"No drug, not even alcohol, causes the fundamental ills of society. If we're looking for the sources of our troubles, we shouldn't test people for drugs, we should test them for stupidity, ignorance, greed, and love of power."

~ *P.J. O'Rourke*

"We, the American People" continue getting steady and inconclusive reports on how America's economy will be altered by President Donald J. Trump's tariff (trade tax) gamut. Financial advisors are quick to tell clients and prospective clients not to base future returns (ROI) on past investment performance on investments; advisors do, though, say they'll construct portfolios with minimal risk.

"If you think health care is expensive now, wait until you see what it costs when it's free."

~ *P.J. O'Rourke*

If a deaf person loses a finger, they have a speech impediment

Media Tariff (Trade Tax) Coverage can be seen as positive or negative, depending on how tariffs (trade taxes) influence "Our, the American People's" notions on money and banking and government fiscal policy. Looking at tariffs (trade taxes) as, essentially, just another tax helps to see who should bear responsibility for how tariffs (trade taxes) affect people's daily lives. Taxes are a cost, despite moniker.

"There are just two rules of governance in a free society: Mind your own business. Keep your hands to yourself."

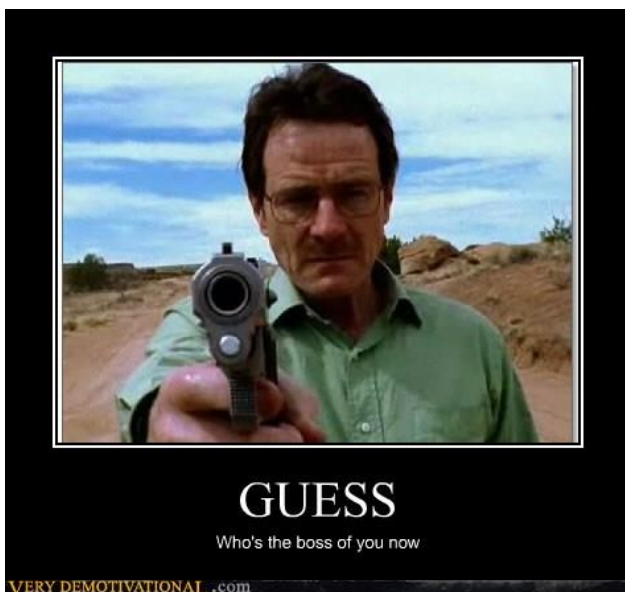

~ **P.J. O'Rourke**

Media Tariff (Trade Tax) Stories, positive or negative, tend to balance out. One article will report warnings of shortages and high prices, another article will report American producers are ramping up. One article will warn "Us, the American People" Chinese imports are poised to drop off, with prices going up; a related article reports China backing off from raising retaliatory tariffs (trade taxes).

"There is no virtue in compulsory government charity, and there is no virtue in advocating it."

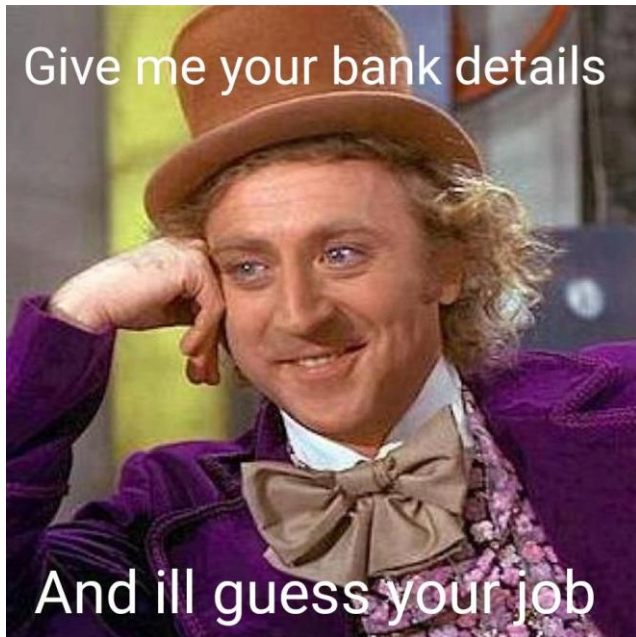

~ *P.J. O'Rourke*

We Can Say, Without Doubt, tariffs (Trade taxes) are used by governments to pressure other governments where trade policies are concerned. Tariffs (trade taxes) can also be used by governments to pressure governments in matters such as human rights, or, making alliances with governments see as threats to other governments. Tariffs (trade taxes) left to business bargaining could be less disruptive.

"It is a popular delusion that the government wastes vast amounts of money through inefficiency and sloth. Enormous effort and elaborate planning are required to waste this much money."

Maybe we ask who is doing the convicting.

Most Of "Us, the American People," those of us with active synaptic processes at any rate, know all too well it is an exercise in futility to spend time lobbying America's legislators to do anything making sense. Those of us wanting evidence America's legislators are occupied with senseless pursuit need do nothing more than typing 'ridiculous laws' in a random Internet search injury. Pages of sites come up.

Another American state allows catapult ownership; catapult operation is unlawful. Same state forbids launching flaming arrows. Sobering part is whoever thought up said laws thought them necessary.

“We, the American People” are subject to a tax law, while not universally thought ridiculous, is, nonetheless, a law we would be smart to eradicate. Minimum Required Distribution (RMD). Its name, alone, begs for a merciless passing. RMD apply to sundry savings accounts we might be using to bolster our coming fiscal needs. Government needs not RMD revenue for decades. Til one reaches RMD age.

~ *Ouida*

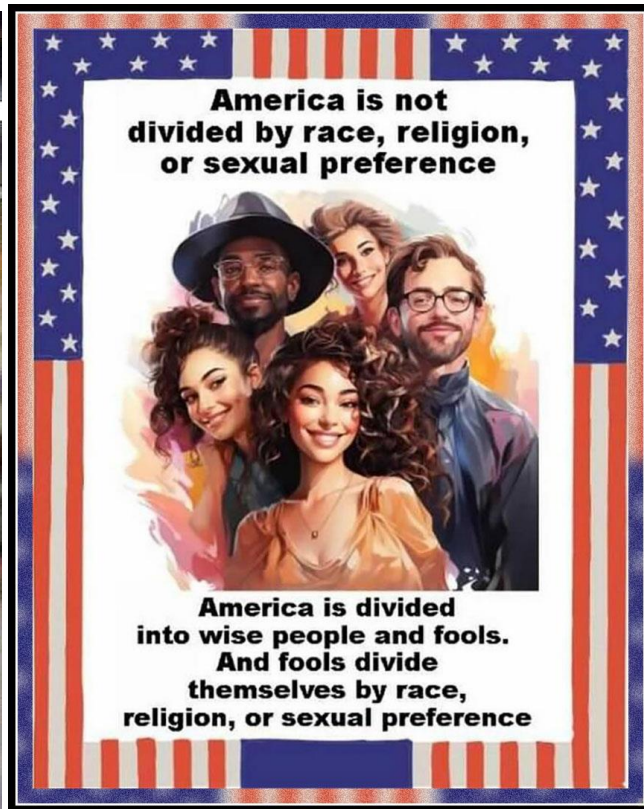

This Isn't Affirmation; It's Mutilation

Or Reasons Not Divulged by government tax code writers, RMD withdrawals are mandatory after an account holder is approaching life's final years. Typically, retired folks are taxed in lower percentage brackets. Add RMD to other income in advanced retirement, could be one ends up in a higher tax bracket. So, may be method to RMD madness, after all. Impending government collapse absent RMD.

"The supreme power in America cannot enforce unjust laws by the sword because the whole body of the people are armed, and constitute a force superior to any band of regular troops that can be, on any pretense, raised in the United States.

~ *Noah Webster*

Here's Going To Be A Real Crisis in this here country when "Our, the American People's" Supreme Court of the United States (SCOTUS) makes a decision President Donald J. Trump doesn't like. Media report a former Midwest Congressional House of Representatives legislator claims crisis will happen when President Donald J. decides if he will or will not follow SCOTUS ruling. So, crisis in either case.

"For those who stubbornly seek freedom, there can be no more urgent task than to come to understand the mechanisms and practices of indoctrination."

~ *Noam Chomsky*

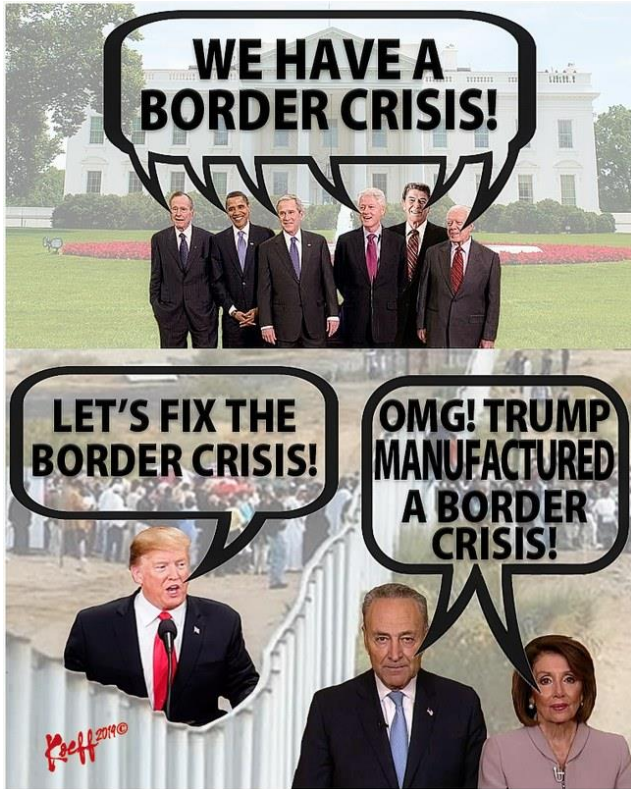

You can't have a mid life crisis if your
entire life is a crisis

America's SCOTUS And Other Courts make decisions routinely make decisions not well received by someone, Or, some groups. SCOTUS and other courts have been doing so since America's court system was invented by some deranged individual who figured out how to keep people at each other's throats by having some of their fellow elevated to positions of authority where they can bark opinions.

"If we do not believe in freedom of speech for those we despise we do not believe in it at all."

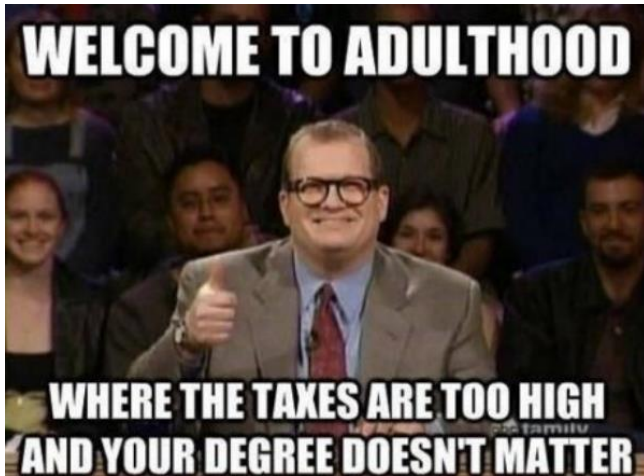

~ *Noam Chomsky*

"We, the American People," possibly by divine intervention – or, lack of same – have weathered court decisions, regardless how those decisions have introduced nuisance in our lives. Mostly because court decisions, when taken seriously, are rarely not bones of contention between people who want to control other people's behavior, and are not able to do so by persuasion, so, try having laws do their fighting.

"For the totalitarian mind, adherence to state propaganda does not suffice: one must display proper enthusiasm while marching in the parade."

~ *Noam Chomsky*

Socio-Economic Court Decisions, if American society decides to take those decisions seriously, rarely result in 'Liberty-and-justice-for-all.' Court decisions tend to divide people into winners and losers. Justice and fairness are decided based on personal attitudes, values, and beliefs (PAVB) held by court members. Objectivity is lost when PAVB come calling. Ironically, SCOTUS PAVB decisions teeter.

"It will be found an unjust and unwise jealousy to deprive a man of his natural liberty upon the supposition he may abuse it."

People Destined To Live In Liberty do not allow legislators - or other public officials within These United States of America, to give quarter to, offer sanctuary to, or, negotiate with terrorists. They assure terrorists find no sanctuary wherever they run or try to ply their trade.

"Our, the American People's" media report on order of one-and-a-half-million Americans live in Mexico without documentation. Mexico's president is reported to have noted said one-and-a-half-million undocumented America's living in Mexico are received warmly by Mexico. There must be some documentation, or other evidence, to show undocumented Americans in Mexico are Americans.

"How many Catholic schools do you think teach the students to question the authority of the Pope?"

~ *Neal Boortz*

Media Story On Undocumented Americans living in Mexico notes there are fears in Mexico deportations to Mexico from America will impact negatively on Mexico's economy. Said fears valid, it would be fair to conclude illegal immigrant/migrant/refugee (IIMR) influx, when occurring in comparatively large numbers, would impact negatively on economies. IIMR folks have to be hepped.

"Because we believe that our ethnic group, our society, our political party, our God, is better than your God, we kill each other."

~ **Neale Donald Walsch**

“We, the American People” are not known for ignoring people in need. Fair to say most caring people anywhere are generous and charitable. Big difference between being charitable and being forced to take on people with no means of support because governments do not control borders, thereby forcing their citizens to take on responsibility for more than their loved ones and others they’re helping.

“For to be free is not merely to cast off one's chains, but to live in a way that respects and enhances the freedom of others.”

~ *Nelson Mandela*

Global IIMR Troubles, Arguably, are not caused by lack of resources in countries from where IIMR people originate. There is no reason why virtually all country on Planet Earth can not offer good living conditions for their citizens. Expecting other countries to take on disadvantaged people in large numbers without means of support is unreasonable. World-wide IIMR refusal would force change.
