When One Is Grasping At Ways to discredit one's adversary, making racist accusations is always an incendiary fallback. Can work really well when nothing else does. A Japanese politician, for example, could label a Japanese politician racist even if accused Japanese politician is visiting harsh behavior on Japanese people. Racism claims need not be valid, or, meet lexicon definition; they need only work.

~ *Vance Packard*

"We, the American People's" President Donald J. Trump and GOP members at large are accused, according to media reports, of blatant attacks on diversity. Accusation comes from a Congressional minority legislator, who, in making accusation, claimed GOP members " . . . would throw me back in chains." Said legislator asserted commitment to doing "what's right" every single day at work.

"When there's a single thief, it's robbery. When there are a thousand thieves, it's taxation."

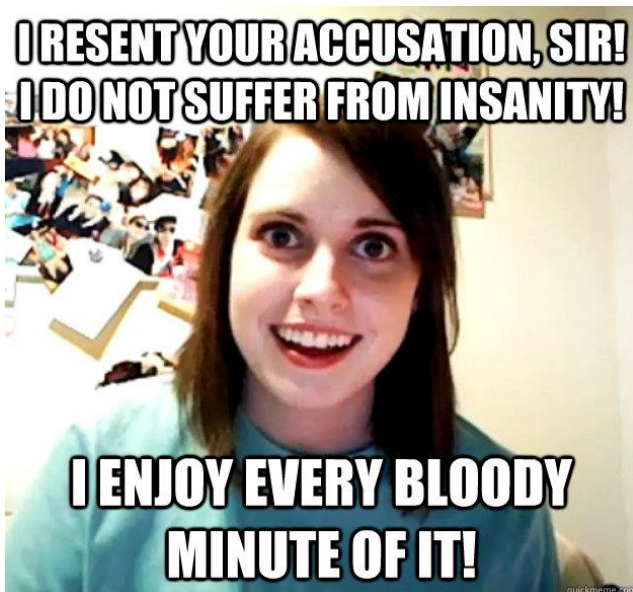

~ Vanya Cohen

Congressional Minority Legislator Categorically asserted President Donald J. Trump a white supremacist backed by white supremacists. Further, said legislator maintained President Donald J.'s attacks on diversity are positively illegal. President Donald J. Trump's Administration has faced steady litigation in "Our, the American People's" courts from activist groups standing against policies.

There's Not Much Evidence Of Record to show "Us, the American People" we will see relief from individuals, groups, legislators, academics, strategists, malcontents looking for ways to have American society succumb to their ideas of how America ought run. No election results have ever quieted politically discontent people. Nor will. Law, applied to socio-economic discord, underwrites discord.

Lots (Millions) Of “Us, the American People” who were Trump-voters will start suffering *Election Remorse* because, according to a media writer, medical debt will cause us lower credit scores, thus, higher interest costs when we go applying for loans. President Donald J. Trump’s predecessor Administration had seen to it medical debt would be excluded when calculating credit scores. Clever.

"We, the American People" would be smart to recognize, acknowledge, and come down hard on government corrupting socio-economic reality. Government decreeing medical debt will not be used to calculate credit scores does not erase medical service cost. Somebody always pays. Lenders incur capital lending costs. Medical services incur costs of providing services. Somebody always pays.

"Give me four years to teach the children and the seed I have sown will never be uprooted."

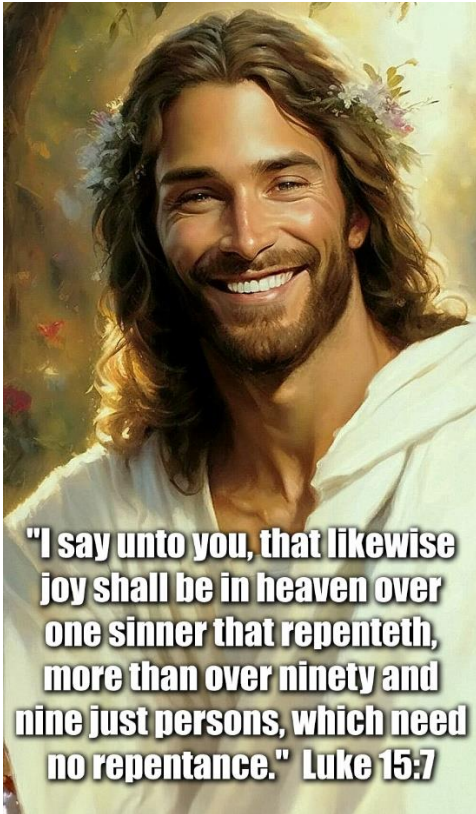

~ *Vladimir Lenin*

When Government Decides Debt, of any kind, shall not affect someone's credit score, such debt will still affect cost of service. One way or other, government reducing cost of debt to one person means other people will have to cover such loss by seeing their price of goods and services go up. Even tax reduction options do not wipe out cost of debt – to someone. Government cost doesn't go down.

Government Expenses Are Paid, no matter how government accountants shuffle revenue shares, by taxpayers. Governments can't alter credit ratings for their debt, no matter how they might tell credit companies to not include medical debt when calculating credit scores. We're nuts to think government – including President Donald J. Trump can – can lower some people's cost, and not raise other people's.

“We are not afraid to follow truth wherever it may lead, not to tolerate any error so long as reason is left FREE to combat it.” George Washington

Have you noticed that *Breaking News* is not just daily but hourly these days!

Was it really a surprise to anyone that within the documents released by National Intelligence Secretary Tulsi Gabbard that Hillary Clinton is a psychopath? (This might explain her carrying “hot sauce” in her purse.) All America watched her on the campaign trail and then we watched how she was unable to handle losing; the “wannabe leader of the free world” couldn’t even bring herself to speak before all those who sacrificed to support her campaign. She was never-ever presidential material.

The documents released gave America evidence that President Barack Hussein Obama orchestrated a soft coup against the incoming President, Donald J.

Trump. This cost the American people millions of dollars, Trump and his family paid millions of dollars in lawyer fees, and it also cost them a lot of lost time and anguish.

To read all that was revealed in the DNI documents click here:

I was dumbfounded when former Representative Jason Chavez, now a FOX contributor, stated he was shocked and angry to hear (to know) that former President Obama was the orchestrator of the Russia-Russia hoax against President Trump. Seriously Jason? It was in 2016, that then Representative Devin Nunes broke this story and warned President Trump of what was happening with the Russia-Russia hoax.

There are those now calling for a Special Counsel to investigate these newly revealed accusations pointing to former president Obama as the leading ringleader of the Russia-Russia Hoax. However, I say that a Special Counsel is not necessary! Special Counsels have proven to be extremely time consuming, costly and fruitless. The only ones who benefit are the lawyers; justice and truth never prevail via a Special Counsel.

Besides, what's left to investigate? We wasted time and money on two bogus Special Counsels already. Both found no evidence of Russia-Russia Collusion and one divulged that Psycho Hillary Clinton actually concocted and paid for the **Fake** "Russian Dossier." However, they did not see the need to hold Hillary accountable. Justice was lost and money was thrown to the wind of corruption!

National Intelligence Secretary Tulsi Gabbard released the documents. The DOJ now needs only to compile the evidence and get on with the multiple arrests and indictments.

Perhaps we still have more questions than answers.

Perhaps we've been gaslighted so heavily that **We the People** are now asphyxiated and gasping for truth!

Americans long for a governance that is truly *"Of the People, By the People and For the People."* But then, I believe that will be up to **"We the People."**

The release of these documents is a gift of truth to the American people. Will we be like the famous line from a movie; "You can't handle the truth!" or will we be the persona of the quote from George Washington? ***"We are not afraid to follow truth wherever it may lead..."***

The Constitution of the United States is a document written in simple language; it isn't difficult to understand. Are we in a Constitutional Crisis?

What is a Constitutional Crisis?

(This is an AI overview of a Constitutional Crisis)

A constitutional crisis arises when there's a serious conflict between branches of government, or when one branch significantly violates the constitution, leading to a breakdown in the system of governance. It often involves one branch **refusing to acknowledge the authority of another or failing to uphold the established constitutional norms**. This can manifest as a disagreement over the interpretation of the constitution, or as a direct challenge to the balance of power.

If hiding a president's cognitive decline is not a Constitutional Crisis, then what is?

If an outgoing president framing an incoming president isn't a Constitutional Crisis, then what is?

If a sitting president opening up borders and flooding the nation (by unlawful act) is not a Constitutional Crisis, then what is?

If fraudulent measures were taken to steal an election and that's not a Constitutional Crisis, then what is?

If unelected district judges obstructing and micromanaging an elected President of the United States is not a Constitutional Crisis, then what is?

If one party, in unity, constantly voting against a sitting president, or walking out and refusing their duty to vote, isn't a Constitutional Crisis, then what is?

Many believe the measures put in motion by former President Obama in order to "frame" President Trump and obstruct his administration, is a treasonous act.

What is treason?

According to the U.S. Constitution

Article III, Section 3, Clause 1:

Treason against the United States, shall consist only in levying War against them, or in adhering to their Enemies, giving them Aid and Comfort. No Person shall be convicted of Treason unless on the testimony of two Witnesses to the same overt Act, or on Confession in open Court.

Is there an Article, Section or Clause within our United States Constitution that allows one administration in power to "go after" the incoming administration, as enacting a soft coup? **What is a soft coup?**

A "soft coup," also known as a "silent coup" or "bloodless coup," is an illegal overthrow of a government achieved without the use of force or violence. Instead of overt military action, it involves more subtle methods like manipulating institutions, exploiting legal loopholes, or spreading misinformation to undermine the existing government. Essentially, it's a coup

without the bloodshed or direct confrontation usually associated with a traditional **coup d' état**.

It was a **Coup d' Crapé on You America!** What was done to “stop Trump” was actually an act against the American People.

Because there was no blood shed and no war, the experts say there was no Treason – I beg to differ with them.

Like sands through the hourglass, so are the days of our lives... in America!

The corruption and scandals that plague our government institutions are real life soap operas, complete with texting lovers from the FBI. Our elected officials and their bureaucrat accomplices continue to skim money from the treasury and launder money through NGOs. Great crimes have been perpetrated against our Constitution and against **We the People**.

Why is it a crime to lie to Congress but not a crime for Congress or politicians to lie to **We the People** and thief our money?

The Truth we've been given is a gift. If we are to remove the corruption from our government, it must begin now; not with long-drawn-out expensive Special Counsels that seem to protect the guilty and skirt justice. Our own DOJ must seek justice for the American people... if this truth does not result in justice being served, then the American Crisis will continue, and America will cease to be FREE!

Be not afraid to follow truth wherever it may lead...

Those Of "Us, the American People" who think for a microsecond court decisions apply to everyone equally dumber than proverbial rocks. Long odds are court decisions apply only to those people who do not think like us. Media report President Donald J. Trump and former President Barack Obama are exchanging hostile witticisms related to America's Supreme Court of the United States (SCOTUS).

"No government has ever commanded the resources at the disposal of our ungodly Leviathan, which consumes about 25 percent of the product of the world's richest country."

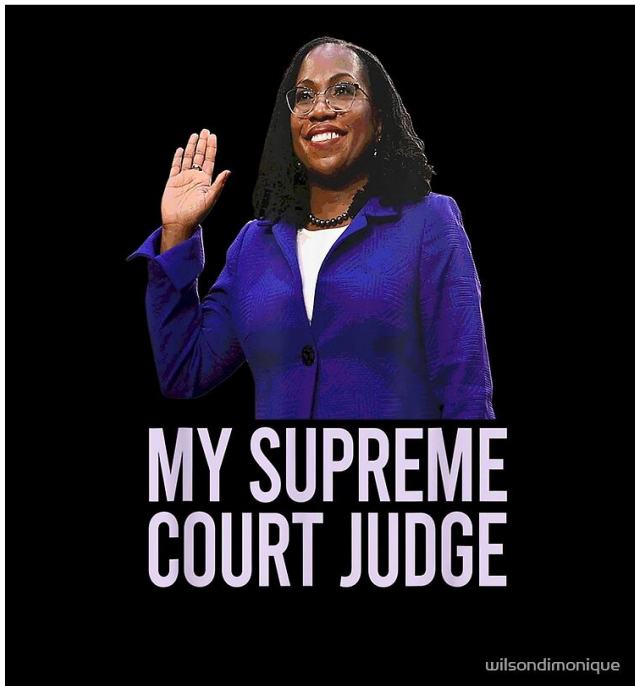

~ ***Tom Bethel***

Verbal President-Versus-Vice President public tête-à-tête between President Donald J. Trump and former President Barack Obama center on presidential immunity as it could apply to Election 2016 interference. Point of argument amounts to whoever, as President, was involved, however they might have been, would have been within law, given SCOTUS pronounces official presidential behavior OK.

"If you think we are free today, you know nothing about tyranny and even less about freedom."

~ **Tom Braun**

"We, the American People," depending on predisposed views of whoever happens to bed down at 1600 Pennsylvania Avenue, are likely to find Trump off his rocker, Obama not, or Obama off his rocker, Trump not. Because, when politics enters discord, reason and objectivity are squeezed out. Politics is obsessed with a solitary objective – lawful power over ideological adversary. Justice defined by clout.

"Switzerland is a land where crime is virtually unknown, yet most Swiss males are required by law to keep in their homes what amounts to a portable, personal machine gun."

~ *Tom Clancy*

"Our, the American People's" SCOTUS, for now, has it sitting presidents are not to be prosecuted for acts determined to be within their Constitutional authority and duty to dispatch and uphold. Such being so, our societal diversity has no forum for resolving or reconciling socio-economic matters not seen as even-handed. Trump fans will close ranks behind Trump. Obana fans behind Obana. Reason vacated.
