I was born Muslim, in a Muslim family, under a Muslim government. I will never move to a city where Muslims are the majority again. Once they become the majority, they don't just live their beliefs, they start imposing them on everyone around them.

People don't realize that "expansion" and "dominance" are not fringe ideas in Islam, they're baked into the ideology. Islam is not separable from politics or the state. The Prophet Mohammad's life, the Hadith that Muslims are told to model themselves after, includes around 80 wars.

Westerners are committing suicide by inviting this ideology into their institutions, their politics, and their offices and pretending it's just another private belief system. That is not how this works.

Probate documents in Chicago show that when Michelle Obama's grandmother died in 1984, she left \$2,000 and a gold chain to "My darling grandson Michael."

The family attorney called the files "privileged" and refused to comment.

There's A Media Article Airing on how Great Britain conservatives will have to adjust if they expect to regain political power. Article compares essential competing social ideas, going back as far as Plato and Pericles. "We, the American People" would be smart to recognize political power amounts to legislators making their personal attitudes, values, and beliefs (PAVB) lawfully compulsory. Lawfully.

"You cannot help men permanently by doing for them what they could and should do for themselves."

Thanksgiving and Politics

"Our, the American People's" triumvirate governmental system, in theory, is supposed to make it possible for everyone to be safe, successful, and free from overreaching, unnecessary government. Works in theory, or, in Government 101 college classes. Making it work when we, a sovereign citizenry, are prepared to vest lawful power in legislators' PAVB-driven edicts is not easily affable.

America Is Far From A Homogeneous lot. Virtually every idea of how a society should conduct its affairs is, like as not, held by some of “Us, the American People.” Including principles and precepts held by religious and social orders like Buddhism, Catholicism, Totalitarianism, Socialism, and something some of us choose to call American Exceptionalism. And they all compete for center stage.

“When all government, in little as in great things, shall be drawn to Washington as the Center of all power, it will render powerless the checks provided of one government on another and will become as venal and oppressive as the government from which we separated.”

Kenya, for the state visit by Barack Obama. Born in Kenya.

Great Britain Conservatives Might find their way to power. Hereabouts, there is a good chance conservatives (however they might be defined) may never gain lawful PAVB political power. Not while demands persist for people to surrender their wealth because they are deemed to have too much. As such, fairness, as a political goal, leads to fights over whose oxen are to be gored. BREAKING: Hundreds of bold Christians just marched straight into Muslim-majority Dearborn, Michigan waving crosses and American flags, shouting “JESUS IS LORD” and “NO SHARIA IN AMERICA!” They came in peace... but with a thunderous message: Islam will NEVER conquer the USA! The line in the sand has been drawn. America stays Christian and free! 🇺🇸✝️

National Debt, Though, Has Found a deep thinker who has in mind a solution to dealing with governments beset by ever-increasing National Debt. How other deep thinkers have not hit upon this bright idea remains elusive. Said deep thinker has discerned governments, faced with intractable National Debt growth, have only to find reliable ways to exact private wealth to forestall National Debt.

Moreover, governments and some brainiacs have long sought ways to confiscate people's property (wealth) to use as they deem proper.

The intention of our First Amendment was for the people to have freedom to criticize the government without consequences, such as arrest or death. The idea of Free Press was to keep honesty and truth in our government. The days of truth and investigative reporting are long gone in America. While there are a few serious independent investigative reporters, there are zero in the so-called mainstream medias in America. CBS, NBC, and ABC are no longer concerned with reporting the truth of today's government shenanigans. They are biased and spend their time with gossip and misleading gotcha questions when dealing with our current administration.

While there is much blame to pass around for the state of our once Free America...now not so free, I came to the conclusion that if America's journalist networks were doing their *due diligence* most of the problems and chaos we are facing today would have never happened! The job of a Free Press is to bring truth to the people of this country and not propaganda. Regardless of their own personal opinions or political *druthers*, it is the duty of the Free Press to keep **We the People** informed with honest reporting.

Amendment I

"Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances."

It is obvious that the restrictions here are not at **We the People** but Congress! I want to point out, however, that the Free Press was put there to protect the people, but today our "news networks" have produced political pawns that do nothing to seek truth, but do all they can to cover up the truth. Here is a list of grievances that if America's Free Press were doing their job, would have never been an issue; or at least not for long.

There are not listed in any particular order:

Jeffery Epstein and his abuses of young women going all the way back to Bill Clinton's presidency... How many young women would have been spared, if America had truth and honesty in journalism? It's a big deal now, because they want to connect President Trump,

but the abuses of Jeffery Epstein could have been stopped if we'd have had a real Free and honest Press! Recently Kati Couric said she had been to his island and she should have done her research... Well, she doesn't research! Kati is nothing more than a stooge who participates in biased conversations, not journalism. She was discovered to alter videos to meet the narrative she wanted. Oh, and she made the comment that "conservative women" were jealous of her and others. Does that sound like a real investigative reporter? Maybe if Kati had done "her research" she could have saved many young women from being abused by Jeffery Epstein... but she did not. Her love is for herself and her circle of conceited friends.

Joe Biden's obvious health and mental decline could have been incontrovertibly exposed to all, if the news networks were honest. They all helped hide and coverup Joe's inabilities even while he was campaigning to be president. Covid made it convenient to hide the man and to make excuses for his small crowds. Without honesty and a true Free Press, the democrats were able to cheat in the 2020 election by changing the election rules in certain states, something our so-called "Free Press" ignored. Social media assisted the non-Free Press to hide and lie about the Hunter Biden Laptop. If we'd have had an honest American Press Corps, Hillary's paid-for Russian Dossier would have been exposed, Obama's administration's coup against an incoming president would have been top headlines! Instead, for years we were told "there's nothing to see here." Joe Scarborough said, "This Joe Biden is the brightest and best Joe Biden ever." Jake Tapper led the media coverup and then when it could be hidden no more, he writes a book about the very coverup he participated in... No Jake, we do not believe you were fooled, we do, however, believe you are a fool! Because America now has a blind and biased press, America had no viable or legitimately elected leader in the White House for four years; the country was being run by an oligarchy of unelected and unapproved people; America did not have a president leading the Executive Branch of our government! That is not Constitutional!

"Hands up don't Shoot!" If America had honest factual reporting, the Ferguson, Missouri riots would have immediately been quieted, the officer's life would not have been forever ruined and the lie of **"hands up don't shoot,"** would have never been the chanting phrase

for more rioting across this nation. Obama would have been exposed as a nation divider and not a leader.

Open Borders; America's lost sovereignty. If America had an honest Press Corps, the truth of the invasion in this nation could have been stopped before twenty million illegals entered our land. If the press had been honest American-loving Patriots then, there wouldn't be a chaotic mess today with ICE having to seek out and deport millions of criminal aliens. If America would have had an honest Free Press, there would not have been 200-300,000 missing children. You don't lose hundreds of thousands of children by accident!

Upgrade to paid

January 6 was never an insurrection! A good investigative reporter would have been able to detect the truth of what happened that day, perhaps even prior to it happening. They would have reported about the missing ballots, the found ballots, the illegals voting, the dead voting, the miscounting... If the press were doing an honest job of guarding America, America would be a freer nation today. Where was America's Free Press when election precincts were covering up their windows with cardboard to hide the counting?

If we'd have had an honest Free Press, Joe Biden would have never been elected, he would have already been in prison for treason and bribery, Obama would have been exposed... and we might have actually found a legitimate birth certificate. I'm sure there is one, but all those that were presented to America were each one different.

If America had honest investigative journalists, the riots of 2020 (the summer of love... a hunk-a-hunk of burning love) would have been stopped. The LIE of George Floyd's death and the record of his criminal life would have been exposed, and honest police would not be spending their lives behind bars now.

Upgrade to paid

Just about every problem America faces could have been avoided, or at least honestly exposed, if we had a True and Honest Free Press.

Freedom of the press is a part of our First Amendment to protect America from shady politicians... to hold back tyranny, but today America's news outlets such as ABC, CBS, NBC and their sister networks are a part of the tyranny.

Freedom of speech and Freedom of the press was never about being Free to lie and coverup the tyranny of political parties or of government; it was meant to expose them and keep Americans free.

There is a lot of blame to toss around; Congress spends money we do not have, administrations have made terrible trade deals that sacrificed American jobs and American businesses, insider trading and shady deals have gone on behind closed doors, and more. All these sketchy things have encompassed much of our government. However, the purpose of a Free Press was to be the watchdog and make sure the citizens were honestly informed, and that our Constitution was being followed.

America's mainstream media Press Corps no longer serves the people.

“Eternal vigilance is the price of Liberty.” Freedom is never truly won, but demands the citizenry pay attention and be involved. The so-called journalists of the mainstream networks in America must be held accountable to **We the People...**

Liberty is always in the hands of the people, and it is up to us to... **Bring America Home. ©**
