One Of "Our, the American People's" media articles cites a conversation with an undisclosed Trump/MAGA/Musk advisor who, according to coverage, said, "Of course I'm worried," when asked

if Trump/MAGA/Musk tidal wave might end up flooding Trump/MAGA/Musk fortress. Anyone who sits in a coveted position would be a fool not to worry there are others who want to be sitting there.

"A sword never kills anybody; it's a tool in the killer's hand."

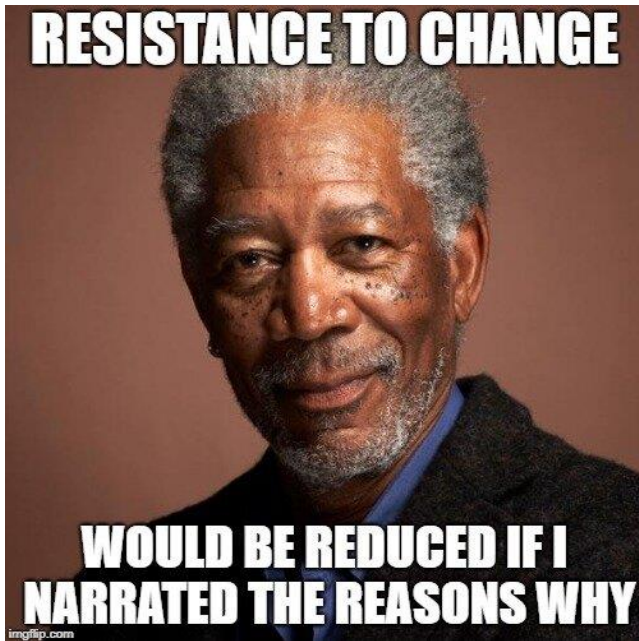

~ *Lucius Annaeus Seneca*

President Donald J. Trump And Cohort pushing for deep-rooted government reform are angering people in power who have inordinate authority over “Us, the American People.” Safe to say not one would shy away from toppling President J. and everyone closing ranks alongside him. It is intoxicating, having legislative power to confiscate people’s property (wealth) and restrict their choice (Liberty).

"The common man is the sovereign consumer whose buying or abstention from buying ultimately determines what should be produced and in what quantity and quality."

~ *Ludwig von Mises*

"We, the American People" who close ranks alongside President Donald J. were amply shown how much anti-Trump/MAGA/Musk detractors despise President Donald J. agenda at March 4th presidential address before Congress. President Donald J. was not given traditional acknowledgement by his opposition when entering Congressional House Chamber to take its podium. Ire is consuming.

"Whoever prefers life to death, happiness to suffering, well-being to misery must defend without compromise private ownership in the means of production."

~ *Ludwig von Mises*

There Should Be No Doubt how desperate are people who seek legislative office; few examples bear out their willingness to denounce rivals of like political party as when primary elections are held. It is not so much a matter of finding candidates who can defeat rival party candidates. It is a contest to see who can present strongest argument to voters, and claim coveted prize of lawful authority over people.

"Government cannot make man richer, but it can make him poorer."

~ *Ludwig von Mises*

"There's talk of innovation out here. Winds of change are headed your way. Lock you door, pull the shades and hide under your desk."

People Intending To Live In Liberty do not allow legislators – or other public officials within These United States of America, to overrule Commonwealth/State (10th Amendment) Sovereignty. They uphold their heritage of self-government and reject illegitimate federal intrusion.

"Opium and morphine are certainly dangerous, habit-forming drugs. But once the principle is admitted that it is the duty of the government to protect the individual against his own foolishness, no serious objections can be advanced against further encroachments. "

Presidential Speeches Are, Historically, to be filled with aplomb, dignity, decorum. President Donald J. Trump's speech to congress last evening, not so much. Last evening's speech was marked by outbursts from loyal opposition protestors, one resulting in a Congressional legislator escorted out for unruly conduct. Another legislator, reacting to extended Russo-Ukraine war, a resounding, "Yes!"

"Fear of serious injury cannot alone justify suppression of free speech and assembly. Men feared witches and burned women. It is the function of speech to free men from the bondage of irrational fears."

Hard To Imagine Blurting "Yes!" to extending Russo-Ukraine war will not become a haunting word to exclaiming legislator. Media post-speech polls were mixed, with a largely positive response from respondents. "We, the American People" would not be in error to conclude Congressional legislators voicing approval or disapproval, regardless enthusiasm level, leaned largely in favor of Trump remarks.

“Our, the American People’s” legislators will, in all likelihood, never agree on socio-economic matters where legislators insert themselves into resolving issues. Legislators seek office to yield their positional authority. They strive to make their personal attitudes, values, and beliefs (PAVB) lawfully compulsory, Any opportunity to lobby their PAVB goals, including presidential speeches, will do.

"Experience should teach us to be most on our guard to protect liberty when the government's purposes are beneficent...The greatest dangers to liberty lurk in insidious encroachment by men of zeal, well meaning but without understanding."

~ *Louis Brandeis*

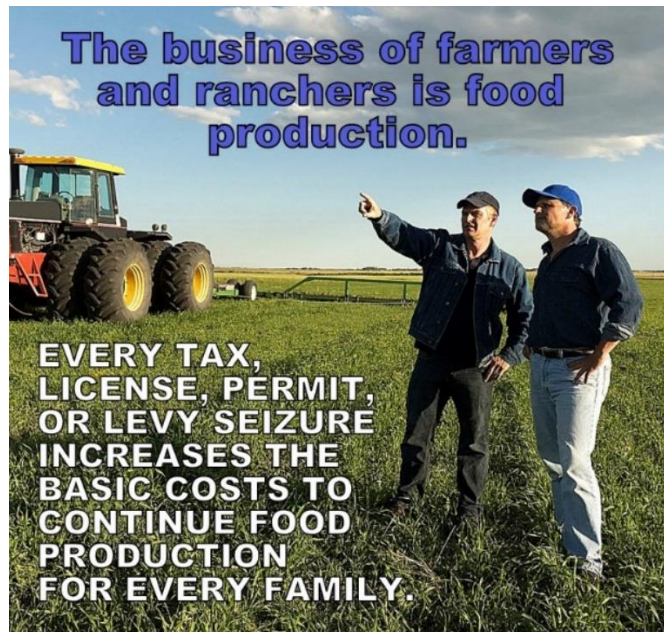

President Donald J. Trump Will Deliver speeches in Congress at least another three times during his second term. It would be naïve for “Us, the American People” to think loyal opposition Congressional legislators will not heckle President Donald J. every time. Their aim would be to satisfy their constituents, and, if they can swing it, bring discredit on President Donald J. and his MAGA agenda.

"The right most valued by all civilized men is the right to be left alone."

"At all times sincere friends of freedom have been rare, and its triumphs have been due to minorities...."
~ Lord Acton

Market Jitters Have "Our, the American People's" financial markets in negative territory referenced to Election Day, 2024. Media report reason centers on Trump policy uncertainty. Level-headed investors, given typical financial advisors tell clients not to gauge their financial future on temporary events, are not biting their nails and wringing their thumbs. Instead, they're looking for buy deals.

"I cannot accept, your canon that we are to judge pope and king unlike other men, with a favorable presumption that they do no wrong. If there is any presumption, it is the other way against holders of power...Power tends to corrupt, and absolute power corrupts absolutely."

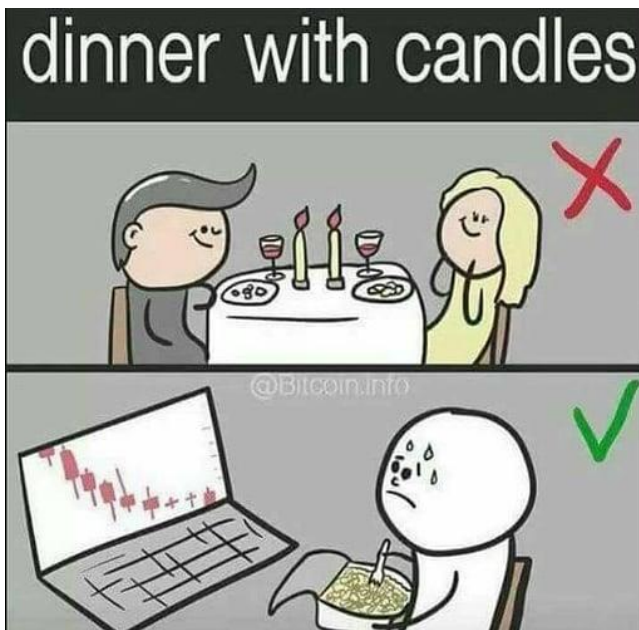

~ Lord Acton

"We, the American People" who are not well-experienced money managers, don't try coming up with sure-fire buy-low-sell-high schemes. We know an average investor can do well over time by putting a comprehensive stock list on a dart board and giving it random tosses. We also recognize our share total is not affected, barring companies folding, by trend lines. We stand to grow by buying low and holding.

"Who would be free themselves must strike the blow."

~ **Lord Byron**

There Are No Guarantees Money put anywhere will blossom and grow without risk. It's all but a sure bet purchasing value of under-mattress money won't put larger bulges in mattresses. Much bandied trade war brought about by President Donald J. Trump's tariff (trade tax) policies is fueled by, as much if not more so, consumer willingness to consume. Economics price-demand ratio is rarely not reliable.

"The wish, which ages have not yet subdued In man, to have no master save his mood."

~ *Lord Byron*

Bad Thing, Maybe Worst, About tariffs (trade taxes) is how governments use tariffs (trade taxes) to influence government policies dealing with governmental ideological impact on socio-economic life. Tariff (trade tax) policies can be put in their place by "Us, the American People" if we are willing to put our sovereign citizenry feet down and stop our government from interfering with our business.

"To argue against any breach of liberty from the ill use that may be made of it, is to argue against liberty itself, since all is capable of being abused."

~ *Lord George Lyttleton*

People Determined To Live In Liberty do not allow legislators - or other public officials within These United States of America, to infringe upon Americans' Bill-of-Rights protections; nor do they allow culpability for another person's behavior to be ascribed to their freedom to exercise their rights. They uphold Constitutional safeguards without equivocation.

"Political liberty is nothing else but the diffusion of power."

"Our, the American People's" brand-spanking new federal Education Secretary (FedEdSec) is Linda McMahon. FedEdSec McMahon has let it be known there are three goals FedEdSec McMahon intends for America's education system. 1. Heightened parental control; 2. Fruitful workplace careers; 3. Three r's, nix divisive ideology. Of note, FedEdSec McMahon is a former W.W.E. performer. Dazzling.

"Fear of serious injury cannot alone justify suppression of free speech and assembly. Men feared witches and burned women. It is the function of speech to free men from the bondage of irrational fears."

~ *Louis Brandeis*

For Those Three Or Four of "Us, the American People" who may not know, W.W.E. stands for World Wrestling Entertainment. Some of us, possibly a comparatively large some, W.W.E. star, hHlk Hogan,

advised kids who took in W.W.E. shows to say their prayers and eat their vitamins. Could be worse advice for kids coming from a wildly popular scripted entertainment industry personality. Wildly.

"Those who won our independence believed liberty to be the secret of happiness and courage to be the secret of liberty."

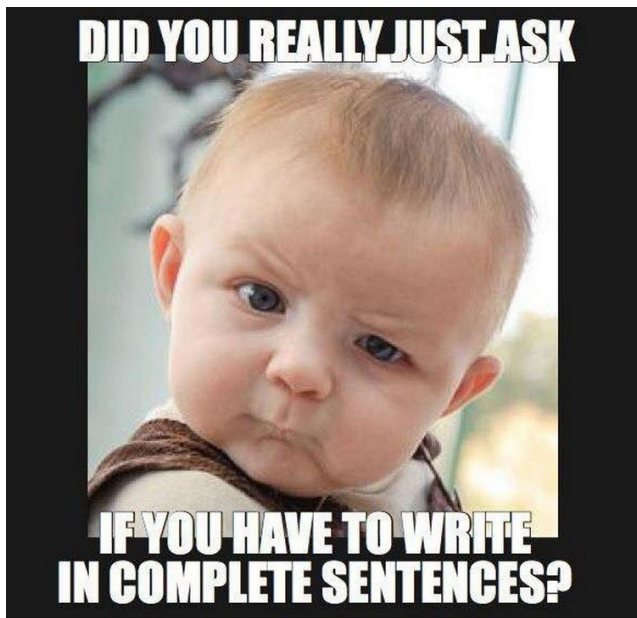

~ *Louis Brandeis*

Rumblings Have It "*We, the American People*," should President Donald J. Trump have his way, will not long have a federal, Education Department. How America's ever-curious minds full of mush shall ever learn to use their minds full of mush is uncertain. Without a federal Education Department. Odds are education will, as it has, always, permeate our socio-economic realm to, always, control behavior.

"Experience should teach us to be most on our guard to protect liberty when the government's purposes are beneficent...The greatest dangers to liberty lurk in insidious encroachment by men of zeal, well meaning but without understanding."

~ *Louis Brandeis*

FedEdSec McMahon's Three Goals for America's education system are consistent with controlling behavior. Parents taking charge of child behavior, kids learning to control their behavior, industry welcoming controlled behavior. Won't be a smooth ride. Plenty of people around who are interested in using education to control how kids form attitudes acceptable to special interest and demagoguery.
