"Yet the State syndicate manages to impose its own 'protection,' and to collect from Peter, with nary a single eyebrow being raised against it."

~ *Murray Rothbard*

"We, the American People" may never see an end to America's federal (U.S./National) Constitution 2nd Amendment squabble. Taking an information-0gathering cruise around 2nd Amendment references,

inquiring minds will come upon multifarious discussions on finer debate points focused on getting at exactly how America's 2nd Amendment was/is intended to determine one's right to keep and bear arms.

"Never, however, do they so much as hint that the people may have a choice as to whether they wish to retain the state system itself."

~ **Murray Rothbard** -

Arguments Against 'Right' To Keep and bear arms, not uncommonly, centers on trading individual option to have firearms on one's safety, versus one's safety when moving freely. Long and short is, like virtually every Constitutional 'right,' there is no Constitutional 'right' if "Our, the American People's" laws do not articulate such a right, in fact, exists. Constitutionality is subject to interpretation.

"In a country whose legal framework authorizes the government to kidnap, torture and murder them, opponents of U.S. policy must decide whether getting out of line--anything from a letter to the editor to direct action--is worth the risk of getting kidnapped, tortured and murdered."

~ **Ted Rall**

Unequivocal Constitutionality Interpretation does not exist for “Us, the American People” to bring to fore when personal firearm possession is challenged. Legislators, judges, and government chief executives, like it or not, have Constitutional power to decide if Constitutional. In contrast, America’s Constitutions make government answerable to us, a sovereign citizenry, if we decide we are to so be.

"A patriot is a person who loves the land and the people and is loyal to the Constitution."

~ *Charley Reese*

Media Have It Several States are taking legal action against government where personal firearm ownership is constrained or restricted. How plaintiffs will fare in courts where 2nd Amendment protections are up to judicial power (including America’s Supreme Court of the United States (SCOTUS) to decide is near indefensible. SCOT US answer to us, we to SCOTUS. Sovereignty beset.

"There is increased desperation that is palpable among our political and media elites to protect and defend their system."

~ *Glenn Greenwald*

One Of “Our, the American People’s” prominent media outlets circulated an article on a South American high court justice who is quoted as saying, “*We’ll do what’s right: We’ll receive the accusation, analyze the evidence, and who should be convicted shall be convicted, and who should be absolved shall be absolved.*” Curious it is, why a judge would need to reiterate intent to pursue justice.

Jerome Powell Says He Won't Lower Interest Rates Until He Can Be Sure It Won't Help Trump

"We, the American People" would be smart to take pronouncements from legislators, magistrates, and chief government executives with a grain of salt when they declare their fealty to their oaths of office as regards their commitment to do right. 'Right,' as it Applies to government, means to follow its obligation to uphold law - by force. It does not mean law is intrinsically just or right only compulsory.

" Experience, however, shews, that neither a State nor a Bank ever have had the unrestricted power of issuing paper money, without abusing that power: in all States, therefore, the issue of paper money ought to be under some check and control; and none seems so proper for that purpose, as that of

subjecting the issuers of paper money to the obligation of paying their notes, either in gold coin or bullion."

Recorded Law, References Referenced accurate, originated in ancient Mesopotamia. It would be smart for "Us, the American People" to regard recorded law creation as humanity's early attempt to, as President Taft observed, lay down rules of conduct for humanity. We would be similarly smart to bear in mind government lays down rules for others as it fits those in government to lay down such rules.

When I see British citizens mocking the President, I just remember that in 100 years they went from ruling 1/4 of the world to living on an island the size of Michigan.

Government, By And Large, Operates by might is right. November 19, 1863 America's President Abe Lincoln let it be known government for people shall be government by people. America's commonwealth, federal (U.S./National), and state Constitutions, oddly, empower legislators to make laws fitting their personal attitudes, values, and beliefs (PAVB). PAVB are not intrinsically impartial.

They protect their lives and property against “State” intrusion.

I know most of you, at one time or another in your life, have read and studied the Constitution of the United States of America and the Bill of Rights. You have probably also read, studied and celebrated the Declaration of Independence. Knowing that our Founding Fathers actually lived under a king-dictator-tyrant... and knowing they were longing for Liberty, Freedom and Independence, as a nation and a people, it is now vitally important that we understand the original intent of our Founding Documents.

I believe that our Founding Fathers' vision for this nation was something very special, as they believed **We the People** should be allowed to govern ourselves. ***“Consent of the***

Governed.” Our Founding Fathers were also believers in God and believed that our Rights come from Him, not from government.

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.--That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed...

Recently the Director of National Intelligence (DNI) Tulsi Gabbard released numerous documents exposing the truth about “**Russiagate**” exposing former President Obama as the ring leader of a sting operation to frame the incoming President, Donald J. Trump. There were many involved in this years-long coup against President Trump; their original intent was to completely disrupt and cripple his Presidency.

When asked by a reporter as to whether or not Obama will be held accountable, President Trump said that as a past president he has “immunity,” which helps him a lot and probably gets him off the hook; he added, “*Obama owes me big!*” **Which brings to mind and begs the question, can Obama be sued civilly by Donald Trump or his family?** President Trump also explained that Obama’s immunity does not apply to his cohorts; such as James Comey, John Brennan, James Clapper, Hillary Clinton and many others.

Does a president have immunity over treason?

Obviously when Obama, Hillary and the institutions of FBI and CIA “went after Trump,” they were going against their oath to the U.S. Constitution; they were committing crimes against our election process and against **We the People**; after all **We Are** the government! Comey, Brennan and Clapper were always more interested in “protecting” the “institutions,” not our Constitution, not national security and certainly not Americans.

My understanding is that “immunity” is for acts perpetrated while in the official capacity of President. It is also my understanding that these crimes went beyond Obama’s time in office... he was just a “simple civilian” while still leading and orchestrating the attacks on President Donald J. Trump, as well as many of President Trump’s family.

Using a bit of downhome common sense; Obama should have lost immunity protection after January 20, 2017.

Russiagate cost the American People a lot of money; two special councils and millions of dollars. Russiagate wasted the valuable time of Congress, cost many of President Trump's people their jobs and their livelihoods, and now we find it was all for naught and it was all a huge setup and lie; meant to usurp the election and the will of the people.

The LEFT (aka Democrats) call President Trump a fascist. Yet, it is their party, their president (Obama) who refused to let go of power; which leads us up to the 2020 election.

Covid and Blue-State Covid mandates showed all Americans how tyrannical the Democrat Party truly runs. Restrictions, shutdowns, and mandates plagued the nation, especially in democrat run states. They forced vaccinations, mask wearing, 6-foot distancing, no family gatherings, no outings to the great outdoors; Americans were tyrannically deposed! Churches were closed while liquor stores were opened, Mom and Pop shops were closed while mega stores such as Walmart, Cosco and others remained open. It was during these school shutdowns when parents were made aware of the poor teachings and porn teachings in their children's public school.

Desperate to return to power, the Democrat Party concocted a plan to steal the 2020 election.

Covid was convenient and throughout the democrat-run states, ignoring their own state election laws, new election rules were made unconstitutionally. Mail-in ballots for everyone... Literally!

In my opinion:

The democrat party primaried Joe Biden as the most likely to be used for their plans to continue Obama's tyrannical policies to "fundamentally change America's government." (The true insurrection) Using COVID as their reasoning and knowing Biden was declining cognitively, they kept him out of the public limelight as much as possible. Biden campaigned from his basement or in small public groups who submitted to social

distancing by standing in “Hula-hoop” circles, which were strategically set apart. The lamestream media helped them hide the Hunter Biden Laptop story, while continuing the **Russiagate** lie. Then **51 has-beens** from the CIA and other “institutions” signed a fraudulent letter stating that the “laptop from hell” was more Russian propaganda. During the debates, the lamestream media continued to protect Biden and directed their own narrative against President Trump. It was “*the mother of all coups*” perpetrated against the American people and orchestrated by the infamous community organizer, Barack Hussein Obama. Obama could not allow President Trump to “dismantle” his destructive policies against America.

After the fraudulent election (we will not cover January 6 in this article), Biden and Obama’s VP pick Kamala Harris immediately began undoing the positive policies and Executive Orders put in place by President Trump. Biden and Harris opened our nation’s borders and allowed an unprecedented dangerous invasion into our country. Illegal aliens from over 120 countries crossed into our nation, in fact, Bidens administration flew many of them in and even distributed many into the interior of our nation.

The entire Democrat Party have gone “nuclear-Marxist!”

It is, however, a curious thing for which I cannot comprehend; why are so many media outlets anti-American? I think the one thing we need to understand is that the hate directed at President Trump is truly their hate for the American people; you and me! They see us average hard-working-dirt-under-our-finger-nail-productive Americans as trash. However, we are the Americans that make America-America! Those commentators (especially the liars) produce nothing, in fact, they undercut the very fabric of America’s Constitutional Republic.

Marxism cannot survive in a Godly nation or a nation who’s foundation is marinated in truth; for there is no truth within a Marxist, which we can attest by the lying-conniving-corrupt-anti-American-democrats. **“Our Constitution was made for a moral and religious people; it is wholly inadequate to the government of any other.”** John Adams

The original intent of our Founders and our Founding documents was not to allow such tyranny to survive in America, but for Americans to be united for Liberty. While all

Americans will never agree on everything, we should agree on Making and Keeping America Great. Great meaning, clean, safe, healthy, productive, prosperous, free and Independent!

What if Trump deranged anti-Americans actually evacuated this nation?

I am not bothered nor is there any great loss when those who call themselves “anti-Trump” leave America. I actually believe that is part of the original intent and beginning foundation of this nation. What did America lose when Rosie O’Donnell moved to Ireland? There is no hole in Liberty because Ellen DeGeneres and her lesbian lover moved to England. And the only thing America would lose if Jimmy Kimmel went to live in Italy is a lot of obnoxious night-time noise; ***nobody misses the cicadas when they are gone!***

I’m serious about this; we should not allow politicians who do not believe in the Constitutional Republic to serve in any capacity pretending to represent our governing documents when they legislate against them and chip away at our Bill of Rights. The runaway Texas democrats should be FIRED!

Because of the FAR LEFT Marxist agenda of the Democrat Party, the party is no longer representing America or honoring their oath to our Constitutional Republic but are defiant to all things American!

After we won our independence from Brittain:

Loyalists leave America: January 1782

The evacuation of loyalists begins. Largely unwelcome in the new United States, about 100,000 Americans who remained loyal to the crown find new lives in Britain, Canada, and British colonies in the West Indies. Among them are about 15,000 African Americans, some of whom end up helping to found the country of Sierra Leone in Africa. The loyalist experience will have a profound effect on the development of Canada's national identity.

The democrats, the lying media, the screaming celebrities, are ignorant of our Constitutional Republic, it’s documents and they are loyal to a foreign style of governing that simply does not support...

Life – Liberty or the pursuit of Happiness.

They may choose to leave and they will not be missed.

Their disruption and destruction of our Constitutional Republic form of government is not an unintended consequence; they are intentionally dismantling our nation and I say... They can all leave with the illegal aliens and... with loyal American loving patriots left... **We the People** will...

"Our, the American People's" media outlets have circulated sundry articles on commonwealths/states giving thought to doing away with property taxes. Must be troubling to those who see it good and proper for

Government, Given Government Must be, has to have money to operate. Our founding fathers who may have envisioned a government through voluntarism were high on mind-altering drugs of their era.
