**There Is A Danger** “Our, the American People’s” government (federal government) is leaning toward anti-scientific handling of public affairs. Because of, media report mindset of nominees President

Donald J. Trump is pushing through Congressional confirmation. Along with President Donald J.'s Executive Order (EO) onslaught, one pending outlawing transgender athletes in women's sports.

"The logic is flawless: when a private business accidentally kills 146 people, we need to increase the power of the government, an entity that deliberately kills millions."

~ *Gene Callahan*

**Most Americans Are Said To Disagree** with male transgender athletes competing in women's sports. "We, the American People," however ought bear in mind presidential EOs dealing with matters not lawful do not have lawful authority. Presidents can issue EOs till America's proverbial cows come home. Unlawful presidential EOs are so much hot air. Sports teams can field whom they wish.

"The Fed's 'bills' enter circulation, indirectly as a loan. Interest is being paid on every one, in that it is being paid on the bank credit that 'bought' the bills. My homemade 20s and 50s, though, enter circulation interest-free. So who's the bigger crook: the 'legal' counterfeiter, or the do-it-yourselfer?"

**Donald J. Trump Is One Unusually** persuasive person. Chances are President Donald J. Trump will go after anything he wants, whether or not strictly within presidential authority. Presidents, no matter their actions lawful, can not overrule authority held by “Us, the American People” as a sovereign citizenry. Same is true for virtually all of America’s government officials. If tyranny is to be avoided.

"The state, being grounded in a network of lies and contradictions held together by force, is always threatened by truth."

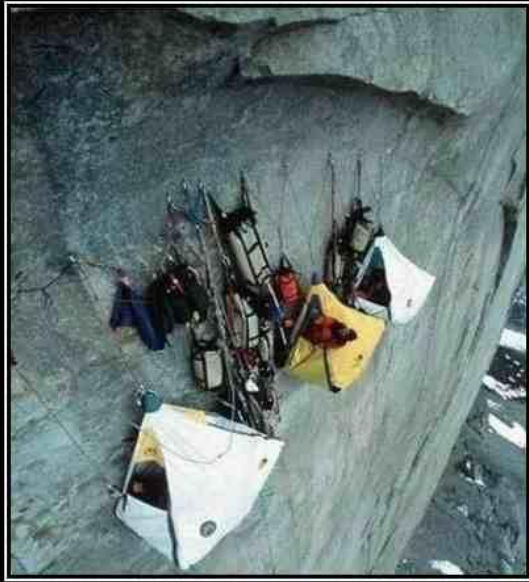

~ *Butler Shaffer*

**America’s Touchstone Commonwealth, Federal** (U.S./National), and state Constitutions articulate principals to be heeded by America’s government at all levels. Constitutional articulation is up for interpretation when legislator, judge, government chief executive seek making their personal attitudes, values, and beliefs (PAVB) lawfully compulsory. A man is seen from behind, standing in a vast, golden field under a dramatic, cloudy sky at sunset or sunrise. He is wearing a cape that is the American flag, with the stars and stripes flowing behind him. The image is framed by a black border.

**Legislators Advancing Presidential Terms Amendment** are doing so, media coverage not imaginary, to allow President Donald J. Trump election to a third term. America’s voters can write in candidates

*It Would Be Smart For "Us, the American People"* to make it abundantly clear to America's legislators, judges – and any other government official – they shall not interfere with our ability to elect whoever we choose to be our representatives in our government. President Donald J. Trump, as an aside, is said to have said he'd not support a pertinent amendment. His prerogative. Our choice, still.

**For such a time as this**, perhaps President Trump has been called; called to be the President of the United States. This man speaks loudly and without fear. He talks about all of the problems that plague this nation, as well as the injustice being waged against **We the People**.

While speaking truth on these issues brings hope to **We the People**, it brings fear and anger to all those who dwell within the established government (deep state). To them it is the call to war; at least politically.

Our elected officials and the appointed bureaucrats have worked many decades to minimize, twist and pervert our Constitution and laws. They have been busy replacing our Republic form of government (consent of the governed) with their preferred government, which is a totalitarian “democracy-bureaucracy” controlled police state against **We the People**.

When the democrats are in the majority, it is easy to see they hate private property ownership; they seek to control all educational institutions (from preschool on up to college). They seek to control families, the number of children you have, your neighborhoods, churches and communities. They demand complete control over your health. They dislike the words Life and Liberty, and yes, they are adamantly against your pursuit of Happiness.

In the opinions of these government shills; these democrats, RINOs, and bureaucrats, **We the People** should be seen and not heard; preferably seen as little as possible. We are allowed to come out and vote but until and after that time, we are to be their serfs! So when President Trump moves to restore our Republic they go into panic mode, regrouping to fight as best they can against our Constitutional Republic.

### **Upgrade to paid**

In recent remarks by the NY Democrat, Hakeem Jefferies, the House Minority leader, he said, *“Right now, we’re going to keep focused on the need to look out for everyday New Yorkers and everyday Americans who are under assault by an extreme MAGA Republican agenda that is trying to cut taxes for billionaires, donors, and wealthy corporations and then stick New Yorkers and working class Americans across the country with the bill.”* Jeffries took his statement farther as he said. *“That’s not acceptable. We are going to fight it legislatively. We are going to fight it in the courts. We’re going to fight it in the streets.”*

**America is in a precarious place in time; will We the People choose Independence and Freedom, or will we choose, as a convenience and compromise, to be serfs to king government?**

Larry Aarn, president of Hillsdale college (a Christian college that takes ZERO money from government) was on Mark Levin this Saturday. They were discussing “the times” in which we are living. I happen to agree with Larry, as he pointed out that what is happening today in America is going to be as historically significant as the Revolutionary movement (war) for Independence that established this nation nearly 250 years ago, and as morally shaping as the Civil War.

He also stated it will more than likely be very ugly and violent.

As I have stated before, Larry also believes that in his first term as President, Trump was naïve. He more than likely saw that the challenges and changes needed in our nation would be akin to a corporate war of sorts. However, the

deeply embedded “government” is much stronger, more aggressive, hugely corrupt and more POWERFUL than Donald Trump originally thought; not to mention, “they” play dirty!

Let me point out here that these things should not be. The corruption and large power of bureaucracy should have never had such a strong hold in our governing. However, the truth of these times, is that they are here and they do bully their power. Now, **We the People** have a decision to make! Do we choose Liberty and Freedom...or government dependence and serfdom?

***PO Box 73, California, MO 65018***

---

**Liberty is always in the hands of the people.**

*THESE are the times that try men's souls. **The summer soldier and the sunshine patriot will, in this crisis, shrink from the service of their country; but he that stands by it now, deserves the love and thanks of man and woman.** Tyranny, like hell, is not easily conquered; yet we have this consolation with us, that the harder the conflict, the more glorious the triumph.*

*What we obtain too cheap, we esteem too lightly: it is dearness only that gives every thing its value. Heaven knows how to put a proper price upon its goods; and it would be strange indeed if so celestial an article as FREEDOM should not be highly rated. Britain, (or our DEEP STATE) with an army to enforce her tyranny, has declared that she has a right **(not only to TAX) but "to BIND us in ALL CASES WHATSOEVER"** and if being bound in that manner, is not slavery, then is there not such a thing as slavery upon earth. Even the expression is impious; for so unlimited a power can belong only to God. **Thomas Paine's "The American Crisis"***

Much is being debated on the tariffs; I'm not an economist but it seems to me that it is only commonsense to understand that **We the People** will suffer a little now, but surely if we stay vigilant and strong, we will gain a lot in the end, as our trajectory is the righteous cause for Liberty! Summer soldiers and sunshine patriots will shrink; I pray that I am not that! We know for a fact that our President is strong, determined and vigilant for America and Americans. We should stand behind him and encourage our elected officials (on both sides of the political aisles) to listen to **We the People** and confirm President Trump's cabinet appointees.

***What we obtain too cheap, we esteem too lightly: it is dearness only that gives every thing its value.***

Do you choose or prefer the government we have had? Or would you now choose the government for which originally was given to us by the blood of our ancestors, the original American patriots, the government of a Free and Independent nation? I say we should choose to be the government; "Consent of the governed!"

Tariffs and firings and other changes would not have been necessary... **If, We Had Kept It!** Our Constitutional Republic!

**Upgrade to paid**

What is it you want for your children and grandchildren?

What legacy shall we now leave to our posterity?

Will my grandchildren one day say, Memaw did nothing, and said nothing, so now we live as slaves?

If we, in our generation do nothing now, it will become necessary for another to scribe, **“These are the times that try men’s souls.”** I have heard it declared, that once freedom is lost, it can never be retrieved; if so, it can then only be won by the blood of patriots; which will be the blood of our grandchildren.

Not a pleasant thought nor a pleasant outlook for America’s future, should we choose compromise over Liberty.

But do not be discouraged, be determined, for the election last November has given us a new rise of hope! President Trump is leading us, but it is **We the People** who must take charge, for ***Liberty is always in the hands of the people!***

Even today!
