"The education of all children, from the moment that they can get along without a mother's care, shall be in state institutions at state expense."

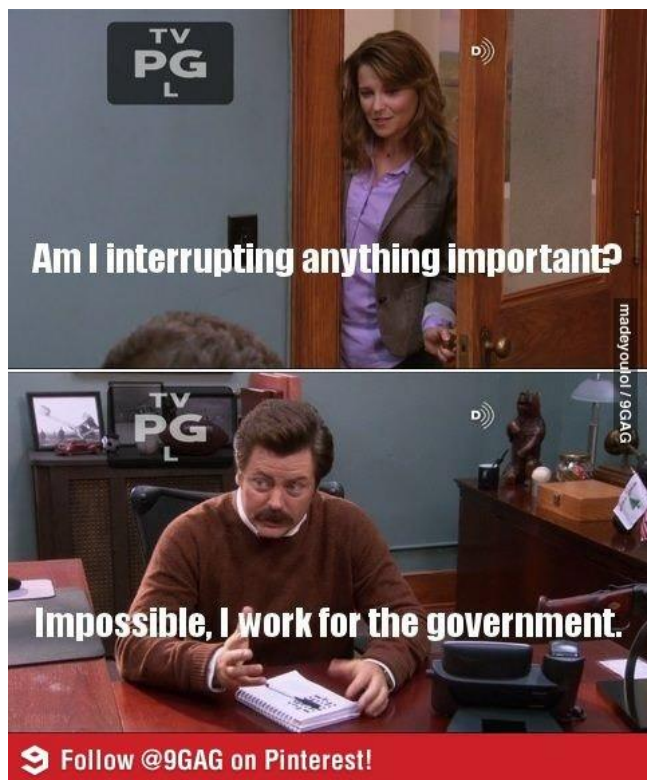

~ *Karl Marx*

"We, the American People" can rest assured America's legislators, if they've nothing else to fight over, will fight over money. Media report Congressional House Speaker/legislator Mike Johnson and others are against Americans getting dividend checks from cost-savings (avoidance) measure at a Department Of Government Efficiency (DOGE) measures. Government will put government first.

"Liberty is not a cruise ship full of pampered passengers. Liberty is a man-of-war, and we are all crew.

~ *Kenneth W. Royce*

**It's Not As Though "Our,** the American People's" legislators are against spending money – taxpayer money. Not for a microsecond. Legislators battle over who gets taxpayer money and who will, in return, cast votes for legislators handing out money. Legislators railing against DOGE are likely to be especially stingy. DOGE cost-avoidance succeeding, legislators will have lots less money coming in.

"Man is deeply vulnerable when faced with overwhelming evil. Instead of consolidating his energy to fight it, he wastes valuable time and effort puzzling over it, insisting it is not, cannot possibly be, what it seems."

**It Should Not Escape “Us,** the American People” federal budgets could be reduced drastically, given DOGE cost-avoidance measures pan out and are institutionalized. Reduced government budgets mean less tax revenue requirements, provided government does not create new programs to replace those downsized by DOGE cuts. We can rest assured government will not be cut willingly. It will fight.

"Armed people are free. No state can control those who have the machinery and the will to resist, no mob can take their liberty and property."

~ ***L. Neil Smith***

**How Much Government Is Necessary** is not likely to ever be a settled debate. Voters seldom agree on according legislators power to confiscate property (wealth) and restrict choice (Liberty). Legislative confiscatory and restrictive power puts citizens in a position of deciding between putting government first or themselves first. There are no signs such argument will be reconciled very soon, if ever.

"Politicians need human misery....Government's a disease masquerading as its own cure."

~ ***L. Neil Smith***

**People Intending To Live In Liberty** do not allow legislators - or other public officials within These United States of America, to offer amnesty to illegal aliens until those illegal aliens agree to become and become United States citizens. They use their citizen sovereignty to protect their lives, their property, and their future.

"Humanity's most valuable assets have been the non-conformists. NATO Member States Spending as % of Combined Spending

**Legality Of Teaching The Bible** in public schools has been covered in numerous articles in “Our, the American People’s” media. Biblical topics in public school curricula have been controversial, to put it mildly. There is a solitary purpose for educating. To control behavior. For educators to suggest otherwise is to deny value in any inquiry about anything. Information is disseminated for reasons.

"Liberty lies in the hearts of men and women; when it dies there, no constitution, no law, no court can save it; no constitution, no law, no court can even do much to help it. While it lies there it needs no constitution, no law, no courts to save it."

~ ***Learned Hand***

**BREAKING:** DOGE halted a yearly payment of \$2.5 million to Barack Obama for "royalties linked to Obamacare."

He's been collecting it since 2010, for a total of \$40 million in taxpayer dollars.

What's your reaction?

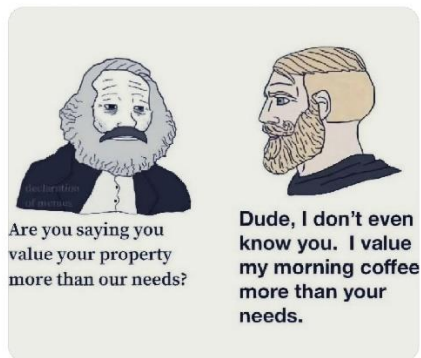

**America's Federal (U.S./National)** Constitution prohibits government from establishing religion. For, ostensibly, good reason. Religion is discriminatory. If religion, per se, is not inherently discriminatory, followers of religious Faiths certainly are. Religions, or religious denominations, go through major breakups over whether some people are allowed membership, or congregational leadership positions.

"People fear witches, and burn women."

~ *Louis Brandeis*

I heard that when a man gives blood, you save 3 lives. Well, I know a man who gave his blood, and he saved the entire human race!

Before

**Wouldn't Be Unreasonable** to speculate "We, the American People" who are members of Faiths suspect members of Faiths unlike our own are lacking in truth. Therefore, those members of Faith lacking truth are to be tolerated but not trusted with, say, teaching youth, or, conducting ceremonies intended to strengthen one's commitment to one's Faith. Fear of losing control over supplicants.

"The Declaration [of Independence], after all, catalogued the assaults on our freedoms committed by Britain's King George III. What has been built up over the last two and a quarter centuries is a structure that dwarfs George III's regime."

~ *K.E. Grubbs, Jr.*

**Those Of "Us, the American People"** who are adamant about having The Bible taught in public schools are sure to find objection from all corners. Wouldn't be surprising if there was objection from ardent Bible enthusiasts – who may well have their preferred version, and would want no other version taught. Seek company of those seeking truth; run from those who claim to have found it. Who's right struggle.

"It is not the responsibility of the government or the legal system to protect a citizen from himself."

~ **Casey Percell**

**People Electing To Live In Liberty** do not allow legislators – or other public officials within These United States of America, to enact legislation or regulations without majority approval of voters. They uphold Americans’ self-governing heritage.

"As scarce as truth is, the supply has always been in excess of the demand."

~ *Josh Billings*

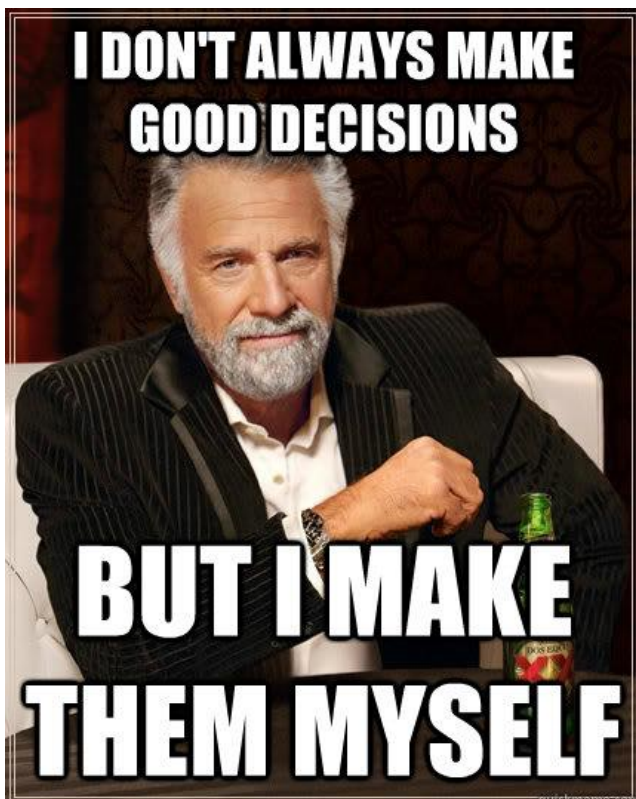

**"Our, the American People's"** President Donald J. Trump detractors could have a field day with comments by Warren Buffett. Buffett is a financial guru by any measure. Not hard to place serious credibility on Buffett's views. His views on tariffs (taxes on trade) are, at best, cautionary. Media report Mr. Buffett views tariffs (taxes on trade) quipping, "I mean, the Tooth Fairy doesn't pay 'em!"

"The trouble with most folks isn't so much their ignorance, as knowing so many things that ain't so."

~ ***Josh Billings***

**When Industry Titans Like Warren** Buffett and Elon Musk face off, it would be hard for “Us, the American People” to decide if Buffett or Musk had a better handle on tariffs (taxes on trade). Buffett makes money for Buffett, and, presumably, makes money for those investors who stake their financial growth, or part, at least, on returns on Buffett conglomerate shares. Musk makes products and money.

"The cry of the soul is for freedom. It longs for liberty, from the date of its first conscious moments."

~ ***Josiah Gilbert Holland***

**Practically Speaking, It Wouldn't Be** a mistake for “Us, the American People” to put our stock in either Buffett or Musk or both. Could come down to whether we place our stock on practicality, or, correctness, meaning, acceptable to other people. Buffett maintains tariffs (taxes on trade) end up taxing goods, therefore, impact inflation, and, not handled wisely, could trigger global conflict. Could.

"The cry of the soul is for freedom. It longs for liberty, from the date of its first conscious moments."

~ ***Josiah Gilbert Holland***

**Musk, Thus Far, Is Trump** policy ally. President Donald J. is far from averse to tariffs (taxes on trade). President Donald J. is of a mind, or, so expresses, tariffs (trade taxes) can lower income taxes, thus, giving people more disposable income. Lower income taxes, higher purchase prices on imports. Never know till after those pesky facts, if one's net worth grows faster with Buffett or Trump/Musk.

"Perfect love holds the secret of the world's perfect liberty."

~ ***Josiah Gilbert Holland***

**People Prepared To Live In Liberty** do not allow legislators – or other public officials within These United States of America, to interfere with how responsible citizens use their private property. They fiercely protect their most vital right – individual property ownership. Protecting property is protecting life.

“Liberty, then, is the sovereignty of the individual, and never shall man know liberty until each and every individual is acknowledged to be the only legitimate sovereign of his or her person, time, and property, each living and acting at his own cost.”

~ ***Josiah Warren***

"There is no way to measure the chilling effect on innovation that results from the threats of taxation, regulation and prosecution against anything that succeeds. "

~ *Joseph Sobran*

Media Report A Federal Judge has ruled "Our, the American People's" President may not fire a specific individual. As it turns out, media coverage report, there is precedent for President Donald J.'s action. President Donald J. Trump's predecessor carried out similar action under Civil Service Reform Act auspices. How President Donald J.'s firing, appealed, will turn out remains to be determined.

"People who create things nowadays can expect to be prosecuted by highly moralistic people who are incapable of creating anything."

~ *Joseph Sobran*

"We, the American People," as a sovereign citizenry, would be smart to keep a critical eye cast on government behavior. At any level for any purpose. It is not uncommon for legislators, magistrates,

and government chief executives to remind one and all they intend upholding Constitutional precepts and protections, as part of their duty to assure America remains a nation of laws, not of personal whim.

"'Need' now means wanting someone else's money. 'Greed' means wanting to keep your own. 'Compassion' is when a politician arranges the transfer."

~ *Joseph Sobran*

*It Would Be Smart Of "Us,* the American People" to not forget, not dismiss, our legislators, judges, and government chief executives do their jobs based on their personal attitudes, values, and beliefs (PAVB). Their PAVB, like anyone's PAVB, are rooted in training, experience, and inclinations to act in their own interest. It is naïve to think legislative-judicial-executive behavior is based on neutrality.

"Since outright slavery has been discredited, 'democracy' is the only remaining rationale for state compulsion that most people will accept."

~ *Joseph Sobran*

**There s An Inordinate Stake** in having lawfully authority over people. More so, when lawful authority permits legislators to confiscate property (wealth) and restrict choice (Liberty). Confiscatory and restrictive authority allow people to benefit from other people's toil – by force of law. Such force of law, not tempered and restrained by sovereign citizenries, offers would-be despot limitless prospect.

"Democracy has proved only that the best way to gain power over people is to assure the people that they are ruling themselves. Once they believe that, they make wonderfully submissive slaves."

~ ***Joseph Sobran***

## Stop resisting!

**People Determined To Live In Liberty** do not allow legislators – or other public officials within These United States of America, to enact legislation or regulations requiring any private business to accept collective bargaining organizations or subsidize private enterprise with public money. They keep government from meddling in employer-employee affairs
