Media Report "Our, the American People's" cattle business in dire threat of going out of business. Reports include major processing plants closing doors. A major factor, reportedly, is President Donald J. Trump's policy on beef imports. American consumers could, if American consumers were of a mind, turn beef imports into a losing venture. By buying American grown and processed beef exclusively.

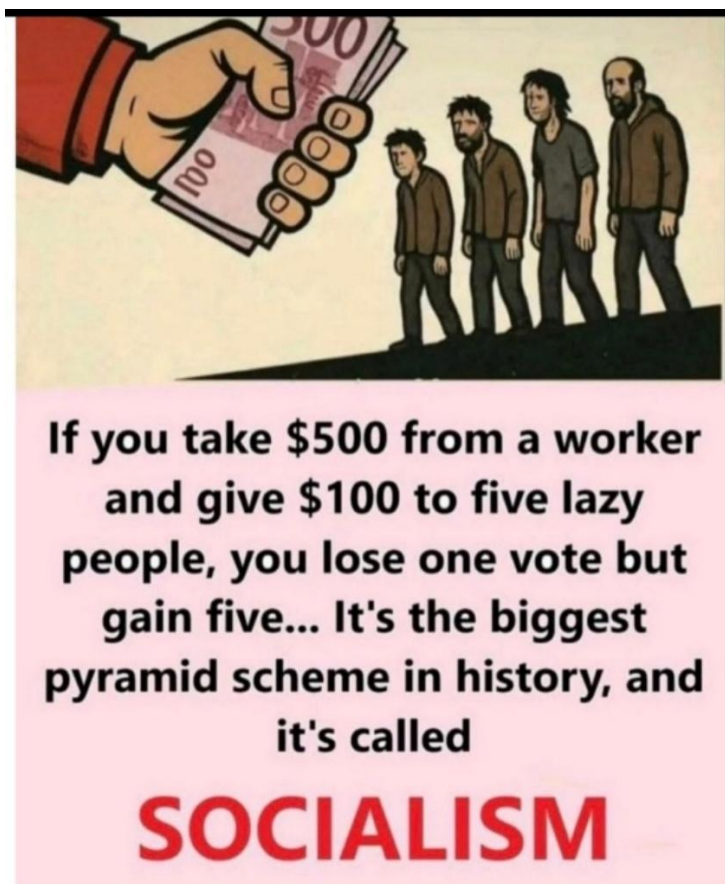

"Among the many misdeeds of the British rule in India, history will look upon the act of depriving a whole nation of arms, as the blackest."

~ ***Mahatma Gandhi***

When Economic Principles Are Concerned, consumers have near total control over business success. "We, the American People" are not likely to ever be free of government attempts to control market commodity availability and prices. Governments are in business to confiscate property (wealth) and restrict choice (Liberty). Political aims are strong among people who seek lawful control over others.

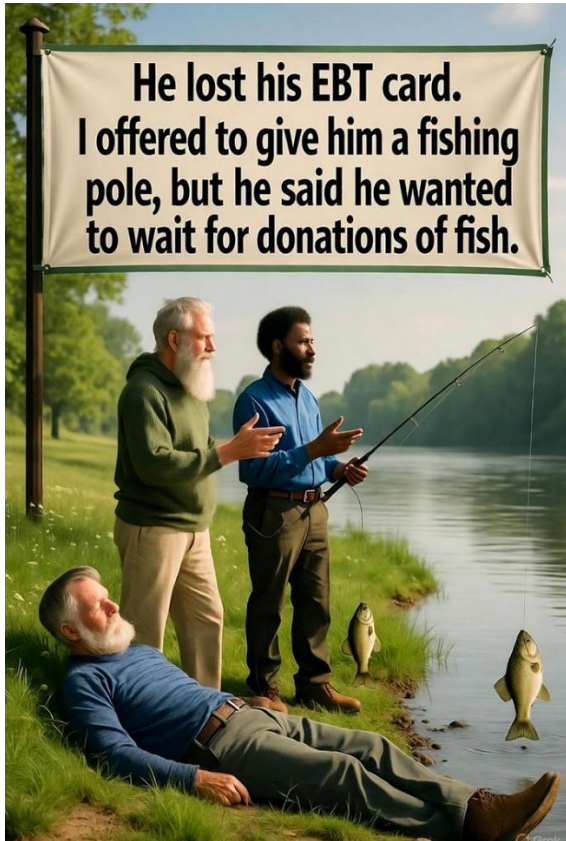

"It has been discovered that the best way to ensure implicit obedience is to commence tyranny in the nursery."
~ Benjamin Disraeli

It Would Be Smart for “Us, the American People” to bear in mind we do not need government help to, say, stop a business from doing business where we prefer s business not do business. No business can afford to keep doors open for long without customers. A community not wishing to have, say, a firearm store open, need do only one thing – don’t buy firearms at such a store. Or, use local laws.

“These rights and freedoms may in no case be exercised contrary to the purposes and principles of the United Nations.”

~ ***UN Universal Declaration of Human Rights, Article 29(3).***

The Magic Black Hat

So the other day I needed to go to the emergency room. Not wanting to sit there for 4 hours, I put on my MAGIC BLACK HAT.

When I got to the ER, I noticed that 3/4 of the people got up and left. I guess they decided they weren't that sick after all. The hat cut at least 3 hours off my waiting time.

Here's the hat.

It also works at the DMV. Saved me 5 hours.

At the laundromat, three minutes after entering, I had my choice of any machine, most of them still running.

Don't try it at McDonald's, though. The whole crew got up and left and I never got my order.

Muslims hate pork, beer, dogs, bikinis, Jesus, and freedom of speech. My question is, why the hell do they come to America?!

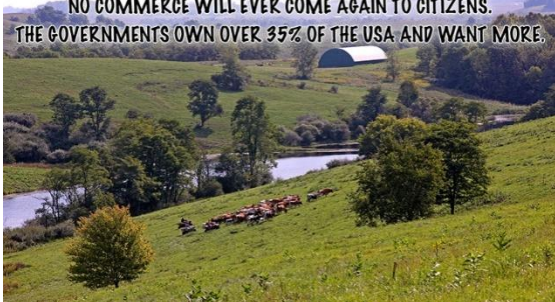

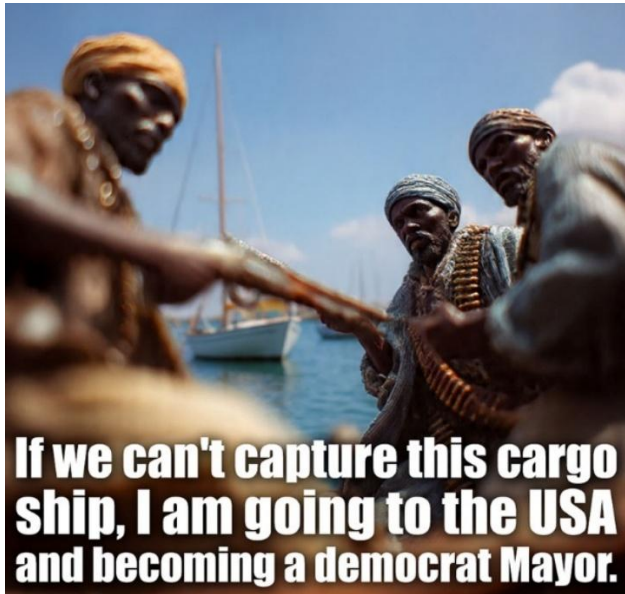

There Is Nothing To Stop a local taxing authority to make taxes prohibitively high on a firearm business where patrons are, mainly, from remote locations. Moreover, there is every likelihood competing firearm stores would open more convenient door fronts. Competition is a powerful force where discriminating shoppers pay attention to their pennies. Open markets weed out noncompetitors.

“The inherent vice of capitalism is the unequal sharing of the blessings. The inherent blessing of socialism is the equal sharing of misery.”

~ **Winston Churchill**

Should Be No Surprise President Donald J. Trump's \$2,000 checks (supposedly due tariff (trade tax) income) won't be under all American Christmas trees. Families with over \$100,000 income will, maybe, get a lump of Trump coal. Media coverage reports 2024 medium family income as \$108,600. Selective, arbitrary, and discriminatory legislation, taxation, and regulation (SADLT&R) at work.

Sen. John Fetterman hospitalized after fall near home in Pennsylvania — News Item

SENTIMENTS from REPUBLICANS:

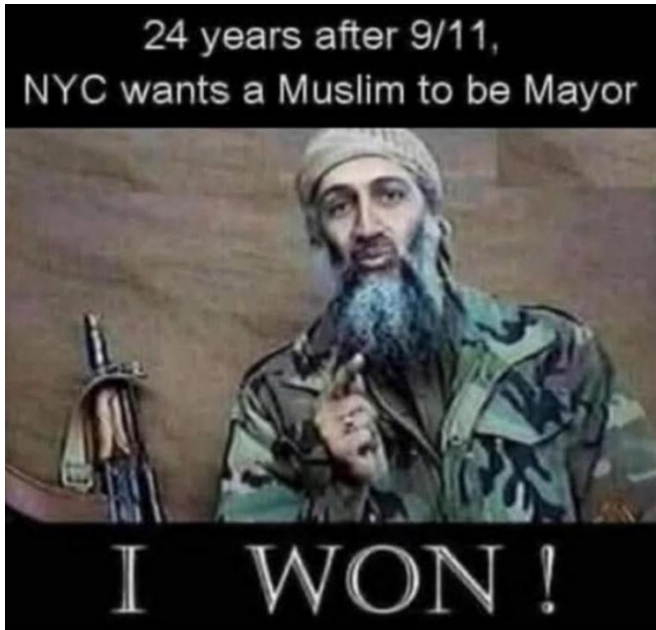

SENTIMENTS from DEMOCRATS:

“We, the American People” would be smart to never take words legislators speak as legislators’ intent. Legislators work to make their personal attitudes, values, and beliefs (PAVB) lawfully compulsory. Their PAVB-driven law is coerced by SADLT&R to fortify ideology reflecting legislators’ PAVB. We, a sovereign citizenry, can, if we choose, force America’s legislators to abolish SADLT&R.

“I believe we are on an irreversible trend toward more freedom and democracy – but that could change.”

~ – *Al Gore*

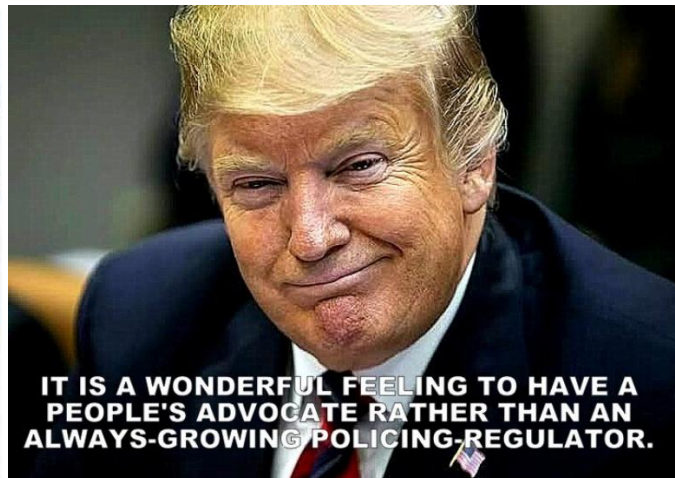

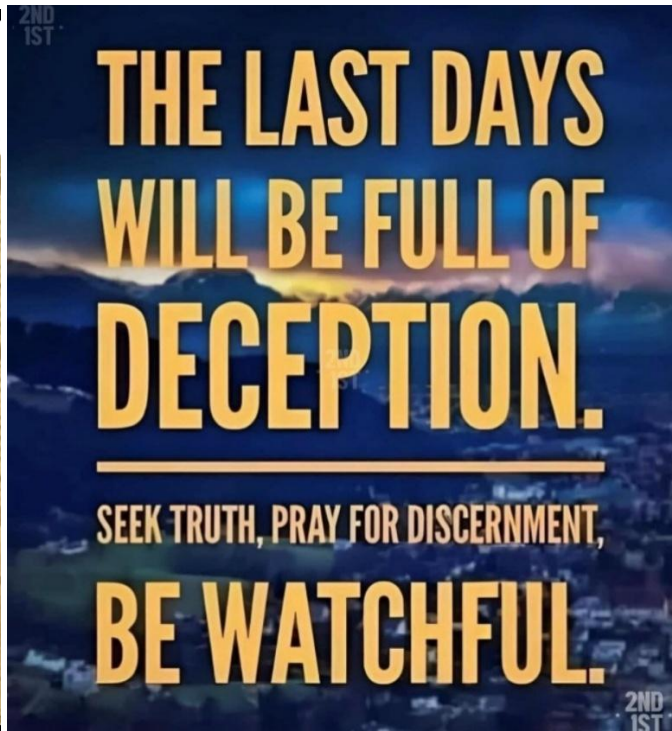

Media Coverage On President Donald J. Trump's \$2,000 tariff (trade tax) dividend would increase "Our, the American People's" national debt. We, a sovereign citizenry, could stop our legislators from incurring unnecessary debt. Particularly so, debt increased through deficit spending. When we, as prospective borrowers, apply for loans, lenders scrutinize our ability to make loan payments.

“If you have ten thousand regulations, you destroy all respect for the law.”

~ Winston Churchill

“It is terrible to contemplate how few politicians are hanged.”

—G.K. Chesterton

It Would Be Smart For “Us, the American People,” as lenders, to deny government power to borrow money using taxpayer property (wealth) as collateral. Ultimately, it is taxpayers who bear burden of paying government debt. There is nothing to stop us from forcing financial management responsibility on our legislators by treating government as a borrower, along with eradicating pernicious SADLT&R.

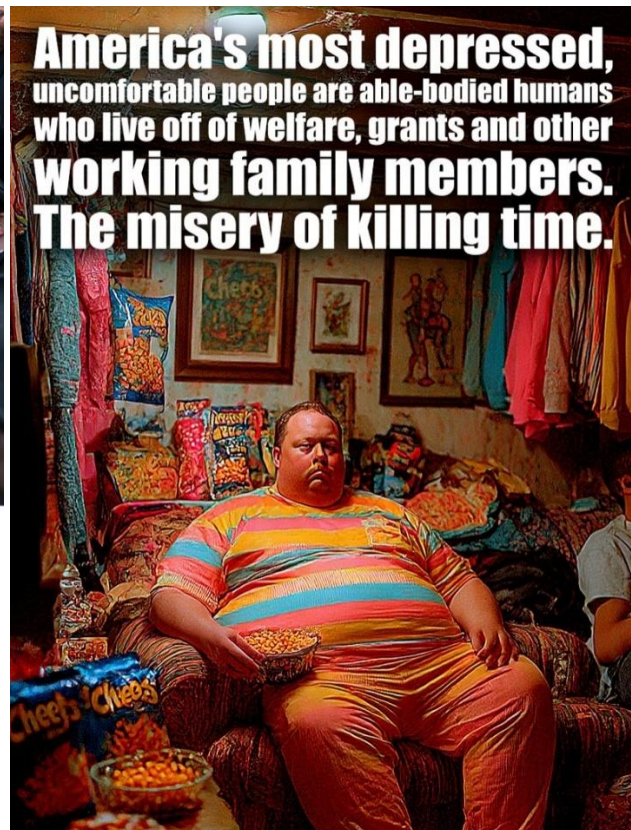

“Tyranny is always better organized than freedom.”

The intention of our First Amendment was for the people to have freedom to criticize the government without consequences, such as arrest or death. The idea of Free Press was to keep honesty and truth in our government. The days of truth and investigative reporting are long gone in America. While there are a few serious independent investigative reporters, there are zero in the so-called mainstream medias in America. CBS, NBC, and ABC are no longer concerned with reporting the truth of today's government shenanigans. They are biased and spend their time with gossip and misleading gotcha questions when dealing with our current administration.

While there is much blame to pass around for the state of our once Free America...now not so free, I came to the conclusion that if America's journalist networks were doing their *due diligence* most of the problems and chaos we are facing today would have never happened! The job of a Free Press is to bring truth to the people of this country and not

propaganda. Regardless of their own personal opinions or political *druthers*, it is the duty of the Free Press to keep **We the People** informed with honest reporting.

Amendment I

“Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances.”

It is obvious that the restrictions here are not at **We the People** but Congress! I want to point out, however, that the Free Press was put there to protect the people, but today our “news networks” have produced political pawns that do nothing to seek truth, but do all they can to cover up the truth. Here is a list of grievances that if America’s Free Press were doing their job, would have never been an issue; or at least not for long.

There are not listed in any particular order:

Jeffery Epstein and his abuses of young women going all the way back to Bill Clinton’s presidency... How many young women would have been spared, if America had truth and honesty in journalism? It’s a big deal now, because they want to connect President Trump, but the abuses of Jeffery Epstein could have been stopped if we’d have had a real Free and honest Press! Recently Kati Couric said she had been to his island and she should have done her research... Well, she doesn’t research! Kati is nothing more than a stooge who participates in biased conversations, not journalism. She was discovered to alter videos to meet the narrative she wanted. Oh, and she made the comment that “conservative women” were jealous of her and others. Does that sound like a real investigative reporter? Maybe if Kati had done “her research” she could have saved many young women from being abused by Jeffery Epstein... but she did not. Her love is for herself and her circle of conceited friends.

Joe Biden’s obvious health and mental decline could have been incontrovertibly exposed to all, if the news networks were honest. They all helped hide and coverup Joes

inabilities even while he was campaigning to be president. Covid made it convenient to hide the man and to make excuses for his small crowds. Without honesty and a true Free Press, the democrats were able to cheat in the 2020 election by changing the election rules in certain states, something our so-called “Free Press” ignored. Social media assisted the non-Free Press to hide and lie about the Hunter Biden Laptop. If we’d have had an honest American Press Corps, Hillary’s paid-for Russian Dossier would have been exposed, Obama’s administration’s coup against an incoming president would have been top headlines! Instead, for years we were told “there’s nothing to see here.” Joe Scarborough said, “This Joe Biden is the brightest and best Joe Biden ever.” Jake Tapper led the media coverup and then when it could be hidden no more, he writes a book about the very coverup he participated in... No Jake, we do not believe you were fooled, we do, however, believe you are a fool! Because America now has a blind and biased press, America had no viable or legitimately elected leader in the White House for four years; the country was being run by an oligarchy of unelected and unapproved people; America did not have a president leading the Executive Branch of our government! That is not Constitutional!

“Hands up don’t Shoot!” If America had honest factual reporting, the Ferguson, Missouri riots would have immediately been quieted, the officer’s life would not have been forever ruined and the lie of **“hands up don’t shoot,”** would have never been the chanting phrase for more rioting across this nation. Obama would have been exposed as a nation divider and not a leader.

Open Borders; America’s lost sovereignty. If America had an honest Press Corps, the truth of the invasion in this nation could have been stopped before twenty million illegals entered our land. If the press had been honest American-loving Patriots then, there wouldn’t be a chaotic mess today with ICE having to seek out and deport millions of criminal aliens. If America would have had an honest Free Press, there would not have been 200-300,000 missing children. You don’t lose hundreds of thousands of children by accident!

Upgrade to paid

January 6 was never an insurrection! A good investigative reporter would have been able to detect the truth of what happened that day, perhaps even prior to it happening. They would have reported about the missing ballots, the found ballots, the illegals voting, the dead voting, the miscounting... If the press were doing an honest job of guarding America, America would be a freer nation today. Where was America's Free Press when election precincts were covering up their windows with cardboard to hide the counting?

If we'd have had an honest Free Press, Joe Biden would have never been elected, he would have already been in prison for treason and bribery, Obama would have been exposed... and we might have actually found a legitimate birth certificate. I'm sure there is one, but all those that were presented to America were each one different.

If America had honest investigative journalists, the riots of 2020 (the summer of love... a hunk-a-hunk of burning love) would have been stopped. The LIE of George Floyd's death and the record of his criminal life would have been exposed, and honest police would not be spending their lives behind bars now.

Upgrade to paid

Just about every problem America faces could have been avoided, or at least honestly exposed, if we had a True and Honest Free Press.

Freedom of the press is a part of our First Amendment to protect America from shady politicians... to hold back tyranny, but today America's news outlets such as ABC, CBS, NBC and their sister networks are a part of the tyranny.

Freedom of speech and Freedom of the press was never about being Free to lie and coverup the tyranny of political parties or of government; it was meant to expose them and keep Americans free.

There is a lot of blame to toss around; Congress spends money we do not have, administrations have made terrible trade deals that sacrificed American jobs and American businesses, insider trading and shady deals have gone on behind closed doors, and more. All these sketchy things have encompassed much of our government. However,

the purpose of a Free Press was to be the watchdog and make sure the citizens were honestly informed, and that our Constitution was being followed.

America's mainstream media Press Corps no longer serves the people.

“Eternal vigilance is the price of Liberty.” Freedom is never truly won, but demands the citizenry pay attention and be involved. The so-called journalists of the mainstream networks in America must be held accountable to **We the People...**

Liberty is always in the hands of the people, and it is up to us to... **Bring America Home. ©**

Media Report To "Us, the American People" President Donald J. Trump has proposed a 50-year term mortgage. President Donald J.'s great (mortgage) idea would, reportedly, make it less financially

burdensome for prospective home buyers. Could be. Lenders can offer term mortgage periods for terms as long as they wish. Inquisitive minds can confirm so with their favorite AI. Money is money.

Longer Term Mortgages Offer Prospective lenders greater stability in terms of income over time. Borrowers might consider how much equity they build up under longer mortgage terms. Housing cost, over time, amounts to coupon value times number of coupons paid up. Equity matters when “We, the American People” have a mind to move up to a bigger, nicer home. Cost of money is cost of money.

"I believe we are on an irreversible trend toward more freedom and democracy – but that could change."

"Our, the American People's" legislators – and other government officials – never miss opportunities to have us think they are out to make our lives better. Mostly, by making it look as though they're

Mortgages Are, Bottom Line, debt. As such, prospective mortgage buyers would be smart to do some serious number-crunching to get an idea of how mortgage obligations will limit one's discretionary income options. Business-wise, fair to say, given business at hand is viable (profitable), customers pay business owner borrowing costs. Customers are not guaranteed, except, maybe, for inelastic demand.
