"Based on the idea of natural rights, government secures those rights to the individual by strictly negative intervention, making justice costless and easy of access; and beyond that it does not go. "

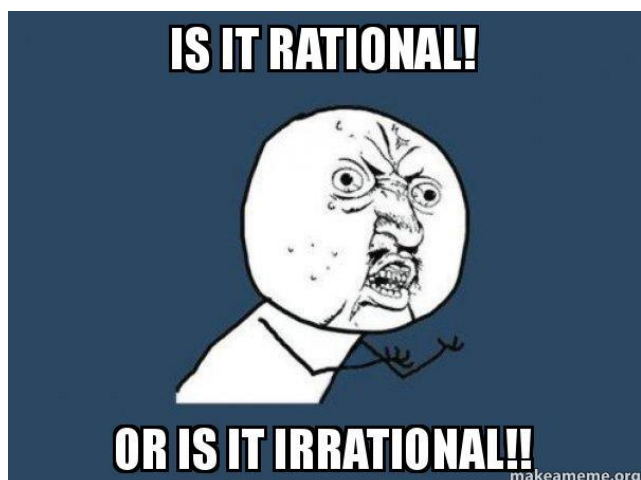

~ *Albert Jay Nock*

"Our, the American People's" President Donald J. Trump may turn out to be a ground-breaking catalyst for relentless self-government. Certainly, wouldn't hurt for an army of people with shovels breaking ground for Liberty. President Donald J., media reporting factually, may be hit with a restraining order on funding halts. Donald J., being Donald J., might just choose to ignore such order.

"Take the State wherever found, striking into its history at any point, one sees no way to differentiate the activities of its founders, administrators and beneficiaries from those of a professional-criminal class."

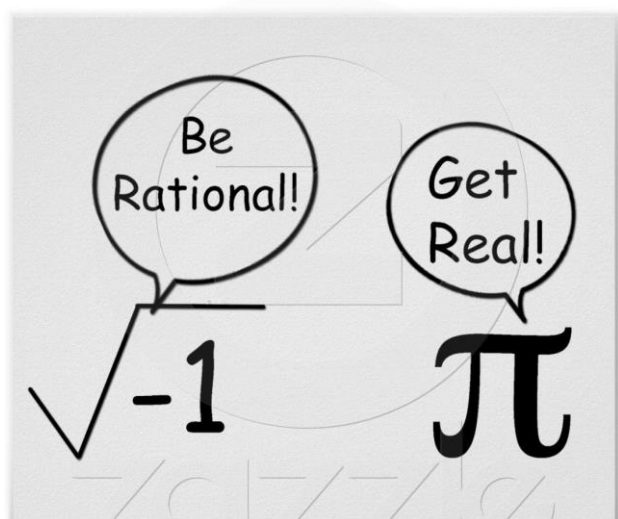

~ *Albert Jay Nock*

"We, the American People" are supposed to be a self-governing sovereign citizenry. No proactive self-governing sovereign citizenry would be falling over itself in near panic over a presidential initiative on tariffs (trade taxes), when a sovereign citizenry, made up of consumers, has final say on virtually every tax levied for any reason. No sales, no tariffs, no other taxes. Consumers pay for every tax.

"If we assume that the individual has an indisputable right to life, we must concede that he has a similar right to the enjoyment of the products of his labor. This we call a property right."

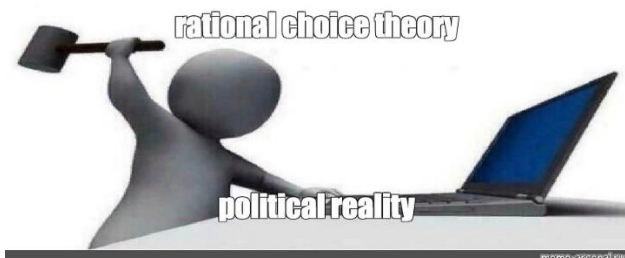

~ *Frank Chodorov*

It Would Be Fair To Say they who are apoplectic over President Donald J. Trump's tariffs (trade taxes) are not opposed to tariffs as not having power to levy them. Foolhardy for "Us, the American People" to get in a skunk-spraying contest over who grasps tariffs (trade taxes) or selective, arbitrary, and discriminatory legislation, taxation, and regulation (SADLT&R). Legislators seek SADLT&R power.

"We are prone to elect people who say what we want to hear, thereby putting in leadership positions more people who seek votes simply as a means to power, and fewer people of great stature. And perhaps the greatest irony of all, then, is that with this system, the people who have the least economic success have the most influence on our economy."

~ Marilyn vos Savant

Some Who Are Categorically Opposed to **ASK A HORSE** musings, or, who believe there are legislators opposed to SADLT&R, would be smart to recognize legislators who oppose SADLT&R would not hesitate to use lawful force eradicating SADLT&R. Legislators want their personal attitudes, values, and beliefs (PAVB) lawfully compulsory. A sovereign citizenry makes its PAVB prevail.

"In the end, governments are nothing but small, well-armed minorities attempting to impose its will on everyone else. They can be held at bay and even overthrown if the people resist."

~ Lew Rockwell

People Intending To Live In Liberty do not allow legislators – or other public officials within These United States of America, to cause any citizen to be drawn into an obligation to assume responsibility for public debt for reasons other than to defend these United States. They protect their security with wolverine-like ferocity.

Sometimes you have to admit it's time to retire.

On this day in Black History month we acknowledge President Obama the first Black man to spend \$65,000 of tax-payers money to fly in pizza and hotdogs from Chicago to a late night private party at the White House on May 14, 2009.

“Our, the American People’s” President Donald J. Trump and Canada’s out-going Prime Minister Justin Trudeau put their fertile minds together on how they might advance government’s capability to confiscate property (wealth) and restrict choice (Liberty). A startling outcome resulted. They figured out how to delay Trump’s pending tariffs (trade taxes) on Canada. Two ultra-super egos coalescing.

"The property of the people belongs to the people. A government which requires of the people the contribution of the bulk of their substance and rewards cannot be classed as a free government... "

~ Calvin Coolidge

 Update: Senator Chuck Schumer is now officially under investigation by the Department of Justice for making threats against conservative U.S. Supreme Court Justices!

Because America’s President Donald J. Trump and Canada’s Prime Minister Trudeau had an intellectual love fest on tariffs (trade taxes) is no indication “We, the American People” ought start thinking political heavy-hitters are disposed to work together to save Planet Earth from extraterrestrial onslaught or intra-planetary unpleasantness like illegal immigrant/migrant/refugee (IIMR) unrest.

"Unfortunately the Federal Government has strayed far afield from its legitimate business. But far more important than this would be its effect upon the fabric of our constitutional form of government, which tends to be gradually weakened and undermined by this encroachment."

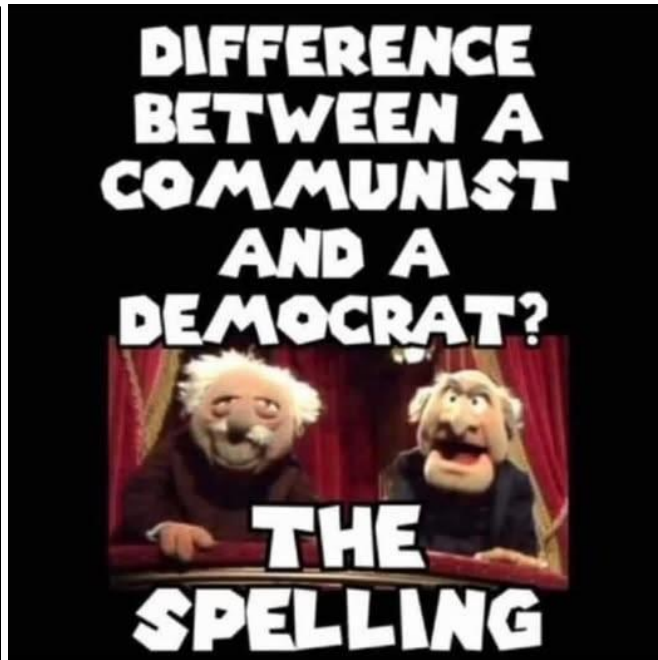

~ Calvin Coolidge

Never Ought It Cause "Us, the American People" to get deluded good times are ahead because political high-rollers collaborate on how to throw IIMR dice. Legislators-politicians never ease their aim for their personal attitudes, values, and beliefs (PAVB) be lawfully compulsory. Rather, they work to refine selective, arbitrary, and discriminatory legislation, taxation, and Regulatory (SADLT&R) power.

"You can display no greater wisdom than by resisting proposals for needless legislation. It is much more important to kill bad bills than to pass good ones."

~ *Calvin Coolidge*

Popes And Presidents (Legislators and clerics) have an limitless thirst to control people's lives. To their 'benevolence' credit, let us say their motives are all driven by love for their fellow humans. Their love, over centuries, over millennia, has been bestowed by lethal force. Lethal force used to destroy obstacles to their SADLT&R goal of peace and world bliss. They might have fought for Liberty.

"People who never dream of robbing their neighbors at gunpoint find it acceptable to have a government bureaucracy do the the dirty work."

"Don't you wish you had a job that accrued more authority, paid higher wages, and demanded less responsibility the more you screwed up! Monopoly government thrives on failure."

~ **Wes Alexander**

"Our, the American People's" President Donald J. Trump is pressing forward with a steady stream of Executive Orders (EOs). EOs, despite a president's ability to use EOs as policy hammers, are not law. EOs might have lawful force if EO content is based on existing legislation. Otherwise, EOs orders are somewhat like a mouse roaring. Media report President Donald J. put out some EOs on 'education.'

"Government spends our money like a madman, borrows from the future, devaluates the money we manage to keep, and STILL has deficits bigger than the closest plane! "

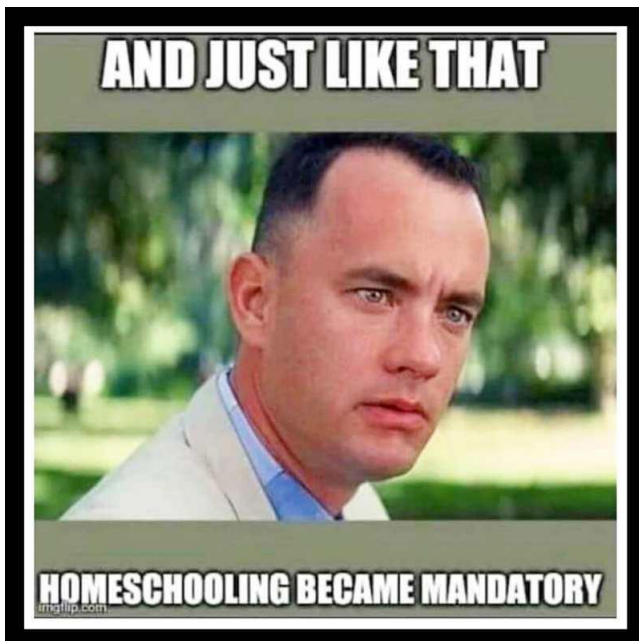

~ **Wes Alexander**

A Media Summary On President Donald J.'s recent 'education' EOs focus on funding, taboos on teachers coaching students through socialization, emphasis on 'patriotic' education, amongst others. "We, the American Pele" can discard virtually everything in President Donald J.'s 'education' EOs by bearing in mind 'education' has a singular, solitary, purpose – to control behavior. Nothing else.

"The free market is a system for allocating responsibility. It is rarely seen this way, but that is what it is."

~ *Gary North*

Legislative Office Seekers Use 'Education' aspects of their campaigns to get one result – votes. No different than terminal objective goals connected with any topic, any subject, any curriculum. End results are never divorced from controlling behavior. Behavior is spawned by personal attitudes, values, and beliefs (PAVB). Legislators, arguably, craft 'education' legislator to reflect their PAVB.

"Trade is the natural enemy of all violent passions."

~ *Alexis De Tocqueville*

**WHEN YOU WANT YOUR KID

President Donald J. Trump Is America's Legislator-in-Chief. Indirectly, President Donald J., in a sense is, thus, America's Educator-in Chief. It is not smart for "Us, the American People" to allow America's government to permit such position as 'Educator-in-Chief. Because, no matter intent of conscience, legislators legislate to restrict choice (Liberty). Liberty fosters ruthless intellectual inquiry.

"Democracy does not pave the way for peace, prosperity, and civility. Democracy endangers private property rights and therefore liberty itself."

People Serious About Living In Liberty do not allow legislators – or other public officials within These United States of America, to prompt public (government) schools to delve into their children's attitudes, values, or beliefs. They raise their children to be independent thinkers.

Civilization Is On Verge Of Total Collapse. If “We, the American People” are to believe media coverage of Asiatic region reaction to President Donald J. Trump tariff (trade tax) initiatives. Tariffs (trade taxes) are sure, according to media writer contributions, to scale up inflation world-wide. Only if, fundamental economic principles bear out, demand remains consistent in wake of price increases.

"No matter what the politicians may say when speaking before their favored delegates, this unwieldy apparatus of governance cannot and will not stand forever, as it will fall of its own weight.'

~ ***William Anderson***

What is a bull market?

**Random market movement causing
an investor to mistake himself for a
financial genius!**

Tariff (Trade Tax) Impact On People's pocketbooks is no different than any tax. A tax increase on business means a tax increase on business cost-of-sales. Cost-of sales increases, ultimately, mean either price increases or profit reductions. Profit reductions eat away at investor return on investment (ROI) and can hamper production improvement to keep a business competitive. Prices reflect costs.

"Every time the U.S. government meddles overseas--for example, needlessly invading the Islamic country du jour--and enlarges the bull's eye already painted on us here at home, the alert level should be raised a notch. Thus, in this election year, voters would have a better idea of exactly how safe government actions overseas were making all of us here at home."

~ *Ivan Eland*

**WHEN YOU'VE FINALLY
LOCKED ALL YOUR LOANS**

AND RATES DROP AGAIN

President Donald J. Trump's Tariff (trade tax) policies leading to world-wide financial duress is, more than likely, a stretch. Consumers are more likely to shift buying patterns to fit budgets, albeit comparative commodity quality could slip. Consumers with higher than typical discretionary incomes may decide to trim net worth and weather tariff (trade tax) storm – if a tariff (trade tax) storm erupts.

"What remains to be determined is how much the U.S. will pay--in lost and ruined lives, as well as bills for future generations--and how many enemies it will make throughout the world, before coming to grips with reality."

~ **Mark Weisbrot**

It Is, Push Come To Shove, government power-brokers, not marketplace buyers and sellers, who make life annoying with tariff (trade tax) bother. No private person or organization has taxation, including tariff (trade tax) power. Only governments use tariffs (trade taxes) to pressure other governments' policies. Sovereign citizenries can, if they are willing and determined, neutralize government ambition.

"The war on terrorism is being brought to us by the same high-efficiency organization that has waged the war on drugs for five decades. We should expect similar results."
