“It took about 150 years, starting with a Bill of Rights that reserved to the states and the people all powers not explicitly delegated to the federal government, to produce a Supreme Court willing to rule that growing corn to feed to your own hogs is interstate commerce and can therefore be regulated by Congress.”

~ **David Friedman**

There Is Always A Reason, says Dr. Murray Banks, no matter someone's behavior. Congressional House of Representatives legislator James Clyburn tells "Us, the American People" it is time America's Supreme Court of the United States (SCOTUS) be expanded. Representative Clyburn is on record saying a baker's dozen (13) would be a good number for SCOTUS Justices. To meet Clyburn whim.

"First, God created idiots. That was just for practice. Then He created school boards."

~ *Mark Twain*

One Of Representative Clyburn's reasons for expanding SCOTUS is Clyburn considers SCOTUS Justice Clarence Thomas a turncoat, even though Clyburn supported Thomas when Thomas was a SCOTUS nominee. Clyburn claims Thomas has not met a SCOTUS Justice prospect. Congressional Senate legislator Elizabeth Warren says current SCOTUS makeup threatens American democracy.

"The politician attempts to remedy the evil by increasing the very thing that caused the evil in the first place: legal plunder."

~ *Frédéric Bastiat*

"We, the American People" need no Constitutional Amendment to change SCOTUS makeup. Congressional House and Senate OK, with Presidential signature doth suffice. No stretch to infer Congressional/Presidential concurrence to change SCOTUS makeup would be driven by prospect expanded SCOTUS would render opinions consistent with Congressional/Presidential partisan views.

"Protecting yourself from harm is your responsibility, and you are far less likely to be hurt in a neighborhood of gun-owners than in one of disarmed citizens – even if you don't own a gun yourself."

~ *Harry Browne*

“Our, the American People’s” Legislative-jurisprudence system is dynamic enough without making it more unpredictable by adding SCOTUS Justices. Given Congress has power to decide SCOTUS Justice complement, there is no reason for us to think every president, every Congressional legislator, would, if they could, set SCOTUS Justice complement as they think would bolster their political clout.

“The only thing necessary for evil to triumph is for good men to do nothing.”

Democracy Doesn't Work. Nor Ever. Not according to various articles from media and Internet sources. Just in case "We, the American People" decide we're going to try making democracy work. Democracy can't work. Not mathematically. Not according to Arrow's Impossibility Theorem. In A few words, Arrows' principle offers proof disparity of diversity precludes democratic choice approval.

It Would Be Smart For “Us, the American People” to recognize and acknowledge laws do not make democracy amenable to good government. Given good government is universally accepted as good whether everyone agrees or not. Democracy, applied to government elections, means laws written and passed by election-winning legislators who write and implement laws approved by a voting majority.

“Our, the American People’s” American government system is, while sometimes affectionately referred to as a democracy is, in reality, a representative Constitutional republic governmental form. We vote for government representatives we expect to make laws we’ll find to our acceptance. Winning legislators make laws according to their personal attitudes, values, and beliefs (PAVB). Shadowy.

PAVB-Driven Laws Embody Arrows Impossibility Theorem. Particularly so when applied to government as “We, the American People” are said to live under. Somehow, by some notion, we are supposed to be self-governing. Self-government may be as practically impossible as democracy. It would be folly to think majority-voted elected would not abide by their PAVB in legislative matters.

America's Independence And Liberty Are Hanging In The Balance.

It is up to us to write the "future" history of America!

If our American Constitutional Republic survives this totalitarian regime, what will the future history books record?

George Washington stated, ***"The marvel of all history is the patience with which men and women submit to burdens unnecessarily laid upon them by their government."***

Thomas Sowell, in a more modern verbiage of the same statement put it this way, ***"Historians of the future will have a hard time figuring out how so many organized groups of strident jackasses succeeded in leading us around by the nose and morally intimidating the majority into silence."***

Recently the socialist Governor of California, Gavin Newsom stated in an interview and has posted the following on his Facebook page:

"No president in modern American history has been more effective in two years than President Joe Biden."

A historically low unemployment rate. 12+ million jobs created. More people with health insurance. Massive infrastructure investments across the nation. Strengthened protections for the LGBTQ+ community. Aggressive action to

mitigate climate change. Meaningful gun violence prevention legislation. The list goes on.

*Today, America is facing a threat to our **democracy**. Authoritarian leaders in state after state are dismantling our core freedoms right before our eyes. There's no one better to lead the fight for America than President Joe Biden."*

All these things Gavin states are lies! He rattled off a list without any evidence of truth! Where are these 12+ million new jobs? Investing in infrastructure isn't the same as construction! Climate Change is a hoax crisis and is nothing more than an excuse to control people and land. As far as the LGBTQ+ community, they have not been in grave danger! Biden has gone along and encouraged the gender dysphoria mentally ill and removed the rights of women in their own sports! He has approved and allowed pornography, and the sexual abuse of American children. He has allowed 7-10 million illegal aliens into this nation, placing all Americans in danger; whether identified as the right, the left-woke-doped-democrat, republican or those Americans with no political affiliation, it doesn't matter, Danger is Looming! We have more homeless people than ever on the streets. Where's their healthcare? Where are their newly created jobs? Of course the majority of homeless Americans are in Gavin's state of California!

Yes, they will fight for "American democracy", but they will oppress Americans and ignore the Constitution and deny the Bill of Rights as being important, in fact Joe Biden said they are not "absolute." They seldom if ever use the word Liberty. America is not a democracy it was established as a Constitutional Republic. The Constitution is a contract between **We the People** and our elected officials. President Biden has ignored and broken that contract, violating his oath of office and putting Americans in great danger. Congress too is guilty of violating the contract.

Unemployment is still not where it was pre-Covid! What new jobs have been created? Do more people have health insurance? Is that because he's giving FREE healthcare to millions of illegals now in the country? Let me remind us all,

that forcing people to buy insurance is not making healthcare affordable, it's removing health decisions from the patient and the doctor and putting those decisions regarding your health into the smooth hands of someone sitting behind an office desk in a high-rise insurance building. They aren't so much managing your healthcare as much as they are managing your, (now theirs) money!

When it comes to dismantling freedom the democrat regime, calling Biden their President, are the most abusive against our Constitution.

Headlines like this: **"A 'Serious Violent Incidents' Spike To Highest Recorded Levels In K-12 Public Schools!"** This is happening under Biden's regime, as he continues to divide America with his speeches of hate and racism. He also encourages the mentally ill and the seizing of our children.

Under this Biden regime, Americans are told you have to use different pronouns and if you don't, you can be terminated from your job. We have been forced to go along with their absurd rhetoric of men can be women, and women can be men, but they cannot define a woman. Child molesters are no longer pedophiles but are termed MAPs, *minor attracted persons*. Biden and the "state" have placed our children in great danger and I would say they are attempting to make them slaves. Under Joe Biden, America is now number one in human and sex trafficking!

*"No president in **modern** American history has been more effective in two years than President Joe Biden."*

Perhaps the key word in Gavin's statement is the word **"modern."** What is modern American history? While we cannot blame just Joe Biden, it has been during his presidential term that America has been put on Obama policy steroids. They are in a hurry to destroy America. Perhaps this **modern American** history is the "new" America, fundamentally changed and brought to its knees by haters of America and Americans.

Deep state America is very deep but it is not only inhabited by democrats. I said long ago, President Trump was the first “working” president this nation has seen in a very long time. You see, he wasn’t a part of the “state.” I believe President Reagan tried, but the “state” controlled his governing too, just as they attempted with Trump in his first term. When they realized they couldn’t control and manipulate President Trump, they went after him and they are still going after him.

The state, simply put, is a large, centralized government that is out of control with power. It no longer works for the people but controls and limits their freedoms. If we continue this systematically corrupt form of government, America the land of the free and home of the brave will be buried in history, along with Rome, and we will be seen as another failed nation.

Electing President Trump alone, is not the cure to America’s failing, but it is a start. President Trump cannot “fix” things without the help of many, including you! Four years are not enough to undo all the damage that the “state” has done to our Constitutional Republic. **We the People** must get involved! We must bring in statesmen and stop the “state” from being a corporation for career “politicians.” **America needs statesmen!** America needs active Liberty loving citizens.

Liberty is always in the hands of the people but first it must be a longing and a lust within their (our) hearts.

It is up to us to write the “future” history of America! **Bring America Home©**

One Of “Our, the American People’s” media outlets has an article in circulation focusing on New York City rental housing prices. Said prices are, reportedly, at an all time high, despite efforts by Mayor Zohran Mamdani, who promised, as an election candidate, to make Big Apple housing more affordable ... by lawful order. Economics, surprising as it may be to authoritarians, thumb’s its nose at dictate.

Big Apple Housing Affordability Article in question speculates there is a fundamental reason why New York City rental housing folks are facing high rental prices. Supply and demand. It doesn't take a rocket science degree to figure supply has an advantage where Big Apple rental housing is concerned.
