## **The Virtue-Less LEFT and the Dispassionate Democrats**

Private virtue is the character to govern oneself according to moral law at all times.

***“Our Constitution was made for a moral and religious people, it is wholly inadequate to any other.”***

We have watched in utter disgust as the democrats and the LEFT (whoever “they” are) publicly display their contempt for good character and morals. Have you ever wondered why these folks continue to push absurd and violent forms of character? Why all the cursing? Why protect criminals and punish the victims? Why are congressional members breaking their own laws (laws made by congress) and claiming they are “fighting” for “democracy?” Why do they point their fingers at others regarding racism, when at the time they are claiming all white people are racists? Why are today’s ivy league schools promoting and teaching anti-American values, when they should be promoting Life, Liberty and the pursuit of Happiness? Why do the democrats strongly object to God and Judeo-Christian Biblical principles and laws? Is their constant off-key horrific singing a form of torture, psychological warfare? (Please, make them stop singing!)

We've heard the word before, **Deconstruction!**

**"Deconstruction of a nation"** in a political or social context often refers to the **breaking down or dismantling of a nation's structures, institutions, or core values**. This can involve various processes like the weakening of central government authority, the rise of regional or ethnic separatism, or the erosion of national identity by way of excessive immigration. (An invasion!)

The Democrat Party and their radical LEFT followers are promoting all things that are the opposite of our core governing principles as written in our founding documents. To understand these lost principles, **read "The American Crisis Continues: The Lost Principles" (Part I and Part II)**

### **Public and Private Virtue**

John Adams said, *"Our constitution was made only for a moral and religious people. It is wholly inadequate to the government of any other. Morality and virtue are the foundation of our **republic** and necessary for a society to be free. Virtue is an inner commitment and voluntary outward obedience to principles of truth and moral law. Private virtue is the character to govern oneself according to moral law at all times. Public virtue is the character to voluntarily sacrifice or subjugate personal wants for the greater good of other individuals or the community. Specific moral virtues include **charity, justice, courage, temperance, reverence, prudence, and honesty. These virtues are the moral fiber and moving force to act in accordance with wisdom.** Our scholars embrace these virtues and seek to incorporate them in the John Adams Academy community through which these virtues are cultivated and practiced."*

John Adams, Letter from John Adams to Massachusetts Militia, 11 October 1798.

**NOTE:** John Adams refers to our government as a republic; he does not use the word democracy.

Our nation has been falling away from those seven virtues for decades. We've discounted the value of marriage, and we've embraced premarital sex. "Living together" is considered normal and acceptable. We place very little value on life, as we promote and use government funds for the killing of unborn babies. They advocate abortion as a choice, but abortion (Planned Parenthood) is truly an industry for profit! Filthy language and obscene sex scenes in movies were once disallowed, then they were rated X or R, and now... it is everywhere. Congress recently passed the **"Take It Down Act"** to remove ***nonconsensual*** pornographic photos from the internet... This tells me that pornography is now approved and flaunted. Social media is a "social platform" which all ages of children can see. America has become the #1 nation in human trafficking, yet we hear *not a peep* about that from the Democrat Party who are still screaming for reparations. There is no temperance when the LEFT begins their rioting-protests. There is no honesty in America's politics; all parties lie to **We the People**.

There is no Love for Life! There is no thought, nor talk of Liberty, and no want for Independence. Happiness is a selfish desire instead of a want for self-sustaining and seeking Property and Prosperity through hard work.

It is important, in my opinion, that **We the People** recognize the truth of the virtue-less LEFT and the dispassionate democrats. Their goal is that of "Deconstruction." They are working very hard and diligently to destroy the foundation of our nation. ***Private virtue is the character to govern oneself according to moral law at all times.***

Without sounding prudish, what are the virtues of character we witness in many of the democrat congressional members? **Are they examples of charity, justice, courage, temperance, reverence, prudence, and honesty?** Lest we believe the Republican Party is without blame, let's apply this same test to their lives as well.

Of course, we need to look inside our own hearts and judge our own characters just as we might for those who are representing us. What kind of an example of these same core values does your life display?

***“Our Constitution was made for a moral and religious people, it is wholly inadequate to any other.”***

Without God our Republic will fail!

*Media Are Persistent In Its Coverage* of dissent within “Our, the American People’s” Supreme Court of the United States (SCOTUS) Justice ranks. It should not come as a surprise. SCOTUS Justices attain their lofty position by virtue of political nomination and Congressional political confirmation. America’s presidents nominate SCOTUS justices; Congressional Senate renders political concurrence.

"The contest, for ages, has been to rescue Liberty from the grasp of executive power."

~ ***Daniel Webster***

When will the government quit hammering the transport industry with regulations, increased fines, increased licenses fees, road hour regulations, fuel taxes, etc????

*It Should Not Escape “Us, the American People”* America’s Supreme Court of the United States (SCOTUS) renders opinions on law’s legitimacy, with respect to Constitutionality. SCOTUS Justices are empowered to decide if laws are, in fact, lawful - in light of relevant Constitutional precepts and protections. Justice Jackson’s comment notwithstanding, SCOTUS passes judgement on laws.

"Of all contrivances for cheating the laboring classes of mankind, none has been more effective than that which deludes them with paper money."

~ *Daniel Webster*

**Justice Jackson, Bless Her Intent** to have justice served, renders her views on cases based on her personal attitudes, values, and beliefs (PAVB). Her PAVB, applied to case in question, differed with seven other SDCOTUS Justices, a SCOTUS majority PAVB decision. Just as legislators are elected by majority votes, and laws are enacted by legislature majority vote. Justice Jackson gets one vote. One.

"Only reason can convince us of those three fundamental truths without a recognition of which there can be no effective liberty: that what we believe is not necessarily true; that what we like is not necessarily good; and that all questions are open."

~ **Clive Bell**

**"We, the American People"** are being manipulated by a surreptitious cadre of conspiracy-minded ne'er-do-wells right in America's government living off public money. Given there is, in fact, something called 'Deep State.' We, who are of inquiring minds, need only to type "Deep State" into an Internet search engine to find plenteous Deep State reference material. Along with hiding places.

**“Deep State” Is Oft Referred To** in media articles as covert governments operating within formal governments in countries where formal governments are, in reality, given directions by planted operatives who decide how publicly visible government officials shall go about fleecing unaware private sector people. U.S.-wise, Deep State allusion, typically, refers to Trump Administration lists.

"When words lose their meaning, people lose their liberty."

~ *Confucius*

**Deep State-Like Ideas Are Useful** to people who are out to use government authority to ferret out resistance to their initiatives to gain lawful (or unlawful) power over people. For Deep State tactics to control “Us, the American People,” Deep State operatives would need means to influence government policy in a manner to control public behavior in ways people do not know are happening. Challenge.

"A free man is as jealous of his responsibilities as he is of his liberties."

~ Cyril James

***“Our, the American People’s”*** legislators need no subversive schemes to reach their political aims. American voters have a long-standing record of voting for legislative office candidates who implement selective, arbitrary, and discriminatory legislation, taxation, and regulation (SADLT&R) designed to confiscate property (wealth) and restrict choice (Liberty). SADLT&R obviates Deep State need.

"The big thieves hang the little ones."

~ Czech proverb

***Deep State-Like Conspiracy Theories*** are likely to be around indefinitely. People who seek lawful (or unlawful) power over others, arguably, are not satisfied competing in idea workplaces. Ideas are not their objective. Only obedience brought about by fear. Oddly, they who seek dominance through fear might be fearing most, their own sense of inadequate self-reliance. Rejection is their foremost enemy,

"Political correctness is simply tyranny with manners."

~ **Charlton Heston**

**“We, the American People”** have rational cause to be concerned about inflation. We have greater cause to be concerned about inflation when government takes steps to control inflation by artificially increasing money supplies. Inflation, variously defined, amounts to too much money chasing too few goods and services. Government efforts to corral inflation distort ordinary free market behavior.

"There is only one success: to be able to spend your life in your own way, and not to give others absurd maddening claims upon it."

~ ***Christopher Darlington Morley***

**“Our, the American People’s”** government financial managers have hit upon a brainy idea known as Quantitative Easing (QE) to deal with so-called financial crises. Financial references differ when QE first came to be. Some credit Japan with coming up with QE to bring Japan out of its economically ‘lost decade.’ Other references say QE first appeared in U.S. during 1930s or during 2008 fiscal crisis.

"In our time, the symbol of state intrusion into the private life is the mandatory urine test."

~ ***Christopher Hitchens***

**QE Amounts To Government** infusing money into markets in hopes of bringing growth out of a slump. Doing so artificially skews purchasing toward government-induced transactions. When more money is available, prices tend to go up, thus, purchasing power, per monetary unit, goes down. How government financial managers figure price increases help "Us, the American People" is evasive.

"There is only one success: to be able to spend your life in your own way."

~ *Christopher Morley*

*We Would Be Smart, As A Sovereign Citizenry*, to restrict government from manipulating financial markets. Governments, when dealing with socio-economic problems, do so based on government officials' personal attitudes, values, and beliefs (PAVB). Such PAVB are invariably politically biased toward government-desired outcomes. Whereas, free market participants' PAVB lean to mutual benefit.

"In our desire to have government become our benefactor and sustainer, we have allowed it to become our taskmaster and overlord."

~ *Chuck Baldwin*

*People Determined To Live In Liberty* do not allow legislators - or other public officials within These United States of America, to cause any citizen to be drawn into an obligation to assume responsibility for public debt for reasons other than to defend these United States. They require elected leaders to defend America's liberty unequivocally.
