

“Our, the American People’s” Supreme Court of the United States (SCOTUS) Justice Clarence Thomas is on record advising SCOTUS Justices not to introduce their own precedents until they have thoroughly considered and thought through SCOTUS precedents now prevailing. Justice Thomas, media coverage accurate, maintains understanding current doctrine sustains integrity of law.

“Lawless are they that make their wills their law.”  
~ *William Shakespeare*

**Judge:** And now I will read you the law that you must follow.  
**The Jury:**

“We, the American People” would be smart – very smart – to never lose sight of a fundamental principle applicable to government at large, law generally. Laws are codified expressions of legislators,

government chief executives, and judges collective personal attitudes, values, and beliefs (PAVB). SCOTUS Justice Clarence Thomas, seeing precedents, is, doubtless, well aware of PAVB legislation.

“Possession isn't nine-tenths of the law. It's nine-tenths of the problem.”

~ *John Lennon*

Legislative Legitimacy. Government Executive restraint, and judicial integrity, if there are such things, are up to “Us., the American People,” as a sovereign society, to prevent from functioning in a state of despotism. Given America’s government has power to confiscate property (wealth) and restrict choice (Liberty), risk of government excess (tyranny) is ever present. Our task is to prevent legislative excess.

“Understand this law and you will then know, beyond room for the slightest doubt, that you are constantly punishing yourself for every wrong you commit and rewarding yourself for every act of constructive conduct in which you indulge.”

~ *Napoleon Hill*

**Government Is Never Rooted In Immutable Principles**, despite our inclination to believe so from a strictly academic point of view. Our proclivity to make decisions based on our PAVB is no less prevalent in government ideology and practicality than among Pre K kids on a schoolyard. Urge to be in charge of our lives is beyond purging from our subjectivity. Government officials are not immune.

“No man is above the law and no man is below it: nor do we ask any man's permission when we ask him to obey it.”

~ *Theodore Roosevelt*

**People Intending To Live In Liberty** do not allow legislators - or other public officials within These United States of America, to interfere in health matters between private citizens and their physicians. They prohibit government from intruding on their privacy.

Tragedy: Liberal Gets Stabbed Before Finishing Telling People How Peaceful Islam Is

**"We, the American People"** are treated to a prime example of government displaying its ineptness at dealing with matters of consequence. Media articles are running reports of Congressional legislators conceding Safeguarding America's Voting Eligibility (SAVE) Act may well suppress voters due SAVE Act details on citizenship proof. Logic, though, is slight voting loss worth securing election integrity.

"War is just one more big government program."  
~ **Joseph Sobran**

***It Would Not Be Irrational For*** “Us, the American People” to swiftly fire legislators who claim a little voter suppression is worth cleaning up election fraud. Not different than saying subjecting a few people to cancer tests against their will would be worth saving untold lives by suppressing cancer. Hardly a wonder more lives are lost to government-started wars than sum total of all terrorist acts in history.

“Remember, democracy never lasts long. It soon wastes, exhausts, and murders itself. There never was a democracy yet that did not commit suicide.”

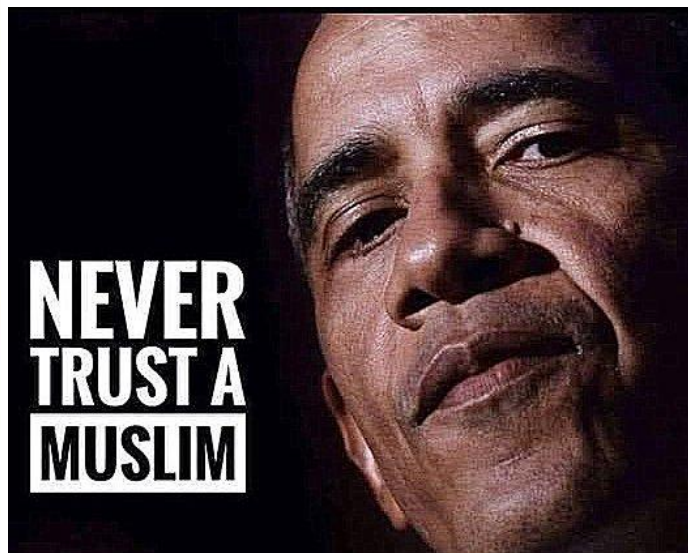

~ *John Adams*

“*Our, the American People’s*” freedom was not, is not, will not be due citizenship-verification voting (SAVE ACT) elections. Our freedom - freedom of any people in any country anywhere - depends on ordinary people holding government authority in check. Government, fundamentally, funds itself through selective, arbitrary, and discriminatory legislation, taxation, and regulation (SADLT&R).

“They that can give up essential liberty to obtain a little temporary safety, deserve neither liberty nor safety.”

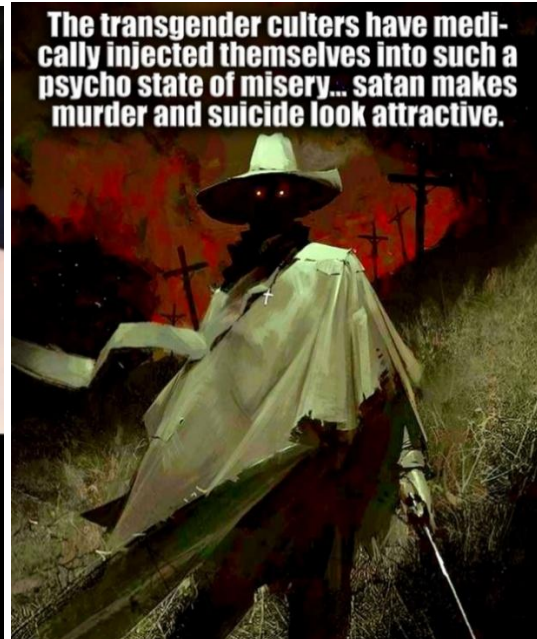

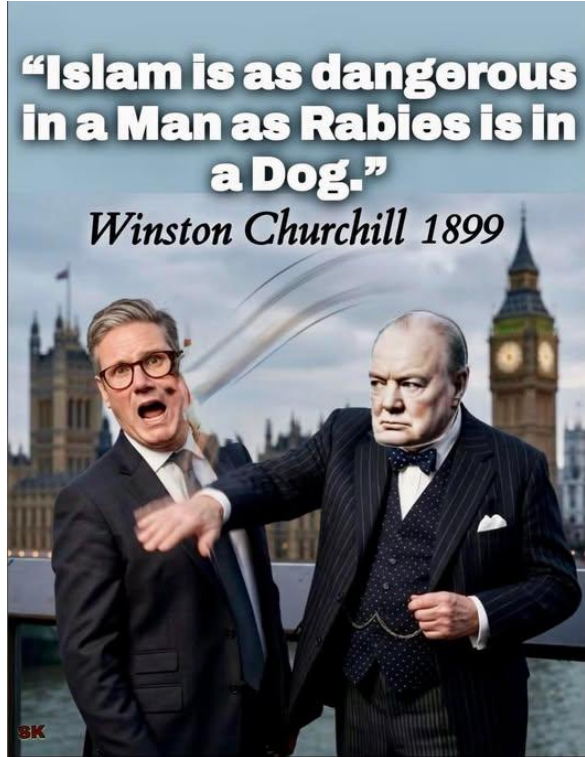

~ *Benjamin Franklin*

*America's Federal (U.S./National) Constitution*, while not specifying citizenship as a prerequisite for voting privilege, is hardly unclear on underpinning legislative legitimacy by laws treating all people homogeneously. America's legislators, while SADLT&R prone, are not dullards. They can make elections fraud-free. If we, a sovereign citizenry, see to it they do, or, they may not do a SAVE Act.

"One of the greatest delusions in the world is the hope that the evils in this world are to be cured by legislation."

~ *Thomas B. Reed*

People Expecting To Live In Liberty do not allow legislators – or other public officials within These United States of America, to interfere or impose in any way with how responsible citizens choose to use their private property. They protect their property against government intrusion – with force if necessary.

“If you are not free to choose wrongly and irresponsibly, you are not free at all.”

If our American Constitutional Republic survives this totalitarian regime, what will the future history books record?

George Washington stated, "***The marvel of all history is the patience with which men and women submit to burdens unnecessarily laid upon them by their government.***"

Thomas Sowell, in a more modern verbiage of the same statement put it this way, "***Historians of the future will have a hard time figuring out how so many organized groups of strident jackasses succeeded in leading us around by the nose and morally intimidating the majority into silence.***"

Recently the socialist Governor of California, Gavin Newsom stated in an interview and has posted the following on his Facebook page:

*“No president in **modern** American history has been more effective in two years than President Joe Biden.*

*A historically low unemployment rate. 12+ million jobs created. More people with health insurance. Massive infrastructure investments across the nation. Strengthened protections for the LGBTQ+ community. Aggressive action to mitigate climate change. Meaningful gun violence prevention legislation. The list goes on.*

*Today, America is facing a threat to our **democracy**. Authoritarian leaders in state after state are dismantling our core freedoms right before our eyes. There’s no one better to lead the fight for America than President Joe Biden.”*

**All these things Gavin states are lies!** He rattled off a list without any evidence of truth! Where are these 12+ million new jobs? Investing in infrastructure isn’t the same as construction! Climate Change is a hoax crisis and is nothing more than an excuse to control people and land. As far as the LGBTQ+ community, they have not been in grave danger! Biden has gone along and encouraged the gender dysphoria mentally ill and removed the rights of women in their own sports! He has approved and allowed pornography, and the sexual abuse of American children. He has allowed 7-10 million illegal aliens into this nation, placing all Americans in danger; whether identified as the right, the left-woke-doped-democrat, republican or those Americans with no political affiliation, it doesn’t matter, Danger is Looming! We have more homeless people than ever on the streets. Where’s their healthcare? Where are their newly created jobs? Of course the majority of homeless Americans are in Gavin’s state of California!

**Yes, they will fight for “American democracy”,** but they will oppress Americans and ignore the Constitution and deny the Bill of Rights as being important, in fact Joe Biden said they are not “absolute.” They seldom if ever

use the word Liberty. America is not a democracy it was established as a Constitutional Republic. The Constitution is a contract between **We the People** and our elected officials. President Biden has ignored and broken that contract, violating his oath of office and putting Americans in great danger. Congress too is guilty of violating the contract.

Unemployment is still not where it was pre-Covid! What new jobs have been created? Do more people have health insurance? Is that because he's giving FREE healthcare to millions of illegals now in the country? Let me remind us all, that forcing people to buy insurance is not making healthcare affordable, it's removing health decisions from the patient and the doctor and putting those decisions regarding your health into the smooth hands of someone sitting behind an office desk in a high-rise insurance building. They aren't so much managing your healthcare as much as they are managing your, (now theirs) money!

When it comes to dismantling freedom the democrat regime, calling Biden their President, are the most abusive against our Constitution.

Headlines like this: **"A 'Serious Violent Incidents' Spike To Highest Recorded Levels In K-12 Public Schools!"** This is happening under Biden's regime, as he continues to divide America with his speeches of hate and racism. He also encourages the mentally ill and the seizing of our children.

Under this Biden regime, Americans are told you have to use different pronouns and if you don't, you can be terminated from your job. We have been forced to go along with their absurd rhetoric of men can be women, and women can be men, but they cannot define a woman. Child molesters are no longer pedophiles but are termed MAPs, *minor attracted persons*. Biden and the "state" have placed our children in great danger and I would say they are attempting to make them slaves. Under Joe Biden, America is now number one in human and sex trafficking!

*“No president in **modern** American history has been more effective in two years than President Joe Biden.”*

Perhaps the key word in Gavin’s statement is the word “**modern.**” What is modern American history? While we cannot blame just Joe Biden, it has been during his presidential term that America has been put on Obama policy steroids. They are in a hurry to destroy America. Perhaps this **modern American** history is the “new” America, fundamentally changed and brought to its knees by haters of America and Americans.

Deep state America is very deep but it is not only inhabited by democrats. I said long ago, President Trump was the first “working” president this nation has seen in a very long time. You see, he wasn’t a part of the “state.” I believe President Reagan tried, but the “state” controlled his governing too, just as they attempted with Trump in his first term. When they realized they couldn’t control and manipulate President Trump, they went after him and they are still going after him.

The state, simply put, is a large, centralized government that is out of control with power. It no longer works for the people but controls and limits their freedoms. If we continue this systematically corrupt form of government, America the land of the free and home of the brave will be buried in history, along with Rome, and we will be seen as another failed nation.

Electing President Trump alone, is not the cure to America’s failing, but it is a start. President Trump cannot “fix” things without the help of many, including you! Four years are not enough to undo all the damage that the “state” has done to our Constitutional Republic. **We the People** must get involved! We must bring in statesmen and stop the “state” from being a corporation for career “politicians.” **America needs statesmen!** America needs active Liberty loving citizens.

Liberty is always in the hands of the people but first it must be a longing and a lust within their (our) hearts.

"I am more convinced than ever that if we ever again are going to have a decent money, it will not come from government: it will be issued by private enterprise, because providing the public with good money which it can trust and use can not only be an extremely profitable business ... "

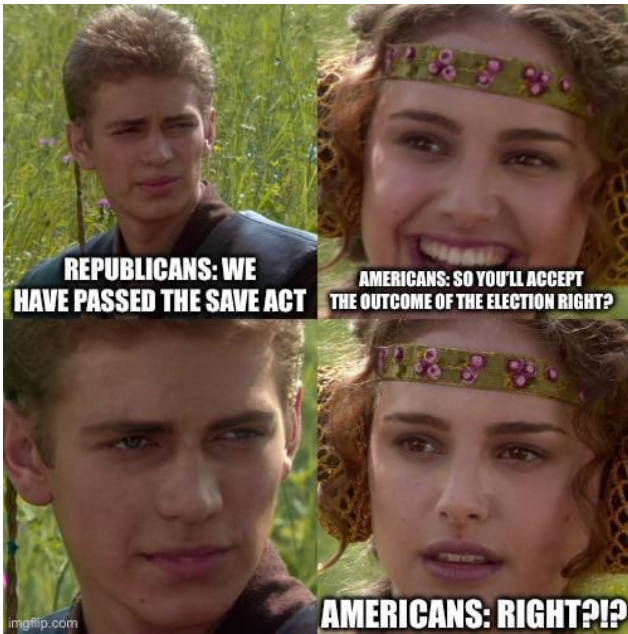

~ *Friedrich. A. Hayek*

*Proposed Safeguarding America's Voter Eligibility* (SAVE) Act is perturbing its share of political feathers. "Our, the American People's" legislators and special interest advocates are throwing steady verbal barbs looking for ways to have their say. Americans, by noteworthy majority, are reported to support SAVE Act; on order of 85% think only citizens ought have voting privileges. Pretty clear.

"The Austrian approach to understanding what has happened to the economy holds far greater explanatory power than does any competing school of thought."

~ *Thomas Woods*

**Constitutionally, Speaking, America's Trusty AI** has it there is no Constitutional requirement for voters to be citizens. So "We, the American People" find ourselves headed for a probable SAVE Act crisis over Constitutionality. Not as though it comes as a surprise. Ostensibly, America's legislators can not be held accountable (punished) for adverse consequences brought on by unConstitutional laws.

"There is no justification in history for the existing position of a government monopoly of issuing money. "

~ *Friedrich. A. Hayek*

**Constitutionality, Regardless How It Might** seem straightforward to, at least, some of "Us, the American People," is open to interpretation. Moreover, if we are going to be a self-governing people, we, not formal government, had better have final say on how government does business. Otherwise, we stand to become a 'May I' society. We're not far from it now, given government power to tax.

"The question before us is whether life is to belong to the living, or to long-revered systems that insist upon their authority to control and destroy life for organizational interests."

~ *Butler Shaffer*

Proposed SAVE Act Approval Numbers could be seen as our willingness to have government make laws America's commonwealth, federal (U.S./National), and state Constitutions would not stipulate as Constitutional. Our power to remain free depends solely on our readiness to hold a rein on government power to legislate, tax, and regulate. America's SAVE Act has little to do with sustaining freedom.

"It is the monetary system itself....that is breaking down, and it is the federal government's intervention...that threatens our economic well-being...."

~ *Thomas Woods*

People Directing To Live In Liberty do not allow legislators – or other public officials within These United States of America, to enact legislation or regulations requiring any private business to accept collective bargaining organizations. They stand by free markets and limited government.
