"If you feel driven to feed the poor, get your checkbook out and keep your tyrannical mouth shut about it."

~ *Lew Goldberg*

"Our, the American People's" media coverage on America's courts and President Donald J. Trump are anything but consistent. Reports on America's Supreme Court of the United States (SCOTUS) in matters versus

President Donald J. are mixed as to whether SCOTUS leans for or against Donald J. SCOTUS for or against Donald J. is not as important as how, or if, court opinions are followed.

"The only reason for a government service is precisely to provide financial support for an operation that is otherwise unsustainable, or else there would be no point in the government's involvement at all."

~ *Lew Rockwell*

**If President Donald J. Trump's Administration** is to be derailed when court decisions go against President Donald J.'s agenda, there is not much evidence to show President Donald J.'s MAGA agenda does anything other than regroup and fight on another day. "We, the American People," in any case, are footing bills for Trump v courts. Government fighting government is funded by taxpayer money.

"For every man who lives without freedom, the rest of us must face the guilt."

~ *Lillian Hellman*

**As Bad For "Us, the American People,"** is our ability to find and depend on accurate information on how President Donald J. Trump's MAGA agenda is helping or hurting America's socio-economic health. If we are

to measure President Donald J.'s MAGA agenda worth to our socio-economic strength thus far, DOW Jones Industrial Stoick Average (DJIA) numbers do not reflect a booming trend up.

"Ninety eight percent of the adults in this country are decent, hardworking, honest Americans. It's the other lousy two percent that get all the publicity. But then, we elected them."

~ *Lily Tomlin*

**There Are At Least As Many** discouraging socio-economic reports as there are encouraging. Missing in reports, generally, are indications we, a sovereign citizenry, are poised to curb government authority to act in ways damaging to our socio-economic health. There are indications neither major party is unified or there is inter-party cooperation to correct why we're in disarray – self-government paucity.

"There is no fury like that against one who, we fear, may succeed in making us disloyal to beliefs we hold with passion, but have not really won."

~ ***Judge Learned Hand***

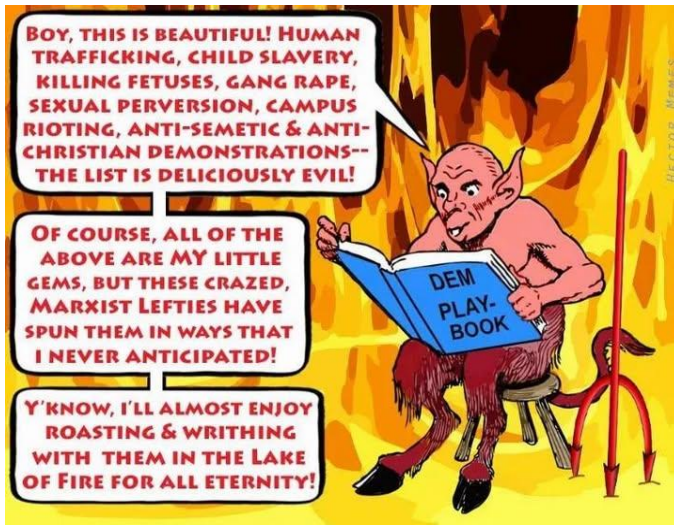

**"We, the American People"** are giving President Donald j. Trump a Bum;s Rush poll version of presidential performance approval rating. So, claims media coverage of how we, ostensibly, see America's Commander-in-Chief at America's Ship-of-State helm. Media coverage accurate, President Donald j.is facing a second-lowest Presidential rating since WWII. Polls said he'd not be elected.

"The misapprehension springs from the fact that the learned jurists, deceiving themselves as well as others, depict in their books an ideal of government - not as it really is, an assembly of men who oppress their fellow citizens, but in accordance with the scientific postulate, as a body of men who act as the representatives of the rest of the nation."

~ **Leo Tolstoy**

"Our, the American People's" expectation of our legislators, judges, and chief government executives is unrealistic. Looking at America's legislative office elections over America's voting history, it is readily apparent we have been traditionally radically divided in our expectations government will make our lives easier, if we figure out how to have right legislators, judges, and chief government executives.

"In order to get power and retain it, it is necessary to love power; but love of power is not connected with goodness but with qualities that are the opposite of goodness, such as pride, cunning, and cruelty."  
 ~ *Leo Tolstoy*

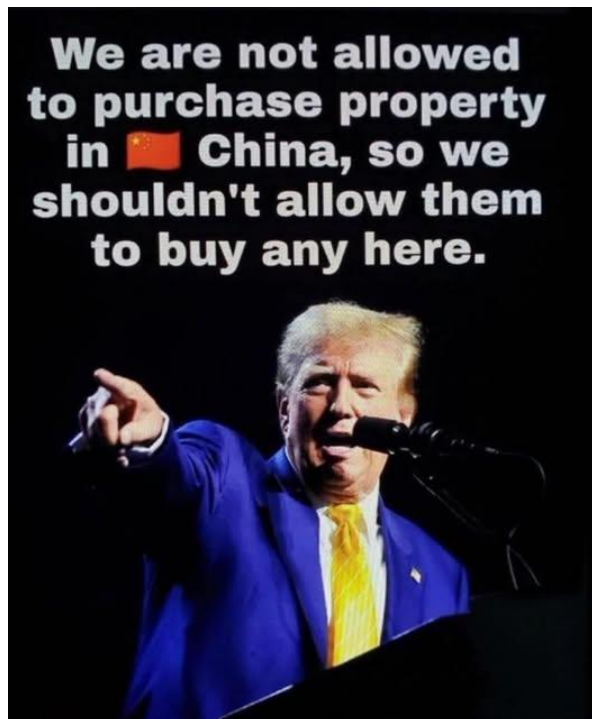

Given Diversity Prominent In “Us, the American People,” we are more than overly naïve to think or expect government will use us into times of prosperous, secure, and tranquil socio-economic state. It is virtually impossible for government to deliver us into happiness and harmony. Government, in making laws, automatically groups people into winners and losers. Law followers and law breakers.

"Everyone thinks about changing the world, but no one thinks about changing himself."

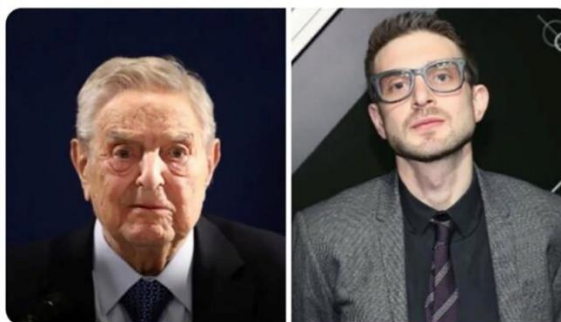

~ *Leo Tolstoy*

From the USAID audit we learn the Soros clan wasn't even spending their own money to attack our nations.

They were laundering OUR MONEY through the NGO's to fund their attacks.

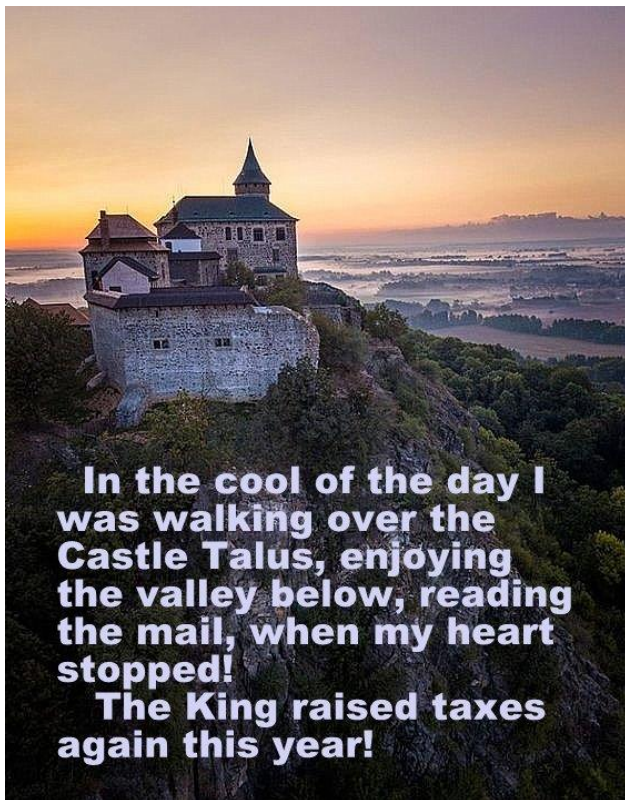

They only way these two should EVER step foot in America is to walk into a prison they never leave.

*Laws, Per Se, Are Only* a part of a larger program of selective, arbitrary, and discriminatory legislation, taxation, and regulation (SADLT&R) pitting American against American under government supervision. Government, for example, when, say, granting student loans, causes some Americans to pay for other Americans to attend college. Nice thing when voluntary. Discriminatory when mandatory.

"In all history there is no war which was not hatched by the governments, the governments alone, independent of the interests of the people, to whom war is always pernicious even when successful."

~ *Leo Tolstoy*

**People Committed To Living In Liberty** do not allow legislators – or other public officials within These United States of America, to enter into defined-benefit contracts with collective bargaining units. They preclude government from eroding their assets through property confiscation.

"Terrorism is the war of the poor. War is the terrorism of the rich."

"Principio Obstate (Resist from the beginning)."

~ *Latin proverb*

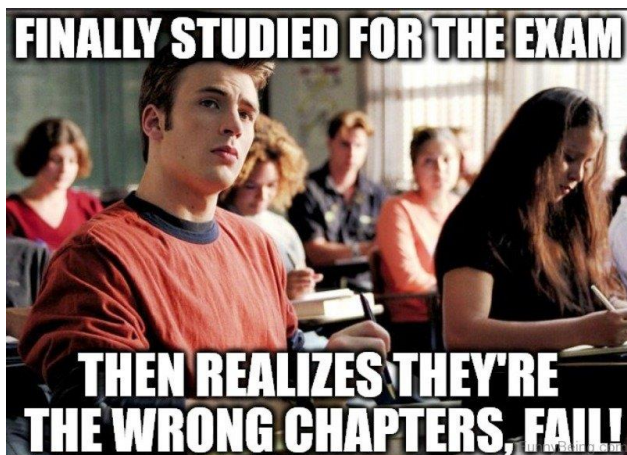

"Our, the American People's" media report a federal judge ruling President Donald J. Trump's deportation flights are beyond his court authority to stop. It ought give ardent law scholars cause to pause how such an admission would happen after same said judge ruled to block deportation flights. President Donald J. Administration is reported to use existing law as grounds for deportation flights.

"A censor is a man who knows more than he thinks you ought to."

~ *Laurence J. Peter*

"We, the American People" are witnessing our tax dollars consumed by litigation brought by individuals and groups standing in opposition of President Donald J. Trump's MAGA initiatives, notably, initiatives carried on by Department Of Government Efficiency (DOGE), headed by super billionaire Elon Musk. Politics never fails to pit citizen against citizen when laws favor some not others.

"Human beings are perhaps never more frightening than when they are convinced beyond doubt that they are right."

~ *Laurens van der Post*

President Donald J. Trump's MAGA initiative style governing are sure to be drawing lines of demarcation dividing them on matters of presidential authority to do most anything one group opposes, another group supports. Traced to their roots, issues for or against President Donald J. action stem from personal attitudes, values, and beliefs (PAVB) held near and dear by disagreeing advocates.

"Whenever there is some trouble in any area of the economy, the simplest solution to many people is "Let the government fix it."."

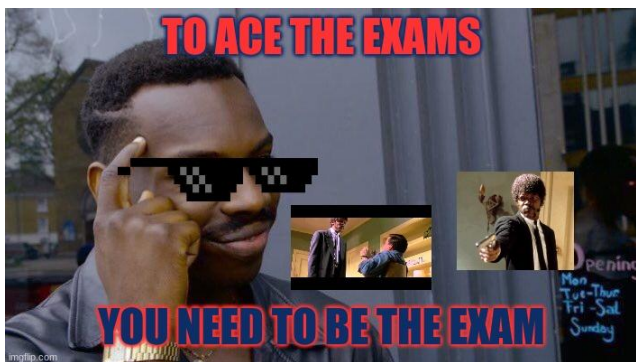

~ *Lawrence Fertig*

**There Is More Than Enough Sovereign** citizenry power held by “Us, the American People” for us to organize, strategize, and compel our government officials to put in place polices, practices, and legislation keeping us safe from foreign dominance, and free to live as self-governing people who need not worry government will legislate against how we choose to live. Not easy, doable with conviction.

"Federal regulations alone are estimated to cost Americans more than \$600 billion yearly. We pay government in lives shortened or lost because of delays in new drug approvals. "

~ **Lawrence Reed**

**People Planning To Live In Liberty** do not allow legislators – or other public officials within These United States of America, to offer amnesty to illegal aliens. They protect against intrusion on their homes and homeland.

"Have you ever noticed how statisticians are constantly "reforming" their own handiwork? Education reform."

"Perfect love holds the secret of the world's perfect liberty."

~ *Josiah Gilbert Holland*

*It Has Hardly Begun*, has Donald J. Trump's presidency. Karl Rove, noted political consultant, predicts President Donald J. Trump's second stint at 1600 Pennsylvania will end badly. Consultant Rove claims "We, the American people" are already tired of President Donald J.'s presidential performance. Consultant Rove notes President Donald J.'s approval rating starting tanking with tariffs (trade taxes).

"Liberty, then, is the sovereignty of the individual, and never shall man know liberty until each and every individual is acknowledged to be the only legitimate sovereign of his or her person, time, and property, each living and acting at his own cost."

~ *Josiah Warren*

Media Coverage Of "Us, the American People" who are supposedly ready to trash President Donald J. Trump include Consultant Rove's view average Americans are getting burned out by socio-economic uncertainty blamed on President Donald J's radicalism. Socio-economic uncertainty has been reflected in government initiatives long before Donald J, Trump decided to make tariffs (trade taxes) palatable.

"Men must have the right of choice, even to choose wrong, if he shall ever learn to choose right."

~ *Josiah Wedgwood*

**Reality Doesn't Always Meet** "Our, the American People's" hopes, and especially, dreams. Our expectations government will sooth socio-economic pains remain unfulfilled – other than by partisan exuberance when people in lawful power are defeated by partisan candidate enthusiasts think will help them force their personal attitudes, values, and beliefs (PAVB) on those they oppose or do not like.

"Were it not for the non-conformists, he who refuses to be satisfied to go along with the continuance of things as they are, and insists upon attempting to find new ways of bettering things, the world would have known little progress, indeed."

~ ***Josiah William Gitt***

**If Political Consultant Karl Rove** is correct and President Donald J. Trump's presidency ends badly, it will have nothing to do with Donald J. Trump, per se. It will be because we are too willing to allow our legislators, judges, and chief government executives to make their PAVB lawfully compulsory. We are a sovereign citizenry, We can forge our government to be precisely as we wish. If we're willing.

"I often wonder whether we do not rest our hopes too much upon constitutions, upon law and upon courts. "

~ **Judge Learned Hand**

**People Intending To Live In Liberty** do not allow legislators - or other public officials within These United States of America, to public (government) schools to delve into their children's attitudes, values, or beliefs. They school their children to become independent thinking sovereign citizens.

"It is not the responsibility of the government or the legal system to protect a citizen from himself."
