Big Apple Mayor Zohran Mamdani was elected, in part, at least, according to media, on his promise to bring down Big Apple rental housing prices. Big Apple rental housing prices are, according to media, at all-time highs with no drops in sight. All-time highs. Despite Mayor Zohran Mandami's vow to have some 400,000 lower-priced units available. If you're not God, promises may be moot.

"One evening, when I was yet in my nurse's arms, I wanted to touch the tea urn, which was boiling merrily ... My nurse would have taken me away from the urn, but my mother said "Let him touch it." So I touched it – and that was my first lesson in the meaning of liberty."

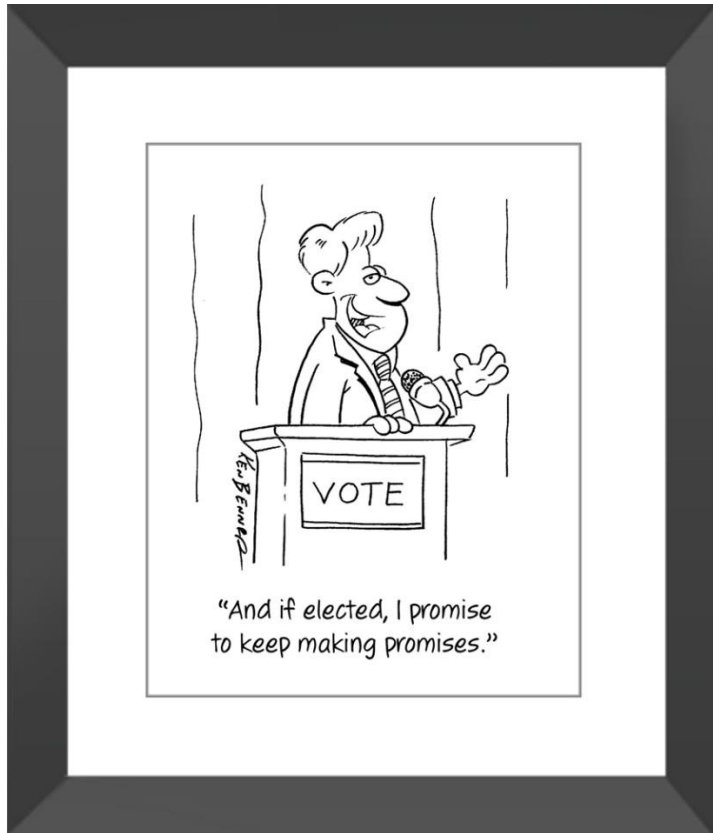

~ **John Ruskin**

"We, the American People" are fools to think public officials can make things happen because they say they will make things happen. Mayor Mamdani's promise to lower rental housing costs (to tenants) is no less wishful thinking than any promise public officials make about controlling economic activity. We are destined to be disappointed if we continue to believe government has godlike powers it hasn't.

"There is nothing new in the realization that the Constitution sometimes insulates the criminality of a few in order to protect the privacy of us all."

~ **Antonin Scalia**

Brunt Of Lowering Costs Amounts to reducing quality or significantly increasing demand at lower prices so producers and retailers can keep their income streams adequate to cover costs and still have acceptable profit margins. Those of "Us, the American People" whose means of production or delivery are inadequate to maintain lower price demand may well have to seek alternatives to doing business.

“Our, the American People’s” government officials have a nasty practice of trying to make their personal attitudes, values, and beliefs (PAVB) lawfully compulsory. They have a plan, these enemies of America, and they are executing it in real time!

In a little more than a week, Americans will go to the election booths and cast their votes, choosing their elected officials; city, county, state and federal.

I jotted down some thoughts this weekend, not many but I believe they are powerful; and you might have trouble accepting them, at least one. While I believe it is the tough love we will need to "Bring America Home," it will be highly unpopular.

Before we can establish and strategize a plan, we need to accept, admit or confess the truth of what is happening within our nation, as well as around the globe. There is an insurrection of sorts; actually an out and out takeover and destruction of all well established and once strong and prosperous nations. We don't really see the waving of Palestinian flags in Somalia, Haiti, or Morocco. Come to think of it, we haven't seen such violence and protests in India either; these nations are of no consequence, as they are not powerful enough to object to a "New World Order."

When I refer to globalists, I'm referring to these who believe in an NWO. They believe that one government should reign over the entire world. All nations will submit to this "global governance." There will no longer be any sovereignty of nations, no borders – just one big, happy world! They make it sound like a great utopia, but it is world-wide communism. The

globalists, Marxists and radical Islamists have joined forces to conquer nations. While the elites in the global realm believe they will be in charge when the dust settles, they will have a huge problem; radical Islamists wish to kill them along with the others... for only Islam will be allowed to rule.

Their plan is to riot, but not mostly peacefully. If you look the other way when buildings are burning, young women are being raped and police officers are being viciously attacked, you can claim peacefully, as our estranged media does here in America. Their plan includes lots of rioting, violence, crime and chaos in the pretense of some humanitarian farce, like freeing Palestine (of which there is no such place or race). Riot for a better education, riot for the criminals to be set free... riot for any reason – just cause as much chaos and fear as possible!

Upgrade to paid

Another part of their plan is to steal elections by cooking the voters rolls, allowing illegal aliens, non-citizens, and lots of dead people to vote in America's elections; cheat in whatever way possible. If they are elected, they will begin to rewrite our laws and Constitution; they will destroy the Constitutional Republic and replace it with Marxist-communism. To please their Islamist partners they might outlaw Christianity, execute Jewish Americans and force Islam on **We the People**... Freedom of Religion will no longer exist in America.

If they do not win elections, the rioting will take on a new and more dangerous level of violence. Those few who happen to win elections will be pointing fingers at President Trump's administration and call for his arrest as well as the arrests or assassinations of others in his cabinet. They will use the words illegitimate and unconstitutional as many times as they possibly can. Since they have numerous sleeper cells within our nation, we might very well be victims to a multitude of terrorists attacks nationwide.

The picture I'm painting here is not to make you fearful; it is to make you aware and hopefully call you to action; preparedness. Guard your elections, your communities and your families.

Remember the words of President Ronald Reagan.

“Freedom is never more than one generation away from extinction. We didn’t pass it to our children in the bloodstream. It must be fought for, protected, and handed on for them to do the same, or one day we will spend our sunset years telling our children and our children’s children what it was once like in the United States where men were free.”

So then, what is our plan, America? Will we sit idly by while evil ravages our nation and robs us of our Liberty?

Perhaps we cannot pass Freedom along through our bloodstream... but we can preserve it with our VOTE. We must teach our children early on to love God, Country and family; and in that order!

God is our creator, so He comes first. He is also the giver of our rights and Liberty.

“We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.” (excerpt the Declaration of Independence)

“Now the Lord is that Spirit: and where the Spirit of the Lord is, there is Liberty.” 2
Corinthians 3:17

Country (America) is our home, without a safe and stable *home*, our families will be enslaved, poor and hungry.

“That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed...” (excerpt the Declaration of Independence)

Our plan must include the understanding of every freedom-loving America that our governance is in our hands with each election and each vote that we cast. If you stay

home, you are condemning the future generations to a life of serfhood to a Marxist government.

One election is not enough; it will never be enough! **“Eternal vigilance is the price for Liberty.”** Thomas Jefferson. Again, **“Freedom is just one generation away from extinction...”**

One generation and possibly one election!

I was pondering a lot this weekend. The upcoming midterm election was on my mind and I was also concerned with all the fiery anger we see that seems to be building up to a raging inferno of hate and violence.

Every politician, regardless of their party affiliation, will tell us (again) that this is the most important election ever! I’ve heard those words, I’ve said those words, but maybe that’s because **We the People**, do not take every election as seriously as it should be taken. Maybe it’s because we tend to vote for the “now” that we want – and ignore the possible “unintended consequences” our choices leave hovering over the next generations. Entitlements, free education, government groceries stores; the fantasy utopia of government promises and programs. I have a warning however, when you hear “FREE HEALTHCARE FOR ALL” – you had better duck, because something really nasty is about to hit you!

Elections are not for the candidates.... they’re for Americans: I believe sometimes we have this idea that it’s all about the candidates. But they are truly for and about us, **We the People**. Each candidate, each proposition, bill or Amendment that is on your ballot, should be about LIBERTY! Not free stuff.

Teach our children well. Take control of your children’s education. Prepare them for the wolves that seek to shatter their dreams; and brainwash them into hating home and family. Teach them about the evils of Communism and Marxism – teach them about Godly

principles. Even if you're an atheist, you are aware that laws must be enforced in order to have peace and safety; in our homes and our nation.

Upgrade to paid

It's Time to Bring our families home to God and Country... America.

So our plan to keep America free?

Acknowledge and recognize the reality of the threats here on our homeland.

Exercise your First Amendment Rights.

Have you exercised your first Amendment lately? Our first Amendment is to be utilized not manipulated. Our rights are not just ink on parchment. If we are exercising them, as it was intended for us to do, perhaps we wouldn't be on the precipice of utter destruction; teetering always on the outcome of "the most important election of our lifetime."

Vote for Liberty not for selfish wants

Pray for God's guidance and protection

Petition the government; demand rogue judges be impeached or imprisoned

Take control of your children's education; so they can teach their children and so on and so on.

Demand election integrity; be OCD about it!

There's One More... it will be hard to swallow and more difficult to accept and initiate.

Poland is the only nation that has had zero problems; no fiery protests, no riots or looters, no Palestinian flags waving... WHY? Because they will not allow one enemy into their country. They are protective of their land. That's not selfish, that's patriotically smart!

Any violent protestor – must be removed from the streets – No burning – no looting – no destruction should be tolerated. ZERO! Those are not First Amendment peaceful protests; those are acts of true insurrection and WAR! We must come to the realization America, that the Democrat Party is at war with our Constitutional Republic. It is not President Trump they are attempting to intimidate; it is **We the People!**

The democrats were the party of slavery and they have not changed; it is a conundrum as to why so many of our black Americans are standing with them; maybe because slavery isn't and never has been just about skin color, the slave, or the owner. *Anthony Johnson (a black man) was one of the first slave owners in America. He turned an indentured servant, John Casor, into a slave. His famous 1655 court case is widely cited in discussions about early colonial servitude.* Even though Casor had worked his time and paid off the debt, Johnson convinced the judge that he had to keep Casor for the sake of his own survival. The judge ruled with the slave owner and the indentured servant became the slave. Both men were black.

The Democrat Party was the party that defended slavery in America; they were the Jim Crow party... they were the KKK white robe and hood wearers, and they are still the party of slavery. Communism, Marxism and Islam (especially Islam) believe in and practice slavery. They hate women (biological ones) and they are abusive in every grotesque, oppressive, perverted and violent description of that word.

Upgrade to paid

ONE MORE THING... This is where we separate the Patriots from the Tories.

It is possible, that we will need to purge America of the enemies and the haters of Liberty.

This is the most difficult of all thoughts, and I believe it is significant and necessary to our survival as a free nation

Loyalists leave America: In January 1782 the evacuation of loyalists begins. Largely unwelcome in the new United States, about 100,000 Americans who remained loyal to the crown find new lives in Britain, Canada, and British colonies in the West Indies. Among

them are about 15,000 African Americans, some of whom end up helping to found the country of Sierra Leone in Africa. The loyalist experience will have a profound effect on the development of Canada's national identity.

This Wednesday, October 28, commemorates the honoring of The Statue of Liberty. Chauncey Depew gave a speech 140 years ago, to welcome the Statue of Liberty. He welcomed the poor and persecuted who sought homes and the promise of citizenship. Then he drew a sharp line: **"I will teach them that there is room and brotherhood for all who will support our institutions and aid in our development; but that those who come to disturb our peace and dethrone our laws are aliens and enemies forever."**

If America is to survive as a free and independent nation we must purge! First deport all the illegal and then all that hate this nation; offer them any country of their choice (that is willing to take them in) but they cannot stay in America!

Freedom loving Americans need to stand up and fight! Fight with our VOTE! Utilize and exercise our FIRST Amendment Right. We must consider and practice some tough love... for the survival of our nation and for our children's safety, freedom and Liberty!

It's time to come home America; back to the land of the free, and the home of the brave; Life, Liberty and the pursuit of Happiness, Property and Prosperity...

Article Writer Tells “Us, the American People” billionaire (wealth tax) taxes, historically, don’t work because billionaires leave taxing authorities like Golden State taxing authorities for greener pastures friendlier than Golden State to business owners, investors, and others who have amassed fortunes only to have their fortunes confiscated by government bureaucracies fixated with needless spending.
