

If “We, the American People” consult a lexicon – a dictionary, we’ll find inflation defined as a rise in cost (price) of good and services over time. If we look to trusty AI sources to cite a dictionary for inflation causes, odds are we’ll find AI sources categorizing types of inflation, as opposed to delineating inflation causes. An example of an inflation type would be cost-push inflation, e.g., production costs.

It Should Come As No Surprise to “Us, the American People” Election 2026 campaigns will have loads of propaganda and rhetoric designed to have us cast ballots for candidates vowing to force prices down for us as consumers. “Our, the American People’s” government, as do other governments, no matter who happens to have legislative, executive, or judicial majority, .

# WHAT INFLATION?

**A PACKAGE OF GROUND BEEF COSTS THE SAME AS IT DID LAST MONTH.**

*It Would Be Smart* for “Us, the American People” to recognize government, while it can influence inflation through fiscal and monetary policy – or other means such as by waging war – can not control time and effort required to offer goods and services to consumers. Government can impose property (wealth) confiscation and choice (Liberty) restriction through sundry tactics, but can not control cost.

“Give peace a chance.”

~ *John Lennon*

*Governments Work To Achieve Ideological* aims through selective, arbitrary, and discriminatory legislation, taxation, and regulation (SADLT&R), private-owned government-controlled public

housing an example. Public housing costs to occupants and taxpayers weigh heavily on inflationary trends. SADLT&R is a mandate, not a productivity mechanism. Productivity defies legislation.

“We, the American People” have twenty-five decades of legislator-politicians making campaign promises not kept. Politicians and legislators have a way of shifting broken promise causes to other

people, not least their predecessors. We would be smart to not take legislators or politicians at their word. For one thing, if no other, lawmakers have to contend with chief public executives and judges.

**THE AMERICAN DREAM NOW... IS TO LIVE AS FAR AWAY FROM ANY LIBERALS AS POSSIBLE** 

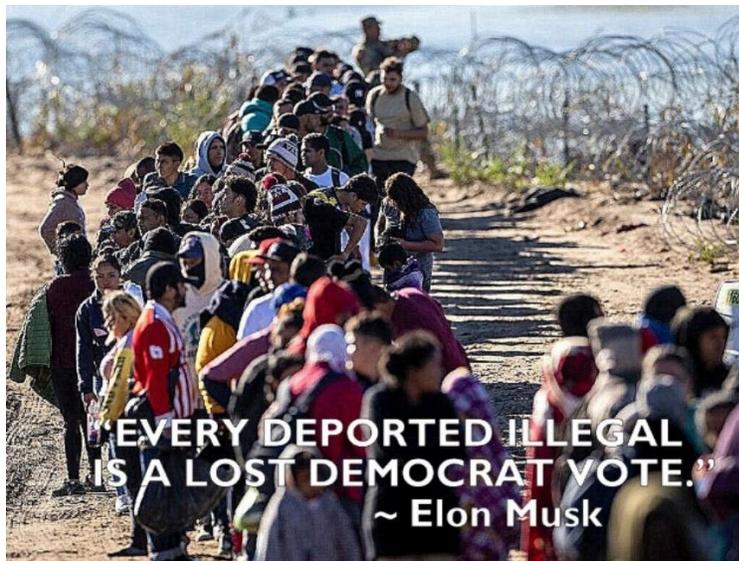

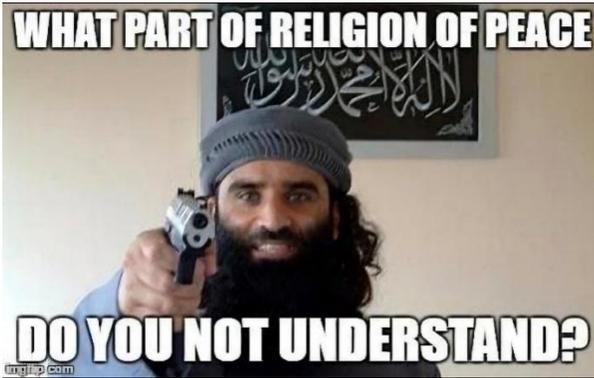

Mayor Mamdani Is On Record saying one of Big Apple measures to bring renter relief will be fighting rental rip-offs. We would not be short sighted to interpret rip-ffs to mean excessive rental rates. Mr.

Mamdani might even decide to lower allowable rental prices so low rental property owners would not be able to cover costs of keeping rental units to acceptable standards. Profit is evil in some eyes.

## **Losing Patience!**

When Americans lose their patience, tyranny will end and Liberty will once again win!

***“The marvel of all history is the patience with which men and women submit to burdens unnecessarily laid upon them by their government.”***

**George Washington**

In the last couple of weeks, I've watched as New Yorkers express their disappointment in the current administration and want President Trump back in the White House working to Make America Great Again! The gentleman in the hardhat mentioned jobs, economy, the illegal alien invasion, and the rise in crime, as his reasoning to put Trump back in the White House.

While Katie Couric believes Americans who favor MAGA policies and President Trump are jealous of intellectuals like herself, I can assure her, Americans give her very little thought! Intellectuals like her have lied to the American people, suppressed real news for fake news, they are the ones who have brought a great deal of the division in this nation; from the 2020 mostly peaceful riots, to Antifa and BLM burning cities, open borders, anti-Constitution policies, higher taxes, and fewer jobs for Americans. It is the intellectuals who cannot define a woman, believe men can have babies, murdering the unborn or new-born is ok. The intellectuals agree with placing pornography in front of small children and subjecting them to perverts, such as drag queens. Intellectuals in the education

system will hide the crime of a rape of a young female student in the female's bathroom by a trans male pretending to be female. Intellectuals are racists and believe you must give those who are underqualified jobs regardless of who might get hurt. Intellectuals are not smart enough or tough enough to fight their way out of a paper bag. No, we are not jealous Katie, and frankly, I've lost all pity for you as well. Intellectuals are shallow, self-centered narcissists who think they know everything but in reality are incapable of an honest conversation or logic, because they possess no common sense.

Will the blue states turn red? Political analysts love to predict this or that, but it is Americans who will decide. We do need to be well informed, however, things are increasingly and obviously dangerous now and our way of life has been grossly deteriorated by the democrat policies, which go against all that is good in America. Yes, Americans are awake and we have lost our patience!

### **Upgrade to paid**

I recently read in the Washington Examiner that according to a new poll from *Axios*, 51% of the population wants to see the government conduct mass deportations of illegal immigrants. Perhaps most astonishing is that the policy is supported by 42% of Democrats, indicating that even the president's own party is fed up with his handling of the issue.

It only makes sense that all the illegal aliens that have entered this nation illegally, whether in the last three-plus years or the last 30 years, should be deported; their children too! There should be no birthright citizenship given to those who entered this nation illegally. If they are truly seeking asylum, they need to plead their case in a legal manner. DACA is done; expired!

*I have one exception to this deportation, all those who are victims of human trafficking should be given the choice to stay here or return to their homes.*

This may all sound hard and cold, but I can assure you that if you want to restore peace, Life, Liberty and that wonderful pursuit of Happiness, we must fill our nation with citizens who love her and respect her and respect the Rule of Law.

Regarding the hardened illegal alien criminals: Those who have been found guilty of murder and other violent, horrific crimes, or distributing fentanyl, should automatically be given the death penalty. There is no reason for this nation to grant room and board for the criminals of other nations. I do realize that the very ones who are ok with murdering the unborn and newly born (intellectuals), believe the death penalty is cruel but the death penalty is Biblical and America must protect the innocent by punishing those who are a threat and danger to Americans.

### **IF YOU DON'T LIKE US, LEAVE US!**

If you are anti-American and believe our Constitution is out of date, then it might be time for you to go!

### **Loyalists leave America**

It was in January of 1782 when America had a large evacuation. After defeating Great Britain, those colonists, who were loyal to the crown, and who actually preferred a dictatorship over freedom and independence, were sent packin'! The evacuation was to the tune of nearly 100,000 colonists. You can't build a nation fighting from within, knowing there are spies among you who are loyal to your enemies.

**It's no different today really.** We have so-called American citizens, who have been fighting against our way of life, who hate our Constitution and abhor our Bill of Rights.

We have sat back for decades and watched as the ones we elected to protect and guard our nation used their positions to profit, to steal and to commit all kinds of immoral acts.

The most recent example of this hate is their hyperbolic reactions to President Donald Trump. Notice too that it wasn't just one-side of the political aisle. Hillary Clinton lost her race, threw a drunken fit (proving she's not fit to govern), then in her bitterness and anger she paid for a fake dossier in order to frame the President of the United States. The late Republican Senator John McCain helped distribute this false document. We watched as many in Congress lied and attacked President Trump, impeaching him twice. Nancy Pelosi showed her contempt, not just for President Trump, but for all America, when she stood there in front of God and everyone, as "the Ripper of the House," tearing the President State of the Union speech into. Making a show of her personal disdain, the Ripper of the House insulted the position of the President of the United States before the world. She should have been fined and kicked out of her positions, but there were no consequences for her disrespectful behavior. Today, she actually has the gall to tell President Netanyahu to resign.

### **IF YOU DON'T LIKE US, LEAVE US!**

Hollywood elites, some political figures (both sides of the aisle) in the past have "threatened" to leave America if the candidate they choose is not elected. We've heard their idle-shallow-promises to depart numerous times! Since the majority of these are believers in "free choice," it is my opinion, that it's time we actually allowed them their freedom. In fact, we should demand they have their freedom. It just makes sense to me to strip them of their citizenship and send them to their country of choice. Maybe if we sent them all to Haiti they could prove to us how well and perfect their intellectual ideas truly are...

I'm only halfway kidding in this evacuation plan; they should choose, they might not prefer Haiti. I am serious, however, about evacuating all Americans who hate America, just as was done in 1782. If we are to Restore America in 2024 we need true freedom loving Patriots involved and working toward MAGA. I don't want to listen to any idiotic politician or "intellectual" telling me that America was never that great to begin with. It was the first part of Governor Andrew

Cuomo's statement that gives reason to evacuate all those who say, "We aren't going to make America Great again." Fine, then leave! Seriously, if you don't like us, leave us... and don't let the door hit-ya on the way out!

### **United We Stand, Divided We Fall!**

***"We must, indeed, all hang together or, most assuredly, we shall all hang separately."*** Benjamin Franklin

We must all stand with the gentleman in New York wearing a hard hat. This American gets it! He sees the enemy, he has felt the sting of the enemy, he has lost his patience with the current administration, and he's voting to MAGA!

Lest you think that this is about Trump, I assure you it is not! This is about America. We are in a war for the very soul of this nation. The left, those Katie Couric intellectuals, will not be satisfied until they serve you up more suffering and slavery. They back a president who is only a figurehead, who has no authority. If they have their intellectual way, our nation will continue to be run by the deep state; established bureaucratic dictators, who ignore and hate our Constitution and American way of life.

**When Americans lose their patience, tyranny will end and Liberty will once again win! ...because Liberty is always in the hands of the people, but first it must be a longing and a lust within their hearts.**

Lose your patience America and let's **Bring America Home.** ©

worth a trillion greenbacks, but people are working more, not less. AI, if nothing else, is a convenient way to check multiple fact-finding sources. Lest there's a virus-like conspiracy deceiving all but Elon.

“Underlying most arguments against the free market is a lack of belief in freedom itself.”

*A Related Ai Doom-And-Gloom* article asserts AI is causing intellectual fatigue. Article refers to a study wherein workers report something known as work creep, along with longer time spent on and at work. One worker surveyed reported giving AI prompts before doing something else so AI could keep turning away unsupervised. “We, the American people” certainly don’t want AI unsupervised.

“We have a system that increasingly taxes work and subsidizes non-work.”

*Hard To Argue Time Is Invaluable.* Anything we can do to save us time is more than worth “Our, the American People’s” time. AI sources are in universal accord: AI saves time. Our neurosis over

Media AI Coverage Points To AI heightening productivity. This AI power is looked at, by some, as a potential for greater performance expectations from workers. Due having more efficient tools at their disposal. More productivity demands can make one's sense of urgency take a turn upward. Or, so one could conclude, is implied. Could be we'll be hearing of AI burn-out in due time. As AI permeates.
