Pope Leo XIV Is Not Satisfied with making sure Artificial Intelligence (AI) does not spell humanity’s demise. His Holiness has put Europe on notice. Change how migrants are treated and exploited, or face eternal torment at Beelzebub’s hands. Pope’s and Presidents (clerics and legislators) have a propensity for using threat of force to have “Us, the American People” and others act as told to act..

“Our current philosophy of government may be summarized six words: If it sounds good, do it.”

~ **Doug Newman**

“We, the American People” are not left out of Pope Leo’s grand plan to have illegal immigrants, migrants, and refugees (IIMR) folks be made part of society wherever IIMR folks happen to set foot after leaving their home countries. We, along with other people Pope Leo figures ought take up IIMR cause – on threat of damnation if we do not repent and do as we are told – could steer another course.

“All the fiery rhetoric of the Founders was directed at a “tyrant” who taxed his subjects at a rate of about three percent. Today, we in “the land of the free” are taxed at about 50 percent when you add federal, state, and local taxes. What kind of government would do this? A dictatorship would.”

~ **Doug Newman**

It Would Not Be Unreasonable to have Pope Leo and other ‘leaders,’ who claim IIMR people should be unconditionally accepted wherever they decide to settle, to force IIMR home country officials to alleviate conditions prompting IIMR people to leave their homes. Treating oppressed people like trash to be dumped in other countries at other people’s expense is patently irresponsible and unwarranted.

“Electing even a few Libertarians to a governing board, is akin to having a designated driver in a roomful of drunks.”

~ **Doug Klippel**

It Is All Too Easy For Popes and presidents to demand people follow their directions when neither Pope nor President is personally obliged to take on burden of their edits. We and other people Pope and President call on to accommodate IIMR people could, were we willing, tell Pope and President to get leaders of IIMR-troubled countries in line and correct IIMR root causes. Or face losing their jobs.

“If the government can’t keep drugs away from inmates who are locked in steel cages, surrounded by barbed wire, watched by armed guards, drug-tested, strip-searched, X-rayed, and videotaped – how can it possibly stop the flow of drugs to an entire nation?”

AI (Artificial Intelligence) Are, Today, English Language two most provocative words. According to a major network journalist speaking to an Empire State 2026 graduating class. Journalist had warned graduates his address would be polemic. Partly because said journalist challenged typical indictments aimed at AI informational veracity. Mostly because AI is accused of replacing people's brain worth.

“Since there is no such entity as “the public,” since the public is merely a number of individuals, the idea that “the public interest” supersedes private interests and rights can have but one meaning: that the interests and rights of some individuals take precedence over the interests and rights of others.”

~ *Ayn Rand*

"We, the American People" would be smart to take a jaundiced view when AI experts presume to be well enough armed to separate trustworthy from untrustworthy AI references. Journalist striving to temper AI condemnation maintains it would be better to use AI in getting a grip on how people and an AI process information differently. Namely, people are able mimic AI, AI is not able to mimic people.

"In the end they will lay their freedom at our feet and say to us, "Make us your slaves, but feed us."

Journalist Prodding Graduates To Think clearly proposed HI (Human Intelligence) not be slighted or underrated when compared to AI. Artificial, after all, means unnatural upshot of human endeavor. While AI can, say, multiply very large numbers by very large numbers faster than your typical Rhodes scholar, AI has yet to tell “Us, the American People” why cancer comes from undifferentiated cells.

AI Is A Digital Information Resource taught to do as it is able to do by HI. Albeit HI can teach AI to teach AI. "Our, the American People's" estimate of AI intellectual power or prowess would be overestimated if we expect AI to perform brain surgery in a manner superior to a real live surgeon. More precise, entirely possible AI, though, unless trained, has to ask its human proctor where to incise

Americans know that something, many somethings, are wrong in this nation today. The United States of America is a nation of people who have *bragged of freedom*, but we are now recognizing that **We the People** are living under oppression by a tyrannical oligarchy government. We are not free! In many ways, we ourselves are to blame. Little by little we have accepted government assistance here and there, subsidies, mandates, permits, restrictions, inspections, licenses for this or for that, and in doing so, we have become a dependent people, no longer sovereign but owned by the government. Government, of any kind, cannot give the citizens anything unless it first takes it away from others.

“Government is not reason; it is not eloquent; it is force. Like fire, it is a dangerous servant and a fearful master. Experience has taught us that it is much easier to prevent an enemy from posting themselves than it is to dislodge them after they have got possession, and when the freedom of speech is taken away then dumb and silent we may be led, like sheep to the slaughter.” George Washington

I believe it is not only beneficial that we look at our **Declaration of Independence**, it is our duty to educate ourselves and understand what their “grievances” were, then compare them to today.

I’m just a simple layman, reading, studying and pondering the words of our Founding Fathers. This is not some OLD document to be enshrined, it is a current reminder of our beginning as a nation and our responsibility to be active and mindful members (**consent of the governed**) of our current government.

In this segment we will look at the sixth and seventh grievances listed in the Declaration of Independence.

Grievance #6

He has refused for a long time, after such Dissolutions, to cause others to be elected; whereby the Legislative Powers, incapable of Annihilation, have returned to the People at large for their exercise; the State remaining in the meantime exposed to all the Dangers of invasion from without, and convulsions within.

As I mentioned in a previous article, the king removed the local government established by the colonists. The king’s dissolution of the government prevented the correction of economic problems and left the colonies open for invasion. Rule of law was not a priority of the king, for sure! This removed government structure and left the colonies in chaos.

We have cities in America today that are in utter chaos. Perhaps there is no king removing local laws, but many mayors and prosecutors refuse to enforce law and order, leaving Americans vulnerable. The number of homeless now living on the streets in American cities has risen exponentially. Homelessness encompasses many facets of people which also includes drug addicts and those who suffer from mental illnesses: they need help! For mayors, council members and prosecutors to ignore this problem, is destroying the cities, obstructing businesses and again, placing citizens in danger. ... ***Dangers of invasion from without, and convulsions within.***

In taking over the government, the king, as stated in the first part of this grievance, made sure that he was the only power and government that the colonists had. He was not going to give up his kingship over the colonies. He was causing great suffering with his “policies.”

Today? Well, the Democrat Party has been changing election laws and manipulating districts in order to keep power. The 2020 election was a total fiasco of corruption. Not to cut the Republican Party any slack here, during the 2022 election they assisted the democrats by refusing to recognize the primary choices of citizens in certain states; denying them GOP financial support and there were no GOP endorsements. Those new candidates were left cold in the political water to drown. Honest elections are currently being denied to **We the People.**

Grievance #7

He has endeavoured to prevent the population of these States; for that purpose obstruction the Laws of Naturalization of Foreigners; refusing to pass others to encourage their migrations hither, and raising the conditions of new Appropriations of the Lands.

This is the opposite problem that we face today. As a new and growing land, the colonists welcomed and encouraged new people into their new land, but the king stopped the colonists from being able to attract new settlers to the

colonies, closing down travel. He was concerned about the growing power of the colonies and the popularity of republican ideals among immigrants, in particular, German immigrants. In fact, after the restrictions of the peace settlement of 1763, very few people settled west of the Alleghenies; immigration nearly ceased until the time of the revolution.

(What was the peace settlement of 1763? The Treaty of Paris of 1763 ended the French and Indian War/Seven Years' War between Great Britain and France, as well as their respective allies. In the terms of the treaty, France gave up all its territories in mainland North America, effectively ending any foreign military threat to the British colonies there.) Wikipedia

Today our “government” is ignoring immigration laws to overwhelm the citizenry of this nation. The influx of illegal immigrants today has not only increased crime in our communities, but has also placed a burden on our economic system, education system, health system and on housing and property.

Removing our sovereign borders is denying that the United States of America is even a legitimate nation. It isn't that **We the People** do not want to allow others to enter our nation, we do however, hold the right to vet such strangers and make sure America is being increased with good and honest people and families that actually want to be American. At this time, we have foreign enemies illegally entering our nation and disappearing into the population; enemies from countries such as Afghanistan, China, Russia, Sudan, Iraq, and Iran to name a few.

It is also apparent that leaders of other nations have agreed with the current administration to send to this nation some of their vilest and most ruthless people. They are emptying their prisons and sending the criminals across our nation's borders.

Going back to the words of Grievance 6... causing, **“dangers of invasions from without, and convulsions from within.”**

I find it extremely interesting that after nearly 250 years, **We the People** have once again become oppressed by a totalitarian government. This time it isn't just one king, it is a legion, an oligarchy!

I use this often, it's a line from the movie The Patriot, ***"Why should I trade one king 3000 miles away for 3000 kings one mile away? An elected legislature can trample a man's rights as easily as a king can."***

We are facing the same oppressions that our Founding Fathers faced. Just recognizing this fact is a step in the right direction.

Restoring our Republic will not be easy, it will take much prayer and wisdom and action. We must learn from the past, then seek, and work, for a better future! For our Posterity, we must **Bring America Home©**.

"Our, the American People's" Supreme Court of the United States (SCOTUS) has left a trail wreckage since its conservative majority emerged following Election 2020. So, media report, pronounces a New England legal Studies and Political Science professor. Learned and visionary professor has a dual edged SCOTUS fix. Additional SCOTUS justices. Three-judge panels deciding cases SCOTUS shall try.
