“We, the American People” would be smart to restrict America’s legislative and executive government branches from having unnecessary contact with America’s courts when court deliberations are dealing with specific cases. There is no need for executive or legislative branches to engage in unsolicited contact with government’s judicial bodies. We, a sovereign citizenry, need ensure judicial integrity.

It Is Not Unreasonable for "Us, the American People" to treat legislative and executive branches with suspicion when court cases involve challenges to legislation or executive policy implementation. Neither legislator nor executive is apt to be unconcerned for court cases where outcomes may reflect negatively on legislator or executive. Not An Easy Temptation to disregard. Having billionaires' wealth broken up and given to "Us, the American People" who are living paycheck-to-paycheck. Or having to cut corners on those meager retirement installments bestowed on us. Very tempting to have government confiscate other people's property (wealth) and give such confiscated wealth to us, so life might be easier for us. Very tempting.

We could have a bit more than \$4,100 to help meet our needs if America’s five richest billionaires’ wealth were taken from them and redistributed to us. \$4,100 would help – a lot.

No Question \$4,100 Would Make Life easier and “Our, the American People’s” lives a little less worrisome. Small problem, though. How to take a similar amount from America’s five wealthiest billionaires next time we need \$4,100. We would have to look to government to take \$4,100 from people other than America’s five wealthiest billionaires. We took theirs. They haven’t another \$4,100.

The Chipping Away of America

We Must Return To The Original Fundamentals Of Our Constitutional Republic

BETH ANN

MAR 21

READ IN APP 

3-20-2024

“We pledge our lives, our fortunes and our sacred honors...”

President Barack Hussein Obama campaigned that he would “fundamentally change America.” It is very important that you understand the significance of that statement. Obama and his “wife” hate America. They are rich and famous because of America but they do not want any other Americans to live that American Dream of Life, Liberty and the pursuit of Happiness.

We've watched as this nation became more and more divided; politically, racially, by genders, lifestyles, rural Americans from city and suburban, the changing of language, Christians, Jews, and of course the non-believers, the family institution has been demeaned and now, those in power claim that our children belong to the government. (the community) There are climate change worshippers and those who live by commonsense!

United we stand and if we stay divided, we shall fall!

We've also witnessed the hate for America's history and the removing of such from the public eye and the twisting of the truth in "new" history books.

Our nation in the political arena seems to be completely and utterly corrupt.

The latest evidence of the hate for America is the removing of the words, "**Duty, Honor, Country,**" from the West Point mission statement. Why are these words now deemed unnecessary or unimportant? Read what Allen West has to say about this:

https://theacru.org/2024/03/19/duty-honor-country/?utm_source=substack&utm_medium=email&fbclid=IwAR2B1G4zrs1X_4M17T_-3fBySkSeTRyUDtw0pUF0do6j8MBLOBXwGTgUMY

This is, in my opinion, another way of removing Love of Country, Duty and Honor from our military but also from all of us; the Chipping Away of America.

Unfortunately Americans have tolerated the LEFT's absurdities and in our apathy and complacency, we have allowed them too much power! This is an insurrection of the American Way of Life as well as an insurrection of our Constitutional Republic.

The WOKE, the LEFT, the Democrats and all those Trump haters (including Mike Pence) are trying to rapidly finish the job Obama and other presidents before him started: Fundamentally Changing America, which is a politically motivated and legislated INSURRECTION of America's Constitutional Republic. "The New World Order."

The insurrection by politicians has gone unnoticed for a time, as Americans trusted and fell for their social programs to "help" people. However, as time passed, because there truly is *a significance in the passage of time*, many Americans started waking up and noticing, and so Donald J. Trump landed in politics as a presidential candidate and the "panic" of the LEFT (globalists) began. They panic because when President Donald Trump speaks, it is not just his voice but millions of Americans who are going to put a stop to the insurrection efforts; "the fundamental changing of America."

Upgrade to paid

We witnessed arrests of those who were a part of Trump's administration. We watched not one but two impeachments against President Trump, we lived through a worldwide pandemic, which caused the deaths of millions globally, we witnessed riots and looting (now legal) and destruction of cities, not just assaults but the murdering of police officers, we watched a city taken captive and women raped, we watched politicians defending rioters and bailing them out of jail, we listened to the mainstream media lie and we watched as an election took on a different scenario, as ballots were hither and yonder and the counting seemed to be by the new "common core math." When the day of election certification arrived, there was another riot and a confusing day. While some were breaking into the capitol building, others were being ushered in and then there was a shooting (a murder) of an unarmed female U.S. Veteran. All the while, the LEFT and their media and the never Trump RINOs were raving about a violent insurrection.

Now, on the flipside, we find out that yes, J6 was a provoked and planned riot by anti-Trumpers. Why are hundreds or thousands of innocent Americans still, three years later, remaining as political prisoners? Americans are being accused of "hate-speech" if they are patriotic, seen as threatening if they carry or display the American Flag. This is all a part of erasing and fundamentally changing our Free and Independent, Sovereign United States of America.

Striking the words **Duty, Honor, and Country** from the West Point mission statement is just more chipping away of American pride and history.

To hide our history, to strip us (as a people) of pride in our country, to teach self-first, to encourage government dependence, to remove God, to destroy our economy, to overrun a nation with illegal aliens aka, "newcomers" (many of whom are our enemies), to change the language and distort the meanings of pertinent words (pronouns etc.), to demean and destroy the institution of family, to weaken and sissify our nation's military, and to constantly refer to our nation as a democracy, all these and more are the real evidence of an insurrection, not January 6 2021, but one that has been rising and growing for over a century. However, the American people, "**We the People,**" were too dumbed-down or busy OR simply *misinformed* after years of "public school" education and indoctrination

to realize that our Free and Independent America had been seized; **We the People** are simply and sadly no longer free!

The words Duty, Honor, and Country do not belong solely to military cadets.

My hope comes from studying and reading about our American history. I encourage you to do the same. Procure our founding documents and read books that capture and explain the foundation of this nation. Do it now before the current tyrannical government removes them or bans them from all platforms and libraries.

Upgrade to paid

“The founding generation understood the importance of history. They knew unchecked power often resulted in tyranny. They also knew that tyranny resulted in utter chaos and destruction of a nation. It was through their study of history and recognition of tyranny that they forged ahead and built a republic founded on the bedrock principle of Liberty.

In doing so, not only did they leave us a glimpse of how they planned our nation but also a blueprint of how we ought to consider the future of our nation.” From “The Journal of the American Revolution”

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.--That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed,...

*...**But when a long train of abuses and usurpations**, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security...*

(Excerpt: The Declaration of Independence.)

“Single acts of tyranny may be ascribed to the accidental opinion of a day. **But a series of oppressions**, begun at a distinguished period, and pursued unalterably through every change of ministers (administrations), too plainly proves a **deliberate systematic plan of reducing us to slavery.**” (absolute despotism) Thomas Jefferson

“The preservation of the sacred fire of Liberty, and the destiny of the Republican model of government, are justly considered as deeply, perhaps as finally staked, on the experiment entrusted to the hands of the American people.” George Washington

Duty, Honor, Country

Life, Liberty and the Pursuit of Happiness

GOD – FAMILY – COUNTRY

We must return to the original fundamentals of our Constitutional Republic.

We must return to our roots! We must study and understand our founding documents and glean the wisdom from the writings of our Founding Fathers, and it's important that we, America; seriously heed their warnings!

If our children, grandchildren and great grandchildren are to experience and live the American Dream, which only exists in a free and independent Constitutional Republic, **We the People** must also joined the pledge of our Founding Fathers, and **Pledge our lives, our fortunes and our sacred honors** and ... **Bring America Home©**.

“One of the annoying things about believing in free will and individual responsibility is the difficulty of finding somebody to blame your problems on. And when you do find somebody, it’s remarkable how often his picture turns up on your driver’s license.”

~ ***P.J. O'Rourke***

“We, the American People” will not see an end to selective, arbitrary, and discriminatory legislation, taxation, and regulation (SADLT&R) until we end it. Legislators, government chief executives, and judges have too much job security invested in SADLT&R. Not only do they have comparative job security, they can make their personal attitudes, values, and beliefs (PAVB) lawfully compulsory.

“You cannot help men permanently by doing for them what they could and should do for themselves.”

~ ***Abraham Lincoln***

“Our, the American People’s” representative Constitutional republic government system is supposed to afford individual choice, provided individual choices do not become burdens on other Americans. When government has power to decide how our health care system shall operate, our ability to choose how we shall interact with our doctors is constrained to choices government officials decide to allow.

“The more laws and restrictions there are, the poorer the people become.”

~ ***Lao Tsu***

Media Articles Claiming Patient Protection and Affordable Care Act (PPACA/ACA/ObamaCare), and President Donald J. Trump’s proposed student loan reform excluding advanced nursing education

from loan caps are examples of how SADLT&R and government official-held PAVB take objectivity, neutrality, and ‘fairness’ out of government in favor of autocratic policies diminishing personal choice.

“When all government, in little as in great things, shall be drawn to Washington as the Center of all power, it will render powerless the checks provided of one government on another and will become as venal and oppressive as the government from which we separated.”

~ *Thomas Jefferson*

Liberty (Live And Let Live)-Based Government comes not through open elections seating people to uphold and enforce Constitutional precepts and protections. Ironically, Constitutional interpretation power accorded legislators allows legislators to make laws reflecting their PAVB, precisely because they have interpretative discretion authority. It is up to “Us, the American People” to ingrain Liberty.

“In matters of conscience, the law of the majority has no place.”

~ *Mohandas Gandhi*

People Committed to Living In Liberty do not allow legislators - or other public officials within These United States of America, to enter into defined-benefit contracts with collective bargaining units to confiscate American's property. They exercise citizen sovereignty to protect their property.
