One American President Says 'OK,' another says, 'No way.' "We, the American People" don't need much more evidence we have a governmental system enabling lawful power-seekers a chance to spend taxpayer money – or, not spend taxpayer money – after America's Congress gets to decide how America's taxpayer money shall be spent. Congress being legislators with political-ambition-disorder.

~ ***Rabbi Michael Lerner***

Media Report “Our, the American People’s” President Donald J. Trump’s Department Of Government Efficiency (DOGE), in its effort to take over U.S. Institute of Peace (USIP), was struck down by a judge who characterized DOGE attempt as ”a gross usurpation of power.” Usurpation, as is true of many words and terms, has varied definitions, all amounting to misuse. Judges could misjudge USIP.

“I was born a Heretic. I always distrust people who know so much about what God wants them to do to their fellows.”

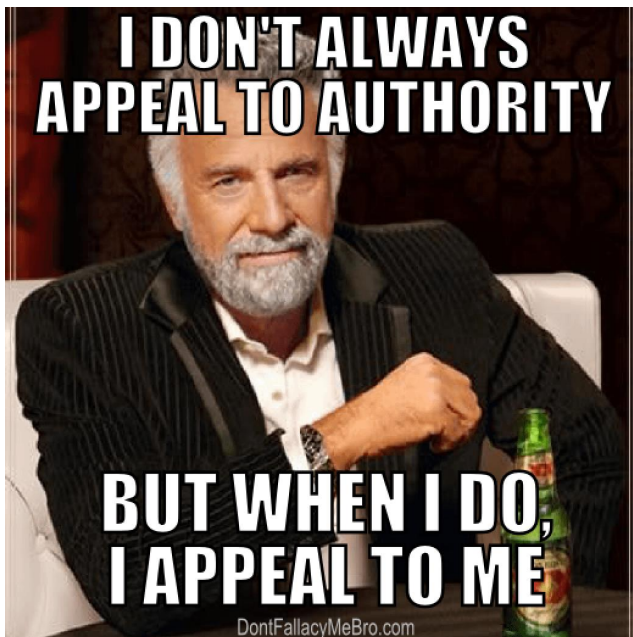

~ Susan b. Anthbony

It Might Occur To “Us, the American People” judges wouldn’t concede they could misjudge. Whether judges would concede judges could misjudge is quite moot. America’s judicial appellate court system offers ample evidence judges disagree. Who can disagree can err. Who errs matters not as much as who can err with lawful authority. Extra paradox. Lawful authority erring because law, itself, is in error.

‘We just never get them in the major newspapers. Instead, the major newspapers have just the one side with the likes of Charles Krauthammer, George Will, Thomas Friedman, etc.’

We Could Argue Law, By Definition, does not, can not, err. An argument counterposed by people’s imperfection. Including they who presume to write, to administer, to judge law. Nowhere in time’s annals is there verifiable perfect law evidence. There is perfection proclamation. We have not, despite authenticity declaration, figured out how we might instill such perfection. None, save certainty tyrants.

Stop America's Cancer From Metastasizing

So, we will continue to pray for President Biden, but America needs to go forward investigating the coverups.

Compassion leads us to pray for and be concerned for the health of the former installed President Joe Biden. As human beings we should show sympathy and compassion. However, the compassion for Biden's health issues should not stop the compassion we have for the health of America, as she suffers from the cancer of corruption in our nation, which is currently an epidemic within the Democrat Party.

Having been a person who received a cancer diagnosis, I know the journey can be scary, painful and in many cases long. My breast cancer was found very early, and I am now four years out and still cancer free.

I just realized that there is no legal requirement for presidents of the United States to have regular medical checkups. It has, however, become a customary practice, which led me to believe it was required. Personally, I think maybe it should be a requirement, with all the questionable peculiarities of Joe Biden's cognitive health. There has been a practice with modern-day presidents to undergo annual physicals and share the results with the public, even though neither is required of the presidents.

We know, or we were told, that Joe Biden had annual physicals. He did not allow the media to grill his doctors as they did when President Trump was #45. White House Physician, Dr. Ronnie Jackson (now House Representative, TX) underwent quite the interrogation over President Trump's health. The media asked all kinds of idiotic questions, like: does he watch too much tv, does he smoke, does he drink, does he do drugs, is he overweight, does he have dementia...etc., but they did not do the same for Joe Biden, in fact, they didn't even care to ask any of those questions, even though the most obvious question loomed over the majority of Americans. Apparently, those in Biden's administration never saw a need for a cognitive test for Joe. They never questioned his forgetfulness, his ability to be lost, imaginary hand shaking, frequent falls and lack of balance. There were many signs President Biden was in a poor state of health, yet Americans were told he was fine.

He was not fine! Joe hasn't been "fine" for a long time. Remember back in August of 2020, then candidate Joe Biden was interviewed by CBS correspondent Errol Barnett. During that interview Joe was asked if he would undergo a cognitive test, for which he angrily replied, **"Why the hell would I do that? Come on man!"**

Now, he has suddenly developed stage 4 prostate cancer. Am I the only American wondering how, with thorough health checkups the cancer did not have an early detection? I know it's aggressive, but seriously...

Joe Biden's last health physical took place in February 2024. At which time, his physician, Dr. Kevin O'Connor, declared him "fit to serve" and described him as a "healthy, active, robust 81-year-old male."

Upgrade to paid

Perhaps our sympathy should be that Joe Biden had such an incompetent physician. All the world could see, when foreign leaders have to help the President of the United States off and on the stage when he was speaking, and keep him from getting lost in the jungle; when America and the world watched Joe trip and fall numerous times... We had a more astute awareness of his declining health; physically and mentally than Dr. O'Connor did.

Then there was Joe Scarborough and Jake Tapper who both saw President Biden as healthy, active robust and sharp... but they were scripted to have such positive opinions.

They and others, in their particular-liberal media groups, insulted any person who questioned Joe Biden's speech, saying he is a stutterer and all who question his ability are just mean and bigoted.

I'm not alone in my concerns, and unfortunately my suspicions, regarding former President Joe Biden's cancer disclosure. According to the Political Insider, several doctors are throwing cold water on Biden statement that doctors only found metastatic prostate cancer last week. https://thepoliticalinsider.com/doctors-throw-cold-water-on-biden-statement-that-doctors-only-found-metastatic-prostate-cancer-last-week/?utm_medium=web-push&utm_source=wp-send

Dr. Steven Quay, a doctor and pharmaceutical inventor who founded the Seattle-based company Atossa Therapeutics, wrote in a post on X Sunday,

"The PSA blood test shows the rate of cancer cell growth. For even with the most aggressive form, it is a 5-7 year journey without treatment before it becomes metastatic."

Dr. Ezekiel Emanuel, an oncologist Biden brought on to advise during the COVID-19 pandemic, said the former president likely had cancer at the beginning of his presidency.

Not to be political, but they say in politics, "Timing is everything." I have also heard there are no "coincidences" in politics.

So, we will continue to pray for President Biden, but America needs to go forward investigating the coverup. His sudden diagnosis is more evidence of corruption and coverups!

Coming up later this week, we'll talk about "**The Desperation Of The Democrats.**"

"Power tends to corrupt, and absolute power corrupts absolutely." Lord Acton (John Emerich Edward Dalberg Acton).

Media Report To “Us, the American People” President Donald J. Trump says American companies, noting they would have to pass on tariff (trade tax) expenses to customers, to eat tariff (trade tax) costs. Curious advice from a president said to be a business tycoon. Tariffs (trade taxes) are costs of doing business. Business costs of doing business are paid for by customers. Always. Customers pay all costs.

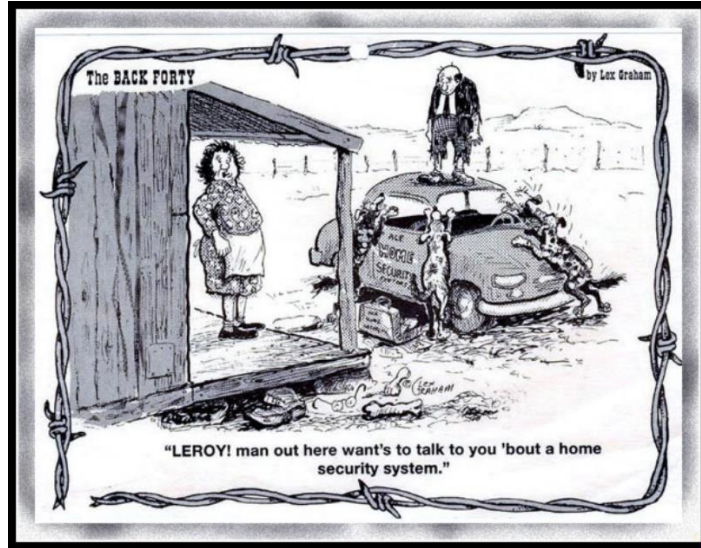

"It is not from the benevolence of the butcher, the brewer, or the baker, that we expect our dinner, but from regard to their own interest."

~ *Adam Smith*

IS IT REALLY HARD TO DECIDE
WHO TO SUPPORT?

“We, the American People” who are of a mind business ought not pass business costs along to customers either have no grasp of economic reality, or, have some notion government – or, someone else – can, somehow, come up with money to pay for business costs. There is no way products appear on store shelves without producers and sellers coming up with payment for getting goods on shelves.

No Government Edict, No Economic Theory can put goods and services in consumer's hands without there being some cost of production. It takes effort to turn resources into shoes, and cars, and jockey shorts, and Big Macs. Producing goods and services has nothing to do with who should pay how much for kettle-cooked potato chips, or doctors should pay for hospitals to do coronary surgery on patients.

"It is the highest impertinence and presumption, therefore, in kings and ministers to pretend to watch over the economy of private people, and to restrain their expense. ... "

~ *Adam Smith*

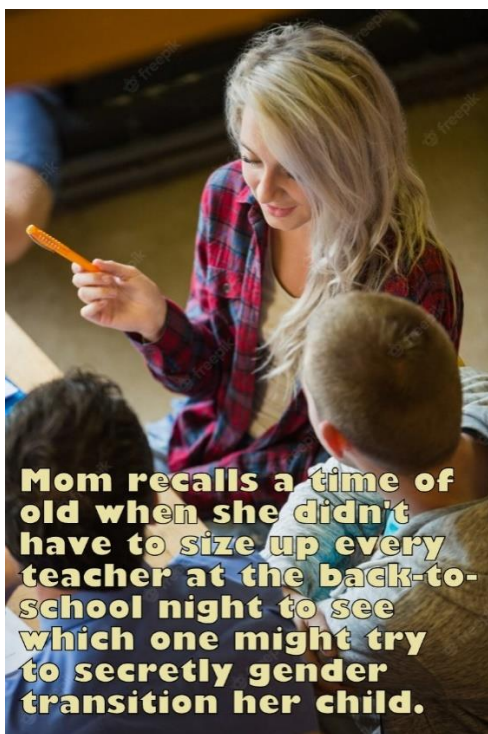

It Should Be No Surprise To "Us, the American People," who can speak in complete sentences, be they sentences in Russian or Portuguese, business is not a political undertaking. Not to say more than a few politicians-legislators would have us believe they can control production to fit political aims. Politicians-legislators who say such, play to people's wishful thinking, not life's cold, hard, actuality.

"It is the highest impertinence and presumption, therefore, in kings and ministers, to pretend to watch over the economy of private people, and to restrain their expence, either by sumptuary laws, or by prohibiting the importation of foreign luxuries. "

~ *Allan Francovich*

“Our, the American People’s” President Donald J. Trump, saith media, has, as ringleader of evil incarnate in some folk’s eyes, allowed America’s federal Justice Department (DOJ) to file charges against a Congressional legislator for attacking law enforcement officers. Must be true, must be, or media would, certainly, not have reported it. Well known, free press vital to assuring freedom. Vital.

"War is a racket!...we are gangsters for wall street...And those who profit from war by risking the funds, lives and limbs of others can indeed be classified as "racketeers!"

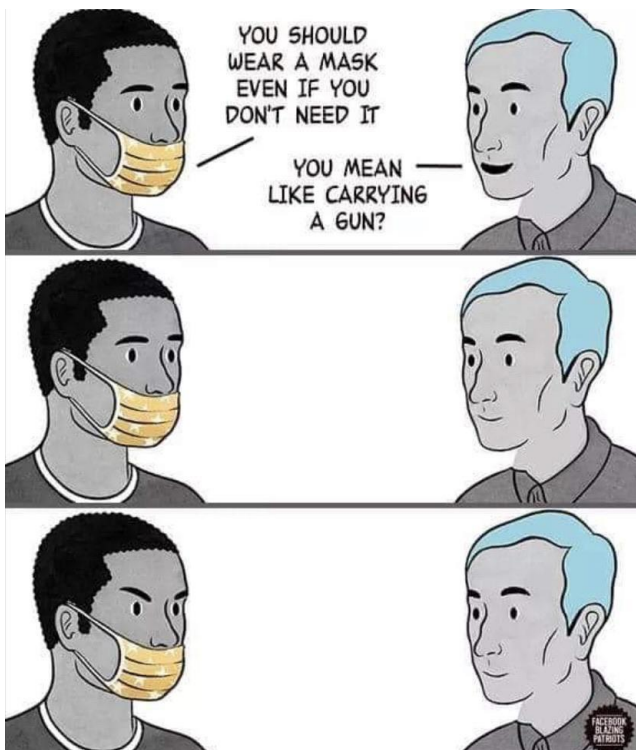

~ *Smedley D. Butler*

A Free Press Vital To Assuring freedom, and America’s legislators, one and all, dedicated to assuring freedom (they swear to do so), no red-blooded American legislator would ever even think of attacking a law enforcement officer. “We, the American People” would, stands to reason, think similarly of blue-blooded American legislators. No telling if a legislator could see attacking law enforcement patriotic.

"The world can therefore seize the opportunity [Persian Gulf crisis] to fulfill the long-held promise of a New World Order where diverse nations are drawn together in common cause to achieve the universal aspirations of mankind."

~ *George Herbert Walker Bush*

Media-Reported DOJ Charges against a Congressional legislator center on resisting law enforcement efforts to carry out deportation order from President Donald J. Trump. So, it becomes a matter of “Us, the American People” witnessing a situation where one legislator, a member of Congress, and another legislator, America’s Commander-in Chief, are at loggerheads over a jurisdiction authority contest.

"In the next century, nations as we know it will be obsolete; all states will recognize a single, global authority. National sovereignty wasn’t such a great idea after all."

To ensure peace, North and South Korea take each other’s child as hostage (April, 2018)

America’s Famed – And Infamous – three, co-equal branch governmental system has no ready answer when legislators are at odds on who gets to say who gets to do. As bad, if not worse, America’s federal judicial branch,

whilst, in theory, presides, has scant power to have its opinions upheld. So, legislators will, no doubt, in freedom's quest, fight over who gets to uphold freedom by their peculiar ideas.
