

There Is No Shortage Of Studies and estimates – and guesses – for “Us, the American People” on how much American taxpayers will end up paying for nowadays Iranian conflict. Early on, costs were tallied at around a billion dollars a day; some estimates are forecast at \$2T before it’s all said and done. Iran, AI data close, has incurred some \$270B in damages, roughly nine times cost to American people.

“We have two parties here, and only two. One is the evil party, and the other is the stupid party. Occasionally, the two parties get together to do something that's both evil and stupid. That's called bipartisanship.”

“*We, the American People*” should not be surprised if Iran conflict is prolonged many months to come. It is safe to say Iran is driven by a hardcore religious motive. America, in contrast, is driven by an ethic of freedom-based ideology. Overcoming religious belief to minimize, say, loss of life is, in all probability, an impossible task. Committed believers may see cessation as a fateful transgression.

“I think we need to find out why the citizens of the world’s wealthiest, most envied, most powerful country are so cynical, so distressed, so angry, so ticked of about so many things.”

~ *William J. Bennett*

"Our, the American Peoples's" military could be tied up prosecuting militant Iranian guerilla remnants for years. It would not be surprising to see us tire of a never-ending 'war.' We may be tired enough, now, if Iranian conflict doesn't show radical improvement by Election 2026, and replace President Donald J. Trump for no other reason than to expect an end to it. Whether it would end is up for grabs.

It Is Safe to Note Iranian Conflict cease-fire extensions and conflicting-ending negotiations have not stopped hostilities or a resumption of normal sea traffic in Hormuz Strait. We could deduce we have no clear cut, definitive, strategy for making Iran succumb. Meantime, American war-making costs go on, and inflation sparked by Iranian conflict keeps nagging. Our patience, understandably, is strained.

A College Town Residents Of "The Bay State" stood to be served with a 50% property tax hike, given "Our, the American People's" media reports hold true. 50%. Had property tax increase legislation been voted in, homeowners of nominally priced homes would have seen their taxes go from on order of \$5,640 to on order \$8,477 over five years. Town voters kept tax hikes in tow for a while, at least.

It Would Not Be Hard for "Us, the American People" to conclude taxes are destined to rise perpetually. AI offers a litany of factors driving tax increases. Of note is government growth. Government, AI on point, is expanding. Government expansion equals government cost expansion. Government cost expansion equals tax increases to pay for government growth. The Declaration Of Independence In Real Time

When, in the course of human events...

2-6-2024

When you read the **Declaration of Independence** does it speak to you in REAL TIME these days?

When in the course... can you finish that line?

...of human events...

When, in the course of human events,

How many human events of abuse and despotism must we endure before **We the People** act?

*...it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume, among the powers of the earth, the separate and equal station to which the **laws of nature and of nature's God entitle them**, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.*

It is time for **We the People** to separate this STATE of democracy from our Constitutional Republic and compel (demand) the elected leaders, along with their bureaucratic cohorts, to follow the original intent of our Republic.

*We hold these truths to be self-evident, that **all men are created equal, that they are endowed, by their Creator, with certain unalienable rights, that among these are Life, Liberty, and the pursuit of Happiness.**--That to secure these rights, governments are instituted among men, **deriving their just powers from the consent of the governed,***

Our Creator God and His laws are the very foundation of our Constitutional Republic, it is no surprise why so many in our government deny God and are trying to remove Him from our nation. The lie of the separation of church and state has somehow encouraged this pretend government of democracy to abuse our inalienable rights. Going beyond the removal of nativity scenes and Ten Commandment monuments, they have also attempted to remove the word God from our Pledge of Allegiance. It is obvious that Human Life, to the elected officials and their elite friends, is of little value. If you do not believe in the Creator God, it is not in your heart to care for the lives of others or to protect their rights. While they scream to save democracy (never mentioned in our founding documents) the word Liberty is seldom on their lips. The Pursuit of happiness is completely ignored, and its reasoning denied.

This is on us! **We the People** are “the consent of the governed!” Our current government leadership has ignored our rights and our demands. They have grown to an oligarchy and treat **We the People** with disrespect and contempt! The political pyramid has been turned upside down and our Republic is now in great peril.

*.....that whenever any form of government becomes destructive of these ends, **it is the right of the people to alter or to abolish it, and to institute new government, laying its foundation on such principles, and organizing its powers in such form, as to them shall seem most likely to effect their safety and happiness.***

January 6 was no insurrection! Those American citizens were there to witness the election certification and make sure it was done according to our Constitution. However, the only people who have the right to insurrect are, **We**

the People! Unfortunately, there has been an insurrection of our Constitutional Republic. Those in leadership for many decades have treated our precious Republic abhorrently and referred to our Constitution as a “living breathing document,” which it most certainly is not! The Constitution is a contract between us, **We the People**, and the elected officials. We do not *consent* (approve) to their tyrannical ways and the unconstitutional bureaucracy.

Prudence, indeed, will dictate, that governments long established, should not be changed for light and transient causes; and accordingly, all experience hath shown, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed.

It is not for light and transient causes for which **We the People** now object to our rogue government officials. We have been patient, perhaps even blind to the ways of government. “You” (government officials) have put upon the citizens of these united States great burdens of taxes, stripped us of our rights for the pretense of safety, you have passed pretend legislation not in agreement with our contract, the Constitution of the united States of America. You have stripped this nation of its sovereignty and run it into a great unsustainable debt, yet you profit from your deeds and continue to take from the purse of the people.

But when a long train of abuses and usurpations, pursuing invariably the same object, evinces a design to reduce them under absolute despotism, it is their right, it is their duty, to throw off such government, and to provide new guards for their future security. Such has been the patient sufferance of these Colonies; (States united) and such is now the necessity which constrains them to alter their former systems of government. The history of the present State of America’s oligarchy-democracy, like the King of Great Britain, is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute tyranny over these (united) States. To prove this, let facts be submitted to a candid world.

Our Founding Fathers then listed 28 grievances against the king.

What would your list read like?

When in the course of human events!

What human events? Are there any human events for which **We the People** would now dig in our heels and tell this rogue government woah!

This is a list of demands after experiencing the abuses and usurpations of our current government.

Not one more step; not one more piece of crazy long legislation, not one more bill!

Not one more bureaucratic department...

Not one more unconstitutional law, mandated regulation, license or permit... NADA

Not one more free hand out...

Not one more stolen election...

No more lobbyists buying off our elected offices...

No more NEW TAXES and CUT the old ones!

No more FREE CRIMES!! Law and order will be restored!

No more handouts for illegal aliens!

Restore the death penalty for violent crimes, especially those committed by illegal aliens.

No more omnibus bills

No more money to foreign enemies...NONE!

Stop funding foreign wars and taxing **We the People** to pay for your wars

Stop the drug cartel from invading our nation

Stop the U.S. Big Pharma Drug Cartel from poisoning the people and from paying off media and government, in order to make heavy profits on inferior drugs

Put up a Big Beautiful sign on each door of the “Peoples’ House” reading, No Soliciting Allowed! All violators (solicitors) will be arrested immediately and fined heavily!

No more removing of God, and no more removing of American statues or American Flags!

We the People will not ignore our history (the good or the bad) and we will not allow the bad to be repeated. No More Slavery!

STOP ALL HUMAN TRAFFICKING IN AMERICA!

When, in the course of human events, it becomes (is now) necessary for one people (**We the People**) to dissolve the political bands which have connected them with another, and to assume, among the powers of the earth, the separate and equal station to which the **laws of nature and of nature's God entitle them**, a decent respect to the opinions of mankind requires that they should declare the causes which we now suffer are not light or transient but complete and utter tyranny!

We the People must return the rightful order of our government; **God is first**, **We the People**, second; the state is third. The states in turn created a small,

centralized government, which is the bottom of the governing pyramid, for the purpose of order and national security. Never was the federal government to be superior above those who created it!

We the People in order to restore our once perfect union do reaffirm and demand the original **Constitution of the united States of America** once again be the rule of law for this nation! All legislation and laws that do not parallel with this treasured document are null and void!

We the People, “consent of the governed,” do now unite **to Bring America Home.©**

Couple Worries Having A Baby Could Cut Into Time They Spend Sitting On The Couch Staring At Their Phones

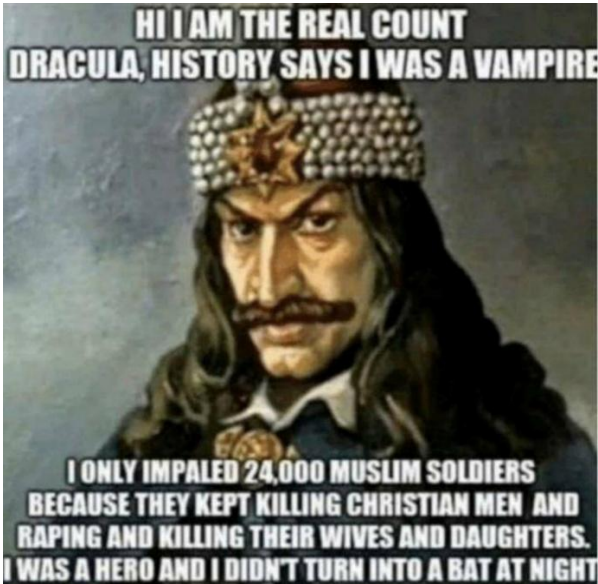

When It Comes To Acceptability of any government action, it would be smart for “Us, the American People” to not lose sight of our final say as a sovereign citizenry. Not even our courts have legitimate power to overrule us when we act to either uphold or reject government action. Legality notwithstanding, our Constitutions are ours for us to use and protect as we see fit, not as courts decide.

If you're going to make a monument, make it accurate.

Self-Government Is Not Subject to court pronouncement. We can rest assured sitting and prospective legislators, judges, and government chief executives want power to make their personal attitudes, values, and beliefs (PAVB) lawfully compulsory. Our ability to live in Liberty as sovereign citizens is lost when we are subject to PAVB-driven government power. PAVB-driven government is tyrannical.
