Day 21, no one suspects a thing.

“Our, the American People’s” legislators, given their head, will vly their true political colors. Media report former Presidents Barack Obama and George Bush locked arms to let it be known they oppose President Donald J. Trump’s move to close U.S. Agency for International Development (USAID) doors. Legislators strive to control property (wealth) confiscation and restrict choice (Liberty).

"How bad do things have to get before you do something? "

~ ***Michael Badnarik***

When you accidentally join the
wrong group but you have to act natural:

“We, the American People” would be smart to keep in mind legislators are extraordinarily flexible when it comes to siding with legislators, if it looks as though they will have an edge toward influence political outcomes to fit their personal attitudes, values, and beliefs (PAVB). Political party affiliation will not stand in way of alliances appearing to gain legislators favor with prospective voters.

"Each and every time someone says 'there ought to be a law' they are saying that men with guns should enforce their will on innocent others."

~ ***Michael Barnett***

**IF I EVER BECOME A
SUPER HERO, I WON'T TELL
ANYONE BUT THERE WILL BE SIGNS.**

America's Presidents Spend American taxpayer money when they funnel dollars to initiatives like USAID. Their message to "Us, the American People" will, without fail, be centered on helping humans in need. Legislators know pleading for money to help people is a hard thing to argue against. They who do argue against funding initiatives like USAID can be branded as greedy and un caring.

"Government does not grow by seizing our freedoms, but by assuming our responsibilities."

~ **Michael Cloud**

We Can Expect Legislators Will Always [ick fights they believe they can win, or, if not win, convince voters their aims are humanitarian. Humanitarian or not, legislatively-funded help is always out of taxpayer pockets. Legislators will try convincing voters it's a noble gesture to help people in need, and we should never think more help is too much. Ironically, more is not too much when we allow it.

"The angels and the devils are definitely within us, not within the machines we use."

~ **Michael Dertouzos**

People Intending To Live In Liberty do not allow legislators - or other public officials within These United States of America, to permit federal authorities or courts to define or limit their 10th Amendment powers beyond specific Constitutional constraint. They protect self-government by exercising citizen sovereignty.

"The worst forms of tyranny, or certainly the most successful ones, are not those we rail against but those that so insinuate themselves into the imagery of our consciousness, and the fabric of our lives, as not to be perceived as tyranny.

Media Report “Our, the American People’s” federal Justice Department (DOJ) has, as part of DOJ’s 2025 National Health Care Fraud Takedown, preferred charges against 96 doctors, nurses, and pharmacists in a total of 324 indictments. Had all attempts at medial fraud succeeded, they would have amounted to a \$14.6B dollar loss. Media coverage indicates loss was targeted against taxpayer dollars.

"Bureaucracy, the rule of no one, has become the modern form of despotism."

~ **Mary McCarthy**

"We, the American People" experience some \$230B to \$520B in fraud, waste, and abuse (FWA). FWA loss comes to on order of \$1,250/American/year. President Donald J. Trump's Center for medicare and Medicaid (CMS) director, R. Mehmet Oz claims his organization is not waiting for FWA to occur in CMS \$1.7T budget. Instead, CMS will be proactive in preventing FWA before it occurs.

"Americans have the mistaken viewpoint that Lady Liberty is only a peacetime luxury who is ill-equipped to fight the nasties. Therefore, they reason, we need an equally nasty Big Brother. Americans have forgotten that Lady Liberty is one ferocious mother when protecting her children."

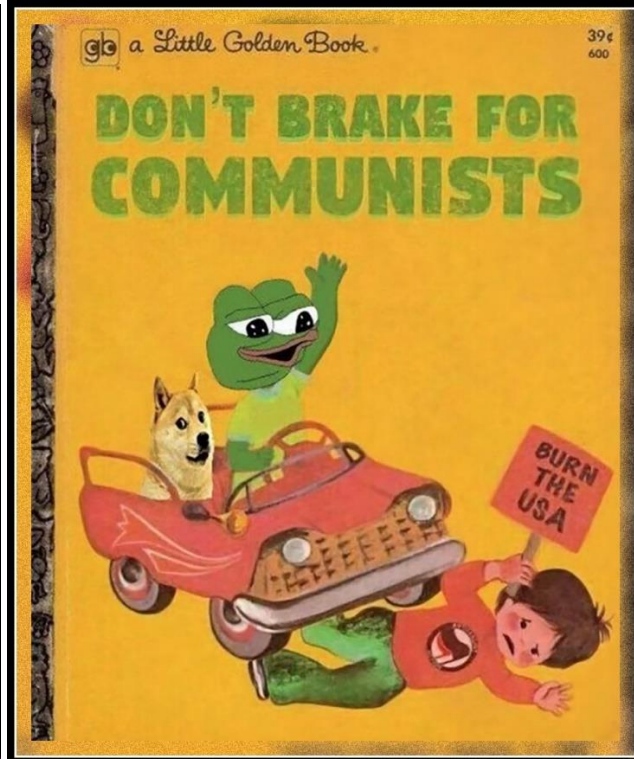

~ *Mary Ruwart*

It's Anybody's Guess How Many tax dollars will have to be spent to prevent a given FWA target till after FWA attempts are detected and prosecuted. Whether it would be feasible for "US, the American People" to take and active FWA prevention role is uncertain. There is a difference between preventing FWA in private industry and preventing FWA in private business sector.

"There is a word sweeter than mother, home or heaven. That word is liberty."

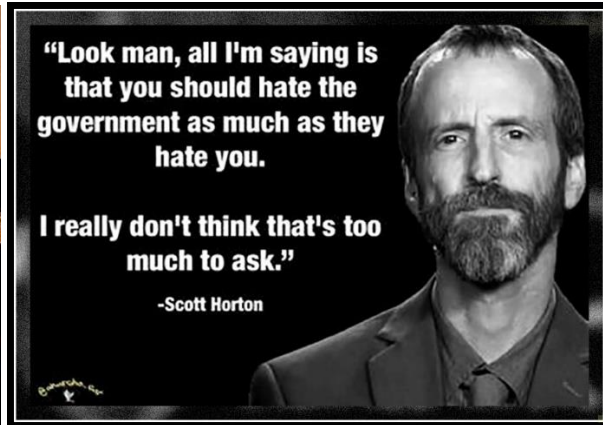

~ *Matilda Joslyn Gage*

Cost Accounting Is, Possibly as good a way as any for detecting FWA, once it occurs. Detecting FWA plots and stopping them in their tracks is inherently difficult. While much-anticipated Artificial Intelligence (AI) may refine accounting procedures and increase accuracy, conspiracies are not accounted for in their fertilization. Cost controls, if strictly observed, could help as prevention tools.

"The dignity of man is in free choice."

People Prepared To Live In Liberty do not allow legislators – or other public officials within These United States of America, to infringe upon Americans’ 1st Amendment rights or other Bill-of-Rights protections; nor do they allow blame for another person’s behavior to be ascribed to their freedom to exercise their rights. What The Grievances!

THESE are always the times that try men's souls...

Perhaps we do not think of ourselves or others as Thomas Paine's "summer soldiers and sunshine patriots," but we must admit to our own apathy regarding our governance. We've

allowed those in power to gain power over us and now our Liberty has been chiseled away. James Madison stated, ***“The truth is that all men having power ought to be mistrusted.”***

Americans have known for a long time that something is wrong in our nation. We brag of freedom but we live in government servitude!

Oh, that it was only just a Stamp Act!

In many ways, we ourselves are to blame. Little by little we have accepted government assistance here and there, subsidies, mandates, permits, restrictions, inspections, grants, licenses for this or for that, and in doing so, we have become a dependent people, no longer sovereign but owned and dependent on our own government. Government, of any kind, cannot give the citizens anything unless it first takes it away from the citizens. **We the People**, in our apathy, are no better than those worthless soldiers mentioned by Thomas Paine.

I believe it is not only beneficial that we look at our **Declaration of Independence**, it is our duty to educate ourselves and understand what their “grievances” were, then compare them to today.

I’m just a simple layman, reading, studying and pondering the words of our Founding Fathers. This is not some OLD document to be enshrined, it is a current reminder of our beginning as a nation and our responsibility to be active and mindful members (**consent of the governed**) of our current government, which by all rights and means belongs to **We the People**.

In my Substack articles this week, we will review the 27 Grievances of **The Declaration of Independence**. As we review each of these, ask yourself, “What would be your grievance list for today?”

As the Founding Fathers began their list of grievances they wrote:

Such has been the patient sufferance of these Colonies; and such is now the necessity which constrains them to alter their former Systems of Government. The history of the

present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States.

To prove this, let Facts be submitted to a candid world.

Grievance #1

He has refused his Assent to Laws, the most wholesome and necessary for the public good.

Grievance #2

He has forbidden his Governors to pass Laws of immediate and pressing importance, unless suspended in their operation till his Assent should be obtained; and when so suspended, he has utterly neglected to attend to them.

Grievance #3

He has refused to pass other Laws for the accommodation of large districts of people, unless those people would relinquish the right of Representation in the Legislature, a right inestimable to them and formidable to tyrants only.

Grievance #4

He has called together legislative bodies at places unusual, uncomfortable, and distant from the depository of their public Records, for the sole purpose of fatiguing them into compliance with his measures.

Grievance #5

He has dissolved Representative Houses repeatedly, for opposing with manly firmness his invasions on the rights of the people.

In the grievances referring to laws: There remain many in leadership of certain cities and states who refuse to enforce the laws and protect their citizens. Immigration is the

simplest example. On the federal level, Congress (the Legislative body) makes and passes all such laws. It is up to the President (Executive branch) to enforce these laws.

The Biden-Harris administration allowed millions of illegal immigrants to cross our borders and remain here totally and completely unvetted. For reasons unknown to most, the Biden-Harris administration intentionally allowed human trafficking, drug trafficking, gangs of a violent nature, sex trafficking and even foreign enemies to enter our nation. We have governors of certain states declaring sanctuary and we have mayors of certain cities doing the same. They are all breaking federal laws and defying the Constitution of the United States of America!

We have in many cities and states, prosecutors, judges and attorneys general not following the laws that are written. In many cases they implemented a “no-bail policy” even for the most violent criminals; rape, murder, robbery and assault are now of pandemic proportions, leaving citizens vulnerable and unsafe in their own homes.

Vagrant laws are not enforced, the homeless have taken over many areas of the cities. They defecate in public, they shoot up drugs in public, they block places of business and they are parked outside public school areas.

Grievance #6

He has refused for a long time, after such Dissolutions, to cause others to be elected; whereby the Legislative Powers, incapable of Annihilation, have returned to the People at large for their exercise; the State remaining in the meantime exposed to all the Dangers of invasion from without, and convulsions within.

The king removed the local government established by the colonists. The king’s dissolution of the government prevented the correction of economic problems and left the colonies open for invasion. Rule of law was not a priority of the king, for sure! This removed government structure and left the colonies in chaos.

We have cities in America today that are in utter chaos. Perhaps there is no king removing local laws, but many mayors and prosecutors refuse to enforce law and order, leaving Americans vulnerable. The number of homeless now living on the streets in American cities has risen exponentially. Homelessness encompasses many facets of people which also includes drug addicts and those who suffer from mental illnesses: they need help! For mayors, council members and prosecutors to ignore this problem, is destroying the cities, obstructing businesses and again, placing citizens in danger.

Dangers of invasion from without, and convulsions within.

In taking over the colonists' established local government, the king, as stated in the first part of this grievance, made sure that he was the only power and government that the colonists had. He was not going to give up his kingship over the colonies.

During the 2020 election the Democrat Party changed election laws and manipulated districts in order to keep power. The 2020 election was a total fiasco of corruption. We are now learning some of the truth regarding outside influences as well as shenanigans of the Democrat Party. In 2022 the Republican Party assisted the democrats by refusing to recognize the primary choices of citizens in certain states; denying the candidates financial support from the GOP and also denied them party endorsements. Those new candidates were left out cold to drown in the political waters. Honest elections have been denied to **We the People**.

Grievance #7

He has endeavoured to prevent the population of these States; for that purpose obstruction the Laws of Naturalization of Foreigners; refusing to pass others to encourage their migrations hither, and raising the conditions of new Appropriations of the Lands.

This is the opposite problem that we face today. As a new and growing land, the colonists welcomed and encouraged new people into their new land, but the king stopped the colonists from being able to attract new settlers to the colonies, closing down travel; not even family members were allowed. He was concerned about the growing power of the

colonies and the popularity of republican ideals among immigrants. In fact, after the restrictions of the peace settlement of 1763, very few people settled west of the Alleghenies; immigration nearly ceased until the time of the revolution.

(What was the peace settlement of 1763? The Treaty of Paris of 1763 ended the French and Indian War/Seven Years' War between Great Britain and France, as well as their respective allies. In the terms of the treaty, France gave up all its territories in mainland North America, effectively ending any foreign military threat to the British colonies there.)

Wikipedia

The Biden-Harris administration ignored our federal immigration laws and intentionally overwhelmed the citizenry of this nation. The influx of illegal immigrants today has not only increased crime in our communities, but has also placed a burden on our economic system, education system, health system, employment, and on housing and property.

Removing our sovereign borders is denying the United States of America's rights as a legitimate nation. It isn't that **We the People** do not want to allow others to enter our nation, we do however, hold the right to vet such strangers and make sure America is being increased with good and honest people and families that actually want to be Americans. At this time, we have thousands of foreign enemies who illegally entered our nation and disappeared into the population; enemies from countries such as Afghanistan, China, Russia, Sudan, Iraq, and Iran to name a few.

Leaders of other nations agreed with the Biden-Harris administration to release into this nation some of their vilest and most ruthless people. They emptied their prisons and their institutions housing the criminally insane into our country. The Biden administration made sure these heinous criminals made their way into the interior of America.

Going back to the words of Grievance 6... causing, **“dangers of invasions from without, and convulsions from within.”**

The administration of President Donald J. Trump has taken on the task of finding these illegal alien criminals and deporting them back to where they came from. They are doing a fantastic job, but the Biden-Harris administration allowed millions of illegals to invade our

nation. The current administration has also been dealing with unelected rogue federal judges attempting to obstruct any efforts of this administration to follow the federal immigration laws.

“Sometimes it is said that man cannot be trusted with the government of himself. Can he, then be trusted with the government of others? Or have we found angels in the form of kings to govern him? Let history answer this question.” Thomas Jefferson

I find it extremely interesting that after nearly 250 years, **We the People** have once again become oppressed by a totalitarian government. This time it isn't just one king, it is a legion, an oligarchy! In today's modern-day America, the elected rely on the unelected: As far as I'm concerned, if we are to be ruled by a bureaucracy of the unelected, we are then under an authoritarian oligarchy, for which **We the People** have no control.

Restoring our Republic will not be easy, it will take much prayer, wisdom and action. We must learn from the past, then seek, and work, for a better future! **For Our Posterity**, we must **Bring America Home**©.

8 year old me realizing my shadow will never see the sun

“We, the American People,” if we subscribe to musings of a media article on America’s Supreme Court of the United States (SCOTUS) returning America to horrors of Dredd Scott, are intellectually irredeemable. Article writers, in effect, condemn SCOTUS ruling on ‘universal injunctions’ (UI). SCOTUS found court opinions can’t be applied ipso facto as a basis for rulings in other courts.

"There is no distinctly native American criminal class save Congress."

~ *Mark Twain*

How SCOTUS (Any Court) Authority is legitimized is far from clear. If not from a legal theory point of view, certainly from an enforcement point of view. Opinions matter all but not at all. Enforcement determines if court opinions have any bearing on “Our, the American People” lives. Because America’s three, co-equal branch governmental system leaves finality up for grabs. And, permanency is inviable.

"Each must for himself alone decide what is right and what is wrong, and which course is patriotic and which isn't."

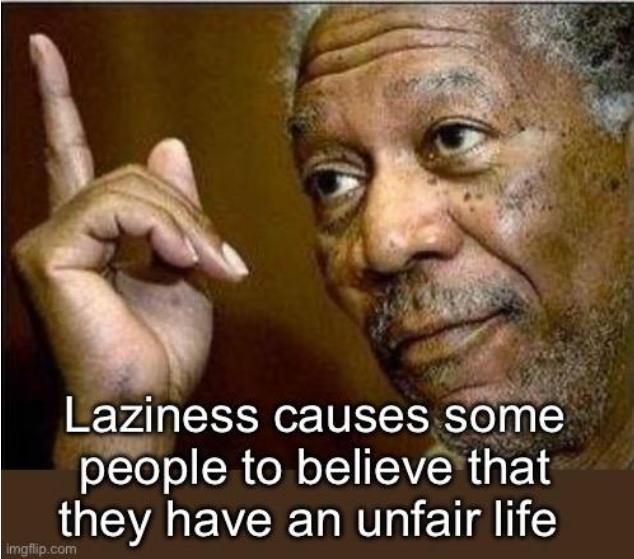

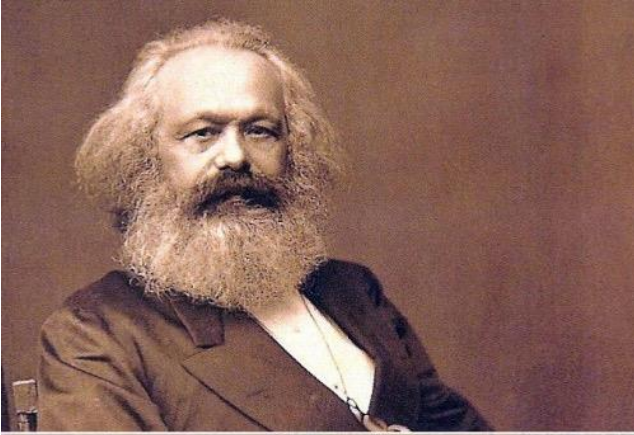

~ *Mark Twain*

It Would Be Smart for “Us, the American People” to not lose sight of America’s jurisprudence system frailty. America’s courts make pronouncements on docket cases regularly. Pronouncements mean little if cases pronounced upon are taken through America’s appellate system =- where courts get to decide if court pronouncements mean anything other than pronouncements. SCOTUS no e4xception.

"Man was born into barbarism when killing his fellow man was a normal condition of existence. He became endowed with a conscience."

~ *Martin Luther King, Jr.*

America's SCOTUS Can Be Thought of as never-ending appellate court deliberation. There is nothing to stop a sitting SCOTUS from overturning previously sitting SCOTUS pronouncements. Nor, is there anything to stop a sitting SCOTUS from reversing itself. Such are vicissitudes of justice as prompted by societal norms. Justice defined by positional authority in three, coequal branches. Enigmatic.

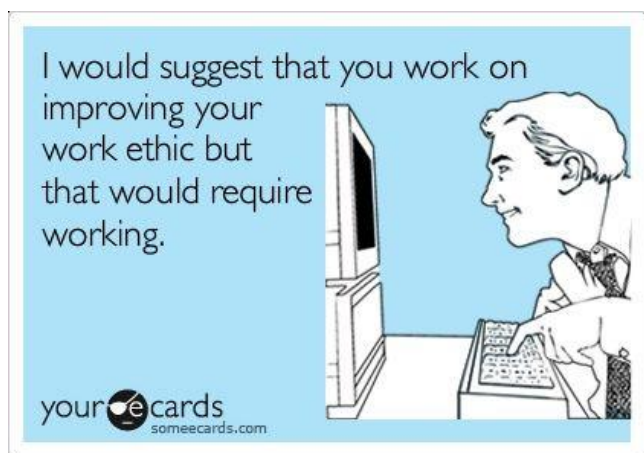

"I mourn the loss of thousands of precious lives, but I will not rejoice in the death of one, not even an enemy."

~ ***Martin Luther King, Jr.***
