It's A Bull's Eye Idea for automotive affordability. Affordability for "Us, the American People" in market for new passenger cars. According to media reports. Affordability by rolling back manufacturer penalties for coming up short of Corporate Average Fuel Economy standards (CAFÉ). Odd, how government whiz kids can decide how business will do business, regardless related costs.

There Are, No Doubt, Not A Few of us who are delighted with how government can use force of law to influence economics. Practicality and political ideology have a way of making life burdensome for ordinary people who pay for goods and services, along with regulatory costs government officials find it impossible to do without. Curious, how elections can affect how government policies come and go.

“America’s abundance was not created by public sacrifices to the common good, but by the productive genius of free men who pursued their own personal interests and the making of their own private fortunes.”

A screenshot of a Twitter thread. Donald J. Trump (@realDonaldTrump) says: "WE ARE NOT AMERICANS*". Elon Musk (@elonmusk) replies: "Absolutely". Eric Daugherty (@EricLDaugh) replies: "TRUTH NUKE: "Just so we're CLEAR - if a foreigner comes to your country and demands you accept their culture as your culture, or demands that you change your beliefs for their religious needs? That is NOT an immigrant!" "That's an invader." ...".

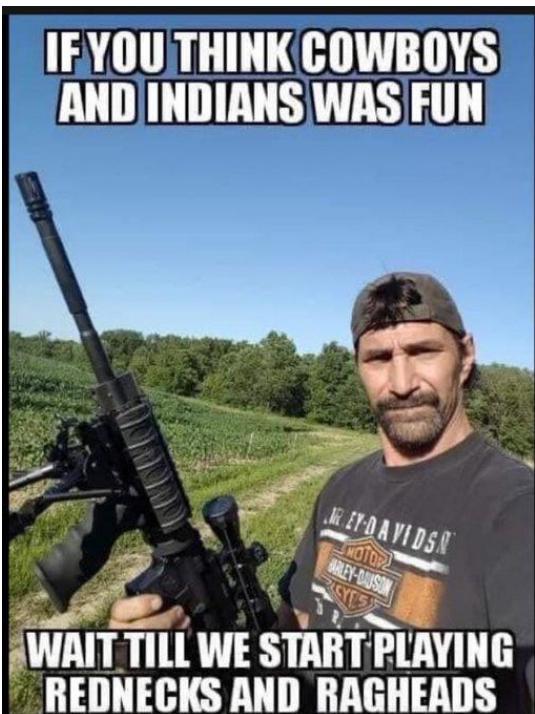

There Is A Tedium Balancing Act between how “We, the American People” meet our needs and wants versus how government officials act as if they must have laws to keep us from going astray. No surprise why policies change from administration to administration. Legislators, chief government executives, and judges act to make their personal attitudes, values, and beliefs (PAVB) lawfully compulsory.

“There’s always someone telling you not to do something. The main thing is just to ignore them.”

No one cares when you bring up Muhammad, Buddha, or Krishna, but the moment you say JESUS people get uncomfortable. Demons get uncomfortable. This should tell you something.

📍 A Somali restaurant in Minneapolis fraudulently collected \$12 million in federal child-meal funds by claiming to feed 4,000-6,000 children daily, while FBI surveillance showed only about 40 people per day.

CAFE Requirements, Along With Sundry other government measures to limit people's ability to choose are rooted in legislator, chief executive, and magistrate PAVB, not universal standards people see as reasonable and useful. There is no evidence people at large are incapable of making sound choices. There is ample evidence governments make choices to control people's choices unnecessarily.

Media Report To “Us, the American People” President Donald J. Trump’s Department Of Government Efficiency (DOGE) and pending cuts have put Social Security at serious risk for on order of 71million Americans. AI references indicate private investment returns can exceed Social Security benefits, but have dissimilar risks. Investments have risks. Government-guaranteed benefits can default.

DEARBORN MUSLIM MAYOR SAYS AMERICA MUST ASSIMILATE TO IMMIGRANT POPULATION

We, the American People would be smart to recognize there is no absolutely airtight plan for one's future financial security. There is no reason, though, why people should be denied a choice between Social Security and using Social Security payroll deductions to build funds for retirement. Social Security funds depend, to some extent, on payroll deduction revenue. Not enough, benefits can drop.

SOMALI WARLORD RECEIVED \$28 MILLION IN MAINECARE FUNDS WHILE BUILDING PARAMILITARY FORCE

Abdullahi Ali was paid over \$28 million from MaineCare, Maine's version of Medicaid—funded jointly by the state and federal government while running for President of Jubaland and funding a paramilitary force in Somalia. Ali used the funds raised in the US to purchase weapons, munitions, and supplies for his fighters.

In Theory, Social Security Benefits are safer than private investments because they are tied to law. Merely making a law doesn't mean whatever a law is supposed to do will be done. Moreover, federal government deficit spending, like it or not, could cause "Our, the American People's" federal government fiscal health to weaken in short order. Poor debt-to-GDP ratio can, has, led to austerity.

Despite Media Coverage Alarm over President Donald J. Trump's DOGE cuts and Social Security risk, coverage notes Social Security has not missed a benefits payment in its 90-odd year existence. While Social Security is helpful, it would not be a bad thing if we worked on reliving people from dependence on public programs for their retirement security. Key is smart on growing financial assets.

Our enemies are here by invitation from the Democrat Party. The blue state democrats and blue city mayors are assisting by hiding them and protecting them. There seems to be a few cases in which they have actually colluded with them and paid them via Covid fraud and Medicaid fraud: stealing from the American people. The theft is no respecter of persons or party affiliation; they thieve from all Americans.

On the eve of America's Thanksgiving, an Afghan national attacked two National Guard troops serving in D.C. He shot them both point blank. One has passed away from the horrific injuries she sustained. The other officer is still fighting for his life. The Afghan was also shot by other National Guardsmen who were close by; he too is in the hospital. **Rahmanullah Lakanwal** resided in Fairfax, Virginia with a wife and children. According to Attorney General Pam

Bondi, Rahmanullah has been charged with the murder of National Guard Soldier Sarah Beckstrom, for which he has pled not guilty.

On Tuesday, November 4, another Afghan national in Texas was arrested and federally charged. Mohammad Dawood Alokozay came in the United States as a part of **“Operations Allies Welcome”** under the Joe Biden administration, and settled in Fort Worth. On November 23 Alokozay was caught in a heated conversation with others, while speaking in his language of Dari. He allegedly threatened to kill those he was speaking with and conduct a suicide attack on infidels. He claimed he came into this country specifically to kill Americans. Thankfully, he was caught and arrested before he was able to carry out his heinous murderous act.

A Pakistani student at the University of **Delaware** has also been arrested. Luqmaan Khan, age 25, was arrested on November 24. He was found with a cache of guns, ammunition, body armor and a manifesto that appeared to reveal his plans to “kill all” and achieve “martyrdom” with a mass shooting on his school’s campus. The police found a notebook with detailed maps and his plan to begin with taking out the school’s campus police. None of the weapons found in Khan’s possession were registered. After his arrest, the FBI raided Luqmaan’s Wilmington home where they found that the arsenal in his truck was just the beginning. Law enforcement acknowledged Khan was from Pakistan, but Pakistani officials claimed he was born in Afghanistan and was a refugee in Pakistan before moving to the US.

I’m sure glad the Auto-pen-Biden Administration vetted these “asylum seekers” thoroughly. (sarcasm)

Khan remains behind bars, but has only been charged with illegal possession of a machine gun, as the FBI continues to investigate. The police stated that this disaster was averted by little more than a stroke of extreme luck. And aren’t we thankful for their observant nature!

This week we found out that a large community of **Somalian immigrants in Minnesota** has been defrauding the Minnesotans and the United States to the tune of billions of dollars. This money was being filtered and funneled to fund terrorists. The governor knew about the ongoing fraud, the mayor knew about it, and Minnesota's attorney general knew about it as well. Kristi Noem reported that over 50% of these Somalians are in the US illegally.

We are told by these Minnesotan officials that Somalians have added a great deal to our nation. It would seem to me that they have stolen a great deal from Americans. Funding terrorism is not the way to be a productive American.

Is it just a coincidence that all three of these were from Afghanistan; the shooter in DC who took the life of one national Guardsman, and the other two would-be attackers?

Virginia, Texas, and Delaware...and probably in your own state, your city, your towns!

Our Enemies Are Here!

Terrorists are here! They hate Americans! They hate Christians, and they hate our Jewish Americans. They believe that Martyrdom is a good and noble thing.

What do you believe America?

Is it racist to reject those who hate America? Are we bigots to not want the haters to live in our communities as they brandish thoughts and actions of murder, rape and torture? These "immigrants" form their own communities and refuse to assimilate into the American way of life. They hate us and call us all infidels; they hate white people. Who are the real racists? Of course, it is the immigrants who enter our nation illegally and then refuse to assimilate.

That leads us to the title of this article: **America, We Have Some Tough Decisions to Make!**

If those entering our nation hate our nation, hate our government, hate our way of life, hate our Christian faith and Judeo faith, then perhaps it is time for them to immigrate somewhere else, or be deported!

Just how SOLD OUT is the Marxist-Democrat-Party? How dedicated OR committed are the Globalists in this nation to their **“New World Order?”**

How far are they willing to go to have power?

The same democrats and republicans who claimed Trump initiated a government insurrection on January 6, 2021, are now openly calling for a coup; thwarting the will of over 80 million Americans who voted President Trump into office.

Senator Warner stated that the “Uniformed Military” may help save us from this President and “Lame” Hegseth.

Six congressional members told the military to “disobey” illegal orders, yet they admitted there have been no illegal orders.

Kathy Hochul is cozy with a Chinese spy; they termed her “Obedient.”

Swalwell was literally in bed with a Chinese spy.

Most of the Democrat Party endorsed Mamdani, the radical Islamic Marxist. Marxism by the way, is completely at odds with our Constitution. So, when a democrat screams that something is unconstitutional, don’t listen to them, they are hyperbolic hypocrites just gaslighting Americans.

American patriots sit in disbelief as other Americans naively believe ICE is kidnaping nice little law-abiding immigrants. The anti-American FAKE NEWS

outlets promote the lies and keep the citizens, who obviously cannot see truth or think for themselves, enraged.

Upgrade to paid

So, with the knowledge of all this I say, **“These are the times (once again) the try men’s souls.”** The examples I have given you are evidence of tyranny against our nation, the United States of America. Tyranny from within and terrorism invited in by those who are greedy for power. Make no mistake about it, the theft of billions of dollars in Minnesota by Somalian immigrants, is economic terrorism.

America, We Have Some Tough Decisions to Make!

So, patriots, we’re going to have to practice some tough love for our nation. We cannot allow terrorists to live among us. We cannot allow immigrants to form their own communes and live by different laws than those of our own Constitution.

Think: Deportations of Somalians, Afghans, and the denaturalization of citizens who hate this nation and participate in the riots. Arrest citizens who choose to attack ICE and our police as well as those who chant about death to Americans.

Perhaps this all sounds harsh, but remember, when we first became an independent America those who remained loyal to the king and those who didn’t want to be “American,” were sent packing. We don’t want citizens here who do not love America and want to be American... 100% American!

We ourselves are a bit soft and spoiled. Americans are generous and kind, but we must buckle our belts a little tighter and grit our teeth. We must not waver when our President suggest these seemingly harsh measures. We must save America for our children, or they will become slaves to the Islamic Muslims.

Upgrade to paid

We must understand **deport-deport-deport-deport** is the only way to make America safe again.

Stand strong with the President when he says there's a need to ban visitors and immigrants from 19 countries (all of which have either partial or full travel restrictions): Afghanistan, Burma, Burundi, Chad, Cuba, Equatorial Guinea, Eritrea, Haiti, Iran, Laos, Libya, Republic of the Congo, Sierra Leone, Somalia, Sudan, Togo, Turkmenistan, Venezuela, and Yemen.

Deportations have been ugly, as the democrats continue to go against our Federal Immigration Laws, laws which they had the power to change, in congress, when they had the majority for many years. Democrats are encouraging rioting and sedition.

American Patriots must get tough; it's the only way we will save this country from becoming another third world mess.

We have some tough decisions to make! BUT again, as Thomas Paine so eloquently put it... ***“THOSE who expect to reap the blessings of freedom, must, like men, undergo the fatigues of supporting it.”***

Retired General Blaine Holt said, “We must stay aware of our surroundings, and our communities.” There are sleeper cells of enemies all across our nation now, courtesy of the democrats and their auto-pen-president.

Eternal Vigilance is the price of Liberty.

“The Constitution is not an instrument for the government to restrain the people, it is an instrument for the people to restrain the government – lest it come to dominate our lives and interests.”

~ **Patrick Henry**

President Donald J. Trump's Tariff (trade tax) policy has been a volatile matter. Tariffs (trade taxes) are something “We, the American People” would be smart to eradicate from government power to have at it’s disposal. Tariffs (trade taxes) are, all said and done, taxes. Taxes are part of government’s selective, arbitrary, and discriminatory legislation, taxation, and regulation (SADLT&R) hegemony.

“The strength of the Constitution, lies in the will of the people to defend it.”

~ **Thomas Edison**

There Is No Way For “Us, the American People” to anticipate how tariffs (trade taxes) will create financial instability. We can anticipate tariffs (trade taxes), like any tax, will be paid for by consumers. We, as consumers (and as a sovereign citizenry) can seal tariff (trade tax) fate. There can be no sustained tariffs (trade taxes) on any import if consumers do not buy imported commodities. Manifest.

“The Constitution is a written instrument. As such, its meaning does not alter. That which it meant when it was adopted, it means now.”

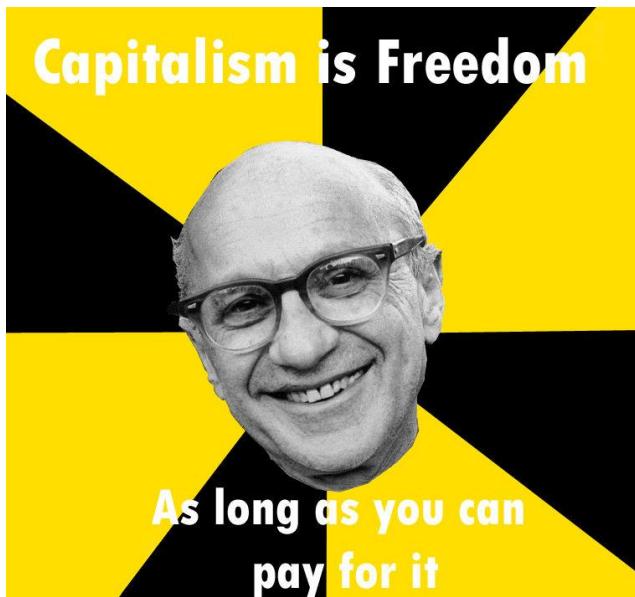

~ **South Carolina v. United States**

Takes No Serious Digging On Tariffs (trade taxes) to find government use tariffs (trade taxes) to influence policies put in place by other governments. And, tariffs (trade taxes) are, part and parcel, an SADLT&R component. AS such, “Our, the American People’s” government, intentionally or inadvertently, controls how we are able to use our property (wealth). We have power to nullify such.

“Nobody but a beggar chooses to depend chiefly upon the benevolence of his fellow citizens.”

~ *Adam Smith*

We Can Nullify tariffs (trade taxes) by using our power as a sovereign citizenry to rein in government behavior (including lawful behavior) we do not sanction. We, as consumers, can boycott tariff (trade tax)-levied sales. There is no reason to think we would not get as good, if not better, deals by unleashing American businesses to negotiate prices we will find to our advantage. Free from official ideology.
