Advocates of Honest Judiciaries,

Dear Professor Gardner, Wilmer Cutler, Perkins Coie, Susman  
Godfrey, Jenner & Block, Harvard, lawyers, law firms, universities,  
and Advocates,‡

1. This is a proposal to join forces to apply Professor Gardner's  
article [District Court en bancs](#)[1] in a case pending in the U.S.  
District Court, SDNY, concerning healthcare insurers and other  
medical services and equipment providers' plotting and committing  
with the complicity of Medicare abusive insurance claims evasive  
"delay, deny, defend" tactics:

*Cordero*

v.

*Secretary of Health and Human Services, Medicare,*  
*EmblemHealth* [healthcare insurer],  
*Maximus Federal Services* [reviewer of insurance claims denials],  
*et al.* [including many of the top officers of  
the Medicare Appeals Council and  
the Office of Medicare Hearings and Appeals (OMHA)];  
docket no. 24-cv-9778-JAV;  
filed in U.S. District Court, SDNY,  
on 16 December 2024.

> [complaint](#) at SDNY:111[2]

2. I cited you, Prof. Gardner, and your article in my April 11 [motion](#)[3], which requests en banc review. With your amicus curiae[see endnote 4] support of it, you can capitalize on the enormous research and writing effort that you must have invested in your article.

3. [Wilmer Cutler](#)[5], [Perkins Coie](#)[6], [Susman Godfrey](#)[7], [Jenner & Block](#)[8], [Harvard](#)[9], and the lawyers, law firms, universities, and Advocates challenging the Trump administration are invited to join in one amicus brief or write their own amicus to benefit from the greater use of district court en bancs.

**District of Columbia live database**

**District of Columbia live database**

4. Indeed, my motion was addressed to SDNY Chief Judge Laura Taylor Swain to request that she convene her district court en banc to resolve the conflict between an order of hers in my case and a subsequent one of the currently assigned judge, i.e., J. Annette A. Vargas; and decide other issues of public interest in these turbulent judicial times, e.g., whether:

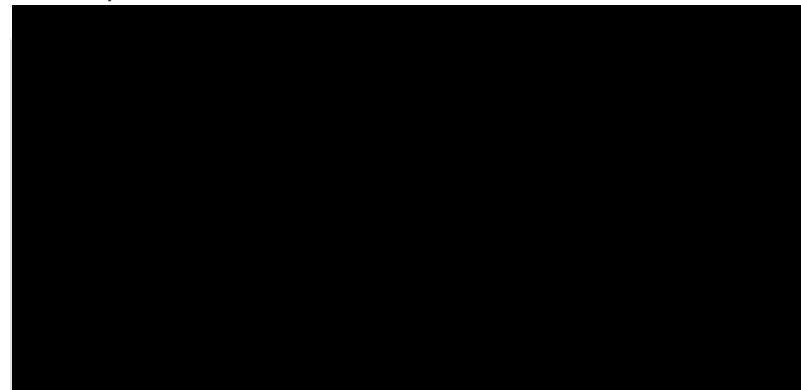

a. a decision of a district court en banc, convened on a party's or the judges' motion, can more effectively persuade the public and a court of appeals than a decision of a single judge. If so, it would better resist arbitrary and capricious attacks by the current administration;

b. access to justice can become 'speedier and more inexpensive' in line with the purpose for the FRCP set forth in [Rule 1](#)[10] through review by a district court en banc compared with an appeal to an appeals court;

c. the sovereign and judicial immunity doctrines violate Articles II §4 and III §1; and Amendments XIV §1 and V of the Constitution, which provide for holding all officers of the United States, including those of the Executive branch and all judges, accountable so that against those officers We the People can secure “the equal protection of the laws” instead of being at the mercy of officers who arrogate to themselves an unconstitutionally superior place: Above the Law;

d. district court en bancs are mechanisms for judges to police themselves so that they can deter, detect, and correct their fellow judges’ abuse of discretion/power or incompetence;

e. characterizing mine as a test case in defense of civil rights and in the public interest, se it will benefit the [67.3 million](#)[11] old, sick, and disabled insureds of Medicare, and the additional millions of non-Medicare insureds, the overwhelming majority of all of whom lack the physical and emotional stamina and knowledge of the law needed to defend their rights individually, e.g., through four levels of administrative appeals and climb to the fifth level of judicial review in a federal district court, never mind appealing to a circuit court;

### **Medicare Statistics And Facts In 2025**

Alena Hall

Medicare is the primary form of health insurance for older adults in the U.S. Provided by the federal government...

f. such characterization will induce law, journalism, and [IT/AI](#) professionals as well as professors and students to use my case to expose providers of healthcare insurance, other services, and equipment who commit “delay, deny, defend” tactics, and those who cover for them.

5. It is in the same SDNY district court that federal criminal charges seeking the death penalty have been brought against Luigi Mangione for allegedly murdering UnitedHealthcare CEO Brian Thompson in NYC last December 4. Given the overwhelming public support for Mr. Mangione and the public outrage at those tactics, it is reasonable to expect that his trial will attract the national and international media.

6. As a result, this is the most opportune time to ask law firms, universities, and the media to investigate how district court en bancs can launch the reform of the judiciary by providing a speedier, affordable, and meaningful level of judicial review of cases, such as healthcare cases, where time is of the essence but insurers have an interest in dragging out the case until the insured is dead or too weak to press their claim anymore.

7. Courts of appeals do not provide that kind of review because they can dispose of appeals perfunctorily in reliance on the fact that the Supreme Court grants barely 1.5% of [certiorari petitions](#).<sup>[12]</sup> Such unaccountability allows riskless abuse of power by healthcare insurers and providers, among others, and an individual judge presiding over a case.

8. We can contribute to the wider use of district court en bancs by making presentations thereon at law, journalism, and IT/AI schools, beginning with our local ones and our alma maters, as well as many other public interest entities.

9. At those presentations, we will propose concrete actions that the audience can undertake to expose the abusers, such as press releases, the publication of articles, press conferences, interviews, podcasts, townhall meetings, rallies; etc.

10. Moreover, we will propose UNPRECEDENTED CITIZENS HEARINGS.

a. The citizens hearings will be held by media outlets and universities at their stations and auditoriums during the first semester of an [academic year](#)[13].

b. They will afford people the opportunity to tell [their story](#)[14] of the abuse of power that they have suffered or witnessed.

c. They will allow people throughout the country to tell and listen to the stories in person and online.

d. The more stories are told and heard, the more people will be informed about the abuse of power and become outraged. Ever more will scream, "That happened to *Me-Too!*" They will be driven to ask to be allowed to tell their stories to vent that fire that is burning in their soul: the constant cry for justice and compensation[2 > [SDNY:156&L](#)]. Nothing oppresses the soul more harshly and persistently than the feeling of having been or being abused. The informed and outraged people will thus energize another self-reinforcing cycle of citizens hearings.

e. During the [second academic semester](#)[15], the findings of the hearings will be established and the preparation undertaken for their presentation near the end of the semester at the first-ever national conference on abuse of power. It will be held simultaneously at several interconnected universities and news media networks.

f. At that conference, the findings of the citizens hearings will be presented in speeches, panel discussions, and the first edition of the Annual Report on Unaccountability and Abuse of Power in America.

g. The citizens hearings will be a rich source of materials for the proposed multidisciplinary summer internships of students.

h. There will also be offered semester-long multidisciplinary clinics for academic credit. Students will learn, among other things:

- 1) administrative law;
- 2) agency and social data gathering;
- 3) news gathering and reporting;
- 4) public relations and image managing;
- 5) the application of [IT/AI](#) to [audit](#) massive amounts of writings, speeches, and footage to detect patterns of unlawful meeting of the minds and coordinated abusive conduct;
- 6) legislative drafting;
- 7) lobbying;
- 8) development and leadership of a national, nonpartisan *Me-Too!*-like civic movement for civil rights, accountability, liability, and reform;
- 9) the setting up of a new type of practice for handling a flood of motions to vacate decisions, remand for a new trial, and obtain compensation, and staging a supporting campaign of mass communication and demonstrations. This practice can be lucrative and build national name recognition for the practitioners;
- 10) working as a team inside an institution and among institutions in one or several states under the guidance of an editor or a lead attorney; etc.

i. In addition, the students will learn to do what abusees cannot do individually: prepare and initiate non-class aggregate actions and class actions, and multidistrict litigation in the public interest of exposing the nature, extent, and gravity of abuse of power by a big [multistate entity](#)[16] and collectively demanding compensation.

j. Students will gain unique hands-on experience that will impress job recruiters or enable them to open multidisciplinary boutiques upon graduation. Their success can build up the reputation of their schools and increase admission applications and enrollment of better qualified applicants.

k. The citizens hearings' findings of abuse of power coordinated and committed as institutionalized modus operandi should sufficiently inform and outrage the public to compel politicians, lest they be primaried or voted out of, or not into, office, to legislate transparency, accountability, and liability for, e.g., the healthcare industry.

L. The unprecedented citizens hearings have the potential for becoming a rallying point for abusees and reformers. They can set in motion the joint development of academe and the media as a powerhouse that can hold accountable and liable private and public entities so big that *We the People* separated into millions of individuals cannot fight.[16]

m. The citizens hearings can lead to the creation of the Institute of Unaccountability Reporting and Reform Advocacy, to be attached to a preeminent university or news network, and engaged in research, publishing, classroom and public education, consulting, litigation, lobbying, etc.

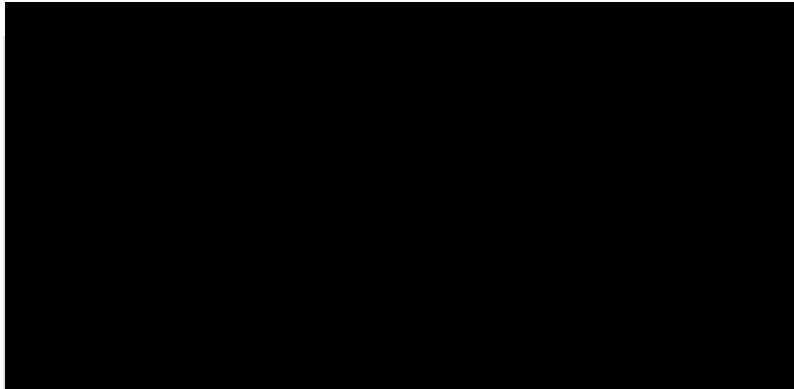

11. This proposal is realistic: multistate law firms from several states have represented Harvard; hundreds of universities as well as professors have added their names and efforts to challenge Trump administration executive orders; on April 5 over 1,200 demonstrations in all 50 states were reportedly held in communities across the country [to protest Trump administration](#) actions[17] and more have been held every Saturday [since then](#)[18]; etc.

Did you know?

On June 4, 1963 John F Kennedy signed Executive Order 11110 to restore control of the money supply of the United States back to the people

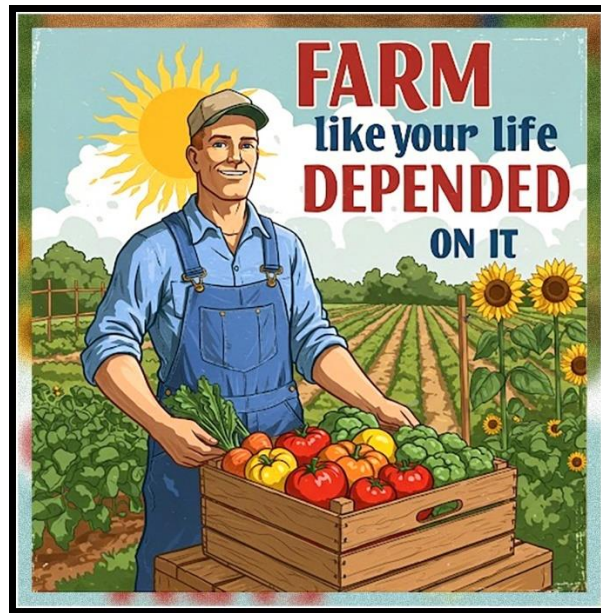

With the stroke of a pen, JFK stripped the Federal Reserve of its power to loan money to the government at interest and declared that the privately owned Federal Reserve would soon be out of business

Just throwing this out there.

To say I was angry, but not surprised, is a sad but true statement.

I have long suspected many of our elected government officials and others in high places (not elected) have been involved in nefarious, criminal and disgusting "behavior." While I, unfortunately, believe it is a non-partisan "thing," today I will blame the democrats.

It was the democrats who opened up our borders, and lied, telling us over and over again that "*the border is secure.*" While hundreds of thousands of illegal aliens were flooding across our borders, that wasn't enough for the Biden-democrat regime, so they decided to fly even more illegal aliens into our country. Landing incognito in the wee hours of the mornings, they began distributing illegal aliens around our nation. Biden democrats were hiding illegal

aliens, protecting illegal aliens, and awarding them with phones, food and hotel rooms, using American tax dollars.

In the meantime (and not unintentionally) the democrat Biden regime, lost over 300,000 children. I'm pointing the blame for criminal human trafficking at the democrats and their party; however, one has to wonder how many republicans knew about this as it was happening?

Why am I angry but not surprised?

I'm not surprised because illegal aliens have been a plague on this nation through numerous changes of leadership, democrat and republican. Illegal aliens are not the same as legal immigrants, who honestly (abiding our laws and regulations of entry) come into our nation with good intentions to work and assimilate; to be American citizens.

We have immigration laws that are being ignored. While they (politicians) claim we need immigration reform, they do nothing! Just because you believe a law needs reformed doesn't mean you have permission to break the law, which is exactly what the Biden-democrat regime did! If you think this isn't true, the next time a Highway Patrolman stops you for a traffic violation, just tell him or her, "I believe that law needs reformed." See how that goes over, I'm certain he will say, "Ok, no ticket for you today!" (wink-wink)

**Upgrade to paid**

So, why am I so angry?

Recently Robert Kennedy Jr., Secretary of Health and Human Services made the statement, ***"We have ended HHS's role as the principal vector in this country for child trafficking."*** He continued, ***"During the Biden administration, HHS became a collaborator in child trafficking for sex and for slavery, and we have ended that!"***

If you only watch and listen to the mainstream-lamestream-lying-media, you will not know and therefore cannot remember the story I'm getting ready to share with you. In November of 2022 an HHS volunteer became a whistleblower on the Biden-democrat-human-trafficking-cartel. (my adjectives) Tara Lee Rodas told her story to Project Veritas, regarding her first-hand account of how the Biden-democrat regime was using a corrupt "child sponsorship program" exploiting and endangering the vulnerable unaccompanied minors. These children were being placed with criminal, noncitizen sponsors. She informed Project Veritas that in some cases, dozens of unaccompanied alien children were sent to the same residence of an unvetted sponsor. Thousands of minors ended up in jobs across this country, working overnight in slaughterhouses, replacing roofs, operating machinery in factories and all in violation of child labor laws. Thousands more of these minors were trafficked into sex rings. YEP, no one is above the law, unless you were working for the Biden-democrat regime.

The Democrat Party was, and apparently always will be, the party of slavery!

**I wonder if Michelle Obama is losing any sleep over these innocent victims, whose lives have been stolen.** Michelle never experienced slavery but the Democrat Party (of which she is a proud member) is participating in the heinous act of human trafficking. As a mother, I am curious why you never see Michelle or Barack with their daughters. I'm certain they are protecting them from "the public." Still, I wonder, where are these young women?

The Biden Administration, through the Department of Health and Human Services, was aiding the trafficking (slavery) of children. I mentioned long ago, you don't lose 300,000 children unless you intended to lose 300,000 children. I could see, with great incompetence, losing 50 or 100 or even two or three hundred; but you don't lose well over 300,000 human beings, unless you were trying to lose (nefariously place) them.

Who was the Secretary of Health and Human Services during that time? None other than Xavier Becerra. Serving with him as Deputy Secretary of Health and

Human Services was Andrea Palm. We must not forget the lovely (mentally deranged) Rachelle Levine who was Assistant Secretary for Health and the Admiral in charge of the United States Public Health Services Commissioned Corps. Yes, I'm certain Mr. Levine was a great asset to the Biden-democrat-trafficking-cartel. He was all in for gender-transitioning children!

### **Upgrade to paid**

RFKJ has come out and admitted that's what was going on and it will STOP NOW! He assured us that they are aggressively looking for these children. RFKJ is a democrat (was) and there are many things I would never agree with him on; but so far I am impressed at his boldness. Time will tell if the Legislative Branch allows success in Making America Healthy Again, after all, many of them are the ones who allowed Big Pharma and the CDC to profit, lie, and extort the American people.

In the meantime, these secretaries should be investigated and arrested for the human trafficking that was happening under their leadership. I will not be satisfied with some lower-level department employees taking the fall. This was huge, and the upper-level secretaries should be held accountable, to the full letter of the law. I believe it is against the law to hold minors, pimp them for work and/or sell them into slavery of any kind.

Earlier this week on my radio talk show, I questioned why the debate of age for pimping and porn. The "Take It Down Act," shouldn't be necessary, if we were a nation of people who truly cared about human life and dignity. Porn in the public square (consensual or not) should never be allowed!

I'm disappointed in our legislators (all of them). They pretend to do something but actually accomplish nothing!

President Trump, you claim to want to bring this nation back to "religion," back to God. If so, let's get serious about removing all porn and stopping all crime. Have Attorney General Pam Bondi arrest those in the Department of HHS who were trafficking children. Demand that AG Pam Bondi and FBI Director Kash

Patel release the complete Epstein list. Show America that you're serious about cleaning up this nation. It should not matter whose names will be revealed. Americans need to know, and America needs accountability from our leaders; elected and unelected.

**We the People** do not trust our government, because they have proven to be completely untrustworthy.

We will never be a shining city on a hill, as long as we're ok with porn, prostitution, extortion and slavery.

Media Outlets Report To "Us, the American People" president Donald J. Trump ia after Congressional GOP legislators to run democrat legislators out of Congress. Not a hairbrained idea for those of us who are diehard GOP loyalists, and believe there should be no opposition to legislative idea those of us who are diehard GOP loyalists find fitting. Very bad idea for those of us who invite competing ideas.

My second amendment right is to own this, and take it to subway.

**President Donald J. Trump** and like-thinking people who strive for having their personal attitudes, values, and beliefs (PAVB) made lawfully compulsory have nothing to fear from competing ideas if their ideas are strong enough to withstand public scrutiny. PAVB rooted in little more than self-righteousness have every reason to fear public scrutiny. PAVB bias can not withstand objectivity.

"...if I had foreseen the use those people designed to make of their victory, there would have been no surrender at Appomattox Courthouse; no sir, not by me. Had I foreseen these results of subjugation, I would have preferred to die at Appomattox with my brave men, my sword in my right hand."

~ **Robert E. Lee**

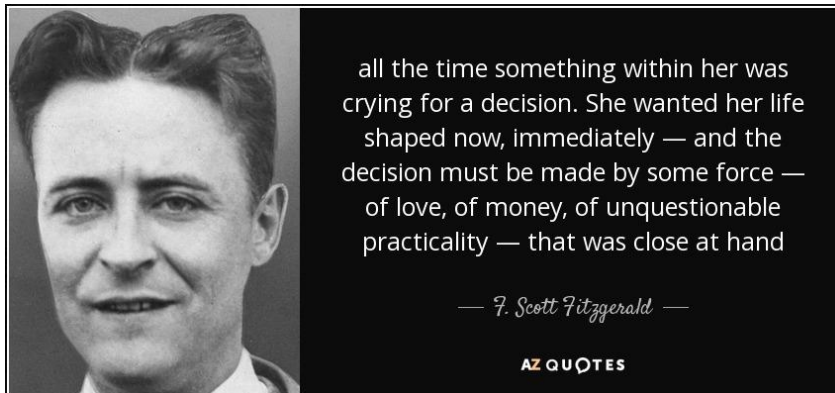

Dear Optimist, Pessimist, and Realist: Thank you. While you guys were arguing about the glass of water, I drank it.  
~ Opportunist

**"We, the American People"** have no guarantee public scrutiny is threaded with objectivity. There are, doubtless, notable numbers of people who believe Planet Earth is flat, and America's World Trade Center towers never fell to terrorist attack, chocolate milk comes from brown cows. They who believe chocolate milk comes from brown cows would believe so if there were no brown cows except on Mars.

"This freedom, this liberty, this beautiful and terrible thing, needful to man as air, usable as earth."

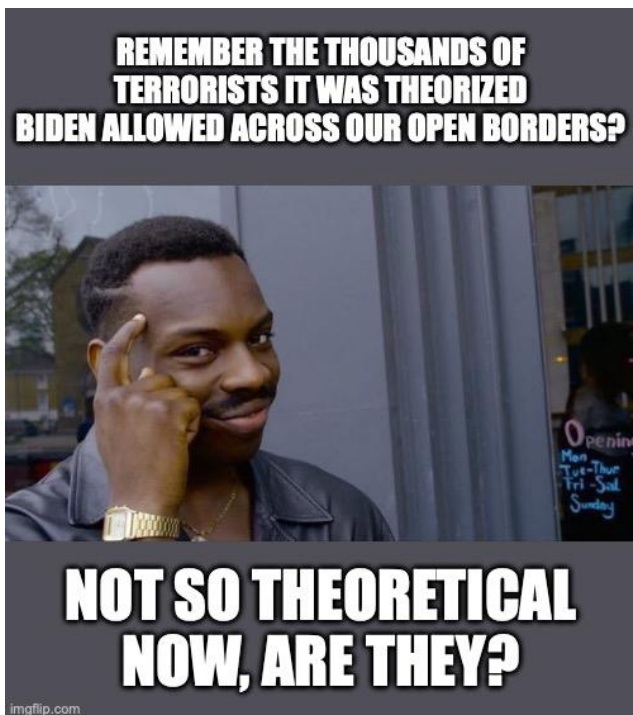

~ **Robert Earl Hayden**

**"Our, the American People's"** government system is open enough for virtually any idiot to be elected to public office. Arguably, elections after election bear witness. We would be consummate fools to stop allowing idiots to be elected. No sooner would we prohibit idiots from being elected, than more would be. Sooner or later, idiotic ideas fall prey to gravity of practicality, and ships circumnavigate.

"What light is to the eyes – what air is to the lungs – what love is to the heart, liberty is to the soul of man. Without liberty, the brain is a dungeon, where the chained thoughts die with their pinions pressed against the hingeless doors."

~ **Robert G. Ingersoll**

**People Determined To Live In Liberty** do not allow legislators - or other public officials within These United States of America, to permit federal authorities or courts to define or limit their 10<sup>th</sup> Amendment powers beyond specific Constitutional constraint.
