“The great virtue of a free market system is that it does not care what color people are; it does not care what their religion is; it only cares whether they can produce something you want to buy. It is the most effective system we have discovered to enable people who hate one another to deal with one another and help one another.”

~ *Milton Friedman*

Government Lawful Authority To Take Action does not mean whatever government intended acting on will exist when government decides to take action. 'Tax-the-rich' media coverage reveals how uncertain societal results can be when government acts. "We, the American People" would be smart to take note government can not tax something if it does not exist, no matter who might have owned it.

"The best government is the one that charges you the least blackmail for leaving you alone."

~ *Thomas Rudmose-Brown*

It Would Be Smart For "Us, the American People" to keep in mind it is not human nature for anyone to surrender their property (wealth) or forego their choice (Liberty) for no reason other than government writes

laws confiscating property (wealth) or restricting choice (Liberty). It is human nature to resist aggression. It is not, however, universal human nature to react against aggression with proactive force.

“If you think health care is expensive now, wait until you see what it costs when it’s free.”

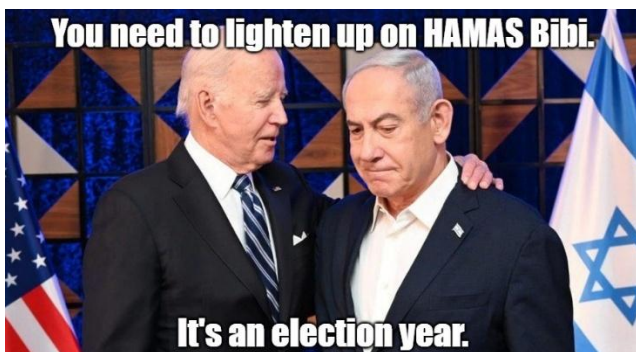

~ *P.J. O’Rourke*

Laws Are Not Justifiably Right because they are laws. Nor, are laws right because they have enforcement might. “We are a nation of laws,” ostensibly, means laws shall affect everyone equally to ensure government officials have power to act arbitrarily – to make their personal attitudes, values, and beliefs (PAVB lawfully compulsory. In reality America’s government is PAVB-based. Ironically so.

“The Government is like a baby’s alimentary canal, with a happy appetite at one end and no responsibility at the other.”

~ *Ronald Reagan*

“Our, the American People’s” laws are, in reality, little more than PAVB made lawfully compulsory. Our laws amount to ideas specifying acceptable behavior in eyes of legislatures and courts. Our government executive branches are lawfully obligated and authorized to impose laws with force. We, if we expect to exist as a free society, stand to forego freedom by conceding our citizen sovereignty.

“Americans have the right and advantage of being armed – unlike the citizens of other countries whose governments are afraid to trust the people with arms.”

~ *James Madison*

People Intending To Live In Liberty do not allow legislators – or other public officials within These United States of America, to enact legislation or regulations without majority approval of voters. They uphold Americans’ self-governing heritage.

"Our, the American People's" Legislative-judicial system is self-corrective. In a manner of speaking. The Real News Is...

Not that China interfered but that our own media and elected officials aided and abetted the interference.

BETH ANN

7-17-2026

As most of you are now aware, the President of the United States released files with evidence of foreign nations substantially interfering in our elections, in particular, the nation of China. We aren't talking about just one election but several years and several elections. What he didn't say was whether it changed the outcome of elections, however I think most of us, who have been paying attention are fairly certain that in some cases, the interference did change the outcome. Regardless of whether it did or did not change an election outcome, does not make the interference any less a crime.

We have long suspected that China has been interfering in our elections. It was the election year of 2020 which brought COVID to the world from China! Our media refused to acknowledge that COVID was a China virus because...? Well perhaps we're about to figure out just how closely connected America's media and an American political party are to China.

However, while the evidence of China interfering in our elections is there and should be taken very seriously, the real news last night... was maybe not as obvious to some Americans.

Upgrade to paid

The Real News!

The mainstream medias (who pay nothing, unlike cable news networks who do have to pay for their broadcasting time)... refused to air the President's address to the nation! To air something as important as an address to the nation by our President, should not be their choice... it is their job and obligation.

The President's address to the nation was on time and only 24 minutes in length. However, **ABC**, **NBC**, and **CNN** did not carry the full, uninterrupted live 24-minute broadcast, at least not on their primary linear television networks... the ones which are licensed are obligated to carry truth and news to the nation. Instead, they made different coverage choices: **ABC** and **NBC** opted to air the speech exclusively on their free streaming platforms, where their audience is quite minimal. **ABC News Live** and **NBC News Now** used their streaming rather than interrupt their regular network programming. Their regular network programming was too important to be interrupted by the President of the United States with a message to the nation; they did not have 24 minutes to spare.

CNN declined to take the speech live, choosing instead to monitor the event, feature clips, and provide on-air analysis and factchecking... *because clipping and snipping is what they do best!*

MSNBC (MS NOW) aired a portion of the speech but cut away early to *unpack* the remarks. **CBS News** carried a portion of the speech live, but then cut away to fact-check the President's claims. Remember, these folks really know how to fact check; remember the debates?

Fox News and the Fox broadcast network were among the few outlets to air the speech in its entirety. I also noticed FOX News continued with the comedic show of Gutfeld instead of continuing with the news just released by the President of the United States. Remember, FOX News was one of the first to declare Arizona in 2020... *"just sayin."*

Newsmax carried the President's address to the nation in its entirety, LIVE. After which, they began downloading the released files and quickly trying to share them with their audience. I have to

chuckle because the files are heavily redacted...to protect the innocent? I'm certain they contain names but also foreign intelligence we do not want folks in China and other foreign nations to see.

Upgrade to paid

The real news...

Once again, the networks decided to censor the news you should hear from the President of the United States. Just like they refused to cover the Hunter Biden Laptop and hide the evidence of horrific crimes there, they withheld COVID information and lied about the vaccines, the masks and the 6-foot distancing, they helped promote the locking down of America. With all the lies and coverups in their past, we are not surprised, but Americans do deserve justice.

The real news is that in these files there is proof that certain media "journalists" took money from China or others in order to gaslight Americans and slant the news in the favor of the democrats. The real news is not that China interfered but that American media, politicians and bureaucrats aided and abetted in the obstruction of truth regarding America's elections.

The real news is that certain deep state operatives hid the evidence, buried the concerns from whistleblowers, and made sure the President did not receive briefings that contained such information.

The real news is that a president (Obama) ordered evidence to be burned and destroyed so that nobody would ever know what happened in the American elections of 2016, 2018 and 2020!

The real news is not just that an election (or elections) might have been stolen or manipulated, the real news is that there are many, who we should be able to trust, that collaborated with our enemies, chose biased reporting over truth and stabbed the American people in the back.

To help an enemy interfere in our elections is nothing short of treason!

The real news is that the medias refuse to give you the truth! They are already misreporting and denying the legitimacy of the declassified classified files. Perhaps they can have **51 once highly ranked CIA and FBI operatives** sign a paper assuring all of us these declassified classified documents are Russian disinformation.

Upgrade to paid

The real news? Our medias CBS, NBC and ABC, are communist news outlets and they'd rather protect China than protect and safeguard American elections and the American people.

Justice for the People would be the immediate revoking of their broadcast licenses; they should have to pay to give their opinions just like the rest of us. Not that I think America needs another cable news outlet, but America does need truth, and Americans need to see justice!

The real news isn't that these people (including many democrats, and more than likely a few republicans) deceived President Trump...**the real news** is their crimes against **We the People**. Whether you voted for President Trump or not, if you have national media networks in bed with China and manipulating elections, you too should be angry!

The real news would appear to be, that many in this nation, media, elected officials, bureaucrats, the Biden and Obama administrations sold us out to China! We should also wonder about the Bush administrations, since they all hate President Trump so much! It isn't just because they were insulted... they are globalists and globalists are world-wide communists; "The New World Order" is how Herbert Walker Bush put it. They believe themselves to be elites and privileged. I see them as people of trashy character, nothing more than scum and thugs in nice suits.

Justice! **We the People** need to see heads roll, mass firings, indictments, people being hauled off to jail and others deported. The guilty owe Americans a lot! The only way to keep this from happening again, is to make an example of those who orchestrated these horrific acts against our American elections.

So let me just throw out a question. If a sitting president tries to fenagle an election, can he be indicted and imprisoned or should he simply be deported? Obama not only knew, but now we find out he gave orders to burn and destroy evidence. For whatever reason, the burn never happened; perhaps that was a God thing, to help Americans wake up and realize... that yes, there was an insurrection and it was not January 6, 2021 by a red-white-and blue crowd carrying American flags into the "People's House."

President Trump asked us last night to call our senators and tell them our desire, as their constituent, is that they should pass the **SAVE AMERICA ACT**.

The DC switchboard is 202-224-3121.

Upgrade to paid

The real news last night, was not that China interfered but that our own media and elected officials aided and abetted the interference. WHY? Well, perhaps we should follow the money and those who are demanding power not be separated, but accumulated in one political party! The Democrat-socialist-China party!

Sounds like communism to me!

Wake up America!

November's election is vital! Right now they are plotting to destroy America, vowing more attacks on President Trump, as well as his cabinet members and families. Is that what you want America? If you stay home because you're upset about the Iran Conflict (none of us like it a lot but it is necessary in my opinion...) None of us like the higher gas prices but they are still lower than during Biden years, and inflation is lower too. Nothing is where we'd like it to be, but voting in enemies of our president, is a really dumb thing to do!

We elected President Trump, now we must protect him and our nation from the democrat-communist-Marxist-Chinese Party and the republican elite RINOs.

In November we must vote against every democrat candidate... *Cuz one or two elections ain't gonna be enough*

Eternal vigilance is the price of Liberty
