

“Our, the American People’s” Supreme Court of the United States (SCOTUS) Justice Neil Gorsuch is, media coverage accurate, concerned over only a fraction of America’s students are proficient in civics and history. There is endless debate over how much a person should know to be functional in life. It, arguably, would be less a likelihood government would be coercive if people understood it.

“Politics is the art of looking for trouble, finding it everywhere, diagnosing it incorrectly and applying the wrong remedies.”

~ *Groucho Marx*

“We, the American People,” if America’s socio-economic roots are, ostensibly, firmly planted in Liberty, would be a self-governing society. If we are, in any sense, rooted in Liberty, it is with public officials granting such self-government as we may exercise. Were we self-governing, SCOTUS Justice Gorsuch might not sit in judgement of as many power struggle cases as SCOTUS entertains.

“Men rise from one ambition to another – first they seek to secure themselves from attack, and then they attack others.”

~ *Machiavelli*

Were Our ‘Education’ More To SCOTUS Justice Gorsuch’s approval, for instance, it would occur to more of “Us, the American People” our courts, including SCOTUS, have virtually no enforcement power. Courts are limited to expressing opinions and issuing court orders. Our government executive branches are responsible for (and empowered to) taking steps to enforce law. Enforcement is presumed.

“This country has come to feel the same when Congress is in session as we do when the baby gets hold of a hammer.”

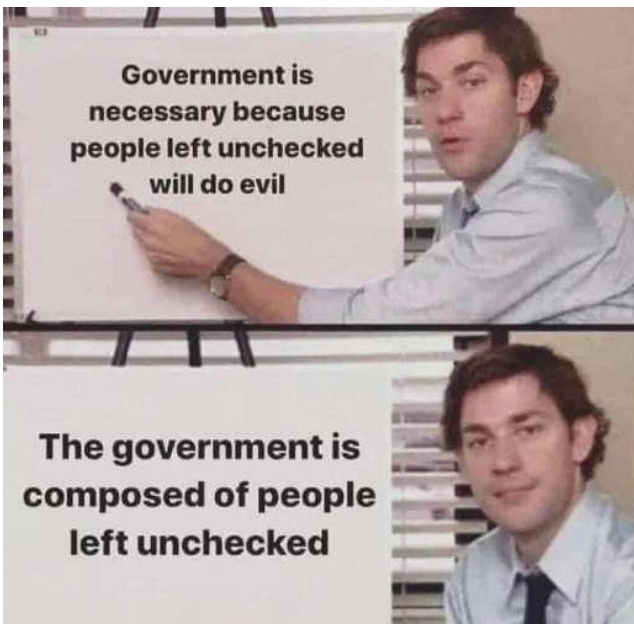

~ *Will Rogers*

When It Comes To Most Matters between government and people, our ignorance is government's ally, our awareness government's adversary. Eminent Domain, for example, empowers government to take private property for 'just compensation' if government decides so taking property is for public good. Such a concept has trappings of political tyranny when it disrupts, say, a generational family homestead.

“Wherever politics intrudes upon economic life, political success is readily attained by saying what people like to hear rather than what is demonstrably true. Instead of safeguarding truth and honesty, the state then tends to become a major source of insincerity and mendacity.”

~ *Hans F. Sennholz*

Any Of “Us, the American People” who has it math could end gerrymandering need only query AI or Internet sources, generally, for information to keep inquiring minds busy long enough to figure people with aims of lawful control over people will figure ways to get such power. Odds are people will use gerrymandering and like tactics to heighten chances for lawful power to get and wield lawful power.

~~Stephen Miller

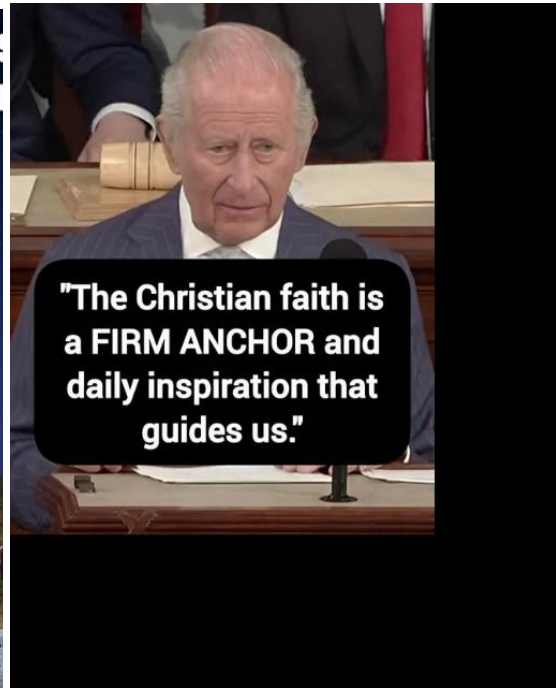

"We, the American People" have, for some two-and-a-half centuries, grappled with a concept for securing Liberty. We're still grappling. We're grappling over, essentially, who gets to have lawful power to confiscate other people's property (wealth) and restrict other people's choice (Liberty). We are so enamored with lawful power we let public officials pass tax laws to take other people's wealth.

There Is Every Likelihood Math Could End gerrymandering by creating voting districts without regard to politics of voters living in those districts. Public officials, however, are in no way obligated to follow mathematical rules or any rules. They, legislators, decide if law is consistent with precepts and protections laid out by America’s commonwealth, federal (U.S./National), and state Constitutions.

Another Day and Another Coup - It's The Democrat Way

Joe Biden is mentally incapable of winning an election, but his mental incapacity isn't their issue.

The Democrat Party all stick together until they don't.

They were all together singing kumbaya and eating pizza when they had their sit-in against the Second Amendment, right after they took an oath to uphold the Constitution. (June 2016)

They were all in for framing President Trump.

They were all together when they attempted to destroy Justice Brett Kavanaugh.

They were all together when they started calling for violence against all those on President Trump's staff and his supporters.

They were all together when pushing a propaganda-prevaricating letter claiming that Hunter's laptop was Russian collusion.

They were all together shutting down businesses, forcing facemasks on small children, closing schools and mandating unproven Covid 19 vaccines.

They all stand together on the great hoax of climate change, while they all stand together making deals and participate in personal profit gains.

They all stand together depicting President Trump as a danger to “democracy” and call him Hitler.

They all stand together for open borders and endangering American citizens.

They all stood together changing the 2020 election laws in their states in order to steal an election from the American People.

They all stood together hiding Joe Biden in the basement to conceal his mental decline from Americans.

They all stand together to win elections, not to better America. In fact, they have said that out loud, *“We’re not going to make America great again, it never was that great to begin with.”* Governor Andrew Cuomo.

They all stand together on January 6 (with a few republicans assisting) as they created a great diversion, allowed a breach of security, and called it an insurrection.

They all stood together with decrepit old Joe, until they realized no amount of cheating, election interfering or basement hiding was going to get him reelected.

The coup that the democrats orchestrated for years against President Donald J. Trump is now a coup against Joe Biden. Notice, he isn’t resigning the presidency, just the race for 4 More Years! His mental ability or instability is of no concern to the democrats; all they’re concerned about is his electability.

In secret they met, however they made sure those meetings were leaked to the press. They began a new coup against their own. It seems to be a much softer coup, at least on the outside, but what did they use to talk Joe, Hunter, and Jill out of the White House? Were there higher promises of immunity for the Biden family cartel?

We have many questions here on the outside of the democrat political arena, but I doubt we will ever know the answers.

The democrats always seem to have a plan, for they always stick together; until they don't!

They were together with Joe and Kamala, but now, without the Covid-diversion, real pressure is on, and the togetherness is fading. Remembering back before the Obama era nobody really liked Joe Biden. He was a known liar, and it was *well* known, and he's never really worked a day in his life. While they all lie, Joe wasn't wise about his lies, but he was constant! Remember back to the democratic presidential primary of 2020, Kamala Harris was one of the first to drop out of the race. Her popularity was less than 1%. Somehow both of these unpopular politicians managed to win the 2020 election with record numbers. Thus, discrepancies grew over the legitimacy of that election. The distrust grew because of the adamant chatter that **We the People** were not allowed to question those states who seem to have broken or bent the election laws. The democrats, however, all stood together on their "new" election laws.

Now, however, the democrats are in great need of another COVID pandemic, or some catastrophe to charter them a new path to an election victory, which for now looks dim.

The democrats and their media friends are making all kinds of accusations regarding President Trump:

He's a dictator (*but it's the democrats who dictate and ignore the Constitution*)

He's a Hitler (*but it's the democrats who support the mutilation of children for their perverted sexual ways*)

He's a liar (*but it was the DNC and Hillary who conjured up the FAKE Dossier against Donald Trump*)

He's a threat to democracy (*hey guys, we were established as a Constitutional Republic*)

He's a friend to Putin (*if Trump being a friend to Putin keeps Putin from starting wars and killing people, I'm good with that friendship!*)

Trump colluded with Russia and Ukraine. WAIT, Hunter Biden is the one receiving money and perks from these countries, *and* China.

Upgrade to paid

But the democrats and their media all stand together, until they need to oust one of their own. He is a senile old man, and he can't win the 2024 election, so we need to kick him out the door. NOT YET, he's still president, and that title he shall hold. Joe Biden is mentally incapable of winning an election, but his mental incapacity isn't their issue, it's his low likeability and electability that is of great concern and division with the "always together" democrats.

Their goal is to stay in control, stand together and *finish this nation off*; I mean fundamentally changing America.

If there's one thing all Americans should know now, it's the fact that Biden has never been acting president, and Kamala, well, she hangs out, flies on jets a lot, and gives mind boggling speeches.

Kamala Harris, VP dreaming now of her own possible presidency, is giving these deep and insightful messages to Joe Biden,

"There's great significance to the passage of time." (Joe your time is passed)

"I can imagine what will be, unburdened by what was." (Kamala imagines herself as president and lets Joe know that this democratic oligarchy needs to be unburdened of his gaffs and his corruption, but mostly of his poor electability.)

Will VP Kamala Harris soon find out there will be a coup against her as a presidential candidate? In my opinion, Obama put her in there, and I suspect

Obama will be the one who removes her, unless they let her run, and then **We the People** will have the great pleasure of removing her.

Be sure of this America, the chaos that seems to be happening now, within the Democrat Party, is more than likely another coup in the making. The democrats are not going to give up power without a fight and we should never capitulate to this oligarchy that is now running our government.

The Democrat party will come together again, but right now **“They can imagine what will be, unburdened by what was.”**

We the People must stand together against this tyrannical regime and **Bring America Home.©**

~ ***Saint Griseus***

Redistricting Mania Reports Have Been growing since Supreme Court of the United States (SCOTUS) April 29th, 2026 ‘race-based’ decision. If there is any absolute proof a gerrymandering-favored party has won an election, such proof is illusive, if non-existent. If “We, the American People” query AI for proof, results are all but entirely speculation. Factually, gerrymandering is wishful, despite strategic.

“In the United States we have, in effect, two governments ... We have the duly constituted Government ... Then we have an independent, uncontrolled and uncoordinated government in the Federal Reserve System, operating the money powers which are reserved to Congress by the Constitution.”

~ ***Wright Patman***

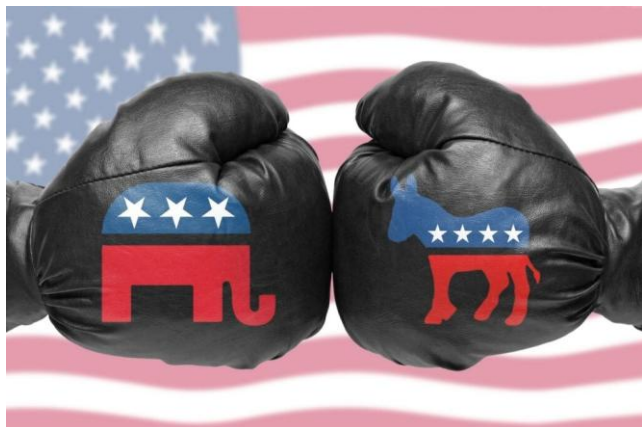

A March 2023 Report On Gerrymandering comparing recent election cycles reveals popular vote shares were not driven by redistricting tactics. Given votes are, officially, held secret, conclusive proof

gerrymandering works or doesn't is theoretical. Nonetheless. It would be smart for "Us, the American People" to force America's legislators to design redistricting to eliminate party-based distortion.

"It is well enough that people of the nation do not understand our banking and monetary system, for if they did, I believe there would be a revolution before tomorrow morning."

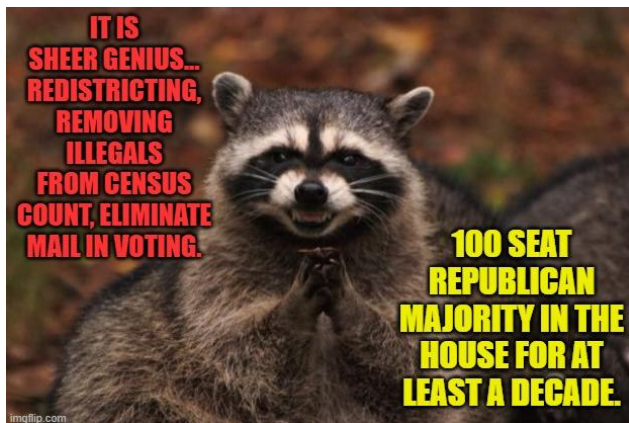

~ *Henry Ford*

Redistricting Is Related To Census Population changes. Idea is, policy-wise, to assure freed election access for voters. There is no reason why "Our, the American People's" public officials can not draw voting district lines to reflect population distribution, regardless how voter registration happens to fall. Public office candidates who can't win without redistricting bias ought be roundly defeated in any case.

"Law! What do I care about the law? Ain't I got the power?"

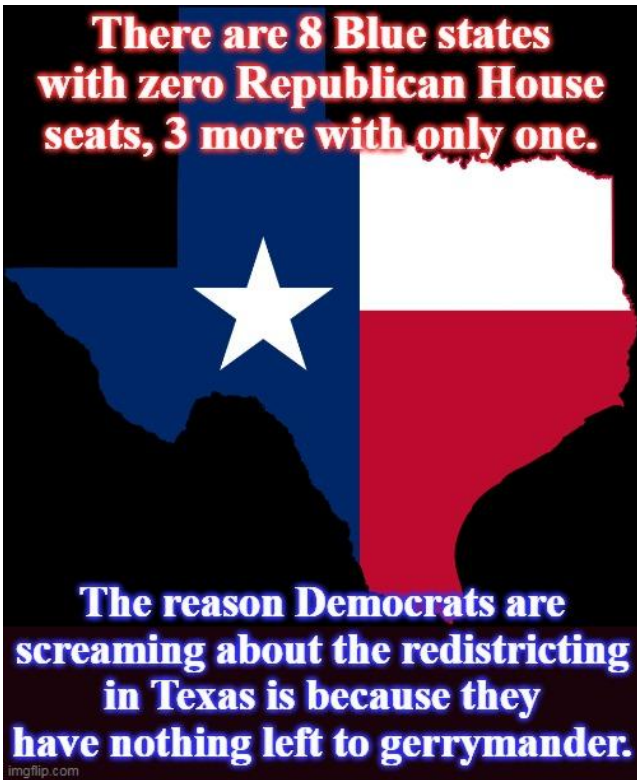

~ *Cornelius Vanderbilt*

Our Legislators, Government Chief Executives, and judges have vast power to confiscate property (wealth) and restrict choice (Liberty). Those same legislators, executives, and judges (and SCOTUS) have enormous power to redistribute confiscated property (wealth). No surprise gerrymandering-like schemes to gain lawful power raise their tyrannical heads. Our job is to lop those heads for Liberty.

"Does America really need 70 percent of the world's lawyers? ... Is it healthy for our economy to have 18 million lawsuits coursing through our system annually?"

~ *Dan Quayle 1991*

People Determined To Live In Liberty do not allow legislators – or other public officials within These United States of America, to interfere in business matters between private citizens in any way so long as those dealings are free of fraudulent behavior by all parties and do not encourage threats to national security by foreign powers or known enemies of the United States of America. They stand by their right to use their property as they see fit.
