Power The Future's founder, Daniel Turner was my guest/cohost today on CSC Talk Radio. [Power the Future - Homepage](#) I encourage you to visit their website and glean from the articles they post and the topics they discuss.

PTF are advocates for commonsense in America's energy industry. They are a 501C4 with the mission of offering truth, facts, and research that will enrich the national conversation on energy. They are boots on the ground!

When you think about the word *Power* and the word *Future* you have to think ahead as to what power America will need to blaze our *new frontier*.

A recent WSJ/NORC poll showed that patriotism is declining in America. I'm not surprised with all the visceral speech today and the deliberate dividing of this nation. The LEFT must have chaos!

If we listen to democrats and their radical supporters, the future of this nation appears to be very dim and bleak. They never get excited about anything positive. They are always angry about one thing or another. Keeping a people down is how they gain more power over them. They speak of keeping their precious democracy, but you seldom hear them speak of Liberty or Freedom. From K to College the LEFT has taken over our education system and they promote the opposite of patriotism.

People, especially young people, need to have dreams for a better future. They need to look forward to their lives. Marxism robs people of their future. The climate change cult denies them comfort and the power to build their futures. It discourages people of their individuality, as they push equity over equality. They refuse the phrase American Exceptionalism and discourage greatness, commonsense, and bravery; no strong heroes allowed. Truth is their enemy!

As long as the LEFT's Democrat Party is "in charge" of our government, America will continue to always fall short and grow weaker. Americans are nothing more

than pawns of the elite and powerful. This is the exact opposite of what our Founding Fathers envisioned for this new and independent nation.

I've made no secret of my support of President Donald J. Trump. If there be other republicans envisioning a new frontier for America, I have not heard them say so. Most of the political rhetoric we hear these days is the same old political tongue of Jabberwocky. One side of the aisle complains about the corruption, and they begin, what seems to be, nonstop investigations and hearings; but there is never justice! Nobody in D.C. ever pays for their crimes against **We the People**. The other side of the aisle fight against our U.S. Constitution of the United States of America and they seek to eliminate the Bill of Rights. (Now, the left or right of things changes as the "majority" switches within the government.) Regardless of which political party is in the majority or in the White House, they only speak of the now and give us little encouragement for the future.

As a 2024 presidential candidate, President Donald J. Trump has a list of things to FIX in America. While those things are important, what excites me the most are his recent statements and vision for America. In his words:

BIG IDEAS, BOLD AMBITIONS AND DARING DREAMS FOR AMERICA'S FUTURE

From President Trump's Website: [Agenda | Donald J. Trump \(donaldjtrump.com\)](https://www.donaldjtrump.com)

Rebuild the Greatest Economy in History

Fair Trade for the American Worker

Unleash Energy Dominance

Secure Borders and Reclaim National Sovereignty

War on the Drug Cartels

Stop Crime and Restore Safety

Renew American Strength and Leadership

Reject Globalism and Embrace Patriotism

Care For Our Veterans

Protect Parents' Rights

Defend Law and Liberty

End Censorship and Reclaim Free Speech

Free, Honest and Lawful Elections

Drain the Swamp of Washington Corruption

Better Health Care Choices at Lower Costs

This checklist of 15 “things-to-do” are what you would expect!

His vision of a New American Frontier is what should excite every American! I remember the late President John F. Kennedy using that same phrase when accelerating America's Space Program.

President Trump refers to this as Agenda 47! For some of us, that has a nice ring. We've had to endure the globalist's agendas: Agenda 21, Agenda 2030 which are green agendas about claiming more land, destroying the American dream and turning America into a complete socialist-communist-Marxist state.

Agenda 47 is quite the opposite. President Trump (it would seem) intends to give land back to the American people, promote new growth, new industries, new cities and increase America's population by encouraging family growth! More babies please!

America is the land of opportunity but somehow, we allowed the government to stagnate our growth and discourage our hopes. They took our land, overregulated our industries, communities, and our lives; we are victims of bureaucracy gone wild! They have destroyed the economic system by implementing Free Trade that literally killed American Manufacturing. They partnered up with our enemies, and Americans lost!

When President Trump speaks of opening up a new frontier, I wish I was younger! Can you imagine being a young couple, building a new American city! How exciting is that?!! This idea should awaken the American Dream and the entrepreneur that lives inside each American.

Only one who loves America can dream this big! Only Americans who love adventure would “venture” out to build a new city. Think of all that this New American Frontier will entail! Industries, roads and highways, water, families, homes, churches, schools, hospitals, stores, “gas stations,” ENERGY!! Think of the steel, the lumber, the concrete, the iron, all the power and American energy that will be needed. I’m not just talking about our electric and fossil fuel energy, I’m talking about the energy of all the American people who take on this challenge and look to a brighter future! I get excited just thinking about it!

We need to drain the swamp and we need to fix all 15 things listed above; I’m all in for all of those, but I am more excited about **Agenda 47!** I believe **President Trump’s Agenda 47** will be America’s new Gold Rush, our new Boom Town... and he’s advocating for TEN new urban towns or cities; that’s 10X BOOM! **The American Dream Revived!**

I challenge you to look into what President Trump’s Agenda 47 plan is truly advocating.

I love this nation and to think about the possibility of this nation expanding and growing is exciting! I have never agreed with all the ‘federally owned’ land in America; I believe it is unconstitutional and certainly unprosperous. What

exactly are we preserving? Private property is one of America's Foundational principles.

“Whenever there is, in any country, uncultivated land and unemployed poor it is clear that the laws of property have been so far expanded as to violate natural right.” Thomas Jefferson

The New American Frontier! I love the sound of that!

America needs new life; we need our faith renewed! Perhaps President Trump's Agenda 47 is what we need to breathe new life into the **American Dream** and **Bring America Home©**.

“Our, the American People’s” President Donald J. Trump is a communist. Or, so a media writer contends. Writer bases Trump communist contention on a comparison of communism as defined to GOP rhetoric on American style government. Writer argues GOP call for government by people is precisely how communism works; therefore, GOP rhetoric calls for communism, and Donald J. is one.

Communism Calls For Two Things: Communal production ownership; wealth distribution based on need. While President Donald J. Trump's MAGA/Department Of Government Efficiency (DOGE) grand plan uses perceived government chief executive authority, there is no MAGA/DOGE plan to take over production or distribute wealth based on need. Litigation attests to MAGA/DOGE contrast.

Some Of "Us, the American People," those of us so-minded, could argue President Donald J. Trump's aggressive deportation initiative, along with his tariff (trade tax) plan, could construe President Donald J.'s mode

of government to maximize executive branch control, is akin to how communism must operate, thus President Donald J. is, in reality, a communist. Not a strong argument, one nonetheless.

"We, the American People," despite our commitment to individualism, self-determination, and self-government – at least by our commonwealth, federal (U.S./National), and state Constitutions, are tantalizing prey for they who would have productive (and wealthy) Americans pick up tabs for needy. Progressive taxation is a key ingredient of government with confiscatory and choice restriction powers.

Should President Donald J. Trump's Administration follow through with media-reported considerations for arresting "Our, the American People's" Congressional democrat legislators for protesting Administration governance, there could be a Constitutional crisis – if there is such a thing – when Congressional legislators (Americans) are visited with retribution for protesting government.

"If an individual is born with the obligation to obey, who is born with the right to command?"

~ **Tom Palmer**

America's 1st Amendment, If It Does Anything by way of suppressing repressive government, stops government from retaliating against those who express their discontent with government. "We, the American People" would be unmitigated fools to tolerate government acting to stop Americans, including public officials, from protesting and demonstrating against government they see oppressive.

I LIKE MY GOVERNMENT LIKE

There Is A Constitutional Crisis – if such a thing exists - in how America's commonwealth, federal (U.S/National), and state Constitutions empower legislators to make laws without specifying (meaning articulating unambiguously) lawful legitimacy. Instead, it is incumbent on "Us, the American People" to wrestle with a three, coequal, branch government capable of perpetual ambiguity serving justice.

"About all a Federal Reserve note can legally do is wipe out one debt and replace it with itself another debt, a note that promises nothing."

Given America's History Of Sitting government overturning previous government policies and laws, it is entirely possible we will never have political tranquility in These United States. Our best hope of socio-

economic stability may lie in decentralizing lawful power to our lowest political subdivisions, and prohibiting high-level government from interfering or overruling. Not perfect. Less imperfection.

Media Report Crypto Currency Markets rocketed following “Our, the American People’s’ President Donald J. Trump announced a trade policy reset with China. Great news for crypto currency investors. Commodity markets reaction will have to await reopenings. For now, crypto currency markets offer reason to expect further moderation in volatile tariff (trade tax) upheaval seething world-wide if late.

"A recent poll showed that nearly half the American public believes that the government should redistribute wealth."

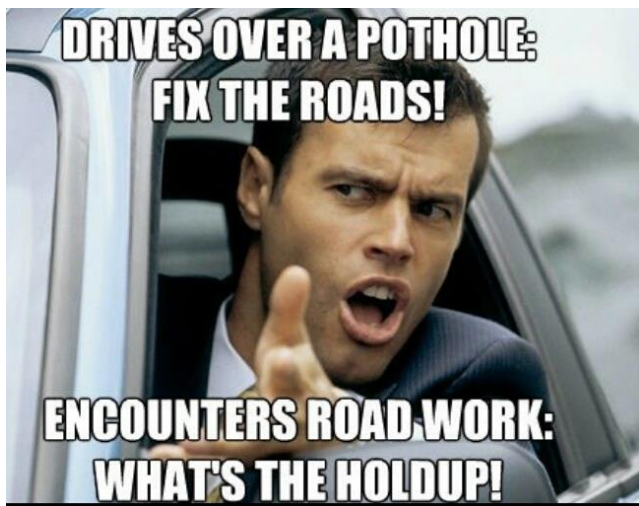

~ *Thomas Sowell*

Financial Markets Are Seen By Some observers as a sign of economic health. Rationale has some merit. Cost of money is a major consideration when looking at entrepreneurial investment capital, or, when looking as business expansion. Return on investment (ROI) is a driver as most anything when deciding how to protect assets, and improve net worth. Government policy affects ROI and capital.

"The proverb warns that 'You should not bite the hand that feeds you.' But maybe you should if it prevents you from feeding yourself."

~ *Thomas Szasz*

"We, the American People," as investors, are vulnerable to lower ROI when government policy like tariffs (trade taxes) impinge on international portfolios. We, as borrowers, are subject to rising interest rates when government policies like tariffs (trade taxes) put overall markets at higher risk. We, as a sovereign citizenry, are able to minimize negative effects of government policies if we choose to act.

"The Original Sin which brought us to the brink of bankruptcy and dictatorship was the Federal Income Tax Amendment and its illegitimate child, Federal Aid."

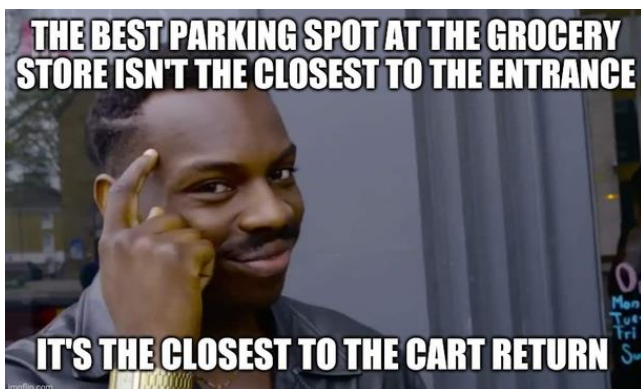

~ *Tom Anderson*

Americans Are Supposed to Be Self-Governing people. How it is we tolerate negative effects of government policies on "Us, the American People," is, at best, perplexing. Civilization has progressed far enough to hold tyranny at bay. Civilization has not yet learned how to deal well with aggression caused by people who can't resist their urge to control other people through use of brutal force - or law.
