“Our, the American People’s” media report President Donald J. Trump is out to have federal funds go toward school choice. Bound to be all sorts of political wrangling over President Donald J.’s taxpayer money use. Our look ought be centered on one thing, and one thing only. ‘Education’ has a solitary purpose – to control behavior. Anyone and everyone who focuses on education sets sights on behavior.

America's Schools Have Been a political hotbed a while. At hand, contest over who shall have authority to decide academic/attitudinal goals for young minds destined to shape civilization's' future. Such goals, depending on erudite professional expert consulted, can range from learning how to hug, to how to apply quantum mechanics theory, to adopting political ideology. Who gets to clutter minds.

"So that this nation may long endure, I urge you to follow in the hallowed footsteps of the great disobediences of history that freed exiles, founded religions, defeated tyrants, and yes, in the hands of an aroused rabble in arms and a few great men, by God's grace, built this country."

~ **Charlton Heston**

Kids In America's Schoolrooms – Schoolrooms most anywhere – are beset by 'educators' out to impart their skills and talents to their inquiring student minds. They who teach work to ingrain predictable behavior in students who have yet to discover how they shall go about finding a sense of worth and contentment. Kids remember those who nudged them to learn how to be intellectually free.

"Down through the welfare state to statism, to more and more government largesse accompanied always by more government authority, less individual liberty, and ultimately, totalitarianism, always advanced as our own good."

President Donald J. Trump, if he's as smart as some fans think, will not put America's energy sources at serious risk. Neither America's presidents nor Canada's prime ministers are crazy enough to put their positions in jeopardy in a who's-tariffs-more-valuable face-off war. Odds are American Canada-power customers will not see their internets go dark or their abodes be hit by no electric power service.

We have more horses than dairy cows in the US (9.5 vs 9 Million). Not to mention 140 Million dogs & cats consuming the equivalent amount of food as 70 Million people. Curious why cows but never horses, dogs or cats are an environmental issue. Food for thought.

Given President Donald J. Trump's 'Drill, Baby, Drill' energy cry, might not be too long till America's power grid is spilling over with excess kilo-megawatt surplus. Then, there's nuclear energy prospect. It would help for "Us, the American People" and Canadian citizens to get our collective backs up and let our legislators know they'd better keep our outlets live or we'll throw them out.

We will never grow tired of winning – and I’m not just talking about Chief’s football! GO CHIEFS! (Hey, I’m a Kansas City born gal)

Americans Are About Winning – We love to win!

However, we have been a bit beat up and felt “temporarily” defeated by our own government officials, as they turned on the American citizens for their own profit and seeking more power.

Why? Partly because we simply weren’t paying attention, and partly because we’ve been overwhelmed by so many laws, not to mention the infinity of bureaucrat red-tape rules, regulations, mandates, permits, fines and the cost goes on and on and on! This was happening from local governments; cities, counties, states and on up the “chain of command” to the federal level. Except, the top of that chain should be **We the People!**

The LEFT is no longer licking their wounds, but they are gearing up for a fight with Trump and his administration which means they are gearing up to thwart the will of the American People.

The defeated feelings **We the People** have had or been fighting to squelch, comes from years (decades upon decades really) of being groomed for serfdom.

Think about what we've been taught, or have accepted without questioning.

Social security –

We all took a number. How did that not make us feel as if we are “owned”? At first they told us this number could never be used for personal identification; that was a lie! Then later we were told that our children at birth must “take a number,” or we will not be allowed to declare them as dependents when we file our yearly tax returns.

Democracy –

This noun or adjective is thrown around everywhere; but you will not find it in our Constitution, our Bill of Rights, not even in (or especially not in) the Declaration of Independence. You will, however, find it on the lips (in quotes) of many of our Founding Fathers.

Edmond Randolph, delegate to the constitutional convention from Virginia said, ***“The general object of the convention was to provide a cure for the follies and fury of democracy.”***

Elbridge Gary and Roger Sherman, delegates from Massachusetts and Connecticut, urged the constitutional convention to create a system to eliminate the evils that flow from the excess of democracy.

Alexander Hamilton, delegate from New York said, ***“We are now forming a republican government. Real liberty is not found in democracy. If we incline too much to democracy we shall soon shoot into a monarchy.”***

John Adams, one of the giants of the American revolutionary period said, ***“Democracy will end the all, contend with all, endeavor to pull down all, and when by chance it happens to get the upper hand for a short time, democracy will be revengeful bloody and cruel.”***

Perhaps **We the People** would be wise to question just why they keep calling America a democracy?

Long Live Our Constitutional Republic!

Upgrade to paid

Upgrade to paid

Birthright citizenship –

The Fourteenth Amendment:

We’ve been taught (trained) in the public school system that if you drop a baby in the US, you are automatically a citizen. Let’s say this is true (which it is not

and was never intended to be used so ignorantly), who then implemented the chain migration laws so that these little newly birthed babies could legally bring all their relatives into the United States with them? **I'm guessing, Congress!**

Income tax –

A genius way to thief our money away; they take it before you ever see it! When that wasn't enough, they decided to tax workers on their tips. Greed is an ugly tyrannical way of leading a nation!

Property tax –

We pretend we own things in America. Land ownership was what once set us apart; that and the Second Amendment. The first they taxed away from us and the second, they have compromised away from us; infringed!

Bureaucracy -

Permits for this and for that! There are only three branches of government, and each is to be controlled by **We the People... Consent of the governed**. But the elected got lazy and greedy and started erecting all kinds of “new” offices and...well, let's see what our Founding Fathers thought of that:

He (the king then, Congress now) has erected a multitude of New Offices, and sent hither swarms of Officers to harrass our people, and eat out their substance.

(excerpt, the tenth grievance from the Declaration of Independence)

YEP... it has happened again.

Using the bureaucracy and calling it a democracy, the DC swamp has consumed our Constitutional Republic.

Thus our excitement when President Trump tells us he will drain the swamp and restore our Constitutional Republic!

Last week I referred to President Trump as the tourniquet, as he was stopping the bleeding out of our Liberty. Today I think we could say the President and his administration are the Triage Team. They are assessing the damage and doing quick fixes, which we will later have to make permanent. Apparently we have to define the Constitution to Congress and the bureaucrats so that they know their limitations without question!

"Our, the American People's" President Donald J. Trump is issuing illegal presidential Executive Orders (EOs). According to a high-ranking Congressional legislator from Connecticut on Congressional House Appropriations Committee. Legislator in question, reportedly, accused President Donald J. of defying Congressional authority by halting funding appropriated to implement laws.

"Do not steal, do not murder and hold your political leaders to these standards as well. Avoiding these things is not unduly restrictive. There were a multitude of trees in the Garden and only one to avoid."

Laws In Question Are Inflation Reduction and Infrastructure Investment and Jobs Acts. Connecticut Congressional Legislator maintains President Donald J. Trump's EO action on said Acts was taken to undermine America's 'Green New Deal.' Media coverage intimates a coming contest between federal legislative and executive authority, along with reports of judicial action and impeachment inducement.

"Monetary policy is--aside from war--the primary tool of state aggrandizement. It ensures the growth of government, finances deficits, rewards special interests, and fixes elections. Without it, the federal leviathan would collapse, and we could return to the republic of the Founding Fathers."

Doing so, our objective, if we are to remain a sovereign citizenry society, would be to cast a critical eye on how America's legislative-judicial system operates to strengthen our ability to lessen reliance on government as we go about living our lives.
