Japan not taking in refugees; says it must look after its citizens first. Now...THERE'S an idea!

"We, the American People," who are non-professional investors, and who use Dow Jones Industrial Stock Average (DJIA) to help gauge investment timing, can't be overly optimistic comparing President Donald J. Trump's first months in his second term to first few months of his first term. Now versus then comparison is lack-luster at best. Media have shown scant to no evidence DJIA will perk up soon.

Radical Change Begets Radical Change. Socially, economically, politically. President Donald J. Trump's glowing Election 2024 campaign promises could be described as glimmering, with not many signs they'll brighten any time soon. Using tariffs (trade taxes) to get rid of income taxes has yet to bear consensus fruit. One notable media outlet article has it predicted manufacturing rise is opposite.

BILL MAHER: DEMOCRATS WENT FROM 'MEN CAN HAVE BABIES' TO 'WE LIKE THE TERRORISTS'

A Related Media Article Notes some sixteen Congressional GOP senators are worried President Donald J. Trump's Big Beautiful Bill on "Our, the American People's" federal budget will not cut proverbial mustard. Moreover, tariff (trade tax) initiatives have not been received with open arms by leaders where exports to U.S. markets will be more expensive. Fairness is never free from costs of sales.

All-In-All, Change Induced By Government comes about, almost exclusively, by force of law. Force of law, if not completely restricting choice, reduces choice at nearly every turn. Whether government-induced change is good or bad has nothing to do with who happens to be in legislature, judiciary, or executive branch. It is entirely based on long-term public acceptance – or sustained dictatorial clout.

Never miss a nail again

Those Of "Us, the American People" who are inclined to find out how much, in dollars, goes to fraud, waste, and abuse (FWA), can get an idea from some basic Internet inquiry. Inquiring minds will find Internet sites addressing FWA cite FWA in hundreds of billions, yearly. For fiscal year 2022, FWA would have come to \$588.24 per American in FWA losses on a \$6.27T federal budget. Noteworthy.

"Any American who is prepared to run for president should automatically, by definition, be disqualified from ever doing so."

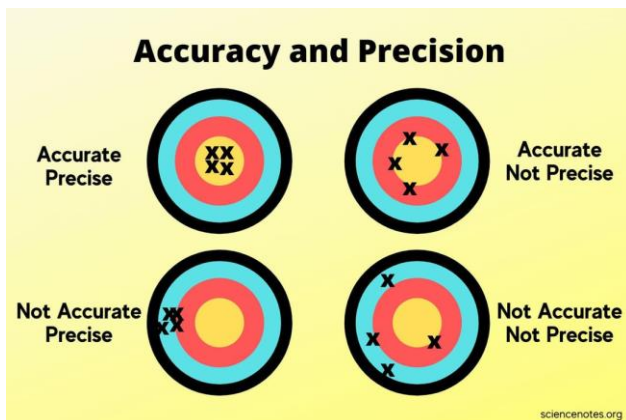

~ *Gore Vidal*

It Would Not Be Unreasonable To Say FWA is helped along by changes in government policy from administration-to-administration. In theory, there should be no budgetary procedure changes when government officials change. "We, the American People," however, have no assurance incoming officials will not have radically differing interpretations of virtually every law, regulation, and policy.

"If [drugs] didn't exist, our government would have to invent them, the better to enact laws aimed at keeping the citizens 'sinless and obedient'."

~ *Gore Vidal*

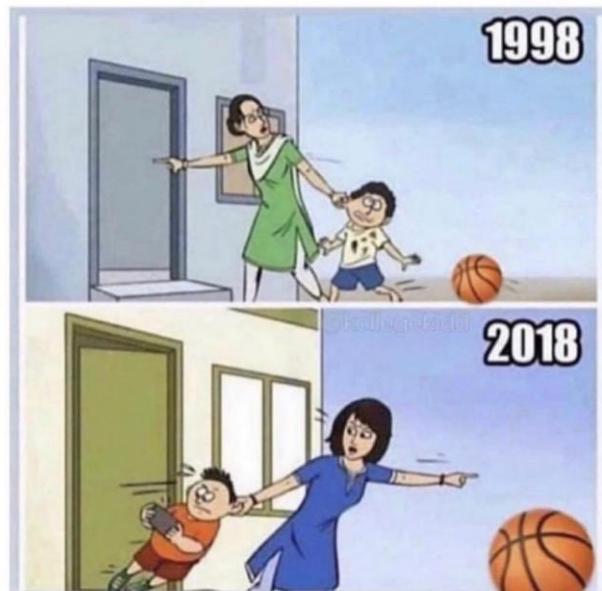

"Our, the American People's" federal Office of Management and Budget (OMB), a part of America's federal Executive Office of the President, in a report on fiscal year 2022, found FWA came to nearly \$200B over federal agencies. Losses occurred even with various controls intended to assure accuracy and accountability. Oddly, on order of half FWA errors were reported not under agency control.

"Heresy is only another word for freedom of thought."

~ *Graham Greene*

Most Accurate Meme Ever 🧑

Government Spending Is Massive. Nonetheless, accuracy is achievable. We, as taxpayers, are expected to be accurate when we submit tax returns. IRS clout will find its way to us mercilessly if we are not able to reconcile our tax returns. No reason why a government requiring us to be accurate is not, somehow, able to set an accuracy example. Odds are errors come down to errors in, errors out.

There’s several ways to finish this statement.

When all else fails...

... read the directions

...go back to the drawing board

...go back to the basic fundamentals

...go back to the basics of life

...or quit

The one thing **We the People** cannot do is, when all else fails, we cannot quit; we must never give up our Liberty.

America seems to be failing economically, our justice system has become two-tiered and failing **We the People**. We're in high alert regarding our national security because of this administrations' refusal to enforce our immigration laws and allowed our borders to be open! America's education system is failing to educate our children and students. We are no longer an independent people and our nation is losing it's sovereignty. Mega corporations have been allowed to monopolize and squeeze out legitimate American independent businesses. Our military has been weakened. The Biden administration looks like the *Keystone Cops* on the world stage. America, a once powerful and prosperous nation is being diminished to a third world country status.

These failures are happening because *"some people decided to do something!"* President Obama promised to fundamentally change America, and he began leading America in a downward trend. Installed President Biden has brought back the failing and treasonous policies of Barrack Hussein Obama. The Democrat Party is greatly to blame but we cannot allow them to take all the credit for the failures of this nation, the Republican Party too has led America into an oligarchy form of government and are assisting the takedown of **We the People**. Together, these political parties are leading Americans down a socialist rabbit hole and they are legislatively burrowing us deeper and deeper into tyranny.

When all else fails, read the directions!

The directions would be our Constitution! I would dare to say that most Americans are not familiar with our Constitution and therefore, when congress tramples on our rights, we are mostly unaware. We like to quote the First; Freedom of religion and speech, and Second Amendments; the right to keep and bear arms, and even the Fifth Amendment; the right to remain silent, however, outside of those, Americans are not savvy regarding our rights and the true beauty of our Constitutional Republic.

We the People are the ones who are to “*govern the governors.*” We don’t have elections to place a privileged group of people above us and reign over us, they are there to serve **We the People** and stand in the gap between Liberty and Tyranny. The Constitution is a contract between us and the elected; it is to limit their powers so that they will not obstruct our basic rights.

When all else fails, go back to the drawing board!

This is not necessary; our Constitution was created in such a way that it is sufficient for now and for the future. It is not a living breathing document it is a contract which protects the inalienable rights of Americans, while it lines out the procedures for governing. Through the years there have been numerous amendments added to it, but it surely needs no more! The failures of our governance is because those who are supposed to be following the contract have deviated from the contract and passed “**pretend legislation**” which does not secure our rights and does not follow the Constitution.

Grievance #13 from the Declaration of Independence states:

"He has combined with others to subject us to a jurisdiction foreign to our constitution, and unacknowledged by our laws; giving his Assent to their Acts of pretended Legislation."

With that being said:

When all else fails, we must return to the fundamentals.

For a long time, congress has practiced legislating in such a manner as to confuse the people. Members of Congress do not read their own legislation.

James Madison warned us of such behavior: ***It will be of little avail to the people, that the laws are made by men of their own choice, if the laws be so voluminous that they cannot be read, or so incoherent that they cannot be understood; if they be repealed or revised before they are promulgated, or undergo such incessant changes that no man, who knows what the law is to-day, can guess what it will be to-morrow. Law is defined to be a rule of action; but how can that be a rule, which is little known, and less fixed?***

When we return to the documents of old, we can see that our Founding Fathers were experiencing much of the same tyrannical ways under the King. It would appear that many of them knew and understood the nature of leaders is to abuse power.

Today our legislators argue not about securing our Liberty but they “debate” more about who will get the money for this or for that. They have completely lost or ignored the original intent of our Constitutional Republic and it would seem they also ignore the depth of the message of our Declaration of Independence. Do not believe that either of these documents are outdated and not relevant for today!

If we are to stop the failures of our political system we must go back to the directions and read them and apply them to our nation today. As Thomas Jefferson said, ***When once a Republic is corrupted, there is no possibility of remedying any of the growing evils but by removing the corruption and restoring its lost principles; every other correction is either useless or a new evil.***

In order for us to restore the lost principles, we must go back and read the directions!

Who will govern the governors? It is the duty of **We the People** to hold our officials (the governors) accountable... we need to return to the principles of our founding documents and **Bring America Home**®.

~ *George Washington*

"Our, the American People's" Congressional Senate legislator, Bernie Sanders, is upset at how President Donald J. Trump decided to deal with deportation protesters in California. President Donald J. decided to make use of America's National Guard, if need be.. Congressional Senate legislator took umbrage, accusing President Donald J. of ". . . *usurping the powers of the United States Congress.*"

"Being elected to Congress is regarded as being sent on a looting raid for one's friends."

~ *George Will*

"We, the American People" would be smart to recognize no American president, regardless political affiliation, is likely to stoop to being a "May I?" president. We would be smart, as well, to recognize Congressional Senate legislator Sanders, should he be called to do so, would not cite a single act by President Donald J. Congressional Senate legislator Sanders would back. They at political antipodes.

"Taxation with representation ain't so hot either."

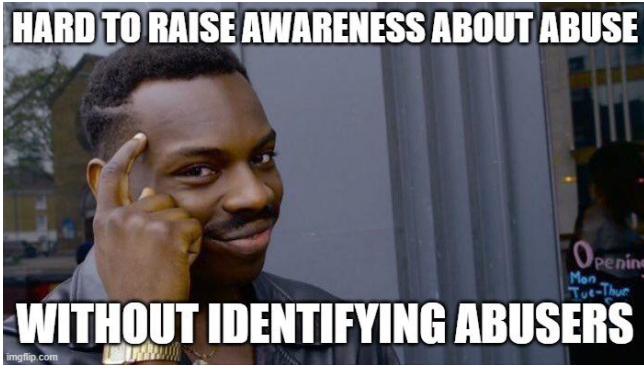

~ *Gerald Barzan*

It Would Not Be A Stretch to say serious protests over deportation are self-inflicted. Immigration laws aimed at protecting "Us, the American People" from uncontrolled illegal immigrant/migrant/refugee (IIMR) influx have been around a long time. Long enough to work. When followed. Allowing our government to ignore or misuse America's immigration laws puts Americans at unnecessary risk.

"The thing that differentiates people from animals is money."

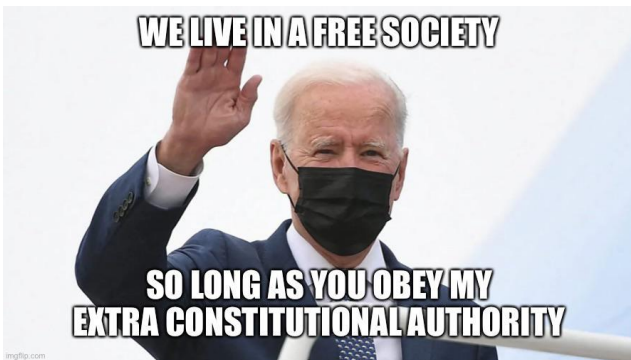

~ *Gertrude Stein*

It Is Unreasonable For Americans – for any person, anywhere – to be forced to surrender property (wealth) to subsidize IIMR people’s well-being. It is especially aberrant and unacceptable when those, who are part of IIMR, are also part of criminal elements. Governments who burden their people with arbitrary IIMR support can end up, justifiably so, with volatile resistance from sovereign citizenries.

"We are reluctant to admit that we owe our liberties to men of a type that today we hate and fear--unruly men, disturbers of the peace, men who resent and denounce what Whitman called 'the insolence of elected persons'--in a word, free men."

People Determined To Live In Liberty do not allow legislators – or other public officials within These United States of America, to subsidize private enterprise with public money. They uphold fiscal responsibility, limited government, and free markets.
