"Socialism is workable only in Heaven where it isn't needed, and in Hell where they've got it."

~ *Cecil Palmer*

"We, the American People" would be smart to take a jaundiced stance when legislative-judicial, and executive branch government officials take on a tutorial or lobbying role. Observe and listen closely, we will, all but invariably, detect personal attitudes, values, and beliefs (PAVB) expression. As opposed to utter neutrality, as they are supposed to practice. We ought encourage their frank revelation.

"Liberty is one of the choicest gifts that heaven hath bestowed upon man, and exceeds in value all the treasures which the earth contains within its bosom, or the sea covers. Liberty, as well as honor, man ought to preserve at the hazard of his life, for without it life is insupportable."

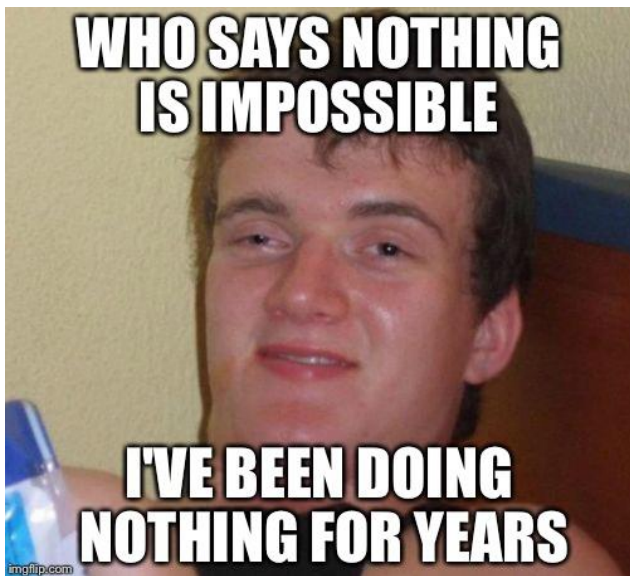

~ *Cervantes*

Legislative Impartiality, Judicial Neutrality, governmental fairness, academic and intellectual freedom, along with unrestricted socio-economic opportunity are impossible when laced with personal attitudes, values, and beliefs (PAVB) made lawfully compulsory. “Our, the America People’s” Supreme Court of the United States (SCOTUS) become tacit lobbyists by scorning court outcomes.

"The difference between a democracy and a dictatorship is that in a democracy you vote first and take orders later; in a dictatorship you don't have to waste your time voting."

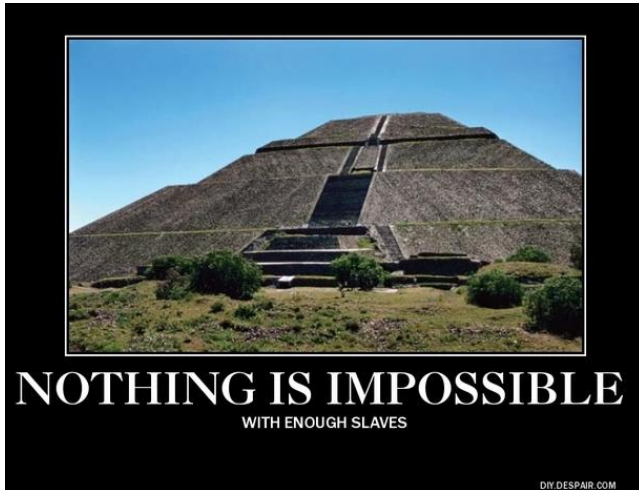

~ *Charles Bukowski*

No Thinking Human Being Is Without PAVB bias. No legislator, no judge (including SCOTUS Justices) , no government chief executive can lay claim to detachment attending their job as public official. Objectivity, with rare exception, if at all, is out of legislative-judicial reach. Society-wise, comparative objectivity, for “Us, the American People,” lies, perhaps, in authority’s devolution.

"Liberty will not descend to a people, a people must raise themselves to liberty; it is a blessing that must be earned before it can be enjoyed."

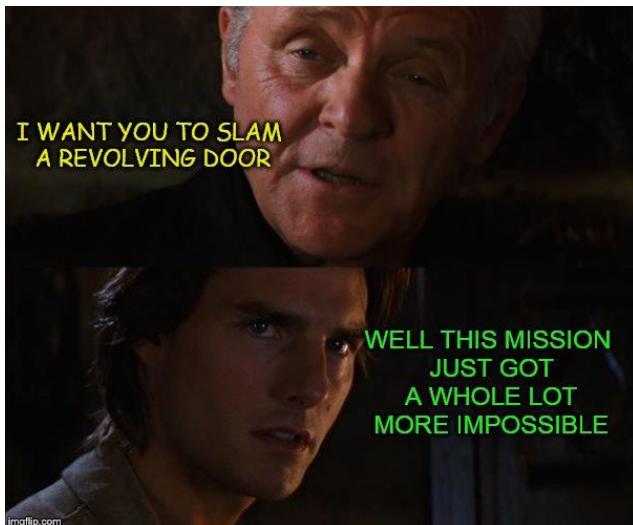

~ *Charles Caleb Colton*

Americas Commonwealth (Federal) (U.S./National), and state Constitutions, while eloquently written, do not offer legislative-judicial tranquility by neutralizing Lawfully compulsory PAVB. Constitutionality, Americana-wise, is far from consensus-like interpretation. As such, America's legislative-judicial goings on are incapable of quieting socio-economic unrest in our diverse culture.

"Liberty will not descend to a people; a people must raise themselves to liberty."

~ *Charles Caleb Colton*

People Intending To Live In Liberty do not allow legislators - or other public officials within These United States of America, to cause any citizen to be drawn into an obligation to assume responsibility for public debt for reasons other than to defend these United States. They require elected leaders to defend America's liberty unequivocally.

"We, the American People" are witnessing classic examples of contrast when it comes to Popes and Presidents (legislators and clerics) exerting their personal attitudes, values, and beliefs (PAVB) as standard bearers for everyone, regardless how everyone's Faith and quasi-modern day national fealty driven by (PAVB) come to bear on their efforts to have ordinary people tow cleric and legislator marks.

"Our, the American People's" Supreme Court of the United States (SCOTUS) Justice Clarence Thomas, media report, has come down hard on a circuit court for not respecting rule of law. Justice Thomas was emphatic, asserting case must be retried in light of precedent. Pope Francis has an encyclical out on immigrant support Vice-President J.D. Vance is reported to categorically denounce.

Islam Has Massacred Over 669+ Million Non-Muslims Since 622AD

Islam has killed more than 5 times the number of people killed by communism.

In the total numbers we have updated over 80 million Christians killed by Muslims in 500 years in the Balkan states, Hungary, Ukraine, Russia.

Then we have India. The official estimate number of Muslim slaughters of Hindus is 80 million. However, Muslim historian Firsihta (b. 1570) wrote (in either Tarkh-i Firsihta or the Gulshan-i Ibrahim) that Muslims slaughtered over 400 million Hindus up to the peak of Islamic rule of India, bringing the Hindu population down from 600 mil to 200 million at the time.

With these new additions the Muslim genocide of non-Muslims since the birth of

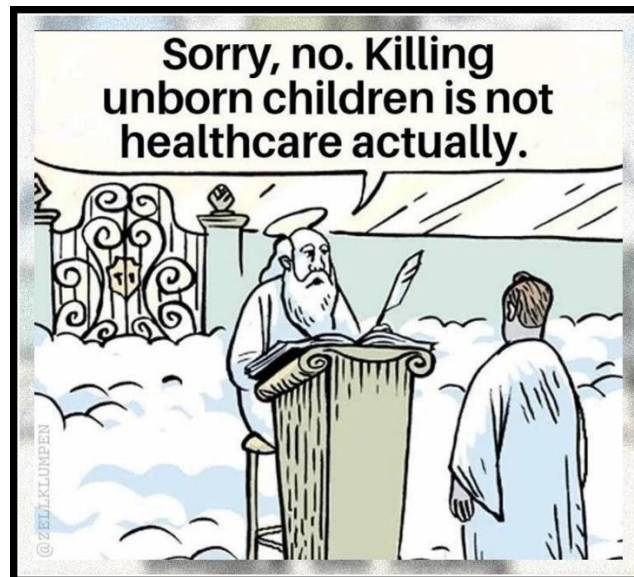

It Would Be Smart For “Us, the American People” to bring clear minds to bear when tempted to take sides with those in positions of authority who apply PAVB as part and parcel to their positional authority. Pope Francis, based on denouncing V-P Vance ‘America first’ immigration stand, would have America open her borders unconditionally, with Americans to bear immigration financial burden.

Justice Thomas And His Holiness could be seen as intruding where they should refrain. At least until they are directly involved with specific cases being handled by other authorities close at hand. No doubt, however, we, as sovereign citizens and free-thinking proponents, will be urged by our differing PAVB to side one way or t' other. Urge to control other people's conduct is nigh on irresistible.

If There Is A Bone Fide Constitutional crisis at hand, “We, the American People” could glean, from media coverage, such Constitutional crisis is perpetuated by America’s judiciary balking at President Donald J. Trump’s executive Order (EO) actions to implement Trump/MAGA agenda. Presidential EOs are directed at federal agencies under presidential supervision. Ordinary Americans indirectly.

"Perhaps one of the most important accomplishments of my administration has been minding my own business."

~ *Calvin Coolidge*

Media Word Is Presidential Donald J. Trump Administration will comply with judicial orders, but will pursue all legal avenues to gain ultimate court concurrence. Ultimate court concurrence can be taken to mean run cases through appellate system, ultimately, getting either Supreme Court of the United States (SCOTUS) backing, or, SCOTUS returning, deal with lower court level opinions.

"I want the people of America to be able to work less for the government and more for themselves. I want them to have the rewards of their own industry."

~ *Calvin Coolidge*

Equal representation
for states

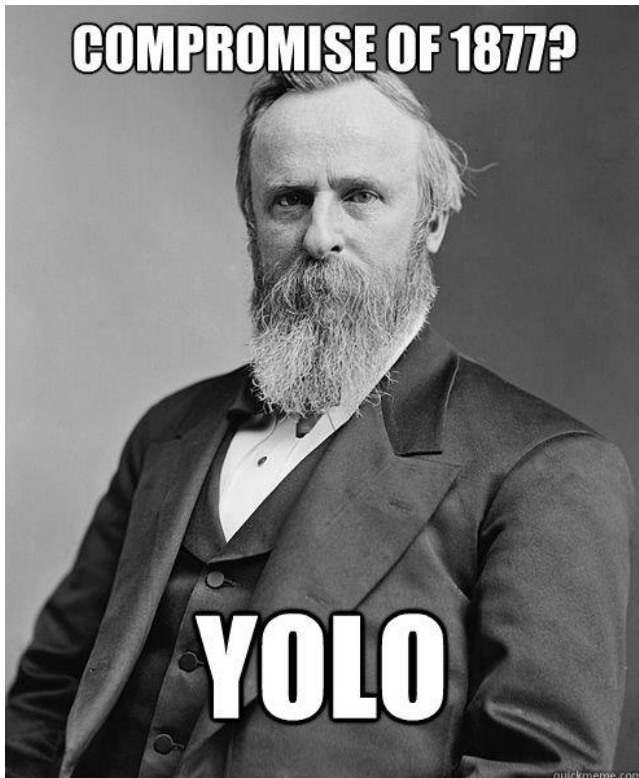

3/5 compromise

"Our, the American People's" judicial system is not predisposed for cut-and-dry results. There is no clear remedy for situations where executive and judicial government branches disagree i.e. SCOTUS rules against president; president ignores SCOTUS, goes about business; Congressional legislators bring impeachment charges; Senate and president are in political majority, stand united. Impasse.

"Nothing is easier than spending public money. It does not appear to belong to anybody. The temptation is overwhelming to bestow it on somebody."

~ ***Calvin Coolidge***

It Is Possible For "Us, the American People" to ban together and minimize times when America's government is hamstrung by three, ostensibly co-equal, branches ending up in gridlock over jurisdictional authority. We could limit legislative-judicial-executive authority to our lowest political subdivisions. No higher-level intervention except in extraordinary circumstances. Not ideal. Better.

"No matter what anyone may say about making the rich and the corporations pay taxes, in the end they come out of the people who toil."

~ *Calvin Coolidge*

People Committed To Living In Liberty do not allow legislators – or other public officials within These United States of America, to set limits on interest earned or charged in any financial transaction

between private citizens or between private citizens and any financial institution or company not backed by public money. They uphold citizen sovereignty and self-government.

PI2025 #0177 – Overturned By Appellate Review

"It is poor civic hygiene to install technologies that could someday facilitate a police state."

"Terrorists can only take my life. Only my government can take my freedom."

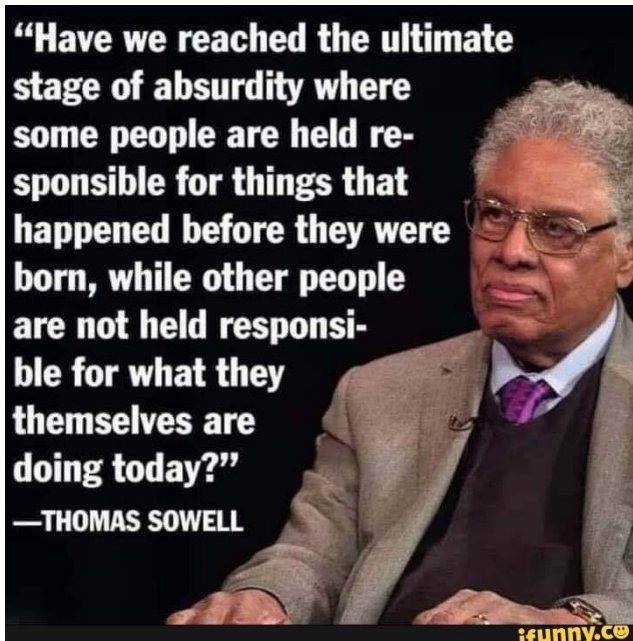

~ ***Bruce Schneier***

"We, the American People" ought not be duped into thinking America's judges are non-partisan, apolitical persons. Judges, chips in, are people who may be more conversant in points of law and origins of law. There being no incontrovertible standards judges can go by when trying cases, judicial decisions, shocking as it may seem, stem from judges' personal attitudes, values, and beliefs (PAVB).

"I can scarcely contemplate a greater calamity that could befall this country, than be loaded with a debt exceeding their ability ever to discharge. If this be a just remark, it is unwise and improvident to vest in the general government a power to borrow at discretion, without any limitation or restriction."

~ ***Brutus***

Media Report One Of “Our, the American People’s” Supreme Court of the United States (SCOTUS) Justices delivered a masked warning against monarchy-like power plays. Without naming who was targeted in said warning. Justice in question phrased implication as, “Court decisions stand, whether one particular person chooses to abide by them or not.” Or, until overturned by appellate review.

"There are only two mistakes one can make along the road to truth; not going all the way, and not starting."

~ *Buddha*

It May Be Common Knowledge to, at least, some of “Us, the American People” court decisions are neither permanent, nor laced with enforcement power. Court decisions, if they are to be enforced, are

enforced by members of law enforcement; by America's governmental executive branches. Suich being so, America's presidents may well choose to ignore SCOTUS decisions. Odd, true, nonetheless.

"The idea of creating systems designed to threaten, coerce, and kill, and to imbue such agencies with principled legitimacy, and not expect them to lead to wars, genocides, and other tyrannical practices, expresses an innocence we can no longer afford to indulge."

~ *Butler Shaffer*

When America's Chief Executives choose not to act on court orders, they can be held to account by legislatures. Legislatures, however, are composed of people with political ties and who, not unlike magistrates, operate by their PAVB. Chief Executive impeachment not likely when executive branches and legislatures are of like political membership with majority-vote power. Might as well role dice.

"When you think of the long and gloomy history of man, you will find more hideous crimes have been committed in the name of obedience than have ever been committed in the name of rebellion."

~ *C.P. Snow*

People Determined To Live In Liberty do not allow legislators – or other public officials within These United States of America, to interfere or impose in any way with how responsible citizens choose to use their private property. They protect their property against government intrusion – with force if necessary.

"No one is fit to be trusted with power. ... No one. ... Any man who has lived at all knows the follies and wickedness he's capable of. ... And if he does know it, he knows also that neither he nor any man ought to be allowed to decide a single human fate."
