A Wolf In Wolf's Clothing. "Our, the American People's" Southern Poverty Law Center (SPLC) has been a vociferous anti-racist, anti-discrimination, anti-hate outfit for a long time. Now, if media coverage is accurate, SPLC faces charges of doing exactly as they accused others of doing. Media coverage, for example, reports SPLC funded Klu Klux Klan and other fanaticism groups' extremism.

"We, the American People" ought be long past being surprised when politically-driven organizations turn out not as they seem or as they advertise themselves to be. A group advocating fairness, for example, when it comes to practice, might only work to attain fairness for some people, not others. We would be smart to dissociate ourselves with those advocating others be ostracized for their views.

It Is Not Easy For “Us, the American People” to keep our legislators, chief government executives, and judges from lacing their job performance with their personal attitudes, values, and beliefs (PAVB). America’s commonwealth, federal (U.S./National), and state Constitutions are partly to blame. Our Constitutions empower legislators to make laws they see fit to bolster freedom. PAVB-defined freedom.

Efforts To Manipulate Voting are aimed at controlling who gets elected. Or, if a ballot issue carries. Who is in office matters not nearly so much as lawful authority they wield. We, a sovereign citizenry, have power to curtail office holder positional authority from inappropriately hampering our lives. We need only to come together and force officialdom to forego or rescind laws not conducive to our Liberty.

There Is A Media Article Running about wherein article author refers to “Our, the American People’s” founding fathers addressing concerns about tyrannical majorities. Article author notes James Madison observed ‘parchment barriers’ could not keep legislative majorities from riding herd over minorities to silence their voices and suppress their rights. Constitutions do not shoulder weapons in their defense.

Article In Question Compares Founder Madison's consternation with Virginia Governor Abigail Spanberger signing a Virginia law to, as article author puts it, circumvent America's Constitution by having Virginia electors vote contrary to Electoral College presidential elections. The American System For Prosperity (Part 2 of 2)

“Americans made what they bought and they bought what they made.”

America has been going the wrong direction for many years.

Illegal Immigration has been an issue since before President Reagan.

Crime is rising as good jobs are disappearing.

We have empty factories and homeless on the streets.

Faith is becoming less important to Americans and the family structure is deteriorating.

America needs leaders who are men and women of faith and men and women loyal to America and to Americans.

Today, we say we have weak leadership AND I DO BELIEVE they are weak men and women BUT I also believe the pain they are causing is purposeful. They are breaking the law by not keeping Americans safe! This applies to the invasion of our borders, the implementing of free trade treaties, our education system being used to indoctrinate, and to our constant suppression of free speech and freedom of religion. Our current leaders have no pride and absolutely no loyalty to America or Americans!

...but you and I do! We love this nation, and we want the best for our neighbors, our communities, our schools, and our nation! We want to be able to have jobs that pay enough to raise our families comfortably. We want to believe we are safe and secure from our enemies, such as China, Iran, and Russia.

As I read this essay by the late Curtis Ellis, I realized more than ever, just how important tariffs are to this nation. They are a matter of economic security, the security and growth of our agriculture, as well as our manufacturing, and our infrastructure.

There is no doubt that America is currently a mess. We need to elect a president who loves America and is loyal to Americans. **We the People** need to put in Congress men and women who are loyal to America and love Americans. We need all those in government positions to hold sacred Life, Liberty and the Constitution of the United States of America.

I believe if we were to reinstate the American System of tariffs, we would put the U.S. on the road to righting the wrongs and rebuilding our economy; MAGA.

On today's show I finished sharing the essay by Curtis Ellis which was taken from his book, **Pandemonium: China's Global Strategy to Cripple America**, Post Hill Press. The essay is titled, "An American System for America

Prosperity” [An American System for America Prosperity › American Greatness](http://amgreatness.com)
(amgreatness.com)

Excerpts from the essay:

“A people who cannot supply their own demand for iron and steel but purchase it from foreigners beyond seas, are not independent, they are politically dependent!” William “Pig Iron” Kelly (Pennsylvania Congressman from 1861-1890)

The American System aims at delivering a higher standard of living for Americans – higher wages for workers, fair compensation for producers – rather than lower prices for consumers because the consumer *is* the producer – and must first be a producer. Americans would find gainful employment producing the goods they consumed. It was a virtuous cycle, with “consuming” (buying) recycling wealth into the pockets of the “consumers,” who were, importantly, producers of the goods as well. **“Americans made what they bought and they bought what they made.”**

That sounds like a beautiful prosperous system that boosts the economics of Americans, this nation and secures our Independence.

The words of President McKinley are so profound:

They say ‘everything would be so cheap’ if we only had free trade. Well, everything would be cheap and everybody would be cheap. I do not prize the word “cheap.” . . . It is the badge of poverty . . . when things were the cheapest, men were the poorest . . . Cheap? Why, cheap merchandise means cheap men, and cheap men mean a cheap country; and that is not the kind of Government our fathers founded. . . We want labor to be well paid, we want the products of the farm, . . . we want everything we make and produce to pay a fair compensation to the producer. That is what makes good times.

*“A fair compensation to the producer”—take care of the producer and the rest will take care of itself. **President McKinley (1889)***

***“The greatness of America lies not in being more enlightened than any other nation, but rather in her ability to repair her faults.”** Alexis de Tocqueville*

There are GREAT MEN and there are Greedy men, I feel America is suffering because of the greedy men and women who are career politicians. They no longer consider themselves representative of **We the People**. They choose not to serve but to seize. They can be shysters who talk a talk, but they cannot walk the walk. They accept no responsibility but enjoy placing the blame on others. They lie to us at every turn and make deals that are contrary to what is good for Americans.

I believe our politicians know the truth of the consequences they have enacted on this nation with their open borders and free trade agendas. They seem to represent the world and not the Americans who elected them. They are globalists who do not focus on America.

... but as I stated earlier; There are Great men and there are greedy men; unfortunately, we are being led today by the greedy!

I share this information regarding Trade Tariffs because I think it is vitally important. I realized in 2016 America's trade and immigration policies were the reasons all seem to hate Donald J. Trump the candidate, and these are still the real reasons for the hate of President Donald J. Trump #45 AND hopefully #47.

Statesmen want to MAGA ... **Globalists do not!** It's important that you and I recognize the difference, and the importance of TRADE and Tariffs.

Only then will we MAGA...only then will we **Bring America Home**© again!

Thou Shalt Not Covet. Someone said so. “Our, the American People’s” erudite AI tells inquiring minds not coveting is a Christian Bible premise aimed at keeping people from becoming resentful and self-serving. Big Apple Mayor Zohran Mamdani isn’t heeding advice against coveting. Not by his proposals to take other people’s property (wealth) if he thinks they have too much. He can’t take wealth not there.

“The only thing that saves us from bureaucracy is its inefficiency.”
~ *Eugene McCarthy*

Media Report Mayor Mamdani made a spectacle of pointing out a Big Apple building wherein a penthouse had been purchased, at time of sale, for a higher property price ever in America. Makoy Mamdani, in keeping with his promise to tax wealth people, said penthouse was one of those wealthy people he intended top tax to pay for services other people were to get for free. Owner thinks differently.

“The jury has the right to judge both the law as well as the fact in controversy.”

~ ***John JayJustice***

Penthouse Owner In Question, media coverage accurate, has made substantial charitable contributions, not to mention has employed a large workforce. Penthouse owner had planned a large development project creating thousands of jobs for Big Apple workers. Penthouse owner is reconsidering project due Mamdani’s tax mania. “We, the American People” might take due note.

“There ain’t no rules around here! We’re trying to accomplish something.”

~ ***Thomas Edison***

Penthouse Owner Singled Out by Mayor Mamdani is no stranger to dealing with obstacles. Owner relocated his headquarters from Illinois's Windy City to America's Sunshine State due Windy City violence. It would be smart for "Us, the American People" to recognize we have, as a sovereign citizenry, power to stop covetous behavior carried out by government officials. Only takes doing.

"The ideal Government of all reflective men, from Aristotle onward, is one which lets the individual alone – one which barely escapes being no government at all."

People Determinedg To Live In Liberty do not allow legislators – or other public officials within These United States of America, to subsidize private enterprise with public money. They uphold fiscal responsibility, limited government,
