

“Our, the American People’s” media is running an article claiming more people doing nothing more than voting in primary elections would improve conditions in America. Conditions being, more people than not are of a mind America is headed in a wrong direction. Essence of more people voting in primary elections will improve our political malaise is by increasing political competition. So, t is said.

“The two enemies of the people are criminals and government, so let us tie the second down with the chains of the Constitution so the second will not become the legalized version of the first.”

~ *Thomas Jefferson*

Voting For Representatives to use their judgement to serve citizens is no substitute for self-government. Self-government, for example, would provide for people in one district to accept government-provided health care whilst citizens in another district could opt out for exclusively private health care. Pure self-government would have individual voters choose, regardless their district.

"The Tenth Amendment is the foundation of the Constitution."
 ~ *Thomas Jefferson*

"We, the American People," given our diverse philosophical makeup, might never achieve self-government – by district or individual choice. We can, however, as a sovereign citizenry, prohibit government from passing laws treating some people one way, other people another. Progressive taxation treats people differently based on their income, their property (wealth), their locale.

“The powers delegated by the proposed Constitution to the federal government are few and defined. Those which are to remain in the State governments are numerous and indefinite.”

~ *James Madison*

Government Empowers Itself to treat “Us, the American People” differently through selective, arbitrary, and discriminatory legislation, taxation, and regulation (SADLT&R). SADLT&R comes about by government officials basing SADLT&R on their personal attitudes, values, and beliefs (PAVB). PAVB is inherently biased. PAVB-driven SADLT&R can nullify voting all but entirely.

“But ambitious encroachments of the federal government, on the authority of the State governments, would not excite the opposition of a single State, or of a few States only. ”

~ *James Madison*

We, As A Sovereign Citizenry, could ban all laws not treating every person identically. We could, further, abolish all taxation except taxes on commerce. Consumers pay, directly or indirectly, all taxes levied for any reason. Because taxation exacts monetary value from property (wealth). All (legal) wealth is generated directly or indirectly, from sales. Sales create wealth by consumer choice.

“The operations of the federal government will be most extensive and important in times of war and danger; those of the State governments, in times of peace and security.”

~ *James Madison*

People Intending To Live In Liberty do not allow legislators - or other public officials within These United States of America, to give quarter to, offer sanctuary to, or, negotiate with terrorists. They assure terrorists find no sanctuary wherever they run or try to ply their trade.

“The house of representatives...can make no law which will not have its full operation on themselves and their friends, as well as the great mass of society.”

“Our, the American People’s” Supreme Court of the United States (SCOTUS) has told ‘the government’ (presumably meaning President Donald J. Trump Administration) to come up with a list of non-tariffed imports. As part of judicial inquiry into presidential authority to set tariffs. Tariffs (trade taxes) are a cost-of-sales to business and a retail cost to consumers. Ultimately, a cost of government.

“The operations of the federal government will be most extensive and important in times of war and danger; those of the State governments, in times of peace and security.”

~ *James Madison*

“We, the American People,” according to media coverage on SCOTUS non-tariffed goods, have on order of 19(+) million imports pending final tariff (trade tax) assessment. Why there is necessity for government (legislator, chief executive, or judge) to impose tariffs (trade taxes) is a matter for serious debate. Simply because government has tariff (trade tax) power doesn’t mean they are necessary.

“The powers delegated by the proposed Constitution to the federal government are few and defined. Those which are to remain in the State governments are numerous and indefinite.”

~ **James Madison**

It Would Be Smart For “Us, the American People” to regard tariffs (trade taxes) as controls governments put on people’s ability to purchase imports. We can be certain tariff (trade tax) proponents

will tell us tariffs (trade taxes) protect us from unsafe or otherwise officially unwanted products from foreign sources. Profit considerations notwithstanding, businesses can optimize import prices.

“The house of representatives...can make no law which will not have its full operation on themselves and their friends, as well as the great mass of society.”

Netflix waiting for the conflict to end so they can make a movie about a black Iranian guy who falls in love with a transgender Israeli soldier

Tariffs (Trade Taxes) Are One of sundry measures governments use in selective, arbitrary, and discriminatory legislation, taxation, and regulation (SADLT&R) to control permissible behavior. Tariffs (trade taxes), precisely, are used by governments to influence other governments' policies. Free society citizens could force governments to promote free trade, not SADLT&R tariffs (trade taxes).

“It has been said that all Government is an evil. It would be more proper to say that the necessity of any Government is a misfortune. This necessity however exists; and the problem to be solved is, not what form of Government is perfect, but which of the forms is least imperfect.”

~ *James Madison*

Legislators from the state level to D.C. have placed a yoke on the American people; the problem is, we actually allowed them to do so.

Due to our ignorance, lack of education and diminished wisdom we simply do not know or understand who we are as a nation and a people. We need to know how we came to be a nation. We need to understand the difference between a democracy form of government and a republic form of government. (A Constitutional Republic)

Necessity! We are constantly “convinced” by legislators (State & Federal levels) that we need a new law, a new bill or additional forms of government mandates, restrictions or regulations to fix whatever crisis is at hand. These problems are usually brought on by *their* bad policies. I won’t call them failed policies because I believe they served the purpose of the legislators, which was to gain more power over us.

I found this definition of *necessity*:

Necessity is the plea for every infringement of human freedom. It is the argument of tyrants; it is the creed of slaves. *William Pitt, Earl of Chatham - Speech in the House of Commons, November 18, 1783*

Did I hear you say WOW when you read that?

According to the words of Thomas Jefferson: “The executive power in our government is not the only, perhaps not even the principal object of my solicitude. **The tyranny of the legislature is really the danger most to be feared and will continue to be so for many years to come.** The tyranny of the executive power will come in its turn, but at a more distant period.”

Tyranny has been upon us, not just for decades but for over 100 years. However, since 2016 the career politicians have been on a “holy tear.” They are fighting hard to keep their power by distracting us. They try to hide their unethical behavior and unconstitutional acts. The insurrection of our Republic took place a long time ago. The very ones we elected to represent us, to uphold our Constitution, and to guard our Liberty have been working against us.

Years ago, they began legislating and amending our great document, the U.S. Constitution. They are in bed with, and in debt to, big bankers! They connected themselves with outside interests and listened to paid lobbyists who represent NGOs (non-governmental organizations) such as HSUS, ASPCA, PETA, ACLU, The Brady Campaign, Newtown Action Alliance, Greenpeace, Nature

Conservancy, WWF (World Wildlife Fund), The Environmental Defense Fund, and so many more. Now you know why YOU need permission to enter the People's House (Pelosi's Temple of Democracy)... They (D.C. Occupiers, occupying offices and cuttin' deals) are too busy to work for the ones they are actually there to work for.

Today we know that many of our elected officials are compromised to outside interest groups as well as compromised with foreign governments. These compromises (deals) have taken them outside of liberty and beyond our Constitution. Many are out-and-out anti-Bill of Rights. The Separation of Powers was designed for the purpose of having checks and balances, but this structure of our government has been hijacked and transformed into a monopolistic two-party system. They are NOT working for our Liberty!

Thomas Jefferson also warned us:

*“When once a Republic is corrupted, there is no possibility of remedying any of the growing evils but by removing the corruption and **restoring its lost principles**; every other correction is either useless or a new evil.”*

We cannot restore the lost principles unless we know and understand what those principles were.

Life, Liberty and the pursuit of happiness, property, and prosperity!

*We hold these truths to be self-evident, that all men are created equal, (**notice it doesn't say equity**) that they are endowed by their Creator with certain **unalienable Rights**, that among these are Life, Liberty, and the pursuit of Happiness.*

NOTE: Unalienable rights are given to us by God, not government, therefore government is not allowed to take those rights away. Unalienable rights are termed natural rights; that's why the second amendment added, “Shall Not Be

Infringed!” It is your natural right to defend yourself from criminals and from a tyrannical government.

*That to secure these rights, **Governments are instituted among Men, deriving their just powers from the consent of the governed**, That whenever any Form of Government becomes destructive of these ends, it is the **Right of the People to alter or to abolish it**, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness.*

Of course, those are excerpts from the Declaration of Independence...

According to those words, the only ones who have the right to “insurrect” are...

We the People! (Government is tyranny)

Again, we hear the words of our Founding Fathers echoing, **“The price of liberty is eternal vigilance.”** Thomas Jefferson. **“It’s a Republic, if you can keep it.”**

Benjamin Franklin.

Have we compromised our Republic away?

Our Founders knew that Liberty is never truly won. There will always be evil, greedy men and women waiting to snatch your freedom away for their profit and power.

“For freedom Christ has set us free; stand firm therefore,

*and do not submit again to a yoke of slavery.” **Galatians 5:1***

“Proclaim Liberty Throughout All the Land Unto All the Inhabitants Thereof”

Leviticus 25:10b

That’s the inscription on our Liberty Bell. The Founders believed in Almighty God. They did NOT believe in government as king.

“Government is not reason, it is not eloquence, **it is force!** Like fire it is a dangerous servant and a fearful master; never for a moment should it be left to irresponsible action.” **George Washington**

Irresponsible action! Today we are experiencing the consequences of the irresponsible actions of our leaders, who have compromised our Constitution and are attempting to legislate your natural rights away.

We have gas prices rising higher and higher.

We have shortages of food and merchandise.

Inflation has our currency falling in worth.

Jobs are scarce. (Or the people cannot afford to work)

Americans are becoming less and less skilled.

Our children’s education is really just government indoctrination.

We’re being told evil is good and good is evil.

Politicians will allow the burning down of pregnancy clinics and the murder of judges, to save a right (not a natural right) to kill the unborn babies of America.

Foreign countries (many are our enemies) are buying up America’s farmland.

Many of our American Industries have moved out of the country.

Our nation’s borders are now open invitations for terrorists, drug dealers and human traffickers, rapists, and all kinds of other serious threats.

Our national debt has been raised so many times that there is virtually no ceiling and no way the American people can pay the bill.

The two-party system isn't working for us; it is working against us!

Our elected officials ignore the Constitution.

Our First Amendment is under attack.

Our Second Amendment is threatened with extinction.

Our Founding Fathers signed a declaration against such tyranny. Their grievances then are much the same as what we are dealing with today. However, I believe ours are even worse. AND my fear is that many Americans are already so far brainwashed... that... well, they cannot recognize Liberty. They think freedom is to do whatever they want; that is chaos; or democracy, which is mob rule. Liberty is a much greater achievement and is a higher calling.

When they signed that pledge, it meant treason to the King, who was, at that time, the authority, the ruler! Liberty and Independence meant so much to them that they were willing to sacrifice! They pledged (to one another) their lives, their fortunes, and their sacred honor.

Today, because of the sacrifice they made, we have the right and the duty to stand up and reclaim our Liberty and restore our Republic.

If we were to take a pledge today, the woke would call us extremists, radicals, racists, bigots, and the list of name-calling will grow. They actually want to lock you up, so that they can continue growing their power and wealth.

A quote that has stuck in my head is from the movie, **The Patriot**: *"Why should I trade one tyrant 3,000 miles away for 3,000 tyrants one mile away. A legislature can trample a man's rights as easily as a king can."*

We've tolerated a lot of nonsense and treasonous behavior from the politicians. It's time for Americans to put their foot down.

When giving us the Ten Commandments, God didn't leave any gray areas for compromise. We are to obey His laws, which are in place for our safety and health; in Him we are free!

It's time we take a pledge to our God first, then to our family and our country. Protecting our nation is protecting our future generations. Our Founding Fathers were thinking about us when they wrote the Preamble of our Constitution:

We the people of the United States, in order to form a more perfect union, establish justice, insure domestic tranquility, provide for the common defense, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity...

The Constitution, along with the Bill of Rights are our weapons of self-defense! We should NOT Compromise!

I will not compromise - I will demand!

I will not comply - I will insist!

I will not bow to government - I will ONLY bow to MY GOD!

I will not break - I will be strong!

I will not roll over - I will push back... hard!

I will not sit down - I will stand in the face of tyranny!

I will not shut up - I will shout loudly against your lies,

I will not go quietly - I will not go at all!

I will not play follow-the-leader with you – I will exercise my enthusiasm for liberty! This is a Constitutional Republic... AND YOU should follow me!

I will not give up, though tyranny be all around me - I will stand vigilant!

I will not Surrender my Liberty nor that of my children!

Give me Liberty or give me Death!

These are strong words, great rhetoric, a patriotic attitude, but it isn't a plan!!! The solution, or the plan, is simple, yet it truly is most difficult to accomplish. It requires citizen action! You need to get connected and involved in all government... local on up! Study God's word and study the Constitution and the Declaration of Independence. Read whatever will encourage you and inspire you. Soak it up and then GET UP AND GET GOING!

For these, once again... **"Are the times that try men's souls."**

We cannot compromise if we are to...

It Would Not Be A Stretch to say self-government in These United States is imaginary. Empire State voters would, if SCOTUS decided not to meddle, deal with Empire State voting district matters. Empire State legislators are, by election numbers at least, seated by Empire State voters, Not SCOTUS Justices, unless such Justices are Empire State voters. No secret legislators want voting leverage.

“In fact, the public-school system is one of the purest examples of socialism existing in America.”

~ *Thomas L. Johnson*

There Is Little Likelihood America’s Courts will stop meddling in our lives. Until we decide courts are not necessary for “Us, the American People” to decide how we shall define our voting districts. Those of us who work to have legislatures make laws and regulations to help us control our fellow citizens by force of law will keep at it no matter how courts tell us we are not supposed to keep at it.

“[T]he government of the United States is a definite government, confined to specified objects. It is not like the state governments, whose powers are more general.”

~ *James Madison*

Liberty Is A Messy Business when made available to people who have an irresistible urge to use force of law to control how other people shall conduct their affairs. It will be a tough chore to institutionalize Liberty as long as we let government confiscate property (wealth) and restrict choice (Liberty). A step toward institutionalizing Liberty would be to abolish all taxation save local control commerce tax.

"If Congress can do whatever in their discretion can be done by money, the Government is no longer a limited one, possessing enumerated powers, but an indefinite one, subject to particular exceptions."
