Former Speaker of the House Newt Gingrich made a statement. It's bold and emphatic. He makes claims that many of us have been saying for a long time. Our political system is rigged. The two-party system is a monopoly of power, working to consolidate our three branches of government into one. They don't stop there however; the three branches of government now seem to be under an umbrella of bureaucracy.

While Newt says all the "quiet parts out loud," it is up to **We the People** to dismantle this oligarchy they call democracy.

Newt Gingrich made the following statement:

"The system is rigged – Voting is rigged – Both parties are paid off. Not just politicians but millions of people being paid off with taxpayer money.

*They'll do anything to stop Trump and more. I think Trump is the most aggressive and competent opponent that the **Franklin Roosevelt Coalition (FRC)** has ever faced.*

They've run the country now since 1932. They built huge bureaucracies, huge sets of rules, they paid off millions of people with taxpayer money, and all of a sudden they have an opponent who's very serious about dismantling and replacing their corrupt system.

*They're terrified of him. And from their standpoint, breaking the law, rigging the game, whatever it takes, they're going to do, in order to beat him at every level. The trial in New York is just one example. **It's totally dishonest!***

I actually think that the judge in the New York trial and the students illegally occupying the building in Columbia University are really the same people.

They're people who believe in breaking the law to impose their will on the United States.

And I think that you're seeing a trial which is probably the most dishonest, most corrupt trial of any political figure in American history.”

I do find his statement of political reality extremely interesting, since Newt was either a part of this “system,” or surrounded by all the corruption while he was Speaker of the House, yet he never mentioned it then. Did he not realize the magnitude of it all when sparring with Democrats as Speaker in 1995? When Newt ran for president in 2012, somebody asked him about Agenda 21, for which he knew nothing – yet it happened on his watch. I actually wrote an article in my newsletter, **“The Pen,”** regarding his ignorance of Agenda 21. Newt Gingrich was elected by the 6th District of Georgia back in 1978, and Agenda 21 came to be in 1992. I’m not saying that he isn’t sincere now, but perhaps I’m pointing out that the deception was so deep, that even many of those working in

the system didn't realize it was working against them the entire time. When President Ronald Reagan was running for president he promised to do away with the Department of Education, yet, under his presidency it grew even larger.

Former Speaker Newt Gingrich says this has been going on since 1932. There have been many administrations (both parties) and many members of Congress (I think some might even still be there) allowing this **FRC** to continue to grow in power, while removing the power from **We the People** and ignoring our Constitution.

The **FRC** screams for democracy, but it is actually protecting the oligarchy. If there's only one truth we take away from Biden's "poor" debate with Trump, it is this: we must now know that the "elected" person is not the one who is running this nation. This sudden revelation begs the answer to the question, "Who is?"

There are many questions for which we need explanations.

Upgrade to paid

Who is running this nation?

Who are the ones writing all the Executive Orders that Joe puts his name on?

Who are the ones that decided the United States should have no borders and should surrender its sovereignty?

Who are the ones who decided to open our borders and flood this nation with tens of millions of illegal aliens, many of whom are from enemy nations?

Who are the ones that decided our nation should run out of fuel, leaving us vulnerable to an attack, unable to fight back proficiently?

Who are the ones who decided government should run our healthcare system and force people to buy insurance, in order to make it affordable?

Who are the ones who decided to remove our gold standard and render our currency worthless?

Who are the ones who decided the First Amendment can only exist with “government restrictions?”

Who are the ones who are working to remove our Second Amendment, rendering Americans defenseless from a tyrannical regime?

Who are the ones who decided America should get in bed with world-elites who want to depopulate the globe?

Who are the ones who are pushing the climate change hoax and taking our dollars to invest in green companies and then profiting from it?

There is nothing more **treasonous** than the fact that our elected presidents have not been the ones running this nation, with the exception of President Donald John Trump.

I have stated many times on my radio program that President Trump is the first working president America has had in my lifetime. President Ronald Reagan tried to be, but he too had to deal with the deep state actors, and they pointed him in directions I don't believe he intended to go; like increasing the size of the Department of Education. President Reagan compromised regarding illegal immigration (granting amnesty) with the return promise that congress would reform our immigration laws and secure the border, which they did not! They lied to him and to the American people.

The **FRC** continues to grow government with more departments with more stories than the old Macy's department stores. These alphabet departments of the United States of America are not necessary to a free people, in fact, they are limiting and regulating the freedoms of all Americans; and the bureaucrats are

collecting nice salaries and retirement packages while doing so, complements of taxpayer dollars!

We must understand the foundation of the **FRC** is communist, and that's the fundamental change they have been transforming America to be; not a democracy. Their ideology is that government owns everything; our land, our vehicles, the air, and yes, our children. The money we earn is the government's. The way they keep taxing us, we'll soon only keep 10% of our own earnings and the **FRC** will take the rest. Under the **FRC**, **We the People** are nothing more than serfs on their land, in their factories, or wherever we work. They will control our healthcare by government, aka Obamacare. They will control our children with their government schools. They will control our food by transforming independent family farms into their government corporate farms. They will control our entertainment and our hobbies by demanding licenses and permits. They will control our speech by changing the meanings of words and restricting certain phrases. Truth will henceforth be termed "misinformation." If we speak against them, or their perverted ways they will call it "hate speech" and condemn us, fine us and possibly imprison us. Christians are now called a "radical right-wing" group of people; domestic terrorists! The institution of family is considered to be *colonialistic* or "white supremacist." They will own and use their media, along with social media, to monitor, restrict and control our speech. They will control our thought processes by legalizing drugs that are known to alter our ability to logic and self-think.

"The system is rigged – Voting is rigged – Both parties are paid off. Not just politicians but millions of people are being paid off with taxpayer money."

Better late than never, Newt!

Newt Gingrich has it absolutely correct, I just wish he would've realized this when he was in congress.

Because this **FRC** will stop at nothing to keep Trump from serving as our President again, it is now up to **We the People** to make sure the **FRC** ceases to have power in our government.

Restoring our Constitutional Republic is imperative if we are to Make America Great Again... and **Bring America Home.** ©

"We, the American People" Are Off our 5 rockers to allow America's legislators to keep information from America's legislators. Except for bonafide nations security protection, retaining law enforcement methodology, and to assure innocent parties are not harmed. Generally, government business is public business. When government conducts public business in secret, we can expect manipulation in play.

"We find many things to which the prohibition of them constitutes the only temptation."

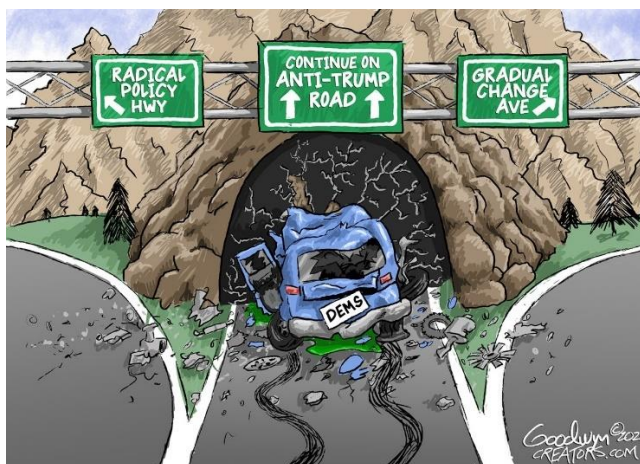

~ **William Hazlitt**

Media Report Congressional Senate legislators are withholding deportation from Congressional democrat legislators. "Our, the American People's" legislators withholding deportation from ou Congressional legislators is withholding information from America's sovereign citizenry. We are irredeemable fools to allow such legislative behavior. Government transparency builds trust.

"Historians know that both phenomena were especially marked in the declining eras of the Roman Empire in the West and of its successor state, the Eastern or Byzantine Empire."

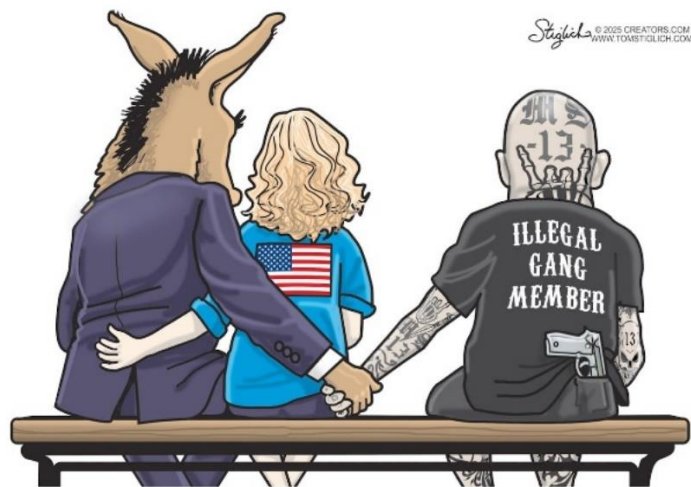

~ *William Henry Chamberlin*

Information Transparency Is No great undertaking. Legislators who deny legislators access to information breach public trust. There is no reason for "Us, the American People" to trust government if government is unwilling to operate in complete protected openness. Governments permitted to operate in unbridled secrecy would be inclined to keep more information behind closed doors.

"The first thing to learn in intercourse with others is non-interference with their own particular ways of being happy, provided those ways do not assume to interfere by violence with ours."

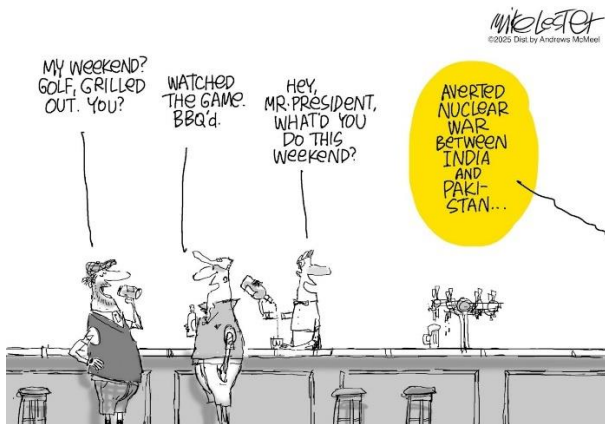

~ **William James**

It Is Reasonable To Argue Legislators want to do business behind closed doors to keep from facing public scrutiny. Passing legislation before it is disclosed to public review makes it harder for ordinary people to keep legislators from passing legislators aimed at making legislators personal attitudes, values, and beliefs (PAVB) lawfully compulsory, Ordinary people's PAVB underwrite valid laws.

"Our, the American People's" President Donald J. Trump doesn't understand America's Constitution. Or, so media reports have it. Does not understand America's Constitution. A statement apropos to any legislator, judge, chief government executive, law scholar, professor picked at random, or selected for their perceived profound grasp of America's Constitutional principles, precepts, and protections.

Were America's Constitution Readily understandable, "We, the American People," in theory, would not find ourselves caught up in never-ending battles over who shall have lawful authority to regulate how we shall choose to live our socio-economic lives. It Is Not Constitutional Mastery Those of “Us, the American People” - who declare President Donald J. Trump lacking Constitutional understanding, seek. It is, rather, power to decide and enforce Constitutional power those of us who declare President Donald J. Trump lacking Constitutional understanding seek. "We, the American People" are beyond nuts to tolerate America's three, co-equal branches, no-one's-in-charge governmental system. Nary a day goes by when there are not media stories about some judicial contest between President Donald J. Trump's Administration and a court where both parties claim providence over how case at hand ought be resolved. No matter court in play, is no ruling finality.

"We are so concerned to flatter the majority that we lose sight of how very often it is necessary, in order to preserve freedom for the minority, let alone for the individual, to face that majority down."

~ **William F. Buckley, Jr.**

No Even "Our, the American People" Supreme Court of the United States (SCOTUS) has final say on litigation tried before SCOTUS Justices. A prime example is most recent Roe v Wade decision, reverting abortion to commonwealth/state jurisdiction, rather than federal. Judges, at all levels, all chips down, reach opinions based on magistrate personal attitudes. values, and beliefs (PAVB).

Given Court Judges, As Well As litigating attorneys, present their case based on PAVB, it is all but impossible for "Us, the American People" to predict how a given court case will turn out. Nearest to objective court outcomes may well rest with jury trials. Even so, juries deliberate to reach verdicts based on jury members' PAVB. Rub is there are no intrinsic judicial standards, only PAVB time-tested.
