"The shallow consider liberty a release from all law, from every constraint. The wise see in it, on the contrary, the potent Law of Laws."

~ **Walt Whitman**

**"Our, the American Peoples's"** media reporting accurate, President-to-be Donald J. Trump's border policy stands to be stressed with fractures caused by MAGA faction wanting border shutdown compared to MAGA faction backing tightened border control. President-to-be Donald J. Trump, media accurate, has done about like every legislative office seeker ends up doing – taking a stand, pilloried.

"A democratic despotism is like a theocracy: it assumes its own correctness."

~ **Walter Bagehot**

**Immigration/Migration/Refugee Debacle** debate and political jockeying may have no amicable solution. "We, the American People" are at odds with each other over IMR folks having controlled or unfettered access to America and America's fabled 'everything-for-everybody' at no cost fairyland. Exacerbating IMR torment is people thinking people must be taxed or otherwise forced to support IMR.

"The next revolution will be when those who work refuse to support those who don't."

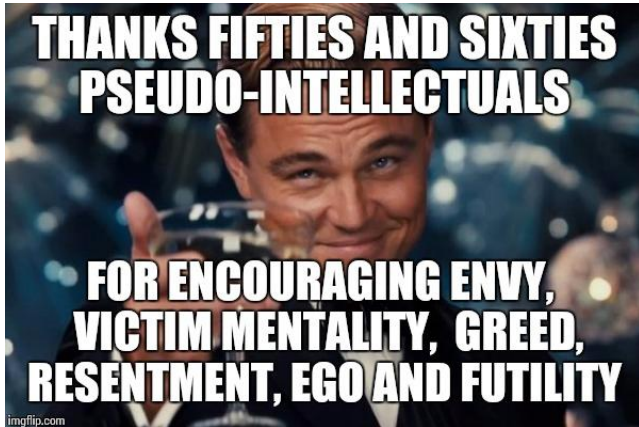

~ **Walter Hickel**

**Might Be Nice If There Were** some way for "Us, the American People" to open America's borders and let anyone in without any sort of screening or refusal. Trouble is, it's too dangerous. Like it or not, there are people who would (who will), who do (if they can) cross America's borders – any country's borders) with ill intent. Innocent people are put at risk when border entries are crossed unsupervised.

"[The public school system:] Usually a twelve year sentence of mind control. Crushing creativity, smashing individualism, encouraging collectivism and compromise, destroying the exercise of intellectual inquiry, twisting it instead into meek subservience to authority."

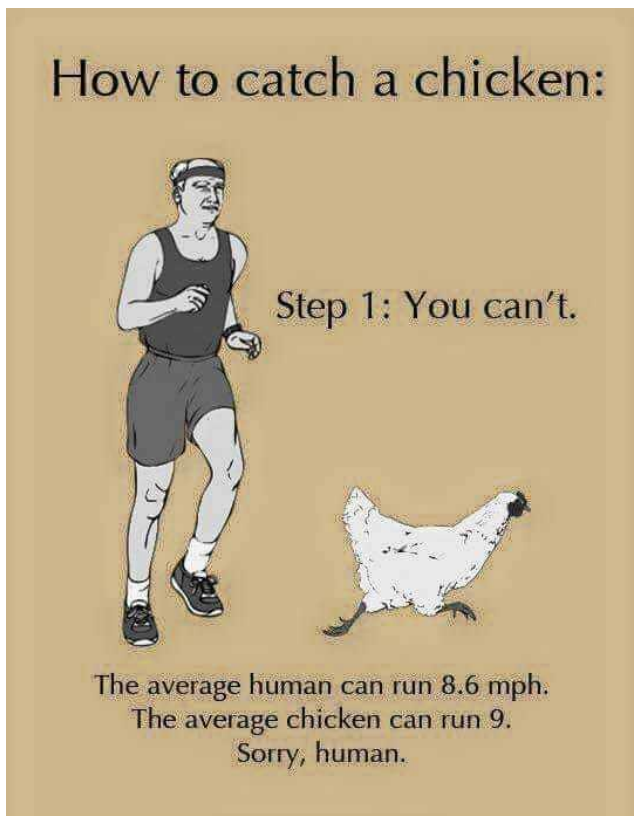

~ *Walter Karp*

*There Are, No Doubt, Some Americans* who would take an unconditional forgiving stance when ill-intended border crossers bring harm to innocent Americans or innocents in other countries. There are other people who won't stand still for it, will take arms against ill-intended border crossers – and, against those who are party to allowing ill-intended crossers cross. No foreseeable letup. None.

"Private property was the original source of freedom. It still is its main bulwark."

~ *Walter Lippmann*

**People Intending To Live In Liberty** do not allow legislators – or other public officials within These United States of America, to enact, impose, or increase taxes without securing a majority vote approval in all jurisdictions affected. They protect against property confiscation.

"This is one of the paradoxes of the democratic movement — that it loves a crowd and fears the individuals who compose it — that the religion of humanity should have no faith in human beings."

"Our, the American People's" media report American's who voted for President-to-be Donald J. Trump will, when Inauguration Day 2025 comes 'round and he begins serving his second term, start seeing Trump campaign promises become promises not kept. Media accurate, Donald J. Trump's upcoming term will end up show how our expectations for MAGA good times will be not come to be.

"Make no laws whatever concerning speech, and speech will be free; so soon as you make a declaration on paper that speech shall be free, you will have a hundred lawyers proving that "freedom does not mean abuse, nor liberty license," and they will define freedom out of existence."

**It Might Occur To Some** of “Us, the American People” we should’ve, long ago, figured out there has never been, never likely to be, an election putting to rest our political discontent. There’re reasons. Laws are incapable of bringing people together when laws are framed to cater to some people, make other people feel betrayed. Because laws are based on personal attitudes, values, and beliefs (PAVB).

"We must remember that the principal instrument of government is coercion and that our government officials are no more moral, omnipotent, nor omniscient than are any of the rest of us."

~ *W.C. Mullendore*

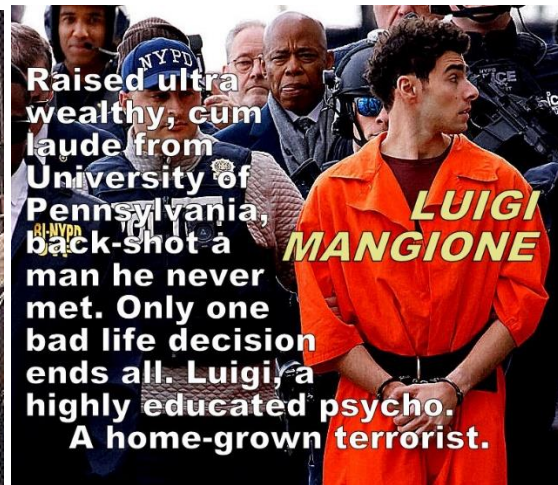

*It Is Not Only Legislators* who create political discontent by making laws based on legislators' PAVB. America's courts are overseen by magistrates who adjudicate based on magistrate PAVB. Because courts have no incontrovertible standards to lean on when adjudicating. There are precedents recording how similar cases were adjudicated. All said and done, PAVB introduce legislative-judicial prejudice.

"One of the most insidious consequences of the present burden of personal income tax is that it strips many middle class families of financial reserves and seems to lend support to campaigns for socialized medicine, socialized housing, socialized food, socialized everything."

~ *W. H. Chamberlin*

**People Intending To Live In Liberty** do not allow legislators – or other public officials within These United States of America, to enter into defined-benefit contracts with collective bargaining units. They preclude government from eroding their assets through property confiscation.

"One of the most insidious consequences of the present burden of personal income tax is that it strips many middle-class families of financial reserves. [It] has made the individual vastly more dependent on the State."

**"We, the American People"** could believe President-to-be Donald J. Trump's Administration-to-be is doomed to fail. Given we interpret reports President-to-be Trump's pick to run newly to-be- agency, Department Of-Government Efficiency (DOGE) co-chair, Elon Musk, is at odds with Donald J. over illegal immigrant/migrant/refugee (IIMR) influx, and Musk-Trump disconnect augurs DOGE demise.

"The pleasure of governing must certainly be exquisite, if we may judge from the vast numbers who are eager to be concerned with it."

~ *Voltaire*

When someone tells a joke and you have to spend the next hour explaining quantum mechanics

**Prospective DOGE Co-Chair, Musk,** has intimated hiring top-notch engineers from other countries would be OK to complement engineering staffs of on-soil U.S. firms. Such hirings would not be inconsistent with having legitimate immigrants take up U.S. residence under lawful immigration policy. Trump IIMR initiative focuses on IIMR, in contrast to closing borders to virtually all traffic.

"A great many laws in a country, like many physicians, is a sign of malady."

~ *Voltaire*

## Never miss a nail again

**“Our, the American People’s”** media reporters, if they’re avoiding interpretation and subjectivity, base news content on facts and figures, rather than conjecture and inuendo. Very easy to misconstrue border control as meaning border closure. Especially so, if one is looking for ways to discredit someone like a Donald J. Trump or an Elon Musk when their political aims fly in face of, say, reporter’s aims.

"In general, the art of government consists in taking as much money as possible from one party of the citizens to give to the other."

~ **Voltaire**

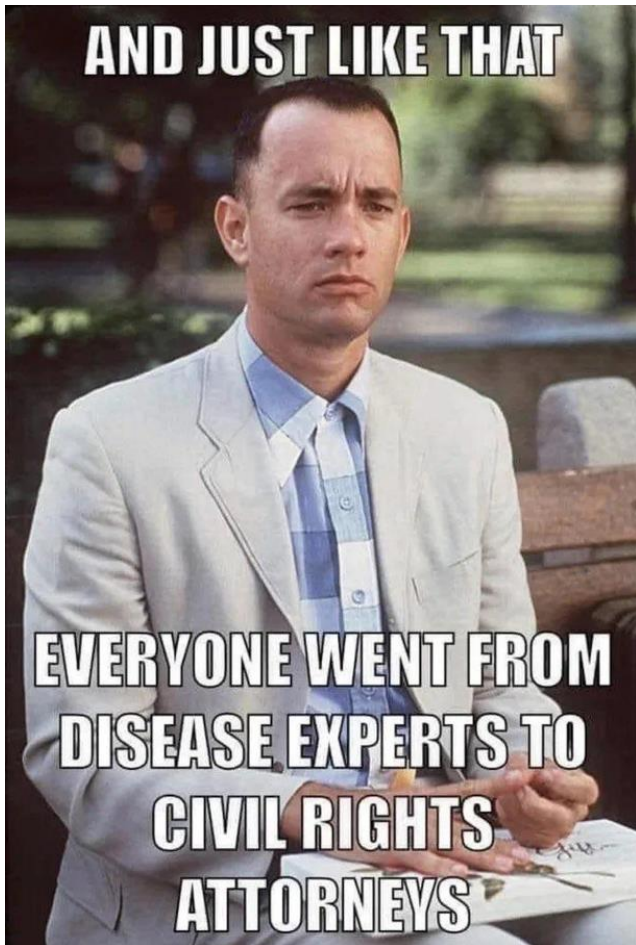

**Whether Elon Musk And Donald** J. Trump are in lock step on IIMR or at differing IIMR spectrum ends, we can be sure Musk/Trump IIMR initiatives will be met with cheers and jeers. Because we are fickle, are we, when it comes to wanting other people to do as we say. So intense is our desire to have others do as we say, we want legislators and judges to force others to do as we say. And others won’t.

"A great many laws in a country, like many physicians, is a sign of malady."

~ **Voltaire**

**People Expecting To Live In Liberty** do not allow legislators – or other public officials within These United States of America, to offer amnesty to illegal aliens. They protect against intrusion on their homes and homeland.

"It is dangerous to be right in matters on which the established authorities are wrong."

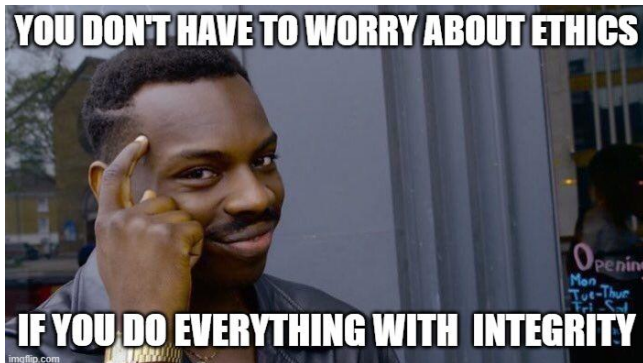

~ **Voltaire**

**"We, the American People"** would be smart to take a hard look at presidential veto power. Doing so, we would be smart to consider presidential veto power from a standpoint of elected legislators' obligation to uphold public will, not use their offices to serve their personal attitudes, values, and beliefs (PAVB). America's media report President Joe Biden used veto power to weaken political opposition.

"The safest course is to do nothing against one's conscience. With this secret, we can enjoy life and have no fear from death."

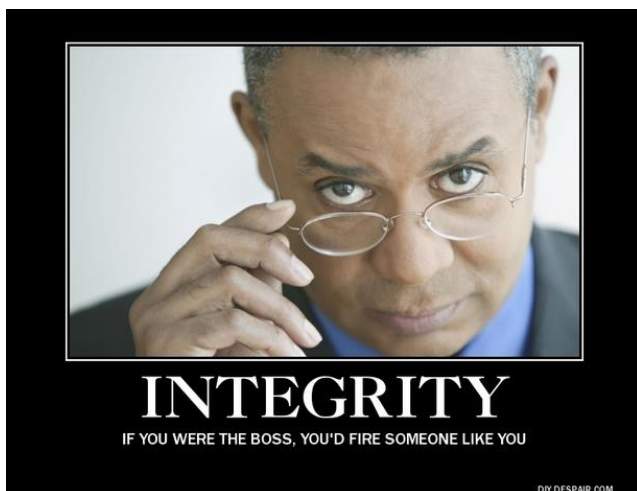

~ *Voltaire*

President Joe Biden's Veto stopped a reported bi-partisan bill aimed at naming federal judges to deal with caseload backlogs. President Joe's veto reasoning, reportedly, was his concern bill in question may not have been backed by appropriate motivation. "Our, the American People's" legislators, not least America's presidents, are not seated to act on their PAVB-driven notions of people's intent.

"It is difficult to free fools from the chains they revere."

~ *Voltaire*

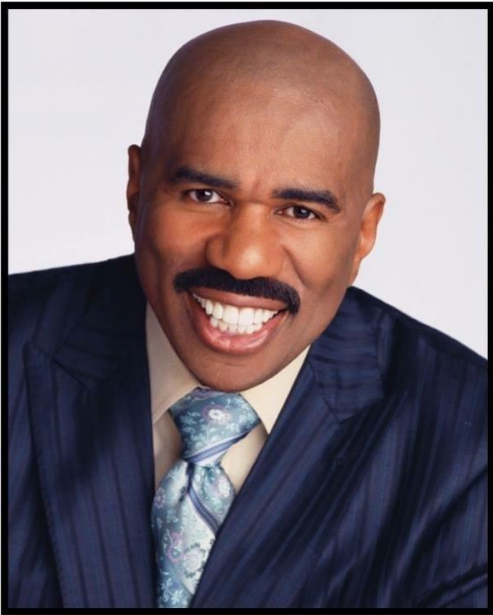

Satisfaction With Our Government will not come easy to "Us, the American People" unless and until we stop expecting our legislators and judges to shower us with risk-free prosperity. It is inevitable for us to be resentful and angry when legislators dream up schemes requiring people who have property (wealth) to give up their property (wealth) so other people may have more property (wealth). Coveting.

"So long as the people do not care to exercise their freedom, those who wish to tyrannize will do so; for tyrants are active and ardent, and will devote themselves in the name of any number of gods, religious and otherwise, to put shackles upon sleeping men."

**Election 2024, No Matter How** some of us might see Election 2024 as some sort of return to American values as American values were meant to be valued, will do no more than any election has done to quiet our political discontent. Our legislators and our judges have not seen fit, do not see fit to have us work things out without their intervention. We'll be stuck with their solutions till we devise our own.
