"Mankind will in time discover that unbridled majorities are as tyrannical and cruel as unlimited despots."

~ *John Adams*

"Our, the American People's" media report there's a legislator from one of America's commonwealth's spearheading an effort to have our federal Education Department take back threats to withhold funding for school Diversity, Equity, and Inclusion (DEI) programs. Federal Education Department funding is withheld only for those schools not discontinuing their DEI programs.

"Nip the shoots of arbitrary power in the bud, is the only maxim which can ever preserve the liberties of any people."

~ *John Adams*

DEI Has Been Under Scrutiny a while. Opposition is based, at least in part, on mandatory participation. A somewhat complementary resistance centers on perceived predisposition there is systemic discrimination practiced by near everyone, despite people claiming they do not discriminate. Not being voluntarily participatory can be seen as discriminatory, thus, need for mandatory attendance.

"We hold that each man is the best judge of his own interest."

~ *John Adams*

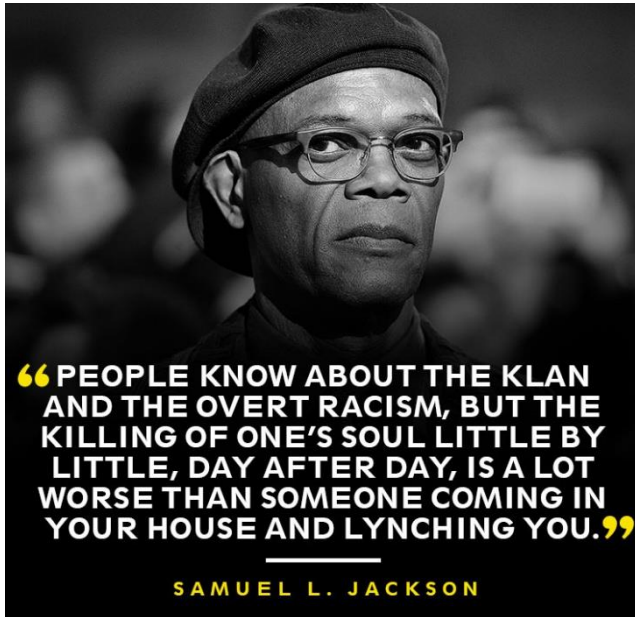

Not An Easy Task, Proving DEI-Like initiatives are beneficial to "Us, the American People," one and all. DEI-like proponents are not bashful about declaring DEI-like projects and programs absolutely

essential to bring about a discrimination-free society. Not everyone would agree. Particularly so, those people who want only to come to work, do their job, and leave. Without having to attend DEI classes.

"I can't understand why people are frightened of new ideas. I'm frightened of the old ones."

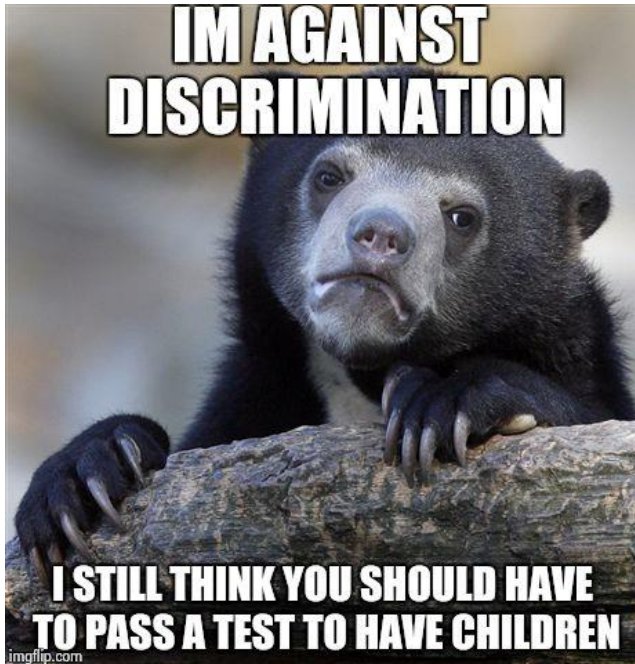

~ *John Cage*

"We, the American People," some of us at any rate, are not to be marshalled into homogenous groups we find are focused on, somehow, making it possible for everyone to receive like benefits, regardless how much training and skill development goes into disparate position-relevant competency preparation and certification. Those of us disposed so are not amenable to DEI-like programs paid by taxation.

"Any doctrine that weakens personal responsibility for judgment and for action helps create the attitudes that welcome and support the totalitarian state."

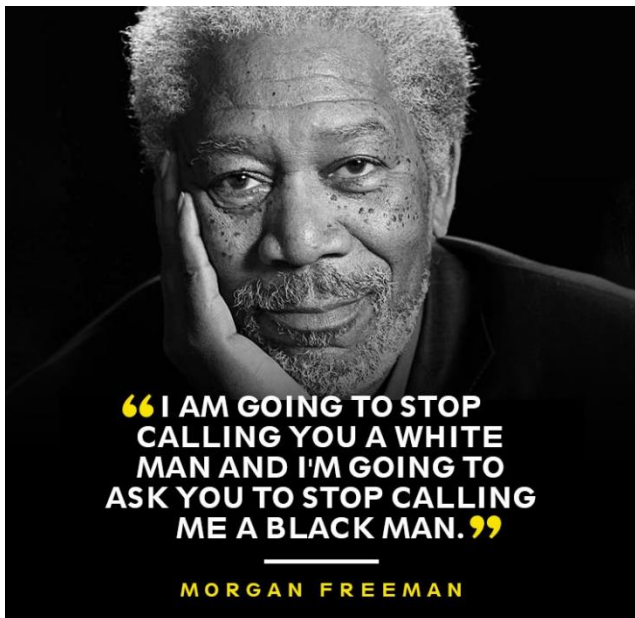

~ *John Dewey*

People Intending To Live In Liberty do not allow legislators - or other public officials within These United States of America, to impose direct taxes of any kind. They refuse to allow government to confiscate private property.

"Individuality is freedom lived."

~ John Adams

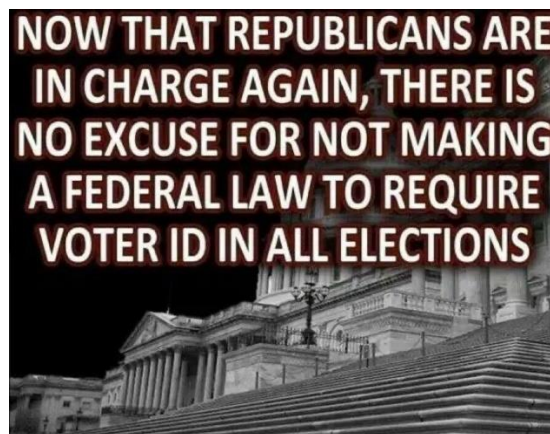

Our President was shot in the face and you all are crying about replying to an email...Y'all are soft.

Media Tell "Us, the American People" there's a Congressional legislator on a mission to be absolutely, positively sure America never has a dictator telling everyone how to live, and putting those who disobey under a guillotine. This objective will be accomplished by, if legislator in question can swing it, having Congressional legislators reaffirm America's federal (U.S./National) Constitution 22nd amendment.

"You have rights antecedent to all earthly governments: rights that cannot be repealed or restrained by human laws...."

~ **John Adams**

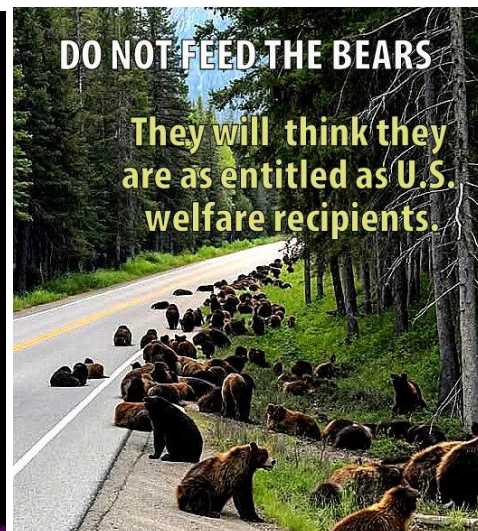

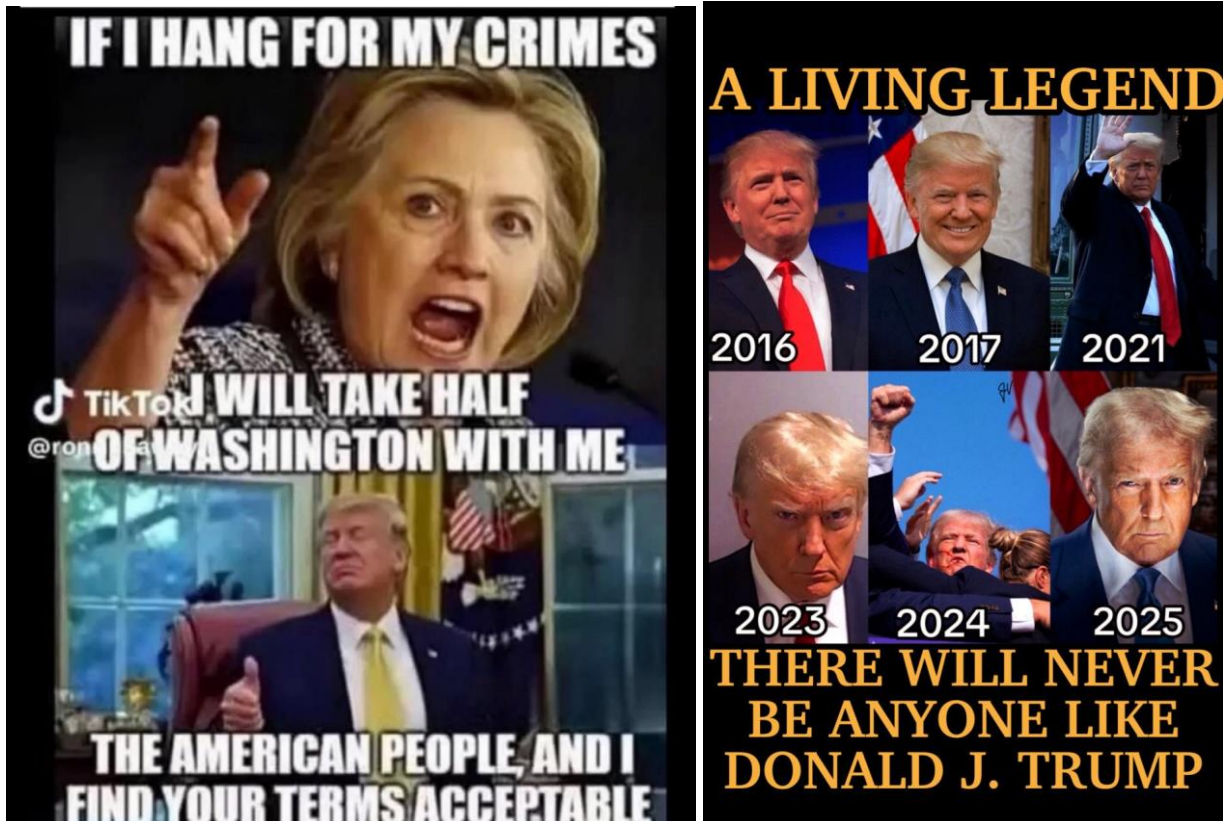

America's Federal (U.S./National) Constitution 22nd Amendment provides for removal of America's presidents who are unfit to execute presidential duties and responsibilities. Taken another way, America's 22nd lets presidential opposition forces, if they can muster enough legislative backing, wrench sitting presidents from their Oval Office chairs because they fall from opposition favor.

"There is danger from all men. The only maxim of a free government ought to be to trust no man living with power to endanger the public liberty."

~ **John Adams**

"We, the American People," were we so-minded, and committed to self-government under a sovereign citizenry, could redact America's 22nd on grounds America's 22nd, by empowering America's Congress to remove unfit presidents, usurps American voters of their franchise to seat people they chose in America's Oval Office. Self-government, by nature, empowers sovereign citizenries, not legislatures.

"Corruption, like a cancer ... eats faster and faster every hour. The revenue creates pensioners, and the pensioners urge for more revenue. "

Income tax is wrong. You shouldn't be fined for earning a living.

Property tax is wrong. You shouldn't be forced to pay to keep living in a home that you already own.

Sales tax is wrong. You shouldn't be forced to pay someone to allow you to buy something.

Capital gains tax is wrong. You shouldn't be punished for investing in your family's financial future.

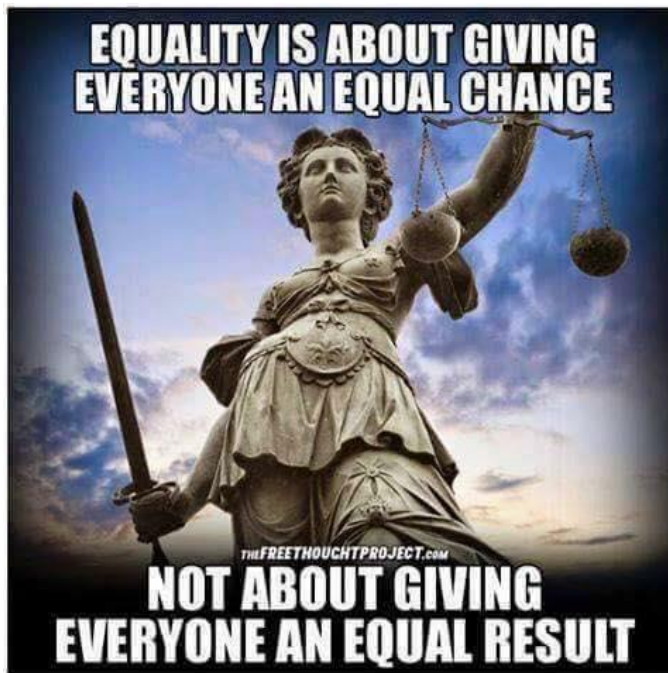

Inheritance tax is wrong. Your heirs shouldn't be robbed because you died.

All forms of taxation are wrong, because they're extortion, and extortion is always wrong.

If America's Positional Government is not overseen by "Us, the American People, through our power as a sovereign citizenry, America's legislatures, judiciaries, and executive branches will rule by personal attitudes, values, beliefs (PAVB), not by public PAVB/consent. It's not ludicrous America's commonwealth, federal (U.S./National), and state Constitutions might need be reaffirmed routinely.

"There is danger from all men. The only maxim of a free government ought to be to trust no man living with power to endanger the public liberty."

People Expecting To Live In Liberty do not allow legislators - or other public officials within These United States of America, to cause any citizen to be drawn into an obligation to assume responsibility for public debt for reasons other than to defend These United States. "Why doesn't everybody leave everybody else the hell alone?"

~ *Jimmy Durante*

“One Of “Our, the American People’s” judges issued an order to a newspaper to remove an editorial critical of local officials. Some Americans, who are part of a sovereign citizenry, took said judge to task. Judge in question reversed editorial removal order – an order assailed as a free speech violation. Wouldn’t be a bad idea for case to be part of America’s high school civics self-government classes.

"If people are free in any meaningful sense of the word, that means they are at liberty to foul up their lives as much as make something grand of them. That's a gamble we all take. That's the risk of liberty. Nobody wants others to screw up their lives, but each must be free to do so for themselves."

~ *Joel Miller*

There Might Be Less Protracted Court cases in our U.S. of A. judicial system were “We, the American People” more conversant on how it is America’s legislative-judicial-executive governmental entanglement system works. Emphasis ought be on America’s fourth branch of government, sovereign citizenry. Sovereign citizenry lessens government personal attitudes, values, and beliefs (PAVB) bias.

"The voice of the majority is no proof of justice."

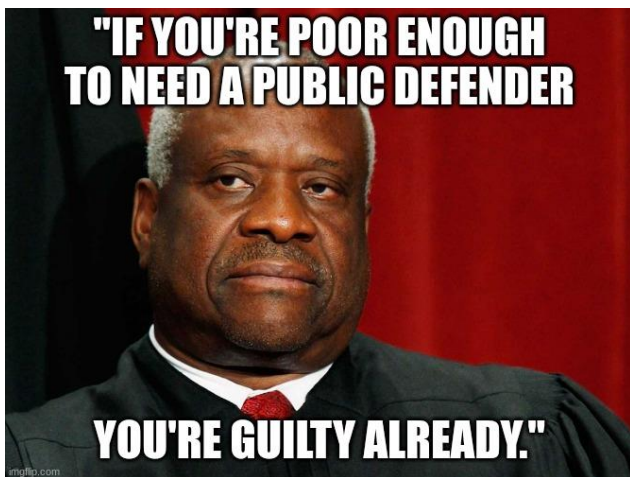

~ *Johann von Schiller*

There Was No Need For Judicial Order reversal in question to meander through America's appellate court system, possibly ending up in America's Supreme Court of the United States (SCOTUS). America's fourth branch of government intervened, relieving our appellate system of adjudication, and resolved case through public will (self-government). And appellate process cost was avoided.

"None are more hopelessly enslaved than those who falsely believe they are free."

~ *Johann Wolfgang von Goethe*

There Is No Reason Why America's SCOTUS should be thought to have any more erudite magistrates than does virtually any court. A law school graduate is a law school graduate. No reason for "Us, the American People" to think any given law school is less able to produce judicial clarity than any other law school. Of prime importance, judicial clarity ought recognize public will subverts judicial tyranny.

"He alone deserves liberty and life who daily must win them anew."

~ *Johann Wolfgang von Goethe*

People Inspired To Live In Liberty do not allow legislators - or other public officials within These United States of America, to permit public (government-"State") schools to delve into their children's attitudes, values, or beliefs. They protect their children's privacy and teach them to be thinking individuals.

"Alcohol didn't cause the high crime rates of the '20s and '30s, Prohibition did. And drugs do not cause today's alarming crime rates, but drug prohibition does.... Trying to wage war on 23 million Americans who are obviously very committed to certain recreational activities is not going to be any more successful than Prohibition was."

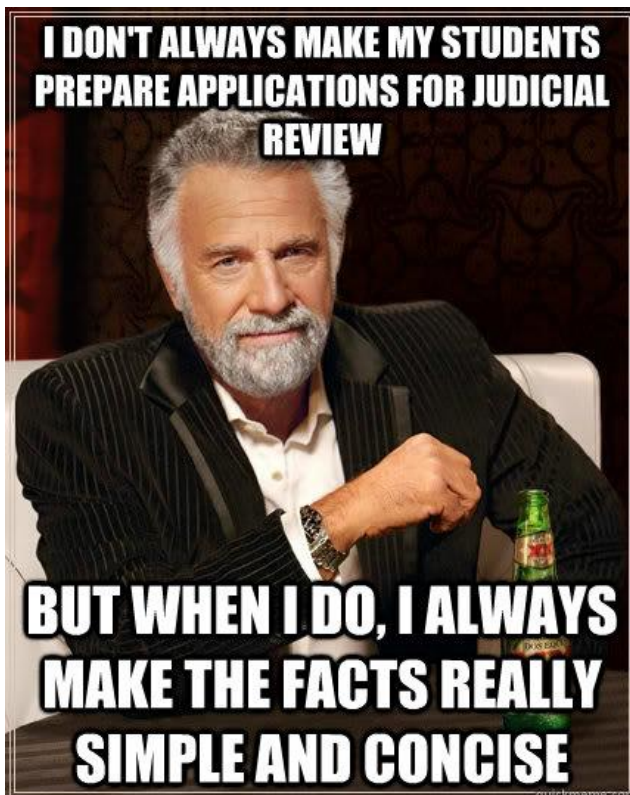

~ *James Paine*

"Our, the American People's" court system can turn into an on-again, off-again flurry of frustration till something gets settled. Media report Supreme Court of the United States (SCOTUS) Chief Justice John Roberts has put a temporary stop on a lower court order to President Donald J. Trump's Administration to resume Agency for International Development (AID) payments. SCOTUS gridlock.

"True freedom is to share
All the chains our brothers wear
And, with heart and hand, to be
Earnest to make others free."

~ *James Russell Lowell*

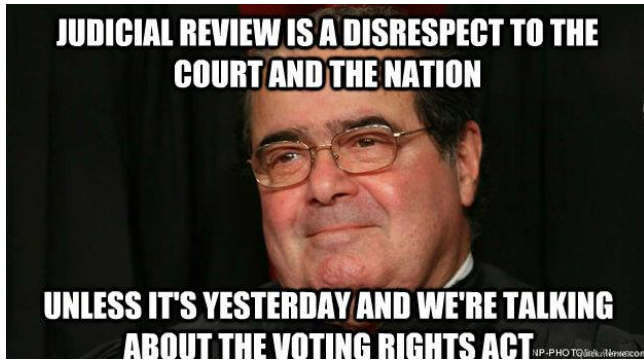

"We, the American People," we could say, have, possibly, as just a court system as might exist. Nonetheless, America's court system is vulnerable to political tactics. Litigants will use anything they

can to have their way in court. Cases in appeal are similar. When an appellate review comes into play, litigants must present their case to a court working by personal attitudes, values, and beliefs (PAVB).

"It is natural that citizens of great and powerful nations see themselves, collectively speaking, as immortal and immune to the processes that have brought down other illustrious nations and peoples."

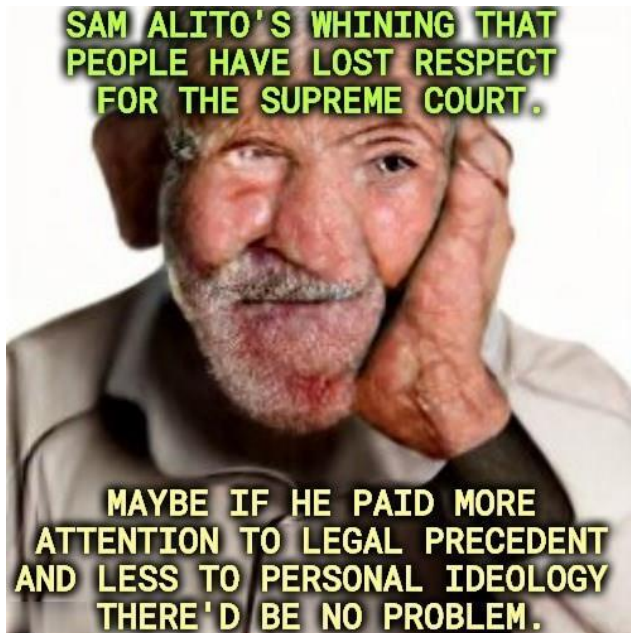

~ *James Thornton*

There Is No Way Any Of "Us, the American People" can predict, with certainty, how a case will turn out in court. Because judges and juries apply their PAVB to evidence and argument. Given verifiable information, there is no reason why our courts should not produce predictable outcomes. Chief John Roberts lower court order suspension means a decision will be made on PAVB merit, not objectivity.

"Even the most Bush-happy, flag suckling jack-arse knows deep-down inside that something is wrong. America is over and everyone knows it. The New World Order has a dying empire odor and changing the channel ain't going to make this go away."

~ *Jello Biafra*

Not Only Is America's Court System time consuming for anything of consequence. Someone has to bear litigation expense. When government litigates against government, as in AID versus Trump

Administration, America's taxpayers ante up every penny. Worse, should AID or Trump Admin lose, we can expect their fight will not be over. As bad, congress can't reconcile gov't against gov't.

"As to the evil which results from censorship, it is impossible to measure it, because it is impossible to tell where it ends."

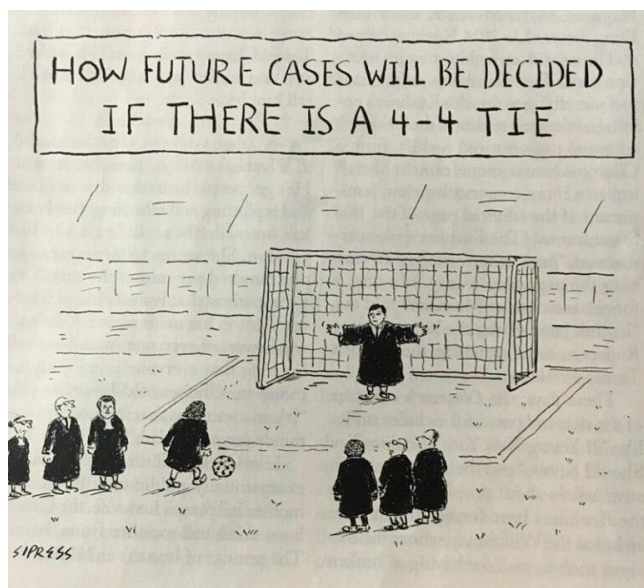

~ *Jeremy Bentham*

People Determined To Live In Liberty do not allow legislators - or other public officials within These United States of America, to cause any citizen to be drawn into an obligation to assume responsibility for public debt for reasons other than to defend these United States. They require elected leaders to defend America's liberty unequivocally.

"Human nature also cherishes children, and wants the best for them. To endow ours with liberty is the greatest legacy we could provide."
