"Live free or die; death is not the worst of evils."

~ *George Stark*

Food was too expensive, so I went
with something cheaper for dinner

Inflation (Too Much Money chasing too few goods and services) did in former President Joe Biden's presidency. Inflation could do in President Donald J. Trump's presidency. So, saith a media article writer. President Donald J. doesn't have too long to figure out how to claim he's had a favorable impact. "We, the American People" are unwitting to think presidents control economic outcomes.

"The saddest epitaph which can be carved in memory of a vanished liberty is that it was lost because its possessors failed to stretch forth a saving hand while yet there was time."

~ *George Sutherland*

When someone tells you that
businesses caused inflation:

Economic Theory Holds Prices Rise to demand. An alternate theory is consumers buy based on affordability. Legislative office candidates are not shy about telling "Us, the American People" they will make everything affordable for everybody. All we have to do is seat them in office. Then, they will fix economic opportunity by taxing (confiscating property z(wealth)) from overly rich people.

"If freedom of speech is taken away, then dumb and silent we may be led, like sheep to the slaughter."

~ *George Washington*

"Our, the American People's" grasp of principles at play when goods and services are exchanged for goods and services is bleak enough for us to believe legislative office candidates who claim power to alter economic interaction. Given we are desperate enough, we will cast our votes for those we think might help because those we think ought to help – promised to help – haven't helped. Devil for devil.

"Government is not reason, it is not eloquence, it is force; like fire, a troublesome servant and a fearful master."

~ *George Washington*

WHAT INFLATION?

**A PACKAGE OF GROUND BEEF COSTS
THE SAME AS IT DID LAST MONTH.**

Legislators, despite Their Insistence they can – and will, if we keep them in office – not only lower prices, they will rid America of those who are exploiting America's taxpayers and hard-working citizens. America's been around two-and-a-half centuries. Legislators, at best, have redistributed wealth by confiscating wealth. Government is not entrepreneurial. Government forces compliance.

"My policy has been, and will continue to be, while I have the honor to remain in the administration of the government, to be upon friendly terms with, but independent of, all the nations of the earth."

~ **George Washington**

People Intending To Live In Liberty do not allow legislators – or other public officials within These United States of America, to subsidize private enterprise with public money. They uphold free markets.

"Being elected to Congress is regarded as being sent on a looting raid for one's friends."

“Our, the American People’s” President Donald J. Trump is an extraordinarily powerful individual. So powerful he can cause planes to crash. Sundry media reports include either direct accusation or inferences President Donald J. was responsible for recent Washington, D.C. and Ottawa, Canada crashes. Wasn’t as though President Donald J. was Air-Controller-In Chief; Trump policies at fault.

"If large numbers of people believe in freedom of speech, there will be freedom of speech even if the law forbids it. But if public opinion is sluggish, inconvenient minorities will be persecuted, even if laws exist to protect them."

When Air Mishaps Are Inexplicable, pilot error is a reasonable last resort cause. Media reports of various people either blaming President Donald J. Trump directly, or his policies, for D.C. and Ottawa crashes could be seen as anti-Trump/MAGA individuals. Ultimately, one person is finally responsible for safe airplane movement. Its pilot. Catastrophic failures or unavoidable circumstances excepted.

"In a time of universal deceit, telling the truth becomes a revolutionary act."

"We, the American People" would be smart to be suspect when political opponents blame political opponents when current events involve disaster. President Donald J. Trump has been roundly criticized for purging DEI-like initiatives. President Doanld J.'s action in DEI-like regard have been cited as contributing to air mishaps in his second presidency. Regardless contrary evidence. Discredit is aim.

It isn't government "waste."

It's corruption.

The Democrats aren't "incompetent."

They're thieves.

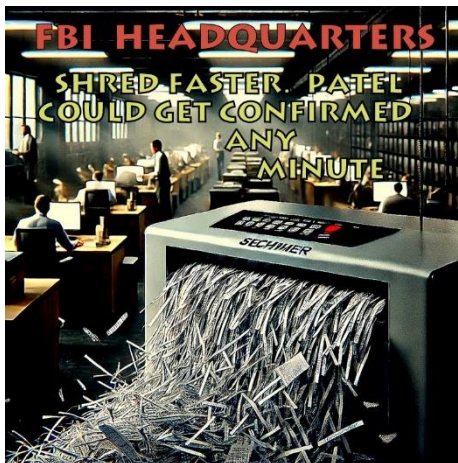

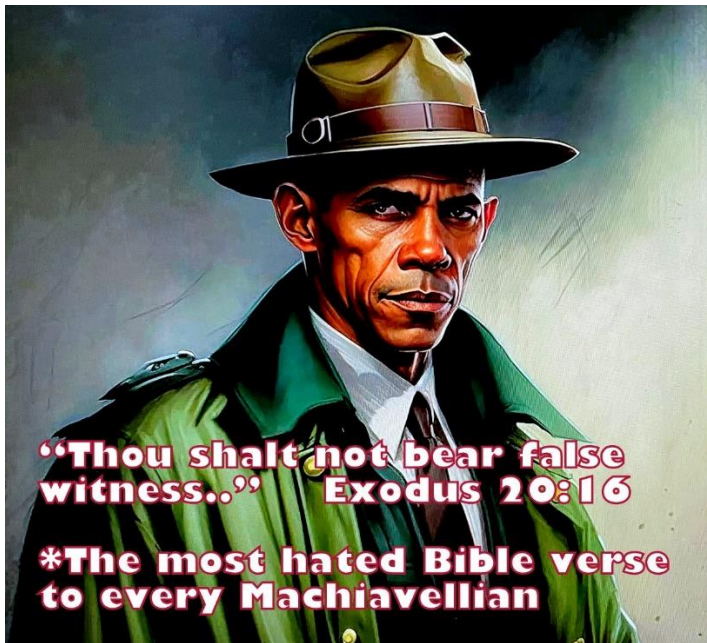

They aren't stealing "government money."

It's your money.

It Should Not Come As A Surprise to "Us, the American People" when anti-Trump/MAGA critics persist in looking for anything to make voters think President Donald J. Trump and everything he does are evil incarnate. Election 2024 was not a blow-out for candidate Donald J. Trump by any stretch, despite a strong state-by-state showing. Voter-by-voter, Donald J.'s win was not overwhelming.

"In our age there is no such thing as 'keeping out of politics.' All issues are political issues, and politics itself is a mass of lies, evasions, folly, hatred and schizophrenia."

All Those People Dead And Still Reported receiving Social Security payment by President Donald J. Trump's Department Of Government Efficiency (DOGE) were, in fact, not [aid]. Records were misinterpreted. According to media reports. Social Security Administration claims multiple checks are in place to avoid wrong payments, did acknowledge not investigating all errors due cost-benefit.

Media Reports DOGE Has Disseminated other false information, including reporting millions in condoms sent to GAZA Strip. Condoms were sent to support an HIV prevention program in GAZA Province, Mozambique. DOGE head, Elon Musk, said DOGE will correct mistakes when discovered. Not good enough for Trump/MAGA/DOGE detractors, who'd string them up for punctuation errors.

"To disarm the people is the best and most effectual way to enslave them."

"We, the American People" are part of a political system where perfection is demanded; imperfection is used by political aspirants to discredit their rival political aspirants or opponents. A major part of getting accurate information about government is government largesse. We could, arguably, reduce misinformation, disinformation, misdirection, and fake news by decentralizing government authority.

"Were the Soviet Union to sink tomorrow under the waters of the ocean, the American military-industrial establishment would have to go on, substantially unchanged, until some other adversary could be invented."

~ *George Kennan*

There Are Some Functions Federal or commonwealth/state government needs to attend. All others could be carried on at "Our, the American People's" lowest level political subdivisions with no loss in coverage or cost efficiency. Accountability would increase owing to government operations being close at hand, and conducted by local officials who are within short reach of voters and taxpayers.

"All men are created equally free and independent, and have certain inherent rights, of which they cannot, by any compact, deprive or divest their posterity; among which are the enjoyment of life and liberty, with the means of acquiring and possessing property, and pursuing the obtaining of happiness and safety."

People Electing To Live In Liberty do not allow legislators - or other public officials within These United States of America, to enter into defined-benefit contracts with collective bargaining units to confiscate American's property. They exercise citizen sovereignty to protect their property.

One Of "Our, the American People's" well-known talk show hosts tells anyone who'll listen GOP lawmakers have to get a spine to block President Donald J. Trump's agenda. Talk show host in question makes mention President Donald J.'s unpopular agenda is destructive, and GOP lawmakers with expertise to refute President Donald J. and his disparaging cabinet must stand tall and block them.

"There is a sacred realm of privacy for every man and woman where he makes his choices and decisions-a realm of his own essential rights and liberties into which the law, generally speaking, must not intrude."

"We, the American People" would be smart to take a questioning stance when media personalities take categorical positions on matters of consequence. Because a commentator happens to be a dynamic, persuasive speaker does not mean said personality either represents public opinion, or, has a subject matter grasp sufficient to deliver justification for assertion. A related article is a case in point.

"A false conclusion once arrived at and widely accepted is not easily dislodged and the less it is understood the more tenaciously it is held."

~ *Georg Cantor*

President Donald J. Trump has been characterized as a first-order dictator. A media article of late features accusations President Donald J. has let it be known, by Executive Order (EO) he, alone, can interpret law. A claim having President Donald J. elevate himself to Kingly status. EO in question, scrutinized in verbiage detail, notes Executive Branch will interpret laws applying to Executive Branch.

"Perhaps in time the so-called Dark Ages will be thought of as including our own."

~ ***Georg Christoph Lichtenber***
