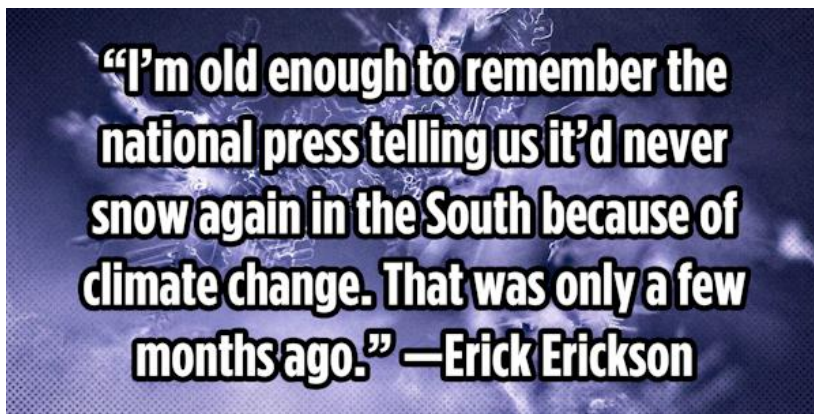

~ *Wes Alexander*

"We, the American People," were we inclined and committed, could stop President Donald J. Trump's policies cold, or, we could ram those policies through, no matter legislative, judicial, or special interest objection. Chances are, we'll sit his policies out, wait for future elections and keep him around or throw him out. We can keep Donald J., if we like. Constitution says not. 'T is our Constitution; we decide.

"Government spends our money like a madman, borrows from the future, devaluates the money we manage to keep, and STILL has deficits bigger than the closest planet!"

~ ***Wes Alexander***

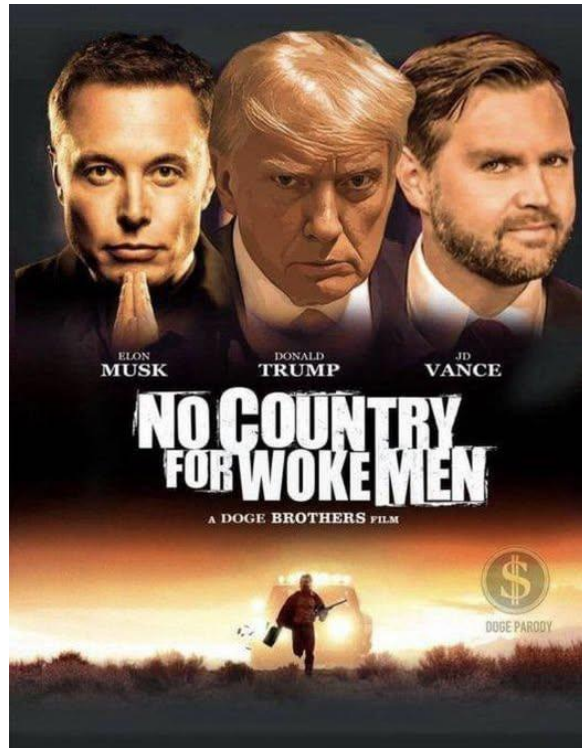

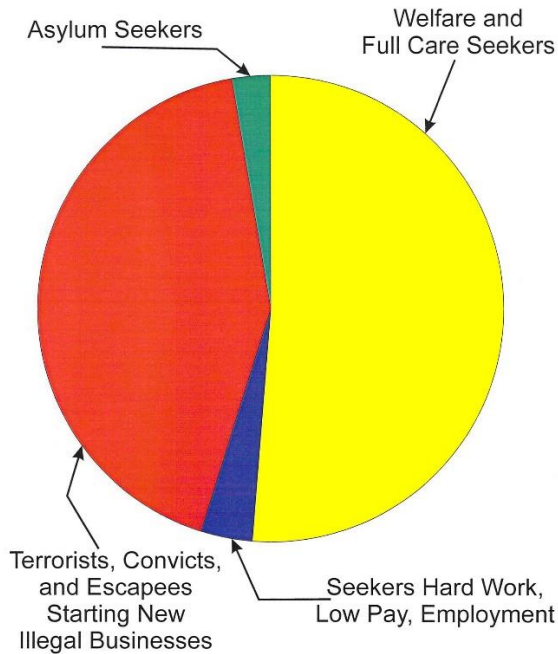

It's A Sure Bet For "Us, the American People" President Donald J. Trump's antics will keep America's courts in business. Donald J. isn't about to back down much, if at all. Wouldn't be surprising if Donald J. is keenly aware courts render opinions; government executive branches act on court opinions. As it happens, Donald J. Trump heads up America's federal government executive branch.

"The free market is a system for allocating responsibility. It is rarely seen this way, but that is what it is."

~ *Gary North*

Illegals Entering the USA

In his farewell address, Barack Obama referred to himself 75 times.

In his inaugural address, Donald Trump referred to himself 3 times.

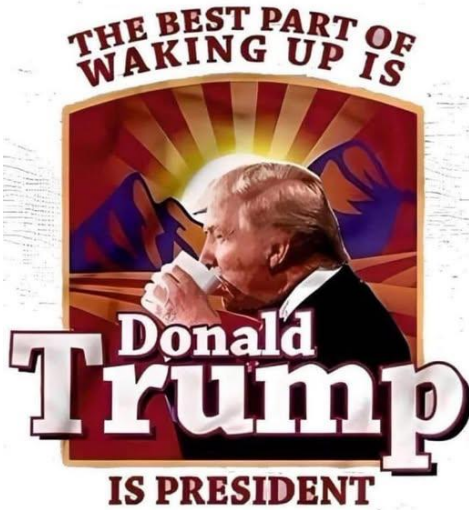

He referred to "We, the American people" 45 times.

America's Presidents Do Not Head Up America's fourth government branch. America's sovereign citizenry. America's sovereign citizenry has final say on virtually every move Donald J. Trump makes as America's president. President Donald J. Trump, if he has his wits about him, would not grapple with us, were we to converge as a sovereign citizenry. More likely, he'd accommodate our petitions.

"Trade is the natural enemy of all violent passions. "

~ Alexis De Tocqueville

People Electing To Live In Liberty do not allow legislators - or other public officials within These United States of America, to interfere or impose in any way with how responsible citizens choose to use their private property. They prohibit government from undermining their fundamental power to enjoy liberty – private property possession.

"Democracy does not pave the way for peace, prosperity, and civility. Democracy endangers private property rights and therefore liberty itself."

"I cannot undertake to lay my finger on that article of the Constitution which grants a right to Congress of expending, on objects of benevolence, the money of their constituents."

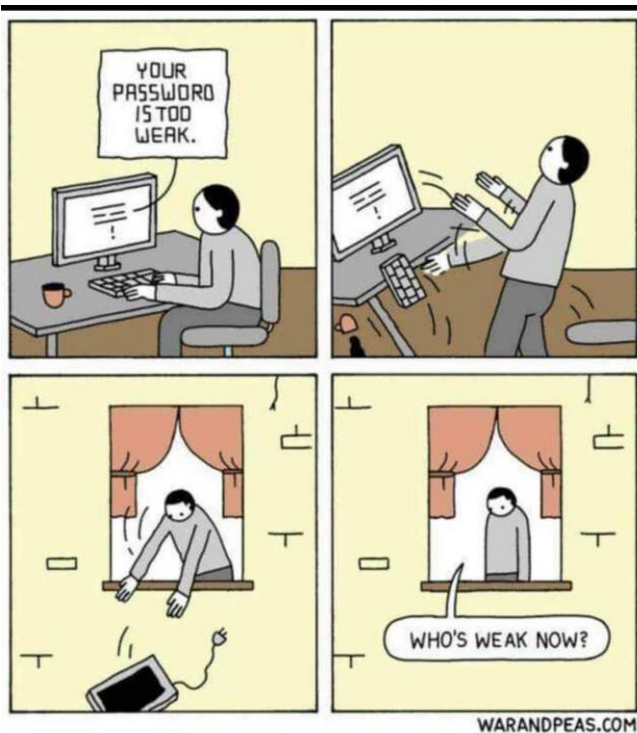

~ *James Madison*

“Our, the American People’s” media have a somewhat lengthy article summarizing President Donald J. Trump’s firing of some 50 intelligence community operatives involved with investigations viewed as biased toward a sitting Administration. Media coverage points out people in sensitive information positions ought not tell tales out of school. Reasons include security risks and ruination of lives.

"A man on his own knows that he is best advised to leave his dumbbell neighbors alone. But let him join a political party, and he fantasizes that he has the right and the power to tell everyone on the block what to do. "

~ **Bill Bonner**

Those Of “Us, the American People” who have worked in jobs where information security is paramount know well to be quiet. Violating security rules can be nasty on several fronts. Job loss is one. Get caught not following rules, you don’t get to play under those rules anymore. Should a rule violation be serious enough, violators are candidates for viewing life from, securely, behind bars.

"The Soviet Union, supposedly the mightiest police state the planet had ever seen, collapsed because it could not stand up to the impeccable logic of Ludwig von Mises."

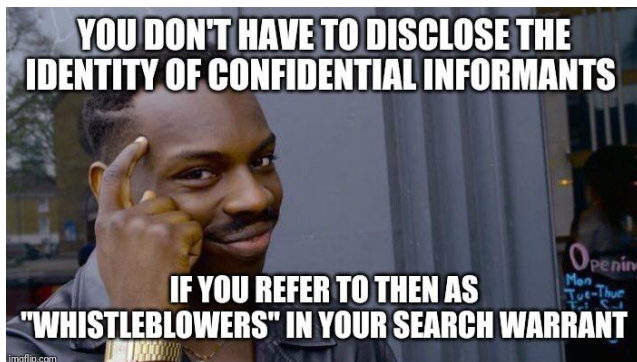

~ *William Anderson*

Governments Are Not Alone where information security is concerned. Equipment manufacturers of, say, powerful computers, are not disposed to reveal their computing power secrets. Stakes are high. Business survival. If "We, the American People" are in business where competition is keen, we are careful not to divulge our business success secrets. We'll contract for their use, not for their exposure.

"If President Bush and his security apparatus really want to make us safer, they should use the alert system differently."

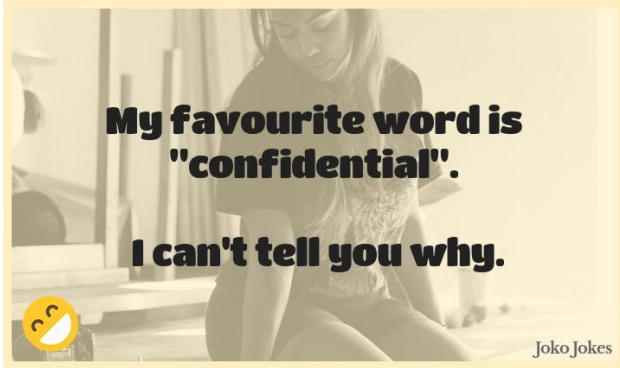

~ *Mark Weisbrot*

On A National Security Level, information security is similarly critical. Even when it comes to running for legislative office. Legislative clout is a highly coveted commodity. There are no fairness rules. Winning is it. Nothing else comes close. Sports at high levels means attracting spectators and consumers. Winning gets more money. Game plans are not analyzed in sports talk shows on TV.

"The post-9/11 age of American empire will close not with a bang but a whimper, suffocated by the laws of arithmetic, the constraints of public financing, and the limits of foreign borrowing."

~ *Ivan Eland*

People Planning To Live In Liberty do not allow legislators – or other public officials within These United States of America, to subsidize private enterprise with public money. They force government to uphold free enterprise.

"The war on terrorism is being brought to us by the same high-efficiency organization that has waged the war on drugs for five decades. We should expect similar results."

"You may give your own rights away, but you cannot possibly give away, however generous your mood, the rights of your fellow-man."

~ ***Auberon Herbert***

AI, AGI, ASI. Three Advanced Technological tools "We., the American People" are to fear as we've feared nothing more in human history. If conspiracy theorists are in touch with how Artificial Intelligence (AI), Artificial General Intelligence (AGI) and Artificial Super Intelligence (ASI) can penetrate and manipulate people's lives. All with people having no clue they're under watch and used.

"Herbert's key insight is that, because government rests on power, all claims to govern are simply contests of strength. Since government rests not on right but on power, government by its very nature invites contests of strength."

~ ***Jeff Snyder***

Media Are Rife With AI/AGO/ASI news and explanatory articles. Worry-wise, depending on article or paper selected, there are 14 or more specific ways AI (sometimes referred to as ANI (Artificial Narrow Intelligence)), AGI And ASI can, used by artful folks, take charge of someone's every breathing second. "Our, the American People's" ability to have self-determination swallowed by bits.

"But the moment that this truth -- that no moral foundations for unlimited and undefined power could by any intellectual ingenuity be discovered anywhere -- the moment that this truth was grasped in all its significance...., the moment that all rhetorical sophistries were swept aside, and it was seen that, morally speaking, three men had no better right to govern two men than two men to govern three, then at once it became open to any revolutionary section of the minority . . ."

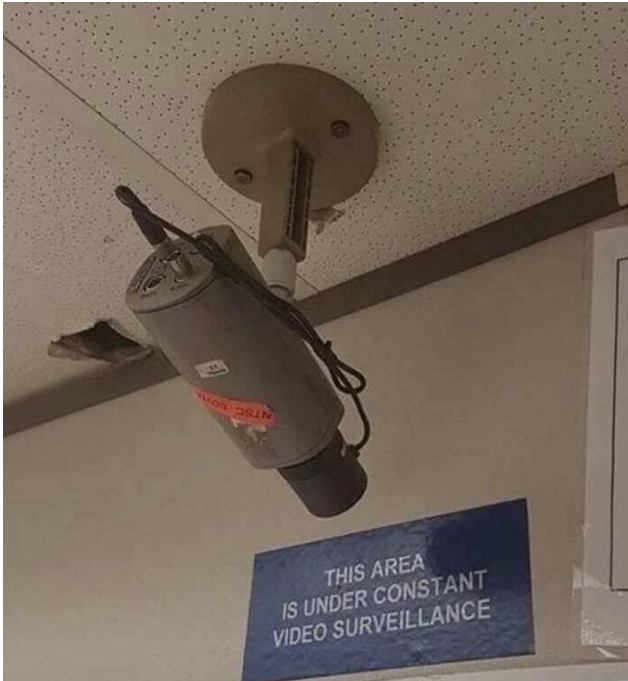

~ *Auberon Herbert*

They Who Worry In Extreme about how A(N)I/AGI/ASI can take over life are fearful, for example, an ASI system can run itself, make decisions by itself, and refuse to accept commands given it by a human or another ASI entity. They who worry so, are also dear paranoid about governments capturing A(N)I/AGI/ASI capabilities, withholding same from "Us, the American People," and enslaving us.

"When you get right down to it, 'Sharing the wealth,' is in no uncertain terms, Communism. Think about it: What else could you possibly call it? What else could you call penalizing people with money to pay for people who don't have it."

~ *Mike Rogers*

A(N)I/AGI/ASI Enslavement Would not be as was slavery of old. Modern day A(N)I/AGI/ASI slavery would be awareness slavery. Or, unawareness slavery, depending how one looks at it. A(N)I/AGI/ASI slavery would usher in a future wherein people would live in total bliss, in a manner of speaking. Might be thought of as sheer hypnosis. All needs met. All worries gone. All gone. All.

"An individual knows he cannot kill another individual without risking jail.....Or hell. But put him in a crowd, and he's ready to declare war on people he's never met for reasons he's never understood."

~ *Bill Bonner*

People Determined To Live In Liberty do not allow legislators – or other public officials within These United States of America, to give quarter to, offer sanctuary to, or negotiate with terrorists. They dismiss elected leaders who put them at risk.

"With respect to the words 'general welfare,' I have always regarded them as qualified by the detail of powers connected with them. To take them in a literal and unlimited sense would be a metamorphosis of the Constitution into a character which there is a host of proofs was not contemplated by its creators."
